Illustration of the beautiful new Tea Rose.

SOUVENIR DE PIERRE NOTTING

The color is a beautiful golden orange yellow, bordered with carmine rose. See full description next page.
TO OUR PATRONS AND FRIENDS: We desire to thank you for your kind patronage in the past and earnestly solicit your continued favors in the future. Our catalogues are small and unaspiring, and do not appear so attractive as those with alluring illustrations or highly colored lithographs and elaborate descriptions, so often in overdrawn and false favor. We ask you to give this book a careful reading, comparing our low prices with others.

"HIGHEST QUALITY" Our Aim, and first consideration.

"PRICES THE LOWEST" For Good Seeds and Plants as they can be sold. A DETERMINATION to offer nothing but the VERY BEST and the VERY BEST VARIETIES, and only those we can insure our patrons that are of TESTED MERIT. We can assure our friends and patrons of the correct treatment, prompt and faithful execution of all your valued orders as in the past.

SEEDS THAT GROW. Always reliable. Our stock first class, new and fresh every year and grown by the most reliable growers in the world, and unsurpassed for purity and vitality. Please not our liberal discounts on all seeds in Packets Only—$1.50 for $1.00 cash. Nearly 95% of our packets are packed in something as well filled as any other firm's 5 cent packets. From good seeds only can good crops be grown. Nothing should induce you to risk planting any others.

WE PAY THE POSTAGE On everything in our Catalogue except; where we pay postage. Pecks and larger bags must be paid by express or freight. Why buy questionable, kept-over seeds peddled over the country and sold on commission, when you can have Pure and Reliable Seeds, delivered at your door, by mail, postpaid.

SPECIAL EXPRESS RATE A 20 percent reduction on plants, seeds, bulbs and small fruits is now granted by the express companies on the regular merchandise rate. Express charges are now very moderate, minimum charges being 35 cents on small packages.

READ REMARKS ABOUT ORDERING CAREFULLY. It will greatly assist us in getting your order shipped promptly.

Our Prices Are Strictly Cash—The proper remittance must in all cases accompany the order, and should be inclosed with it to insure prompt dispatch.

Lost Orders—Letters are sometimes lost or delayed or destroyed in transit, so that they fail to reach us, and are never heard from. Please remember that the U. S. mail service is not entirely safe; the some vexatious losses and delays are liable to occur. In some instances mails are burned up or delayed or lost, delayed for days in slow-bound trains or in bad washouts. Therefore business prudence dictates that remittances must be made in the usual manner, and in the case of loss duplicates can be had.

Postoffice Money Orders can now be had at almost all postoffices, and are absolutely safe. If the letter enclosing it is lost, send us the number, date, and amount, the office at which it was payable, and the date it was ordered, and we will fill the order at once and apply for a duplicate of the lost money order, which the government will furnish in the United States. 

New York or Chicago bank drafts drawn by your local banks and made payable to our order are good, and can be had at all banks. If follow-up bank will issue a duplicate.

Express money orders are one of the cheapest and best ways of sending money. Perfectly safe, because if lost, a duplicate can be had by applying to the express company.

Do not send personal checks as it costs 25 cents to collect them by the bank, and we cannot accept them unless the cost of collection is paid, then some delay is caused in making collection also.

Registered Letters—When we can not get money orders, enclose the funds in their envelopes, and have it registered by the postmaster and the money counted by the postmaster.

Cost of Remitting—On all orders of 50 cents and over the cost of remitting by any of these methods may be selected in seeds or plants in record with the character of your order. Do not expect us to send you a single plant for this where your order calls for seeds entirely: it is asking too much of us, for the cost of each plants is 100 times as much as the plants.

If an order is sent in letters it should be packed in strong paper or sewed in cloth so as to prevent it breaking through the envelope, which is universally done by the same.

Postage stamps in small amounts are taken as cash, but they must be sent so they will not stick together, and be paid for on the face of the envelope, and not attached to sheets.

Free by Mail—At the prices named in this book we send every order by mail, postpaid, except where otherwise noted. When we ship by express it is charged and expenses.

F. M. R. C. Y. G. R. E. E. S.

Postage stamps in small amounts are taken as cash, but they must be sent so they will not stick together, and be paid for on the face of the envelope, and not attached to sheets.

Postage stamps in small amounts are taken as cash, but they must be sent so they will not stick together, and be paid for on the face of the envelope, and not attached to sheets.

Remember to always sign your name the same. No matter how often you write us do not forget to give us a description of the flowers, such as the best of them, and incidentally. We always keep orders on file with deficient addresses—some forget to sign their names, others their postoffice or state. Some we can trace, usually we have to wait for complaints.

IT IS IMPORTANT that you keep an exact duplicate of your order. Check it off carefully before you send it, so there can be no question of mistake made.

We guarantee all orders to arrive safely at any point in the United States, whether sent by mail or express, and if it does not arrive in a good growing condition within the time stated, we will replace it. We also guarantee our plants to be free from injury or disease. We have never sent out any plant or other plants that we send out will not be free from neglect or careless treatment, killed by drought, insects, diseases, accidents, storms, frost, or any other cause. We are not responsible for the causes that are out of our hands, or if they are planted, and we should not be asked to be responsible for the cause that are out of our hands, or if they are planted, and we should not be asked to be responsible for the cause that are out of our hands, or if they are planted, and we should not be asked to be responsible for the cause that are out of our hands, or if they are planted, and we should not be asked to be responsible for the cause that are out of our hands, or if they are planted, and we should not be asked to be responsible.

THE C. A. REESER CO., URBANA, OHIO.

The Beautiful New Ever-blooming Tea Rose

SOUVENIR DE PIERRE NOTTING.

The illustration we give on the first cover page is only about one third the natural size of the flower, and possesses the merit of being about as true and faithful a portrait as it is possible to produce. All qualities of grower and expert Rosarians are full of its praise, and pronounce it one of the most beautiful and long stemmed Roses recently disseminated for forcing and cutting. It is a creation between many most desirable types, and has been the subject of much discussion and admiration. It is a cross between Yellow Cheddar and Devil, and has its characters in a distinctive and attractive form. It is a plant of moderate growth, and the flowers are in many cases doubled. The color is a beautiful golden orange yellow, the edges of the petals being bordered with deeply cut rose-colored edges. It is a long blooming rose, price, 20c. each, 3 for 50c.; large two-year-old plants, 50c. each.

FOR NEW CREATIONS in Roses and other Plants of high order and great merit our prices are made wonderfully low in order to encourage all to give them a trial. They will bring pleasure and profit to all who plant them.
How To Get Your Plants FREE

There are those who do not wish to spare the money or do not feel able to purchase flowers, although they dearly love and enjoy them; and there are those who take pleasure in interesting their friends and neighbors in the cultivation of plants, for indeed all communities are better off for a liberal display of flowers. We wish to call the attention of such persons to the fact that while they are working for us, they are at the same time providing themselves with plants at no outlay of money to themselves, but are practically getting them free, and that with our Liberal Inducements in Clubbing Bultbs, Premiums or Discounts, any person may have very Luricative Employment for spare time.

NOTE OUR VERY LIBERAL DISCOUNTS on $2.50, $5.00, $6.00, $8.00 and $10.00 orders. You do not know how easily you can secure an order from among your friends, and thus secure the benefits of these most liberal orders, until you try Individual orders are allowed same discount as club orders.

REMEMBER that the getter-up of the club is entitled to all discounts. We can not allow each member of the club to select discounts, etc., and then allow the getter-up of the club to select another discount. We will, however, add one plant of our own selecting to every order made by the club.

We can not fill plant orders for less than FIFTY CENTS by mail, unless TEN CENTS is added to pay postage, but for seeds we will accept any amount, however small, without additional postage.

PLEASE NOTICE.—Do not include Collections or Special Offers in making up your Discounts, as it applies only to price per single plant or bulb. We can not send your order at one time and the discount or premium at another. Be sure and include the Discounts or Premiums in your order when you send it, otherwise we will add the premium of our own selection.

MAIL CLUBBING RATES

Any person sending us 75 cts. is entitled to select plants, bulbs, and seeds (at price per single plant, bulb and packet) from Catalogue to value of $2.50 extra.

Any person sending us $1.25 is entitled to select plants, bulbs, and seeds (at price per single plant, bulb and packet) from Catalogue to value of $5.00 extra.

Any person sending us $2.50 is entitled to select plants, bulbs, and seeds (at price per single plant, bulb and packet) from Catalogue to value of $7.50 extra.

Any person sending us $3.50 is entitled to select plants, bulbs, and seeds (at price per single plant, bulb and packet) from Catalogue to value of $10.00 extra.

Any person sending us $4.50 is entitled to select plants, bulbs, and seeds (at price per single plant, bulb and packet) from Catalogue to value of $12.50 extra.

Any person sending us $5.00 is entitled to select plants, bulbs, and seeds (at price per single plant, bulb and packet) from Catalogue to value of $15.00 extra.

Any person sending us $6.00 is entitled to select plants, bulbs, and seeds (at price per single plant, bulb and packet) from Catalogue to value of $17.50 extra.

Any person sending us $7.00 is entitled to select plants, bulbs, and seeds (at price per single plant, bulb and packet) from Catalogue to value of $20.00 extra.

Any person sending us $8.00 is entitled to select plants, bulbs, and seeds (at price per single plant, bulb and packet) from Catalogue to value of $22.50 extra.

Any person sending us $9.00 is entitled to select plants, bulbs, and seeds (at price per single plant, bulb and packet) from Catalogue to value of $25.00 extra.

Any person sending us $10.00 is entitled to select plants, bulbs, and seeds (at price per single plant, bulb and packet) from Catalogue to value of $27.50 extra.

Some firms offer to send orders over a certain amount by express, charges paid (no premium being allowed), but the plants as a rule are packed with little or no soil, practically the same as mail. When we send by express, enough soil is left on roots to insure immediate growth, without making charges excessive.

NOTICE TO CLUB RAISERS. We furnish extra order sheets, envelopes and catalogues to all who need them in aiding in the getting up of their clubs. Often you have friends residing at a distance from you who would be glad to join your club did they know of the inducements offered in each club. We will mail all such persons our Catalogue and if you will furnish us with their address. Example,—If you reside in Texas, and have a friend in any other part of the state, or of the United States or Canada, they can join your club and the plants will be sent direct to them. We will be glad to write you explaining any of these offers should they not be plain to you.

PLEASE REMEMBER TO KEEP YOUR SEED AND PLANT ORDERS SEPARATE. It will greatly facilitate the filling and packing of your orders promptly. Use Our Order Sheet. If you need more, write us, and we will gladly mail them to you at once.

OUR SEED WAREHOUSE.

The seeds are as good as the best in the market, and are ready to sell at any such seeds that do not prove satisfactory, through defect in the seed, or in quality or purity. However, we can not be responsible for natural causes, such as the elements, or for neglect. Culture printed on all packets.

WILL OUR PATRONS kindly give their old postoffice, as well as their new one, when changing from one postoffice to another, so that we may keep our lists correct? Always write your name the same, no matter how often you write us, using the same initials.
CULTURE NOTES FOR THE ROSE.

UNPACKING PLANTS—When received they should be unpacked at once, if possible; it is dangerous for the vitality of the plants. Should they have a withered appearance when received, caused by an unusual delay in their transit (which does not often occur), soak them in lukewarm water for an hour or so before planting. This will restore their vitality.

SOIL—Take a very good, rich soil, mellow and fertile, made from old, decomposed sods is best, cleaning out all insect germs and worms.

FERTILIZERS—Fine, well-decomposed stable manure is best for all purposes. If this cannot be obtained, ground bone or other commercial fertilizers may be used, taking care to use sparingly, as most of them are very strong. We find Bowker's Ammoniated Food for Flowers the best.

WATERING—If the ground is dry when planted, water thoroughly, so as to soak the earth down to the roots of the plants. After this very little water is required, unless the weather is dry. Plants will not thrive if kept too wet.

PLANTING—Mellow the ground thoroughly and mix a little well-rotten manure in. Make holes in the soil about twelve inches apart; set plants a little deeper than formerly; arrange roots in their natural positions; do not hesitate to place the roots well below the surface of the soil. Cover with fine earth, pressing it down firmly upon them and in around the stems; then water freely. If the summer is very dry, or very windy, protect them for a few days with a covering of newspaper which will not allow roots to be washed. Water judiciously every day until plants show signs of becoming established as growing.

GENERAL REMARKS—Our Roses are all grown on tutions, and are not forced by any natural or artificial process to their vigorous growth. During protracted droughts, if the leaves become dry, water freely in early morning or evening.

PRUNING—No rule can be regularly applied, plants differing with respect to constitution and habits of growth. Many are neat and compact, requiring little or no attention; others are vigorous and straggling. Pruning should be regulated by the habits of the different varieties. Usually about one-third or one-half of last season's growth is cut out. Trim to give the plant a well-balanced, shapely appearance, cutting out all dead and diseased wood. This should be done in early spring before the buds start. Remove the flowers before the petals begin to droop.

Slug Bote—For green fly, use tobacco, smoke or water, or dust it on in a powdered form. For slugs and worms use Slug Shot.

ROSE CULTURE—Roses should be grown in three or four-inch pots, placed in a warm, light situation near a window, where plants can get as much sun as possible. Temperature ranging from 50 degrees at night to 70 degrees during the day should be maintained as nearly as possible. This is not difficult.

WINTER PROTECTION—Do not cover the plants until Winter has fairly set in. This may be done with leaves, straw, or light manures, placing a few boughs or pieces of box about the stems to keep it from blowing away. When standing alone Roses are protected by covering around the ground and tying the bushes together, and then bend them within three or four inches of the ground, tying bushes together securely to the stake for winter. Remove as soon as the buds start in the Spring.

Hammond's Slug Shot Destroys Insects of all Kinds...

Hammond's Slug Shot is a cheap powder, destructive to insects that are injurious to house, and garden plants, shrubs, trees, potatoes, melons, cabbage, currants, etc. Used in all latitudes and seasons, is safe to man, beast, and fowl. Put up in perforated screw-top canisters, and handy to use, merely dusting on the plant with the can. If you are troubled with insects on your rose bushes, we recommend you to try this. It does its work quickly and thoroughly. Price 35 cents per canister; sent by mail, postpaid, on receipt of price.

Hammond's Slug Shot

TWELVE LARGE-SIZE TWO-YEAR-OLD ROSES FOR IMMEDIATE USE.

$3.00 Worth of Large-size Roses for only $1.25 by Mail (postage paid), or by Express for $1.00. Our Selection of Varieties only.

In no case can we allow purchasers their selection. We guarantee all the varieties to be of the "HIGHEST QUALITY" and all labeled.

A splendid inducement to have you try our large two-year-old Roses. They are strong, stocky, robust plants, ready for immediate effect. The increasing demand for large-sized Roses for immediate effect has induced us to grow a larger number of this size than ever before, and as we grow no inferior varieties of Roses we know they will give satisfaction.

OUR SPECIAL OFFER: We will send you 12 fine, large, two-year-old Roses, of our selection only, for outdoor planting or for house culture, by mail, postage paid by us, for $1.25; or we will send them by express, you paying the express, for $1.00, and packed for weight weight. When ordering by express we leave a portion of the soil on the roots, enabling them to take hold and grow sooner than when sent by mail, with no soil left on.
The Queen Set of Lovely Pure White Roses.

To all who wish the best pure white Roses we can recommend these eight varieties as being desirable in every respect. They are hardy, vigorous growers, are abundant bloomers, deliciously fragrant and of the purest color. TRY THEM.

SPECIAL OFFER.

Eight pure-white Monthly Roses on this page for 50 cents; or the 8 Roses in large two-year-old plants for $1.50. No other discounts or premiums allowed on special offers.

NEW PURE WHITE ROYAL TEA ROSE.

QUEEN OR KAISERIN AUGUSTA.

THE QUEEN.

This Royal Rose has never been surpassed in the world. It is beautiful, and while it may have white Roses that have certain qualities, it possesses all that it is desired for. The stem is covered with buds, and the flowers are of the purest white. This Rose is in character, in color, and in every way a success. The buds are very large and very fragrant, and the flowers are of the purest white. We have been very pleased with this variety, and we believe that it will be a great success in the hands of those who are interested in growing Roses.

MARIEN GUILLOT--A Snow White Rose.

We consider this variety the most beautiful of all the white Roses. It is very fragrant, and the flowers are of the purest white. The buds are very large, and the flowers are of the purest white. We have been very pleased with this variety, and we believe that it will be a great success in the hands of those who are interested in growing Roses.

SPECIAL OFFER.

Our offer of the 8-rose set for 50 cents is limited to the first 10 sets, and the offer for the 8-rose set in large two-year-old plants for $1.50 is limited to the first 10 sets. No other discounts or premiums are allowed on special offers.

Queen Augusta Victoria.

New Pure White Tea Rose, WHITE BOUGERE.

A lovely new Tea Rose. A sport from that famous old variety, Bougere. For open ground planting it has no superior. The flowers are unusually large, deep, full and double; and are borne throughout the season in great abundance. The color is pure ivory white. Very beautiful, and a particularly good Rose for general planting. Price, 15 cents each; large two-year-old plants, 40 cents each.

The Beautiful New Tea Rose, WHITE MAMAN COCHET.

The finest Rose of the year. Like its parent, the growth is vigorous with rich, healthy foliage, producing large, full flowers of the purest white—in fact, it is an exact counterpart of the beautiful Maman Cochet, and all who have tried it pronounce it the finest bedding Tea Rose in existence. We would advise all who love choice Roses to plant at least one of this beautiful new Rose. Price, 15 cents each; large two-year-old plants, 40 cents each.

CORNELIA COOK.

The buds are most beautiful, of immense size, and are borne up high on massive stems, and, with the round, full, heavy form, carry at the same time the grace and dignity with which the white Roses are so well known. The flowers are the clearest and brightest white, and are arranged in the most faultless and symmetrical manner. Cornelina Cook has the largest bud of any of the white Roses. It is a mass of flowers, and is one of the most beautiful of all the white Roses. Price, 10 cents each; large two-year-old plants, 25 cents each.

The Most Fashionable Cut-Flower Roses Grown.

The Mermet Roses have no equal. They are peerless in every respect. Vigorous growers, free bloomers, while the flowers are as handsome as Roses can be. They rank in popular favor with the La France type. Amateurs will succeed with Mermet Roses without fail with others. They are identical in every respect with Catherine Mermet, except in the colors of their flowers.

BRIDESMAID—Deep Pink Mermet.

Here we have a new Rose, a sport from that old standby, Catherine Mermet. This new variety retains all the good qualities of the parent, besides adding charms not possessed by the sweet Catherine. All know that Catherine Mermet takes precedence as a pink Rose. More plants of it are cultivated by the amateur and more cut bloom is sold by the grower of than any other pink Rose. Why? Because the bud is of exquisite shape and contour, a solid and firm, and the stems are so long and stiff that boxed petals pass with it in keeping qualities after being cut. It is about the same shade, deeper in color—just enough to make it bright—and it is the most beautiful, most perfect in beauty, of all the pink roses. We have procured a good stock of these beautiful and valuable Rose at great expense and offer it with confidence to all Rose lovers knowing that our patrons will be pleased with it. Price, 10c. each; 3 for 25c.; large two-year-olds, 30c.

THE BRIDE—Or White Mermet.

The best pure white Tea Rose. The bloom is nobler than Niphetos, for that is impossible, but it is a stronger grower and thrives where a Niphetos will not do so well. Save in color it is identical with Catherine Mermet, from which it is a sport. The buds, which are a good size, are carried high and erect on bright, smooth stems. A fine bunch of these buds with long sprays of foliage, would grace any bride in her wedding robes, surpassing for purity of whiteness, form, and size. It "pinks" in the bright hot weather of midsummer, with surprising stamina. Price, 10 cents each; 3 for 25 cents; large two-year-olds, 25 cents each.

CATHERINE MERMET—Light Pink.

This is one of the finest Roses grown. Its buds are inimitable, faultless in form and charming in their ever-changing color. Much of this color is due to the finest silvery rose to the exquisite combination of yellow and rose, which illumines the base of the petal. Beyond doubt the Rose of all Roses. Highly recommended in growing Roses and receives recognition from all Rose lovers. It is eagerly sought after by those who desire a truly fine Tea Rose. The color is a delicate, rosy pink, unapproached by any other. The buds are large, long, and pointed, and of great substance and most delicious fragrance. For over twenty years it has reigned supreme in its class and color. You should not fail to have Catherine Mermet in your collection. Price, 10 cents each; 3 for 25 cents; large two-year-olds, 25 cents each.

MADAME ETIENNE—Dwarf Mermet.

One of the very finest clear pink Tea Roses. The form of the flowers is quite similar to that of Beatrice, but this Rose has more refinement, giving it the shape of a Camelia. The texture is heavy and the color is a warm, yet delicate pink, slightly deeper on the edge of the petals. It blooms earlier and is more beautiful than Catherine Mermet. The Rose is superior to that described by the French growers. Price, 10c.; 3 for 25c.; large two-year-old plants, 25c.

MURIEL GRAHAM—New Tea Rose, the Cream Colored Mermet.

This superb Rose is from that favorite variety, Catherine Mermet, and is perfectly distinct in color from anything extant, which is a pale cream, fawnish blended rose. The habit of growth is similar to its parent. Sent out by Alexander Dickson & Sons, Belfast, Ireland, who consider it one of their best introductions. We are giving our best recommendations. Price, 15c.; 2 for 25c.; large two-year-old plants, 35c.

SPECIAL OFFER:—The Set of 7 Mermet Roses for only 50 cents. The Set of 7 in Large Two-year-old Plants for only $1.50. No Further Discount or Premium.
THE BEAUTIFUL
La France Family.

The La France Family of Roses is certainly nearest perfection of all flowers, and nothing can compare with it in the eyes of the true Rose lover. A distinctive characteristic of the set is the true La France fragrance by which every one may be known.

Set of Six Hardy, Ever-blooming La France Roses: Red, White, Pink, Striped, Crimson, Yellow.

White La France Here we have a beauty in (Augustine Cuisinard) deed, one we can recommend to all, whether for culture or for pots in the house in Winter. If you were to ask us to select six of the very finest Roses for you, we should be sure to include it in the six. It is identical with La France, excepting color. Pearly white, sometimes tinted fawn. We predict for it more popularity than La France ever attained. Price, 10c. each; 3 for 25c.; large two-year-old plants, 25c., 5 for $1.00.

Pink La France Undoubtedly the most perfect type of a cut-flower Rose. Its large, well-opened flowers, with long stems and elegant foliage, shown in finest cut-flower stores of the largest cities, are considered by cut-flower buyers the most beautiful of this class. No variety surpasses it in delicate colorings, silvery rose, shaded pink; large; keeps well; a delicious pervading fragrance, which, more than anything else, marks this Rose and the other five which we offer with it. Price, 10c. each, 3 for 25c.; large two-year-old plants, 25c., 5 for $1.00.

Striped La France Imagine a lovely Rose with the shape and fragrance of a La France, of a rich, creamy pink, with a silvery gloss, growing deeper at base of petals, the whole beautifully etched and streaked with delicate carmine. This Rose is a sort of La France, but if anything stronger in growth, with the same elegantly-shaped bud and same beautiful full-blown flower. We find it the most attractive and showy Tea Rose of recent introduction. A very free bloomer, every shoot producing a bud. Price, 10 cents each, 5 for 25 cents; large two-year-old plants, 25 cents each, 5 for $1.00.

Red La France (Duchess of Albany) Every one who loves a Rose is familiar with La France, the Queen of all Roses, for not only is it a constant bloomer, but is perfectly hardy and deliciously sweet. The new Rose, Duchess of Albany, is a sport from La France and retains all the characteristics of the type, with the blooms three or four shades darker, of a deep rose-pink hue. The flowers are produced in wonderful profusion upon long stems, are very large, double, and superb form. Price, 10 cents each, 5 for 25 cents; large two-year-old plants, 25 cents each, 5 for $1.00.

La France de 1889 A new Crimson Hybrid Tea Rose, the most remarkable Hybrid Tea of late years. One notable peculiarity of this variety is its long, elegant buds, while the expanded flowers are of immense size. Color very nearly scarlet, sometimes lined and bordered purplish. The brightest and most brilliant Rose we know. Price, 15c.; large two-year-old plants, 30c.

Yellow La France A charming Rose and a new shade in this section, being the first with a distinct yellow coloring. The outside petals are sulphur-yellow, and assume a deeper shade toward the center, with a polished, glittering surface like a water-lily. The open flower is semi-double, very graceful, and holds well together. The habit of the plant is free and graceful, the fragrance of the flowers is delightful. This is in every way a charming Rose, and should be in every collection. Price, 15c., 2 for 25c.; large two-year-old plants, 35c., 4 for $1.00.

NOTE.—We have abandoned the growing of Climbing La France on account of its strong tendency to revert to its original form, losing its climbing habit entirely.

Special Offer. For only 50 cents we will send the above set of six Hardy Ever-blooming La France Roses, or three sets for $1.25; or the set in large two-year-old plants for $1.25. No further discount or premium allowed on this offer.
8 Golden Yellow Beauties
The Best of all Deep Yellow Roses.

Medea
(New Golden-Yellow Tea Rose.)
This is the grandest of all Yellow Roses, and should be planted by everybody. When we first saw this Rose two years ago, we predicted that it would create a furor among Rose growers, and it has verified the prediction. Its flowers are of the largest size, perfectly double to the center, and of the most perfect shape, both in bud and blossom, while its color is a degree of loveliness unapproached by any other Rose, being a rich, deep golden, with decided sulphur tints. The brightness and richness of this Rose is the admiration of all beholders. We have grown in our establishment some fifty varieties of Yellow Roses, and think Medea the best. Try it
Price, 10c. each; large two-year-old plants, 25c.

Perle des Jardins
(Pearl of the Gardens.)
The one Tea Rose you positively can not do without. The majority of cut-flower buyers who order a "dozen Marechal Niel buds" the year round do not know their orders are filled with Perles, and quite to their satisfaction, for Perle does not suffer by comparison with Niel. Has no weak point; a perfect and popular Rose. Color is faultless, whether the waxy petals show the rich cream tint of cool weather or take richer golden shades of a warmer sun. Form of bud rich, rounded, and luxuriant; only equaled in beauty by the open Rose, which is large, full to center. No shy, creping plant, but fairly robust in growth; sends out beautiful foliage, thick, glossy, dark, every branch tipped with dark reddish maroon of the young shoots bearing clusters of buds high above the leaves.
Price, 10 cents each; large two-year-old plants, 35 cents each.

Etoile de Lyon
(The Star of Lyon.)
This magnificent Tea Rose is a rich golden-yellow, a strong, healthy, and vigorous grower; immense bloomer, bearing flowers and buds early and late. The flowers are very deep, rich, and full, excellent substance, very sweet. Surely one of the best and most beautiful yellow Tea Roses for general planting ever introduced. Remarkably hardy. Can not taste heat and cold, frequently standing the Winter severe, uninjured, and blooms on open ground without protection, and blooms nicely all through the hottest of the Summer. Price, 10c.; large two-year-old plants, 25 cents each.

Countess de Frigneuse
(The Golden Perle.)
In color charming, in freedom second to none. The buds are long and pointed, not unlike Niphato in form, and of good size. The color is deep golden-yellow, with softer shade inside of petal. As a Yellow Rose it ranks next to Marechal Niel. Price, 10 cents each; large two-year-old plants, 30 cents each.

Md. Margotten
The amateur who is content with Roses which are in abundant flower will not appreciate this beautiful Rose, but the true rosiarian finds in it a treasure. The flowers are a little slow to open, but are of great size, extremely double, and have high, bold centers. The color is a rich citron-yellow, with dark coppery red in the heart of the flower. Very fragrant and very hardy. One of the finest of our Tea Roses. Price, 10c. each; large two-year-old plants, 25c. each.

Isabella Sprunt
A bright canary-yellow; large, beautiful buds, suitable for cut flowers; very sweet tea scent; profuse bloomer. Finest and best Yellow Rose ever raised for the past twenty years. None better.
Price, 10c.; large two-year-old plants, 25c.

SPECIAL OFFER.
The eight beautiful golden-yellow Roses on this page for 50 cents; large two-year-old size, the eight for $1.25. No further discount or premium on this offer.
Eight Beautiful Ever-Blooming Red Roses.

We Do Not Know of Better Red Roses Than This Set of Eight Beautiful Varieties.

New Crimson Rose—PRINCESS SAGAN.
The flowers of this variety are the richest crimson of any Rose in our collection, a single bud or blossom will catch the eye at a great distance, so brilliant is the color. Indeed it is unmatched in its velvety richness; could well be termed "The Velvet Rose." It is as free in blooming as Bon Silene. One of our customers in California, writes that she is kept busy by people asking what rose this is. Price, 10c., 3 for 25 cts.; large two-year-old plants, 25 cts. each, for $1.00.

New Velvety Red Rose—FRANCOIS DUBREUIL.
New red Tea Rose of unusual merit; fine, large double flowers; equal in color to the best deep-colored Hybrid Perpetuals. Flowers large, very full and double, with thick, regularly arranged petals. Color deep crimson, with velvety shadings, rich and fine; buds of large size, and of beautiful shape for cutting. A grand beeder, of a strong, free growth, and a profuse bloomer. Price, 15 cts., 2 for 25 cts.; large two-year-old plants, 35 cts. each.

New Hybrid Tea Rose—AUGUSTINE HALEM.
In this rose we have a beauty indeed, as it fairly rivals the well known American Beauty in size and color of its flowers. It has well developed buds, having good, thick, waxy like petals of excellent substance. Color, clear, bright, rosy red, verging to deep rich crimson. With these changes it adds the delightful fragrance of the old June Roses. It is very free flowering. Price, 10 cts. each; large two-year-old plants, 35 cts. each.

PAPA GONTIER.
Grand Red Tea, fine crimson shade, silkly texture (distinct from velvety texture); bud of fine size, graceful form: extremely free growth and bloom. Long, beautifully leaved stems can be cut, foliage being very dark and heavy. One of the best and a perfect bedder. Price, 10 cts. each; large two-year-old plants, 35 cts. each.

New Crimson Tea Rose—NAELI DINGEE.
Strong, vigorous grower, handsome, graceful bush; large thick deep green leaves. Flowers large, beautiful cupped shaped, moderately full, borne in wonderful profusion all through the growing season. We scarcely know of any other rose that will produce so many perfect flowers in a given time; whether in open ground or under glass; is a most constant and profuse bloomer. Flowers are borne nearly upright on long stems, of excellent substance, having thick, leathery petals, holding form and color a long time. Color is perhaps its most remarkable feature—deep, brilliant crimson, one of the darkest and richest colored Tea Roses in existence. Price, 10 cts. each; large two-year-old plants, 25 cts. each; 5 for $1.00.

FRANCOIS GAULAIN.
A continuous blooming Tea Rose, with an unusual and remarkable color for this type. Bright, rich, velvety, dark crimson; very fragrant and handsome. Don't fail to try this rose. Price, 10 cts. each; large two-year-old plants, 25 cts. each.

New Crimson Tea Rose—CHRISTINE DE ROUE.
This beautiful new red Tea is a very charming rose, exceptionally fine color; a splendid grower, making large sized graceful bush, with bright, deep green foliage; a constant and very free bloomer; flowers are well borne upon strong stems and are usually large and handsome; buds are long and finely pointed; color, pure rich scarlet; quite rich and deep, surpassing all others. Price, 10 cts. each; large two-year-old plants, 30 cts. each.

New Hybrid Tea Rose—METEOR.
A velvety red everbloomer of the deepest glowing crimson as fine as a Hybrid. Flowers of medium size, very double and slightly recurving. Beautiful open rose, free bloomer and a very excellent pot rose. It has no tinge of violet or purple to mar its beauty. A vigorous, bushy grower with healthy, bright foliage of the deepest green. The best red rose for the garden ever introduced. The flower equals General Jacqueminot and will produce fifty flowers to Jacqueminot's one. This is unquestionably the best dark velvety red rose yet produced. Grand, both in bud and flower. Price, 10 cts. each; 3 for 25 cts.; large two-year-old plants, 30 cts. each; 4 for $1.00.

SPECIAL OFFER—We will send you the set of 8 Red Roses for 50 cents, postpaid. In large two-year-old size for $1.25. No further discount or premium allowed.
GOLDEN GATE SET OF EIGHT BEAUTIFUL HIGH-COLORED TULIP ROSES.

These are called Tulip Roses because of the feathery shading of bright rose around the edge of every petal. Distinct from all other Roses in the peculiar manner of this marking. . . . . . .

New Ever-Blooming Rose of American Origin, GOLDEN GATE.

Probably the largest Tea Rose known, and we would gladly add the name of it, if it were possible. The engraving gives you some idea of its great beauty. There are so many beautiful Roses, and they all are beautiful in so many different ways, that it scarcely seems possible for any one variety to be the most beautiful, and yet, if the question was to be decided, we are strongly of the belief that the palm would have to be awarded to the new Tea Rose, Golden Gate. This magnificent Rose is the result of a cross between those old and greatly admired varieties, Safrano and Cornelia Cook, and while combining the good qualities of both, it is vastly more beautiful than either and of greater substance; buds long, of most desirable form; color, rich, creamy-white, beautifully shaded with fine golden-yellow; petals large and broad, exquisitely bordered and tinted with clear rosy flesh; very beautiful and sweet; petals large and of good substance; constant and profuse bloomer, vigorous and healthy grower—in short, a magnificent Rose in every way. We have had many letters from our friends in the South praising the great beauty of this Rose; quite distinct from any other Rose we grow. Price, 15c.; 2 for 25c.; large two-year-old plants, 35c.

MADAME ELIE LAMBERT.

An Extra Large Rose. The flowers are extra large, fine globular form, very full and well built up. Each description says it is the absolute perfection of form. Color a rich creamy white, faintly glazed yellow, and exquisitely bordered and tinted with soft rosy flesh; very beautiful and sweet; petals large and of good substance; constant and profuse bloomer, vigorous and healthy grower—in short, a magnificent Rose in every way. We have had many letters from our friends in the South praising the great beauty of this Rose; quite distinct from any other Rose we grow. Price, 15c.; large two-year-old plants, 35c.

New Tea Rose—MARQUIS DE VIVIENS.

Here we have a beauty indeed. The flowers have a great depth and substance and are of the globular form, with broad thick petals and large, finely shaped buds. The color is a bright carmine at the edge of the petals, soon graduating into light rose and becoming lost in the pale yellow of the center. A bright and showy Rose of the Tulip section, very highly colored and blooming without cessation. It would be difficult to imagine a more lovely Rose. Price, 15 cents; large two-year-old plants, 35 cents.

MADAME DE WATTEVILLE.

This grand Rose is one of the most beautiful varieties we have ever sent out, and is very largely planted by those who know its beauty. The color is a remarkable shade of creamy-yellow, richly colored with rosy blush; the petals are large and each one widely bordered with bright crimson, which gives it a very striking and beautiful appearance. The flowers are large, very full and highly perfumed. For planting in the border, Madame De Watteville takes front rank, being a hardy, vigorous grower, standing the summer weather well, a profuse bloomer and unrivalled. Price, 15 cents each; large two-year-old plants, 25 cents each.

SOUVENIR DE VICTOR HUGO.

One of the most beautiful Tulip Roses. Color, lovely carmine and white, resembling Perle. Price, 15c. each; large two-year-old plants, 30c. each.

New Tea Rose—PRINCESS OF WALES.

This grand new Tea Rose is almost unsurpassed in beauty. A greater number of persons have written that they wish to order this Rose than any Rose we send out. The color is a lovely amber-yellow, deepening toward the center to orange or crimson, distingulshably shaded with crimson, distinctly edged with carmine, long pointed buds, beautiful globose flower, very double and full and exceedingly sweet. Very chaste and waxy in appearance. Superb. Price, 15 cents each; large two-year-old plants, 30c. each.

SPECIAL OFFER—The 8 Tulip Roses for 60 cents; large two-year-old plants the 8 for $1.50. No Premiums or Discounts allowed on Special Offers.
THE PREMIER BEDDING and POT CULTURE ROSES

The Famous Soupert Rose Family

Continually in bloom, it makes no difference what season of the year it may be. Almost entirely, if not quite hardy, will live out in the open ground with slight protection. The very best Roses for any situation.

New Yellow Soupert "MOSELLA.

This splendid novelty is from Germany. Its origin is almost identical with that of the Soupert, a cross of the Polyantha and the beautiful Tea Rose "Madame Palais". Blooms in profuse clusters of 3 to 5, flowers, which are very free, bell-shaped and open like a camellia flower. The petals are tinted white, on beautiful light-yellow ground extending to a number of petals, deepening to orange-yellow. Plant is dwarf, bushy, and very beautiful. A splendid rose. Price, 10c., 3 for 25c.; large two-year-old plants, 25c.; 5 for $1.00.

SPECIAL OFFER—We will send you 20 of the plants of "Mosella" for $1.00. Will make you a most beautiful bed, from which you may cut a handsome bouquet or large arrangements. Rose from early Spring until cut down by the heavy Winter frosts.

New Silver-white Soupert

LEONIE OSTERREICH

Large, full flowers, cup-shaped; color brilliant porcelain-white, shading to very delicate light-yellow in the center. One of the grandest blooming Roses known, and the coloring is magnificent. Price, 10c., 3 for 25c.; large two-year-old plants, 25c.

The Crimson Soupert

"RED PET." Beautiful dark crimson-maron; large, full, firm, very double; a constant and profuse bloomer; excellent for outdoor bedding and arrangements; makes a gorgeous bed when massed. Price, 10 cents each, 3 for 25 cents; large two-year-old plants, 25 cents each.

New Pink Ever-blooming Bedding Rose

PINK SOUPERT.

A seedling from that premier Bedding Rose, "Clotilde Soupert," of which we have spoken so highly. "Pink Soupert" inherits all the grand garden qualities of its parent, and is a clear pink throughout, bright and attractive; the coloring deepens in some flowers to cherry-red, and in others it lessens to clear Hermosa-pink. The profusion of bloom is wonderful, the whole plant being a mass of flowers. No Rose can possibly excel this for outdoor bedding, and none can be more attractive. It is compact and sturdy in habit, and so hardy for an ever-blooming Rose that it will remain out all Winter safely with slight protection. Price, 10 cents each, 3 for 25 cents; large two-year-old plants, 25 cents each, 5 for $1.00.

New Yellow Soupert, Mosella.

The Best Bedding or Pot-culture Rose Known

"CLOTILDE SOUPERT.

This lovely Rose comes from the Garden of Luxembourg, France. The flowers are borne in clusters, and are of large, round, flat form, with beautifully imbricated petals; perfectly full and double, and deliciously sweet; color beautiful pinkish amber or pale, creamy yellow, delicately flushed with silver-rose, sometimes ivory-white, exquisitely tinted with pale-salmon, and sometimes both red and white flowers are produced on the same plant. It is a particularly elegant and handsome Rose, always greatly admired. The bush is a vigorous, compact grower, and a continuous and remarkably profuse bloomer, being literally loaded with Roses. It is highly recommended for house and window culture. Price, 10c., 3 for 25c.; large two-year-old plants, 25c.; 5 for $1.00.

SPECIAL OFFER: For 50 cts. we will send one plant of each of the five members of the Soupert family, including Queen's Scarlet, or two sets for 75 cts. Set in large two-year-olds, $1.00. No further premiums or discounts allowed.

2 BEST BEDDING ROSES GROWN Clotilde Soupert (SPECIAL OFFER—24 plants of the Best Bedding Roses for $1

PINE FOR POT CULTURE.

Queen's Scarlet

You can plant them anywhere in the garden, on the lawn, in fact any place you have a little room. By planting Clotilde Soupert in the middle and surrounding it with Queen's Scarlet it will make the handsomest bed you ever saw, and you can gather a beautiful bouquet of Roses every day. They are strong growing and nearly if not quite hardy, and should be planted twelve to fifteen inches apart each way. All this, 24 Plants, either Queen's Scarlet or Clotilde Soupert or 12 plants of each, for $1.00.
Our "Fascinating Quintet Set" of Five New Everblooming Roses on this Page for 50 Cents Net.

NO OTHER PREMIUM ON THIS OFFER.

Beautiful New Tea Rose "HIGHLAND MARY."
The most beautiful and novel new Rose ever produced. It has the most delicate color, distinctly bordered petals. A sport from Agrippina and a most persistent bloomer, both in Summer and Winter, with a much stronger and better growth; the flowers are exceedingly fragrant. As to color it is without doubt the most exquisitely beautiful and delicately colored Rose that it has ever been our pleasure to see. The blooms are beautifully cupped, with each petal delicately bordered by a lovely band of pink, which, blending with the white and lemon tinge, makes a combination that is truly fascinating beyond all description we might be able to give; there is no other Rose in the world like it. It will bloom all the time, either planted outside in garden, in the conservatory, or in pots in the house. It is hardy in the open ground with slight protection, and a more exquisite variety for cutting we could not recommend. In fact, it will keep twice as long as any other Rose after being cut. Buds partly expanded have stood in a vase for ten days before any of the petals dropped off. A most remarkable and glorious Rose. Price, 15 cents, 2 for 25 cents; large two-year-old 2 for 25c.; large two-year-old plants, 35c., 4 for $1.00.

Fascinating New Tea Rose "PRINCESS VENUSA."
A strong grower, producing a long bud; flower large, moderately full and beautifully formed; color nankeen-yellow, with shadings of carmine; a most remarkable combination of colors. Price, 15c., 2 for 25c.; large two-year-old plants, 35c., 4 for $1.00.

New White Ever-blooming Tea Rose "PRISCILLA."
A pure white, hardy, ever-blooming Rose has been at length obtained in this grand variety. It has all the requisites of a perfect garden Rose—substance, size, fragrance, hardness, vigor, and profusion of bloom, rivaling the best of the monthly ever-blooming Roses in the latter all-important quality. A sport from Maman Cocheth, inherit- ing all its fine qualities—buds long and pointed, keeping a long time when cut. The fact that we include it in our Select Quintet is sufficiently to indicate our high opinion of it. Whenever fine Roses are grown, or a hardy, white, ever-blooming Rose is wanted, the Priscilla should be planted. Price, 15 cents each, 2 for 25 cents; large two-year-old plants, 35 cents each, 4 for $1.00.

New Crimson Ever-blooming Rose "PRINCESS ETTA."
A new ever-blooming Rose of great promise for outdoor bedding. It is one of the most prolific blooming Roses we know; the color is a grand, solid crimson (just the shade wanted in the ever-blooming sections), the base of the inner petals prettily marked with clear white; the fragrance is delightful, superior to most, if not surpassing any Rose in its class, and equal to the finest hybrid perpetuals. It is a most valuable addition to our garden Roses and also for Winter-blooming. Price, 15c., 2 for 25c.; large two-year-old plants, 35c., 4 for $1.00.

New Pink Hybrid Tea Rose "MM. ABEL CHATENAY."
The celebrated Rose which the Washington (D. C.) society people have used almost exclusively during the past season in their social events. This is a wonderfully strong, healthy-growing variety, with rich, bright foliage. A grand Bedding Rose, as it is a profuse and continuous bloomer. Flowers large and full, petals recurved and of a beautiful creamy rose shade with rose-vermilion and tinged with salmon; the base of the petals is very highly colored, being a combination of the foregoing shades strongly accentuated. This will undoubtedly make a fine garden Rose, because of its substance and hardiness. The flowers are borne on long stems, so that it is exceedingly well adapted for vases or cut flowers. Price, 15c., 2 for 25c.; large two-year-old plants, 35c., 4 for $1.00.
Spring, 1904.

INNISFALLEN GREENHOUSES, URBANA, OHIO. 11

The "Royal Set" of SEVEN Splendid New Climbing Roses

NEW DOUBLE WHITE HARDY CLIMBING ROSE, THE ROYAL CLUSTER.—Undoubtedly the most magnificent Double White Hardy Climbing Rose. Blooms in immense clusters. The name Royal Cluster has been given it because of the great size and beauty of its enormous clusters. One hundred and nineteen flowers and buds have been counted in one cluster at one time. The flowers are full medium size, quite double and beautifully formed. Color, white, sometimes faintly tinted blush. Has a delicious spicy fragrance. A hardy, vigorous climber and a prodigous bloomer, being far superior in every way to all other hardy Climbers up to date. It does not mildew, and is remarkably free from insects and disease. Has no equal in its class as a forcing Rose for Easter decorations. Continues a long time in bloom, and the flowers are very double. We recommend it as the best Hardy Climbing Rose to date. Price, 10 cents each, 3 for 25 cents; large two-year-old plants, 40 cents each.

GRAND NEW CLIMBING TEA ROSE—CLIMBING PAUL NEYRON—MRS. WAGRAM, (COMTESSE DE TURRENNE).—One of the most beautiful of the new Climbing Tea Roses. Strong, rampant grower; very large, magnificent full flowers, a satiny rose color. Extremely beautiful when fully opened, often measuring 4 to 6 inches in diameter. Will be one of the most popular sorts for the North and Pacific Coast, as it resembles that grand old Hardy Rose, Paul Neyron. Don’t fail to try this Rose. Price, 10 cents each, 3 for 25 cents each; large two-year-old plants, 40 cents each.

NEW EVER-BLOOMING ROSE—"CLIMBING MALMAISON."—A "sport" from the well-known Souvenir de Malmaison, similar in flower and foliage to its parent; of exceedingly robust, climbing habit. There is no finer Rose than the old and famous Malmaison, or "Souvenir de Malmaison," and we are sure our patrons will be glad to hear that we have a climbing variety identical with the parent. First time offered. Of inestimable value to all lovers of fine Climbing Roses. Perfectly hardy south of Washington, D. C. Price, 10 cents each, 3 for 25 cents; large two-year-old plants, 40 cents each.

SPLENDID NEW ROSE—CLIMBING WHITE PET.—An unusually strong, vigorous grower, with clean, handsome foliage, producing in wonderful profusion flowers that are charming in form. They are of medium size, very double and full, and borne in clusters. The color is pure white, and the variety is really a remarkable Climbing Rose, being named after our most illustrious Empress. Price, 10 cents each; large two-year-old plants, 35 cents each.

NEW HARDY PERPETUAL BLOOMING CLIMBING ROSE—EMPERESS OF CANADA.—This remarkable new variety from China has been the most talked about Rose of the season. It is handsomely guaranteed. Its valuable feature, apart from its entire hardiness, is its perpetual blooming. Commences to flower early in Summer and blooms continuously until late in the Fall. Entirely hardy, having withstood a temperature of 16 degrees below zero, unprotected, without injury. Each season since its introduction the plants have made a growth of 6 to 8 feet in a single season. Foliage and habit not unlike Marechal Niel. Flowers of medium size, very graceful in form and highly fragrant. Pointed and very shapely bud, borne on long, stiff stems. Color of bud is a soft dark red, and, as the flower expands, changes to an apple-blossom pink. Think of Roses from May to December. It is surely the Rose for amateurs, as it needs but slight attention and no protection. Price, 10 cents each, 3 for 25 cents; large two-year-old plants, 40 cents each.

GLORIOUS NEW ROSE—CLIMBING MARIE GUILLOT.—If you have never seen Marie Guillot growing at its best in the open ground, you cannot conceive of the beauty of its large, bold, handsome white flowers. It has been termed the “Queen of White Roses,” and while there are many white varieties of unquestionable excellence, these are none more reliable for outdoor cultivation than Marie Guillot. It possesses all the valuable features of its famous parent, with which it differs only in habit of growth. It is one of the most rapid-growing and vigorous Climbing Roses we have ever seen, small plants making a growth of 10 to 15 feet in five months. It is an exceedingly healthy Rose, possessing every attribute that a perfect Rose should have. It blooms continuously throughout the season, the first and every year. The flowers are magnificently made, extra large, deep and double. The buds are particularly beautiful and the fragrance delightful. The color is pure snow white, sometimes faintly tinged toward the center with pale yellow. It will prove moderately hardy with protection, but it will be seen at its best in the South, South-West and Pacific Coast States, where the Winters are mild. It will bloom the whole year around in the South, and wherever Marechal Niel is grown this variety will undoubtedly equal it in beauty of flowers and surpass it in vigor of growth. It is one of the really grand Roses. Price, 10 cents each, 3 for 25 cents; large two-year-old plants, 35 cents each.

ROSE AMONG ROSES—CLIMBING BRIDESMAID.—The standard pink cut flower Rose of America. One of the greatest varieties in existence, representing as it does the highest degree of beauty yet attained in a Rose of this class. Remarkably hardy, a strong grower, and possesses all the features that might be asked for in any Rose. It grows rapidly, attaining a height of 10 to 15 feet in a single season, and blooms the first year as freely as does its parent, Bridesmaid, and produces in profusion its beautiful clear, dark pink flowers, which in the bud, and when fully open, are simply superb. Price, 10 cents each, 3 for 25 cents; large two-year-old plants, 35 cents each.

SPECIAL OFFER. We will send the "ROYAL SET" of Seven Splendid New Climbing Roses in one-year-olds for 60 cents. The set in large two-year-old Roses for $2.00.
The RELIANCE Collection of ROSES

The Roses named on this page are the prime favorites of everybody in New Orleans who plants Roses. They have been tested and tried, and have proven their great worth. These Roses will do equally well all over the South, where they are hardy. To the California, the Pacific Coast and all parts of the United States, everybody plants them. We sold upwards of fifty thousand plants of these varieties alone in New Orleans last year. A complete Rose garden, embracing all colors.

Price, 10 cents each, or the entire set of twelve Reliance Roses for $1.00. Any six for 60 cents. Large two-year-old plants, 35 cents each; the twelve for $5.00. Any Six for $1.10

MADAME DE VATREY.—The Creole Beauty. One of the Brightest Roses.
We consider this splendid variety to be not only one of the brightest, but one of the most beautiful and most satisfactory Roses for general planting, especially outdoors. In houses it produces the most beautiful and most beautiful blooms. In New Orleans it is a prime favorite. It makes big, clean buds of great beauty and opens well, showing the large, full, double flowers to great advantage. The color is a rich red, changing to silvery pink—reminds one of the delicate hues seen on the tips of the fairest deep-sea delphiniums. It is very healthy, and blooms beautifully in open ground without protection, and blooming nicely all through the hottest part of summer.

STAR OF LYON.—Etoile de Lyon.
This magnificent Tea Rose is a rich golden yellow, a strong, vigorous grower, an immense bloomer, bearing flowers and buds early and late. The flowers are very deep, rich and full, excellent substance. Surely one of the very best and most beautiful yellow Tea Roses for general planting. Remains in flower, both as to heat and cold, frequently standing the Winters here uninjured in open ground without protection, and blooming nicely all through the hottest part of summer.

PRISCILLA, OR WHITE MAMAN COCHET.—The Charming New White Tea Rose.
Another new American Rose, but as widely different from all other white Roses as one can well imagine. It is by far the finest of all the grandest of bedding or outdoor Roses. Maman Cochet, and the grand and imperial Old Chelsea, with silvery protection in Winter. Its habit is exceedingly strong and upright. Like its parent, and it possesses the same large, bustling, full, double flowers, but much more fragrant and constant bloomer. The flowers are of enormous size, remarkably round and full, pure, clear and brilliant white. It bears its fragrant scent. It is by far the finest and most reliable white bedding Rose yet produced and should be planted in every garden. By plant if any one can have the very finest Roses for cutting and use in vases, upon altar, dining table, parlor etc., all Summer and Autumn. Without question the largest white Rose, both in bud and flower. No other Rose, except old Maman Cochet, approaches it in beauty. This Rose will displace no one that plants it.

BRIDESMAID.—Deep Pink Mermet.
Here we have a new Rose, a sport from that old standby, Catherine Mermet. This new variety retains all the good qualities of the parent, besides adding charms peculiar to itself. Catherine Mermet, we know that Catherine Mermet takes precedence as a pink Rose. More plants of it are cultivated by the amateur, and more cut bloom is sold by the grower and more shoots of it any one can have the very finest Roses for cutting and use in vases, upon altar, dining table, parlor etc., all Summer and Autumn. Without question the largest pink Rose, both in bud and flower. No other Rose, except old Maman Cochet, approaches it in beauty. This Rose will displace no one that plants it.

BEAUTY OF STAPLEFORD.—A Grand Red Rose.
The flowers are very large and perfect in form, deliciously scented; Tea fragrance, with a good, bright pink inading the beginning; true rose crimson. Makes large and beautiful buds and is a constant and profuse bloomer.

"SOUVENIR" DE LA MALMAISON.—Known in the South as "Soubefier".
This grand old variety, which used as a bedding Rose in Summer, has no equal, as it produces the most perfect flowers in the hottest weather. Its rich, deep crimson flowers are of immense size, double to the center, are produced in abundance, and have the requisite form and substance to withstand our hot, dry Summers. Exceptionally fragrant. A noble Rose.

DUCHESS DE BRABANT.—The People's Rose.
Every order we get from New Orleans includes this climbing Rose. It is a very healthy plant, and produces the most beautiful and most beautiful Roses of the variety, in abundance, and produces most beautiful blooms. In New Orleans it is a prime favorite. It makes big, clean buds of great beauty and opens well, showing the large, full, double flowers to great advantage. The color is a rich red, changing to silvery pink—reminds one of the delicate hues seen on the tips of the fairest deep-sea delphiniums. It is very healthy, and blooms beautifully in open ground without protection, and blooming nicely all through the hottest part of summer.

TRIUMPH DE PERNET PERE.—New Hybrid Tea Rose.
Originated and sent out by Jean Pernet, one of the most celebrated Rose growers of France, who has already given us some very beautiful Roses, but considers this the triumph of his life (the name translates as "Pernet's Triumph") and besides his endorsement it has received the commendation of the highest European authorities, and as far as we can judge, it is well worth the money it commands, and promises to be one of the very finest of the Hybrid Tea class. The flowers are large, heavy, broad, and long lasting, and have a delicious Tea fragrance. Color, a fine, clear magenta red, sometimes shaded with pink, and is really beautiful, and of such good substance that the flowers retain their beauty for a long time. Very brilliant and beautiful.

MAMAM COCHET.—No Finer Rose Than This.
This Rose attracted our attention from the very first time we saw it in flower. It comes from France—the country that has produced nearly all our best Roses. We are not alone in our admiration of it, as all the very best French dealers of all varieties have been untried in its praise. It is a vigorous grower, with beautiful, perfect buds, and the flowers of this Rose are being long and shapey, borne on long stiff stems. It is of the largest size, and as you will see in this all the flowers is built up or rounded and very double. The color is a deep, rich pink, the inner side of the petals being a silver rose,Cochet, and to be touched with white. We announce this the finest Rose by far that has been introduced from France the past five years. No Rose surpasses it in vigor and breadth and in the immense size of its buds and flowers. Indeed, nothing in the Tea family approaches it in size. Delicately fragrant.

MAD. LOMBARD.—A Good Bedding Rose.
A first-class Rose for bedding; extra large, full flowers, very double and sweet; color, a beautiful shade of rosy bronze, passing to salmon and fawn, beautifully shaded with carmine. An elegant Rose, of vigorous habit of growth; very free and constant bloomer.

MARIE VAN HOUTTE.—The Gem, or the Fairy
Unknown.
Of a fine, faultless, straw yellow color, with the outer petals of the flower having a rosy crimson. Occasionally the whole flower will be suffused with light pink. It grows vigorously, blooms freely and is most deliciously scented. In cool weather it almost changes color, taking on gorgeous crimson tints. A beautiful and superb Rose.

REINE MARIE HENRIETTA.
This is the only climbing Rose in this set, but no collection would be complete that did not comprise this, the grandest of all ever-blooming climbing Roses. Extra large, finely formed white buds, very full and double, borne in clusters; color, glowing crimson.
The New Japanese Rambler (Climbing) "Cherry Blossom" Roses.

SPECIAL OFFER.—The Seven Rambler Roses, all different colors, for only 60 cents; large two-year-old plants, the Seven for $2.00. No other discount or premiums allowed on these sets or special offers.

Rose growers everywhere will hail with delight the announcement that we have to offer them as companions to the famous Crimson Rambler six other distinct colors of Rambler Roses. They are all hardy everywhere and the most charming of all Climbing Roses. There is no Rose of any class or kind that will compare with Crimson Rambler for beauty in any respect. It is a gem.

GOLDEN RAMBLER.

Allister Stella Gray.—This is a new climbing Rose of decided merit, and is classed by many as belonging to the rambler section of Roses. We know it to be a grand Rose, its much sweeter than the Yellow Rambler. You will make no mistake in buying it, as you will have a grand free-blooming climbing yellow Rose. It is a continuous bloomer, laden with bunches of Polyanthus like buds of orange yellow. 10 cents each; large two-year-old plants, 50 cents each.

PINK RAMBLER. Empress.

The Pink Rambler completes the entire range of cardinal colors that can be embraced in these beautiful Climbing Roses. We now have the Crimson Rambler, the Yellow Rambler, the White Rambler and the Pink Rambler. This Rose is an charming agany of its relatives, embracing all their best qualities of hardiness, vigorous growth, profuse blooming and delightful fragrance. Be sure and have a set of the Rambler Roses. 10 cents each; large two-year-old plants, 50 cents each.

YELLOW RAMBLER. Aglaia.—The yellow Rambler has been found so successfully withstand, without protection, a continued temperature of from zero to two degrees below, which proves it to be far harder than any other yellow climbing Rose yet introduced, and we believe that by laying the plants down in the Winter it can be successfully grown in nearly all parts of the United States in fact, anywhere that other Roses succeed at all well. Did we say nothing more about the Rose we think this would be sufficient to establish its value, for what lover of Roses in the North has not beenstartled by the severity of the climate which nearly deprivates his garden of the most attractive color of all yellow. The flowers are borne in immense clusters, after the same manner as the Crimson Rambler, often as many as one hundred and fifty blossoms in a bunch, and the trusses have the same handsome pyramidal shape as those of Crimson Rambler. The color is a decided yellow. 10 cents each; large two-year-old plants, 50 cents each.

WHITE RAMBLER. Thalia.—This charming new rose of the Rambler variety is a wonder. It climbs rapidly, is entirely hardy, produces immense clusters of pure white Roses, perfectly double, of delightful fragrance and of an immaculate white. It is, without question, the best climbing Rose extant. 10 cents each; large two-year-old plants, 50 cents each.

THE NEW RED RAMBLER. Helene.—A new Rambler with flowers of a lighter red than Crimson Rambler. We do not think so much of this variety, although it may improve with closer acquaintance. 10 cents each; large two-year-old plants, 50 cents each.

PSYCHE. The New Pink Rambler Rose.—Received the award of merit of the Royal Horticultural Society of England. A cross between Crimson Rambler and the Polyanthus Rose, Golden Fairy. In growth and habit it much resembles Crimson Rambler. The flowers are produced in clusters of eight to thirty-five, and are from two and a half inches across when fully expanded. The color is white, suffused with salmon rose and pink, with yellow base to the petals. A real companion to Crimson Rambler. The horticultural press of England have been making glowing comment as described at the various exhibitions. 10 cents each; large two-year-old plants, 50 cents each.

CRIMSON RAMBLER. So many of our Southern customers are fearful that the Crimson Rambler Rose will not thrive in the South and produce bloom. This letter will set at rest all such doubts, although this lady's success with this Rose might be attributed to the severe cold weather that South Texas is experiencing. It will not bloom if kept growing, but once checked when it starts into growth it will bloom from the lowest tip right up to the ground to the very topmost branches. It does not require stopping to look, exclaim and admire. Such exclamations are made as "wonderful," "magnificent," "must have one," "wonderful one if it was mine," "cut me an immense bunch," etc. It is the wonder of the flower garden.

Austin, Texas, May 10, 1899.

The C. A. Reeser Co.—My Crimson Rambler was planted three years ago a very small plant; it is now in full bloom, it is at least 15 feet high and six or eight feet across and 20 to 25 feet long in circumference. It has branches eight to ten feet long hanging from the top of the plant. It is one solid mass of bloom, the most magnificent ever seen, and one of our very finest. These branches have so many flowers on them that they can only be blocked by the branches of the Rose. It will bloom from the lowest tip right up to the ground to the top of the plant. It is the wonder of the flower garden.

Crimson Rambler

From photograph: 4 years old; plant 20 feet high; a thousand trusses or 40,000 flowers.
Our "Champion" Set of Hardy Ever-Blooming Roses

SPECIAL OFFER.—For 50 cents we will send, by mail, the Champion Set of Six Hardy Ever-Blooming Roses; for $1.25 we will send three sets. This set in large two-year-old plants for $1.00. No further Discount or Premium.

**MADAME MANSON.**

An excellent Hybrid Perpetual, noted for its constant and profuse bloom. The flowers are large; color, a clear bright Rose, highly perfumed. One of the best for planting. This Rose is a very superb variety, and should be more generally known. Try it. **Price, 15 cents each; two-year-old plants, 25 cents.**

**CAPTAIN CHRISTY.**

New Hardy Rose. The flowers are of magnificent form, very double, and stand erect in their martial bearing. The color is a delicate flesh pink, with deeper shading in the center of the flower, the whole flower possessing a bright, satiny appearance. A desirable variety. Certainly the most beautiful Rose of this color we grow: It is a free and continuous bloomer. **Price, 15c.; large two-year-old plants, 35c.**

**DISMORE.**

A Magnificent Hardy Rose. Very similar to Madame Charles Wood, but claimed by the originator to be much stronger in growth and more fragrant. It is a vigorous Rose of dwarf, branching habit, and is fairly loaded down with flowers all Summer long. The flowers are large, perfectly double, of a dazzling scarlet crimson color, with a rich spicy fragrance. It is entirely hardy and blooms incessantly. **Price, 15 cents; large two-year-old plants, 35 cents.**

**BAIL OF SNOW.**

(Boule de Nige.) In this variety we have a hardy, ever-blooming Rose of great value. It is a Rose of great size, perfectly double, exquisitely fragrant, pure white in color and entirely hardy. Invaluable for cemetery planting, or where the white flowers are desired, as it blooms freely all Summer. **Price, 10 cents each; extra large plants, 35 cents each.**

**MADAME ALFRED DE ROUGEMONT.**

A strong, vigorous grower; begins to bloom at once and continues until stopped by severe freezing. Pure snow-white flowers, finely tinged and clouded with pale rosy blush. Large, full and double, and borne in large clusters. Fragrant and fine. **Price, 10 cents each; two-year-old plants, 35 cents each.**

**CHAMPION OF THE WORLD.**

A very hardy, ever-blooming Rose; advertised extensively. The introducer claims that it is the champion in hardiness, fragrance, vigor, form and color, and for Winter blooming. While we can not endorse all the good qualities claimed for it, we have found it a remarkably fine-flowering, hardy Rose, resembling very much Mrs. DeGraw. Color, a rich deep rosy pink, darker and richer than Hermosa. It is always in bloom and is quite hardy. **Price, 15 cents each; large two-year-old plants, 35 cents.**

---

**The Five Hermosas**

Perpetual Bloomers

**Price. 10 Cents Each. Large two-year-olds 35 Cents Each.**

Best for House or Garden Culture. Constantly in Bloom.

**Red Hermosa**—Color, a rich dark velvety crimson scarlet, literally loaded with flowers at all times; extra good for the house or garden.

**White Hermosa, or Marie Lambert**—Pure white. It has been called Hermosa, as it resembles Hermosa in form and freedom of bloom, and is quite valuable, for though no claim has been made for it as a fancy Rose, its persistence in bloom will make it a very popular white variety for bedding or for pots. (See illustration.)

**Pink Hermosa**—A clean, healthy grower; color, bright pink. It is grown largely in New York cemeteries for its hardiness and continuous blooming.

**Yellow Hermosa, or Coquette de Lyon**—This is a most charming yellow Tea Rose; a good grower, has elegant buds, and is so free a bloomer as to be called the Yellow Hermosa. A Rose that will please all.

**Blush Hermosa**—This elegant Tea Rose has been thoroughly tested and has given perfect satisfaction. It is a soft blush, perfectly double, and constant and profuse bloomer. The color is a soft white blush, delicate rose center shaded with fawn; flowers of large size, very full and delightfully sweet.

Special Offer. We will mail the Five Hermosas, one of each, for 35 cents. Four sets $1.00. The set in two-year-old plants for 75 cents. **NO FURTHER DISCOUNT.**
Five Beautiful Malmaison Roses

There are, we presume, but few persons who cultivate Roses that are not familiar with that old, tried and true variety, "Malmaison." This Rose is known in the South as "Souvenir." It has been the one standard variety in Rose gardens for the past twenty years; and, in fact, there is not a Rose that can rival it for general cultivation. We have the pleasure of offering four companions of it. They are exact counterparts of Malmaison in growth, foliage and form of bloom. In fact, in every way except the color of their flowers. We feel sure they will be a welcome addition to all the Rose gardens.

White Malmaison

Red Malmaison

"Souvenir" Pink Malmaison

Climbing Malmaison

Striped Malmaison

The Grand New Rose, Climbing Malmaison—This Rose is an exact counterpart of Malmaison in foliage and flower, but is a rampant climber. You can not tell the flower or foliage from that old-time, tried and true variety, Malmaison. It will be a welcome addition wherever climbing Roses are planted. Just imagine a Rose climbing over the side of your house or enclosing your veranda in its luxuriant foliage, bearing flesh colored Roses of immense size, and double to the center. It is the strongest and most rampant grower of any climbing Rose we have. It made a growth the past season of twenty feet, and bloomed every month of the Summer. We can cheerfully recommend this Rose to all our patrons. This is the grandest climbing Rose we know of. 15 cents each; large two-year-old plants, 50 cents each.

"Souvenir" de la Malmaison—This grand old variety, when used as a Bedding Rose in Summer, has no equal, as it produces the most perfect flowers in the hottest weather. Its rich, flesh colored flowers are of immense size, double to the center, are produced in abundance, and have the requisite form and substance to withstand our hot, dry Summers. Exquisitely fragrant. A noble Rose. 10 cents each; large two-year-old plants, 45 cents each.

The Wonderful New Rose, Crown Princess Victoria, or White Malmaison—This Rose has our highest commendation. It is a vigorous grower, with large, fine foliage and is one of the loveliest of all Roses. The color is a pure, waxy, snow white, the center of the flower has a lemon tint, just enough to light up and brighten it, and to those who desire a fine double flower when fully expanded, this will meet your wants, as it is very beautiful when full blown. Certainly a grand acquisition. Remembers that grand old Rose Malmaison in shape and fullness. We doubt very much if there is a finer Rose grown than this one. It is grand in every respect. We have tested it fully, and each year only confirms our high esteem for it. The best white Rose we have to offer you. 15 cents each; large two-year-old plants, 50 cents each.

New Rose, Bertha Clavel, or Striped Malmaison—This charming variety is a striped sport from old "Souvenir" de la Malmaison. The Rose is a creamy white, with rose center, reverse of the petals striped carmine and light rose, making a charming combination of colors. We think this a novel and useful new Rose. Offered for the first time last year. 15 cents each; large two-year-old plants, 50 cents each.

A Splendid Rose, Red Malmaison—This Rose is not so well known as it should be, as it is a first class Rose in every respect, being an exact counterpart of Malmaison except in color, being a rich, velvety crimson of satin finish. It is very bright and handsome, and is a great Summer bedder. 20 cents each; large two-year-old plants, 50 cents each.

SPECIAL OFFER—The Five Malmaison Roses sent for a remittance of 50 cents. Five large two-year-old size for $1.25. A great bargain, as you get five of the finest and most elegant Roses at a very moderate cost.
Mlle. Helene Cambier.

New Yellow Hybrid Tea Rose. This is a decided advance towards a true yellow Hybrid Tea. The color at first is a salmon-rose, varying to apricot-yellow at base; a large, full, nicely-formed flower with deeper center in the open flowers. The plant is a robust, bushy grower, with erect stems and beautiful brown-green foliage. A prolific bloomer. Flowers large, very double with full high center. Price, 10 cents each, 2 for 15 cents; large two-year-old plants, 35 cents each.

Mme Jules Orclez.

A New Ever-Blooming Rose, one of the handsomest and most valuable Roses in our list of new varieties. The buds are beautiful in form, the open flowers large, full and nicely-formed. The color is an attractive China Rose, passing to clear, rich, satiny pink. An exceedingly free blooming variety, with very bright, large, full, finely-formed flowers. Regarded as the best of the new Roses in Europe, it has sustained its reputation in America. Price, 15c.; large two-year-old plants, 35c.

Souv. De Catherine Guillot.

New Tea Rose, an extra fine novelty, producing a long pointed bud, of the color of the Austrian Copper. The open flower is large and full and a wonderful combination of colors. Very fragrant and a very free, easy grower. Price, 10 cents each; large two-year-old plants, 35 cents each.

Winter Gem.

This Rose flowers all the time, particularly during the Winter, hence its name. The blossoms are of a large size and a lovely crimson color. Buds perfectly exquisite and the open flower full and double. A great Rose for amateurs, and one that will bloom in any window at all times of the year. Price, 15c. each. 2 for 30c.; large two-year-old plants, 40c. each.

New White Hybrid Tea Rose.

"Beaute Lyonnaise."

This magnificent New Hybrid Tea Rose is the result of a cross with the most celebrated and beautiful hardy Baroness Rothchild, which it greatly resembles in general characteristics, such as size of bloom, large, healthy foliage, etc.; flowers profusely; color white, on a ground slightly tinged with yellow; hardy in the North. Price, 30c. each. 3 for 50c.; large two-year-old plants, 40c. each.

Sensational New Hybrid Tea Rose.

"Mr. Robert Garrett."

A beautiful, large Rose of exquisite shape, finish, and blending of colors. It was raised by Mr. John Cook, of Baltimore, Maryland, the result of a cross between Soubrieuil and Madame Caroline Testout. It partakes largely of the latter variety in growth, in foliage, spines and stem, and in shape of flowers, showing a complete blending of both parents. The flowers are very large, on strong stems, clothed with clean, heavy foliage and strong spines. The buds are long and pointed in shape, and open up beautifully into a full, rounded flower. In shape of bud and half-open flower it very much resembles Souv. President Carnot, but is much larger; color a glowing shell-pink, very deep in the center; the fragrance is delicate and pleasing. A correspondent of the American Florist, in commenting on this Rose in last March, says: "The exhibit of Dr. Cook was a departure from the rest, as it was a vase of Roses. But such Roses! They towered above the Carnations, on strong stems, clothed with heavy foliage, and were as large as American Beauties, but of a beautiful clear pink, almost light enough to be called a shell-pink. Price, 15 cents each, 2 for 25 cents; large two-year-old plants, 35 cents, for $1.00.

SPECIAL OFFER. We will send the Garrett Set of 6 Grand New Roses for 60 cents postpaid; in large two-year-old plants for $1.50 postpaid. This set of Roses is between the cutting and for outdoor planting. Don't fail to try them.
EIGHT

Magnificent
NEW

ROSES

New Hardy, Ever-blooming

Crimson Rose, "CLIMBING

WOOTTON."—The great value of this new Rose is apparent upon taking it into consideration. It has been growing at a temperature below zero in Chicago, together with its everblooming habit. It makes an easy growth, and in one season produces shoots 15 to 20 feet in length, the branches being literally laden with its superbly formed flowers, which are bright magenta-red, paling to violet-crimson, shaded. The flowers are large, full, and regular, with thick, leathery petals and deliciously scented. Can not fail to give universal satisfaction. Price. 15 cents each, 2 for 25 cents; large two-year-old plants, 35 cents each.

New Hardy, Ever-blooming Rose, CLIMBING CLOTILDE SOUPERT.—Blooms all the time. Those who are acquainted with the superior merits of CLOTILDE SOUPERT will recognize in this climbing offspring, one of the most valuable, if not the most valuable, Climbing Rose that has ever been introduced. It is a climbing type of CLOTILDE SOUPERT, one of the best of its kind, whether for height or quality of bloom. In this climbing variety we have the vigorous constitution of CLOTILDE SOUPERT, combined with the habit of the bloom as well as the extreme hardness. This new variety in a single season, even in small plants, will grow 15 to 25 feet, producing clusters after clusters of the finest formed flowers. In form they are distinct, large, round and flat, with beautifully imbedded petals; perfectly full and double and deliciously scented. This Rose bears the magnificent name of IVORY ROSE. Throughout the entire growing season it is literally loaded down with its large, handsome flowers. Having a certificate of merit, having withstood with us a temperature of 20 degrees below zero in the open ground, without the slightest protection of any kind. A whole book could be written, setting forth the great merits of this variety, and then it would not be done. By all means include it in your order. It cannot fail to give satisfaction. We offer strong plants, 15 cents each, 2 for 25 cents; two-year-old plants, 40 cents each; 3 for $1.00.

SOUV. DE JEANNE CAUDAU.—A New Tea Rose, beautiful "Frenchy" Rose of most exquisite color. It is a true climbing Rose, and is very large, and beauty is in its open state, when its appearance is that of a pink rose set in the heart of a large orange rose. The outer petals are coppery yellow, the center bright carmine-pink. It is a strong grower or in pots, however, hardly. Will be a delight to any will this will be a delightful addition. Price. 15 cents each; Climbing Wootton.

"VIRGINIA."—This elegant Rose is the result of a cross between "Bach" and "Virge." It is a superior and distinct large, and beauty is in its open state. If you can grow a rose in this state, it is a great success. It is a hardy rose and is very fruitful. Price. 10 cents each; large two-year-old plants, 35 cents each.

The Exquisite New Tea Rose, "SYPHIL."—Flowers ivory-white, tinted with peach color—a very beautiful blending of color; large, high-centered, stiff petals; habit erect; a magnificent exhibition Rose, vigorous growth, abundance of flowers. Moderately hardy. Desirable for garden decoration or cutting purposes. Price. 10 cents each; large two-year-old plants, 30 cents each.

BESSIE BROWN.—A Rose of transcendant beauty, totally distinct and one of the largest and finest that we have ever seen. It is a rose for its size and beauty. Price. 15 cents each; large two-year-old plants, 50 cents each.

FRANCES E. WILLARD.—Grandest White Rose in Existence. One of the startling new Roses of recent date. It has gigantic flowers with enormous magnolia-like petals; one of the handsomest and most effective of Roses and very distinct. The color is pure white; blooms are borne in great profusion on stiff stems with heavy foliage. Longer stems would rank this with American Beauty, but with shorter stems it is a prime Rose. In our local trade buyers have been carried away with its beauty, and are willing to pay a good price for it. Petals enormous and of shell shape. It is really marvelous that such large flowers can be so freely produced. Received gold and silver medal from the National Rose Society, England, and numerous certificates and prizes. This variety is a gem in the first water. Price, 15 cents each; two-year-old plants, 50 cents each.

NEW Crimson Rose, CLIMBING METERION.—This new Rose might more properly be called a Perpetual Blooming Climbing General Jacqueminot. Though a sport from the finest of all Hybrid Tea Meters, it is much larger and of a deeper rich color, equalled only by the peerless Jacqueminot, and produces twenty blossoms to Jacqueminot's one. It is a Rose which will make ten to fifteen feet of growth in a season, and show a profusion of bloom every day. Foliage strong, healthy and luxuriant. Buds exquisite; flower large, bell-shaped, and of that rich, dark velvety crimson color seen only on the METERION. Much deeper and richer than Meteron. We do not hesitate to pronounce it the finest Rose in existence for Summer blooming, as it will make a large growth and is loaded with its glorious blossoms all the time. For Winter blooming it has few equals in beauty and probably none in profusion. Just the Rose to train up in a conservatory or bay window, where its exquisite blossoms will show to wonderful advantage. Price, 10 cents each, 3 for 25 cents; large two-year-old plants, 25 cents each.

Special Offer: We will send you the eight magnificent new Roses in strong young plants for 75 cents; the right in large two-year-old plants for $2.00. No other discount or premium allowed on this offer.

Spring, 1904. INNISFALLEN GREENHOUSES, URBANA, OHIO.
The Cochet Family of Ever-Blooming Tea Roses

Probably the finest and best set of Roses in existence today. Every person can grow the Cochet Roses. They will give absolute satisfaction to all from the day they are planted and will produce hundreds of flowers during the season. The Cochets give Bouquets every day.

TULIP COCHET
The Beautiful New Souvenir de Pierre Notting
The illustration we give on the first cover page is only one third the natural size of the flower, and possesses the merit of being about as true and faithful as the best full size photographs produced with printers' ink. All qualified judges and expert rosarians agree that it is one of the most beautiful long stemmed Roses recently disseminated for forcing and cutting. It has a sturdy, healthy habit of growth and vigor, and exceeding it in form, and in the quantity of bloom it is not surpassed by any other Rose. Has received six gold medals, and first class prizes. At all exhibitions where shown it created the greatest surprise and unusual interest. The flower has a very large, perfectly double and of elegant form; the bud is long and beautiful. The colors are bright, distinct and clear, and very pleasant tones. A beautiful rich golden-orange yellow, the edges of the petals bordered with a soft silvery white. Price, 50 cents; large two-year-old plants, 50 cents each.

PINK MAMAN COCHET
The Queen of All Garden Roses.
Such beauty and exquisite form as is possessed by this variety is well nigh marvelous and can not be seen in any other Rose. Known as Cochet, de la Courcouronne, White and Yellow Maman Cochets. The buds are beautiful, large, full and firm and evenly pointed as they expand, they show great depth and richness, sometimes measuring two and one half inches from base to tip. Flowers superb when open, extra large, perfectly double and of splendid substance. Small pot plants will in the open ground quickly make large, strong growth and produce on long, stiff stems great numbers of perfect flowers that are enchanting in fragrance and delicate brightness. Perfectly hardy in all sections of the country. The color is clear, rich pink, changing to silvery rose. As we see it, one good Rose like any of the Cochets is worth a whole colony, or four good ones—at any rate, 10 cents each; two-year-old plants, 15 cents each.

The Grand New Rose
YELLOW MAMAN COCHET.
Everything considered, this is one of the most noteworthy introductions. Up to this time the best yellow Roses were Meilland’s, Belle de Lyon, Etoile de Lyon, Md’le Cecile Berthod and Alliance. Franco Russe, but notwithstanding the merits of these grand varieties, this superb newcomer will supersede them for open ground culture. It is the typical Cochet Rose—well fittingly molded buds, with its gracefully molded buds, perfect large flowers, well formed, strong stems, beautiful foliage, and with the vigor of growth and blooming capacity that has made the Cochet Roses the most reliable of their class and color. There is a great need for this variety, for it will become equally as famous as Pink and White Maman Cochets. It is identical in every way with them, except in color of flower, which is deep sulphur yellow. It has stood temperature in the open ground below 20 degrees without serious protection. It is among the first to bloom in the Spring, and remains in bloom up until severe frost. We recommend our customers to plant liberally of this Rose as the best hardy, ever-blooming yellow variety we have ever seen. Price, 5 cents each; large two-year-old plants, 50 cents each.

The Magnificent Rose
WHITE MAMAN COCHET.
No Finer Rose Than This. This Rose attracted our attention from the very first time we saw it in flower. It was then the most perfect and largest of any that had been introduced nearly all of our best Roses. We are not alone in our admiration of it, as all the visitors to our es-

SPECIAL OFFER.
We will send you the five members of the Cochet family or set by mail postpaid for 100 cents. In large two-year-old plants, for $1.35. No other discount or premium allowed. Special express offer on Pink Cochet and White Cochet for planting large beds for Summer cut flowers, by express only $5.00 per 100 plants, either kind or half of each variety. No less than 50 plants at this price. Twenty-five two-year-old plants for $3.75.
Mrs. Mawley.—The Charming New Hybrid Tea Rose. This new Rose is truly magnificent beyond description—a beauty, in fact, of incomparable excellence, a pleasing shade of color that is almost impossible to describe, with grand buds as long as your finger. Color a beautiful bright Carmine, shaded with Salmon; flowers a mass of fragrant buds, plum buds on very long stems. An excellent Rose for the garden house. Price, 15 cents each; large two-year-old plants, 30 cents each.

New Ever-blooming Climbing Rose, Mrs. Robert Pearle, or Climbing Kaiserin Augusta Victoria. This fact alone is sufficient to guarantee its advent, no matter what the climate may be, and it surely merits a demand that has never been supplied. The flowers are extra large, full, deep and double. They are of excellent substance, and the buds are formed with strong, well-stemmed, like a forcing Rose; in fact, both in bud and flower, this new variety is superior in grace and finish to any other Rose. The large, long, pointed buds are long and pointed, a remarkable feature not found in any other Climbing Rose. The fragrance is delicious. The most remarkable feature of this variety, however, is that it blooms continuously the first year, a feature never found in no other white Climbing Rose. Then it is absolutely hardy and its flowers are truly beautiful. This is the hardy Climbing Rose—one that will give you flowers this fall—this is the only white variety that will do it. It has no weak spot. It grows to perfection outdoors, throwing up numerous shoots, ten to fifteen feet high, in a single season. We regard it as the most important introduction of modern times. Be sure to include this variety in your order. Its beauty and healthy, thriving growth will astonish you. There is no better value in this book. For a sensational new Rose of pronounced superiority over all others, the price is wonderfully low. Be sure and try it. Price, for setting plants, 15 cents each; for 25 cents; large two-year-old plants, 40 cents each; three for $1.00.

The Beautiful New Hybrid Tea Rose, "Bessie B. Morris," is a sport from one of the most magnificent and celebrated Roses grown, i.e., Kaiserin Augusta Victoria. This fact alone is sufficient to guarantee its advent, no matter what the climate may be, and it surely merits a demand that has never been supplied. The flowers are extra large, full, deep and double. They are of excellent substance, and the buds are formed with strong, well-stemmed, like a forcing Rose; in fact, both in bud and flower, this new variety is superior in grace and finish to any other Rose. The large, long, pointed buds are long and pointed, a remarkable feature not found in any other Climbing Rose. The fragrance is delicious. The most remarkable feature of this variety, however, is that it blooms continuously the first year, a feature never found in no other white Climbing Rose. Then it is absolutely hardy and its flowers are truly beautiful. This is the hardy Climbing Rose—one that will give you flowers this fall—this is the only white variety that will do it. It has no weak spot. It grows to perfection outdoors, throwing up numerous shoots, ten to fifteen feet high, in a single season. We regard it as the most important introduction of modern times. Be sure to include this variety in your order. Its beauty and healthy, thriving growth will astonish you. There is no better value in this book. For a sensational new Rose of pronounced superiority over all others, the price is wonderfully low. Be sure and try it. Price, for setting plants, 15 cents each; for 25 cents; large two-year-old plants, 40 cents each; three for $1.00.

New Ever-blooming Climbing Rose, Mrs. Robert Pearle, or Climbing Kaiserin Augusta Victoria. New Rose, White Golden Gate, or IVORY.—One of the most famous Roses in cultivation is Golden Gate. This grand variety was given to the American Florists Association at Chicago, in 1901. Since that time it has become famous wherever Roses are grown. Acme of grace is devoted to pricing this variety alone for its magnificent flowers, which, when fully developed are as large as American Beauty. No Rose that we have ever seen will surpass it in delicate, dainty color effects and form; in fact, it is a Rose of indescribable beauty. For many years it has been the favorite Rose at the White House, from which fact it is sometimes called the "White House Rose." This grand new variety, which we offered last year for the first time, is a sport or offspring of Golden Gate, with which it is identical, except in color. The flowers are IVORY WHITE, with petals of leather-like light substance. A dozen of them grouped together afford a dazzling sight. Born on strong, stiff stems, two to three feet in length. This is easily the most massive white Rose in cultivation. Long, elegantly pointed buds. We have seen a single flower of this great variety, without the stem, weighing three-quarters of a pound. Strong, vigorous grower. At the great flower show held at Kansas City in the Fall of 1901, this variety won a gold medal and was awarded a medal at the Pan-American Exposition, besides numerous other medals and certificates of merit. It will become as famous and will prove as valuable as the great new Rose, "Helen Gold". Price, 15 cents each; for 35 cents; large two-year-old plants, 40 cents each; three for $1.00.

Charming New Tea Rose, "PRINCESS ALICE DE MONACO."—We give our best endorsement to this charming new ever-blooming Rose, whose merits are of the highest order. It is a strong, upright grower, with clean, healthy foliage. The flowers are produced in wonderful profusion on long, straight shoots; are large in size, double, of this form and decidedly elegant. The coloring is exquisite—a creamy white on the outside of petals, with a faint, rosy blush on the edges; as the flowers expand they disclose a charming shade of pink, deep to a rich blush. The flowers are borne in remarkable profusion throughout the growing season. It is a grand Rose, and one that will give splendid satisfaction. Price, 15 cents each; for 25 cents; large two-year-old plants, 40 cents each.

CORINNE.—A New Sensational Tea Rose, which has taken a gold medal and several certificates of merit. The tints of color blended in the flowers of this beautiful Rose render it so attractive and distinct from all other Tea Roses that the blooms exhibited have created quite a sensation. They are flesh color, shaded with rose and suffused with tawny copper; large size, full and of excellent shape, very finely produced on strong stems. We feel assured that for decorative purposes, cutting, or exhibition it is invaluable. The growth is vigorous, and for a Tea Rose the plant is very hardy. Price, 15 cents each; large two-year-old plants, 40 cents each.

SPECIAL OFFER.—For 75 cents we will send you the Ivory set of six sensational new Roses, postpaid, in one-year-old size. We will send you this set in our large two-year-old size from four-inch pots for $1.75, postpaid. No other premium or discount allowed on these offers.
ROSE NOVELTIES FOR 1904

Baltimore.

Raised by Mr. John Cook, of Baltimore, and named by him in honor of his own city, and believed by him to be the very best rose he has ever sent out, and he has originated some "crack-a-jacks." Color a shade lighter than President Carnot, whose general make-up the flower resembles. A really good thing. Price, 20 cents each; two-year-old plants, 50 cents each.

ADMIRAL SCHLEY.

Red Burbank. This is a new bedding rose of great excellence sent out by Mr. John Cook, of Baltimore, who has originated a number of our finest roses. It is best described as a Red Burbank. A very free bloomer and we believe has come to stay. Price, 20c. each; two-year-old plants, 50c.

ROSMANIE GRAVEREAUX. Hybrid Tea.

This variety is of the general style of President Carnot, with an enormous long bud, producing a very large, very double, open flower, carried on a long, stiff stem; the petals are very large; color, silvery white, with reverse of rose; very fragrant and very free. Issue of an unnamed seedling. Price, 15 cents each; two-year-old plants, 50 cents each.

DR. CAZENEUVE. Hybrid Tea.

Flower large, nicely formed; crimson in color, like Jean Liabaud; one of the finest of dark Hybrid Teas. Price, 15 cents each; two-year-old plants, 50 cents each.

ALLIANCE FRANCO-RUSSIA.

Another of the really red Burd of the year. Very large, double and of beautiful rounded form, a soft, glowing orange and copper, flushed and shaded with ruddy crimson. Price, 15 cents each; two-year-old plants, 50 cents each.

BEATRICE DE BUISSEBERT. Hybrid Tea.

Bud extraordinarily beautiful; flower very large, quite full, of beautiful form and perfect texture; silvery rose and rosy carmine; very free and the standard for a first prize at the Paris Exposition. Price, 15 cents each; two-year-old plants, 50 cents each.

LADY CLANKMORIS. Hybrid Tea.

Perfectly distinct; a splendid rose of very robust growth and free branching habit, flowering continuously and freely throughout the season; blooms very large and of good form, petals large, smooth and of great substance. Price, 15 cents each; two-year-old plants, 50 cents each.

LADY MARY CORBY. Tea.

Growth vigorous and of erect, branching habit; blooms of good size, freely produced and perfectly formed; color, deep golden yellow. Distinct and fine. Price, 20 cents each; two-year-old plants, 50 cents each.

New Hybrid Tea Rose—PRINCE OF BULGARIA.

A very vigorous grower, with large, bright green foliage, beautiful in form of bud; flower very large and full; the outer petals are extremely large, of superb substance; a very fine rose and very free. First prize at the Paris Exposition. Very much like a superb Carnot in form. Price, 20 cents each; large two-year-old plants, 50 cents each.

GLADYS HARKNESS. Hardy Tea.

Growth very erect and vigorous, reminding one of American Beauty; blooms in bloom, flowers large, form-like; color, P.; color, deep salmon pink; has a splendid constitution and is very fragrant. Price, 15c. each; two-year-old plants, 50c. each.

New Hybrid Bourbon Rose—J. P. HUNTER. and M. CAZZAVELLI.

Growth much like that of a strong H. P., with large foliage; blooms very large, extremely full of petals, always showing a pointed center; color, very soft pink. Price, 15 cents each; two-year-old plants, 60 cents each.

New Hybrid Tea Rose—LADY BATTERSEA.

This variety has long oval pointed, very striking in form, the color is bright cherry crimson, the stems are stiff and extremely long for a red Rose; a vigorous grower; not very full, but an unusually showy variety; the only red Rose approaching Niphetos in form; color, brilliant and unusual. Price, 35c. each; two-year-old plants, 75c.

New Golden Yellow Rose, FRANZ DEEGEN.

We have pleasure in presenting this beautiful new Rose, Franz Deegen. This variety was obtained from Prince Kaiserin Augusta Victoria X Sunset X Comtesse de Frigneuse.

Of the behavior of this wonderful new Rose the introducer says: "Franz Deegen is a very free bloomer; a rapid and clean grower, bearing flowers of a golden yellow, with a deep orange center, on long, straight stems. The buds are long and pointed, of good size, and have no petal or leaf like those of Perle des Jardins; they open up like the blooms of Bride or Bridesmaid, and a grand perpetual bloomer." The following is the wonderful record of awards; November 6, gold medal and $50, at Kansas City show; November 7, silver medal at Massachusetts Horticultural Society's show in Boston; November 8, silver medal at the exhibition of the Pennsylvania Horticultural Society in Philadelphia; November 13, silver medal from the Horticultural Society of Chicago; November 17, silver medal, American Institute show, New York. Price, 20c., 3 for 50c.; large two-year-old plants, 50c., 3 for $1.25.
**SUNRISE—Tea.** This is bound to be the most sensational Rose of the season. It is a vigorous grower, bronzy foliage, probably the deepest and darkest among any of our Roses; is of itself beautiful indeed. It is a new variety of ours, has exceptionally large and full, and very high colored, deep orange and coppery red on the outer petals, and with the bloom of a deep orange yellow when expanded. One of the best new Roses ever sent out, surpassing in beauty oldipa, a variety. Sunset, as much as the sun does the moon. Price, 20c.; each; large two-year-old plants, 50c. each.

**DUC ENGELBERG D’ARENBERG—Hybrid Tea.** This is a strong, vigorous grower, with long, large flower stems. Gives a long bud on a fine, stiff stem. The flower is large and full, elegantly imbricated; color, white, with pink center. Extremely free flowering and very fragrant. It will surely make a grand variety. Price, 10 cents each; large two-year-old plants, 50c. each.

**JOHNES WESSELHOFF—Hybrid Tea.** Is of strong, branching habit. The buds are long, forming large flowers on extra long, stiff stems. The color is a soft, clear yellow; extremely free flowering, and has all of the indications of making a fine rose. A seedling of Kaiserin Augusta Victoria, its rapid, free growth and profusion of bloom can not be surpassed. This rose helps but make an extra fine garden Rose. Price, 15 cents each; large two-year-old plants, 40c. each.

**MD. JACQUES CHARBETON—Tea.** A beautiful new Rose. The outer petals are milk-white, center shadings of coppery salmon. A distinct and curious color; very free flowering. Large sized, full and beautifully formed flowers; an elegant grower. Received two first-class certificates and one certificate, price, 15 cents each; large two-year-old plants, 40c. each.

**SHANDON—Hybrid Tea.** This is one of the most promising new Roses we have to offer this year. A strong, healthy grower, like our Hardy Garden Roses, extremely large flowers, perfectly double to the center; the fragrance is very strong, color, a deep rose red, very fragrant, a bright crimson red, produced with great freedom, and rivals our best Hybrid Perpetual Roses. Price, 10 cents each; large two-year-old plants, 50c. each.

**QUEEN OLGA OF GREECE—Tea.** A soft rose, pink, center shaded with yellow; edges of petals slightly paler; flowers very large and very bright. A very free grower; introducing the greatest profusion of bloom. Price, 15 cents each; large two-year-old plants, 40c. each.

**MD. JOSEPH LAPIERRE—Tea.** A seedling of June and August. Combination of Wine, chamois rose color, with silvery shadings; buds very long, on a strong, white, and very fragrant. A fine, healthy grower. Price, 10 cents each; large two-year-old plants, 40c. each.

**LIBERTY—Hybrid Tea.** It is agreed among professionals that the gardeners are among the most sensational Roses ever introduced! The color is a crimson scarlet, after the style of Meteor, but more brilliant. Its wonderful beauty is derived from ocean to ocean, and wherever exhibited it has won first honors. The flowers are perfectly formed, being full, deep and velvety. For forcing, this is perhaps the greatest Rose of the color. We think it will do as well in open ground as in the greenhouse, and as it is a new introduction, the price given for the original plant is fixed at $7.00, or 50c. for each; large plants from four-inch pots, 50c. each.

**F. L. SEGOZ—Tea.** A fine new seedling; has a long bud on a stiff stem; buds are freely produced. The flower is large and full; color, carmine scarlet, with pretty tints of rose and yellow. An odd mingling of colors. A very sweet and pretty flower for forcing. Price, 50c.; each; large two-year-old plants, 50c. each.

**MADAME HUSSON—Tea.** A dwarf branching grower, producing nice long buds. The open flower is large and full, and varying shades of orange, ankeen yellow, and brown. Variety. Price, 25c.; each; large two-year-old plants, 50c. each.

**SOUVENIR DE LHEVRE—Tea.** Beautiful flowers of yellowish white, with aurora and Carmine shadings; very large, full flowers. Plant strong and healthy. Price, 50c.; each; large two-year-old plants, 50c. each.

**FIRE PEARL—Pére de Peu.** New Tea Rose, perfect gem. The flowers and buds are very perfectly formed, and the color so intense that its beauty is enhanced. Rosarians describe it as a poppy-red, shaded vermilion and mauve, yellow, with chamois tints on the reflex petals. A captivating Rose. Price, 10 cents each; large two-year-old plants, 35 cents each.

**ADAMIR DEWEY—Hybrid Tea.** The color is that of the Daybreak Carnation; it is a sport of Md. Caroline Testout, and is one of the largest and most beautiful of our new varieties, unusually fine for forcing grand for cold-weather cutting. The flower is very fragrant; its size, form and color are all ideal. It is of healthy and vigorous growth. Price, 50c.; each; large two-year-old plants, 50c. each.

**LUCIE FAURE—Tea.** This pretty new Rose is a seedling of Nipheets, which is an excellent recommendsation. The flower is large and full, of good substance and ivory white. The buds are long and held on very good stems; large flowers, and, as they grow, increasing in size to the center. Price, 15 cents each; large two-year-old plants, 50c. each.

**New Rose, SWEET LITTLE QUEEN.** Plants extra strong and vigorous, with handsome sea green foliage. The buds are long, and, when open, full and double. The outer petals are large, while those of the center are pointed like those of the Chrysanthemum or Cactus Dahlia, which lends a peculiar aspect to the flower. Very sweet and floriferous. An entirely new form and color among Roses. Excellent for forcing and outdoor use. In fact, it is one of the sweetest, daintiest Roses in our collection, producing flowers in continuous profusion. Color, a bright Daffodil yellow, center ochre, with blush and orange shadings; buds fragrant. Price for strong young plants, 15c. each; large two-year-old plants, 40c. each.

**New Tea-Scented Rose, EMPRESS ALEX. OF RUSIA.** An exquisite new Rose of a novel and very taking shade of color. The buds are bronze-salmon on open flowers, rich lake-red, shaded with orange and deep crimson. Very large, full and globular, of vigorous growth, and of extraordinary freedom in blooming, the flowers presenting a splendid effect both on the plant and when cut. A gorgeous decorative Rose, quite distinct, both in color and form from any Rose hitherto introduced. The introducer is W. Paul & Son, Waltham Cross, Herts, Eng., received for this variety an award of merit and gold medal at Lyon’s Rose Exhibition from the British Horticultural Society. Price, 30c.; large two-year-old plants, 50c. each.
ROSE NOVELTIES—Continued.

The Grand and Magnificent New Pedigreed
Yellow Climbing Rose,

PILLAR OF GOLD

Introduced for the first time Spring of 1904 by The Good & Reese Co.

(We Give Grower's Description.)

(Climbing Tea.) Of all the good Roses we have introduced, this one we place at the head of the list. Pillar of Gold introduces the Rose lover to something quite distinct in climbing Roses. First, its growth is the most vigorous of all the climbers, often throwing shoots fifteen to twenty feet in one season. Second, the color of its flowers places it in a distinct class by itself. Yellow climbing Roses, outside of Marshal Niel, are seldom mentioned, but in Pillar of Gold we have a jewel. The blooms are double to the center, of the largest size and come in immense sprays or bunches of from five to ten blooms on a single branch, and the effect throughout the Summer is a perfect sheet of gold. Under date of August 26, 1905, our grower in South Carolina produced, from one Pillar of Gold, is certainly a great bloomer, for it has not been without blooms during the whole Summer. This, too, with hotter, drier weather than we usually have. The color is a deep yellow flushed with coppery yellow. Reverse of petals shows touches of bright rose. If you have seen the deep yellow of Bette Franciscas Kruger in the Fall when the nights get cool, then you get an idea of the beautiful deep golden yellow of this Rose. The shades of color are simply indescribable. It is a Rose to attract and strike everyone who has had the pleasure of seeing it. Deliciously fragrant, it will stake our reputation. Pillar of Gold will not be superseded, as it will be impossible to approach its many good qualities. Price, fine, young plants, 60c each; strong, four-inch pot plants, $1.25 each.

WINNIE DAVIS.

The Daughter of the Confederacy.

This excellent Rose was raised from seed, being a cross between the famous Empress Augusta Victoria and the well-known Belle Siebrecht. The color is apricot pink, shading to a flesh tint at base of petals, buds oblong and well formed. When fully expanded resembles a cup, most peculiar and most strikingly beautiful. Its habits are vigorous and robust, very free growing, producing flowers; foliage leathery, reddish green, glossy and very large; also has the reputation for growing very large, vigorous shoots from the roots, producing three to eight blooms, its peculiar fragrance is luscious apricots. For the Middle and Southern States we claim the Winnie Davis to be an acquisition second to none introduced in recent years. Price, 15 cents each; 2 for 25 cents; two-year-old plants, 40 cents each.

PINK AURORA—New Hybrid Tea.

New Rose—MRS. B. B. CANT.

A fine garden variety of even shade of salmon-rose, round, has the height of a good Hybrid Perpetual. A very free grower and free bloomer. It flowers as continuously and as freely as a hybrid Tea, and is exceptionally beautiful. Price, 20 cents each; two-year-old size, 50 cents each.

MAD. E. DURANTON.

An odd colored Rose. This variety is one of the most unique colored Roses in existence. It resembles Mad. Margottin somewhat, particularly as to the rich red, but is to it a trifle different in this variety. It is indeed a beautiful Rose, more delicately shaded than Mad. Margottin, and a most desirable variety. The color is citron yellow with bright red center, delicately blended. Price, 15 cents each; two-year-old plants, 50 cents each.

Grand New Yellow Climbing Rose, PILLAR OF GOLD.

New Tea Rose—MME. ANTOINE REBE.

Has long buds which open readily into bright red flowers; a seedling of Princess Sagan. Received first-class certificate. Price, 20 cents each; two-year-old size, 50 cents each.

New German Scarlet Rambler Rose—"RUBIN."

When we say that this variety, point for point, is a better Rose than Crimson Rambler, it needs no further recommendation. It is a much stronger grower, has far better foliage, being entirely free from mildew in the open ground. The flowers are borne in loose, graceful clusters, are larger and more double than Crimson Rambler, while the color is brighter-shining crimson-scarlet. The single flower of itself is extremely handsome. Perfectly hardy in all localities, a strong, rampant climber, and so entirely distinct from Crimson Rambler that it will make a worthy companion for that famous variety. Awarded a certificate of merit by the German National Rose Society, the highest honor given a Rose. Price, 20c. each; 3 for 50c.; two-year-old plants, 75c. each.

LEUCHTERSTEIN—(Light Star).

A splendid new climbing Rose originated in Germany. For growing in pyramidal shape, or over pillars, for garlands, arbors, or as single specimens, it will prove highly satisfactory. The flowers are single, but have a charm that is particularly striking and beautiful. Bright rose, with a large white eye, and are produced in splendid clusters. It blooms throughout the entire season, and is quite hardy. Price, 25c. each; two-year-old plants, 75c. each.
ROSE NOVELTIES—Continued.

The Beautiful New Ohio Rose—CLEVELAND.

This is a new Tea Rose of American origin, that we offer for the first time, and take pleasure in announcing as a very desirable novelty. It has been specially selected for the lovely, large, double, semi-double, very fragrant flowers, which are large and very fragrant, and which can be depended upon to thrive in the hardest climates. The color is a beautiful combination of various hues, and the leaves are of a deep, rich green. The flowers are very fragrant, and the blooms are very large and very fragrant. The plant is very vigorous, and makes a very good plant for the border or for planting in the garden. The price is $2.00 per plant, and $10.00 per 10 plants.

New Rose, Cleveland.

New Tea Rose—M. ADA CARMODY.

This is a new variety of the delicately tinted class of Tea Roses, so beautiful in flower, with a combination of colors that is so difficult to describe. The ground color is very white, beautifully tinted and edged with various shades of pink, the center slightly tinged with yellow; very large and full, with fine long buds and a good grower. We consider it a first class new Rose that all should try. Price, 15 cents each; large two-year-old plants, 50 cents each.

SOUVENIR DE M. EUGENE COUVIN.

We think highly of this Rose. It is a fine grower and free bloomer. Flowers when open flat. It combines shades of white and yellow in pleasing harmony, with center of flower deeper yellow. Very vigorous and healthy; blooms freely and continuously from early in summer until late in autumn. The foliage is distinct and bright against the mildew. Price, 15 cents each; two-year-old plants, 50 cents each.

ROBERT DUNCAN.

A new Irish variety of great merit either for garden decoration or for cut flowers. The color is a soft, waxy, velvety, and of immense substance; flowers very large, full and perfectly formed. Growth vigorous and of free-branched habit; flowering freely and continuously from early in summer until late in autumn. The foliage is distinct and bright against the mildew. Price, 15 cents each; two-year-old plants, 50 cents each.

New Polyantha—PRIMULA.

A very showy, low-growing little bush, completely covered with cup-shaped flowers, semi-double, which are china-rose at the edges and snow-white in the center. The arrangement of the colors reminds one of the Chinese Primrose. A pretty bedding plant. Price, 25c. each; large two-year-old plants, 50c. each.

NEW PLANTED STRAWBERRY-COLORED ROSE—META.

A superb variety of novel coloring; crushed strawberry suffused with saffron, base of petals coppery yellow, buds long and isolated. Good habit of growth and prolific bloomer. Price, 15 cents each; large two-year-old plants, 50 cents each.

HALLOWEEN—The Stung Meteor.

The flowers have the same fine, large size and the perfect form of the Meteor, while the color is a rich dark crimson, each petal freely and distinctly striped pure white and pink. Like its parent, the flowers are double, exceedingly sweet, and borne in endless profusion, both in Summer and in Winter. It is quite hardy in the open ground. The only distinctively striped ever-blooming Rose in cultivation. A great beauty. It creates a genuine sensation wherever seen. Price, 20 cents each; 3 for 50 cents; large two-year-old plants, 60 cents each; 2 for $1.00.

FEIFER AND JAMAIN.

Strong, vigorous grower, free bloomer, of Hybrid Tea class. Flower large, full, double; color, rosy crimson, shaded salmon. Price, 20 cents each; two-year-old plants, 50 cents each.

New Beautiful Chameleon Rose, EMILIE GONIN.

This magnificent new Rose is certainly the most beautiful of the new Tea Roses we have ever seen. We believe it will be largely planted when our patrons know of its great beauty. The color is a remarkable thing, creamy white, tinted with orange-copper, a petal and a petal and a petal and a petal and a petal and a petal, the color of the flowers is very distinct and lovely. The fragrance is delightful and its free blooming qualities will be a welcome indeed to all lovers of the Queen of all Flowers, the Rose. The price of a single plant is $1.00, but the price of the first time out, is remarkably low. Price, for strong young plants, 15 cents each; for 25 cents; large two-year-old plants, 40 cents each.

New Golden Yellow Rose—BEBYL.

A deep golden yellow flower of perfect form and very free growing. Each plant is a good grower, and will make a large, free branching habit. A fine addition to the small list of Yellow Roses. Price, 15 cents each; large two-year-old plants, 50 cents each.

The Sensational Tea Rose—LADY DOROTHEY.

This magnificent new Rose is a great improvement on the Hybrid Tea class. It is well worth growing for its novelty, and destined to become even more popular, and will become the sensation of the next few seasons. We have seen very few flowers, and a very good idea of the great beauty of this Rose. We have grown a large stock, and have made the price remarkably low. Price, for fine young plants, 15c., 2 for 25c., 5 for 60c., large two-year-old plants, 40c., large three-year-old plants, 50c. each.

New Tea Rose—MAD. REINE GERARD.

Very sweet scented, nicely shaped bush, opening out to a bloom of perfect form. Greatly developed, Edge of petals bright salmon, shading to a center of bright rose. A most remarkable vigor and healthy growth. Price, 15 cents each; large two-year-old plants, 50 cents each.

Anniversary Color and Tea Rose.

SOUVENIR DE J. B. GUILLOT.

A new and thoroughly distinct Rose, especially in its coloring, which in my opinion is the most perfect of its kind. It is a rich purple-red, shaded from Nasturtium red, shaded with crimson, to a bright coppery red; new and brilliant. Price, 15 cents each; large two-year-old plants, 50 cents each.

New Hybrid Perpetual—SOUVENIR D'ANDRE BAPTY.

One of the most beautiful of recent Hybrid Perpetuals. The flowers are large, double, waxy and globular and full color, velvety crimson; form, free, and color are all extra fine. Price, 20 cents each; large two-year-old plants, 50 cents each.

New Yellow Sunset-colored Hybrid Tea Rose, MILLE. GERMAINE TRUCSON.

The best colored of the Tea Roses. The Rose is that given to the Tea Rose "Sunset." Technically described, it is orange-yellow, with shades of red, fawn, buff, and yellow. This Rose, when seen in nature, is a beautiful one, and is very popular. Price, 25c. each, 2 for 50c., 5 for $1.00, large two-year-old plants, 50c. each.

Spring, 1904.

INNISFALLEN GREENHOUSES, URBANA, OHIO.
THE BURBANK ROSE.

A perfectly hardy, free flowering ever-blooming Rose. The Burbank Rose is well adapted both for outdoor bedding and for blooming in pots in the house during Winter. It is strong and vigorous, with profuse, rich green foliage, not liable to mold or spot. The plant is of bushy symmetrical form, and does not make sparse, open growth out-of-doors, as do so many other choice varieties. Each plant becomes a well-rounded bush that is most effective when grown at some little distance from other plants. It is perfectly hardy. The plants begin to bloom when only a few inches high, and flower most profusely all through the Spring and Summer until stopped by heavy frost late in the Autumn; a bed will furnish a constant supply of beautiful flowers for cutting all Summer, and is without exception the freest flowering Rose in cultivation. The flowers are double, of fine form, nearly three inches across. The color is a deep rose-pink, shading to a beautiful soft rose at the center. The petals are well incurved so that the center is hidden. In September and October the outer petals change to a deep, rich carmine. The whole flower is most pleasure to the eye, is well worth the choice beauty, and is delightfully fragrant. Price, 10 cts. each; 3 for 20 cts.; large two-year-old plants, 40 cts.

Hardy Ever-Blooming Rose, CLARA WATSON

(Hybrid Tea).

A beautiful Rose of large size, very fragrant and fine form; color salmon-pink, blended with blush-pink at the outer edge of petals, shading to yellow at center, making it a very artistic and distinct flower. It must become a general favorite, both in the South and North. A strong grower and a profuse bloomer, a grand summer-bedding Rose. Price, 15 cts. each; large two-year-old plants, 40 cts.

SPECIAL OFFER—We will send you Sixteen Fine Young Plants of Burbank for $1.00, postpaid. These will make you a fine bed, a glorious bouquet. Neither premiums or discount allowed.

New Tea Rose "JEWEL".

A Rose of many colors, the most remarkable Rose in cultivation, extremely novel and beautiful. JEWEL produces flowers that range in color from dark orange yellow to crimson, variegated, blotched, mottled, etc. A plant in bloom shows no two flowers alike. Some will be dark yellow, others light yellow, buff, light and dark crimson, pink, blush, etc., while others will be beautifully variegated. As may well be imagined, the sight which such a plant in bloom presents is a novel and beautiful one. It is a true Tea Rose, the flowers being large and delightfully fragrant and in both bud and bloom exquisitely beautiful. It is a fine grower and profuse bloomer, especially in the open ground. As a Rose novelty, this is the most remarkable ever introduced, and, as may well be imagined, creates a sensation wherever seen. Price, 15 cents each, 2 for 25 cents; large two-year-old plants, 35 cents each.
HELEN GOULD.

Balduin, "Red Kaiserin" or Red Cochet.

The strongest growing, most beautiful and satisfactory Rose for general planting ever introduced. Hardy everywhere. Blooms continuously. Bears flowers the equal of the American Beauty. This fine, new Hardcover blooming Rose we show in cut at bottom of this page. The color is unique, a very soft, intense carmine crimson, with deeper shades in the depths of the petals, in color very like "American Beauty." The profusion of bloom is truly marvelous, every shoot producing a flower. It is a grand acquisition to our red Roses, and is equally valuable for Winter forcing or for Summer blooming in the open ground. Mr. John Cook, of Baltimore, Md., the raiser of Souv. de Wootton, Mrs. Robert Garrett, and other fine Roses, wrote as follows: "I would like to draw your attention to the new red Rose, Balduin" (or Red Kaiserin), the best clean carmine or red Rose yet introduced. I have grown it now for four years, and can guarantee it as the best outdoor Rose in its color." We have a fine stock of this grand new Rose and offer it very low, and at a price that is within the reach of all, considering its great merit and its being a novelty of 1900. We have every confidence that this grand new Rose will attain wide-spread popularity for outdoor bedding or as a grand pot variety on account of free habit, hardiness, superb color and fine double flowers. Price, 10 cents each, 3 for 25 cents; large two-year-old plants, 40c. each, 4 for $1.00 net.

New French Hybrid Tea Rose,

SOUV. De PRESIDENT CARNOT.

Nothing we have seen is so fascinatingly attractive, or as much to compete with the beautiful varieties of the Floribunda. These are all large, perfectly double, exquisitely shaped, with heavy, thick, shell-like petals. Superb buds; long and pointed and borne on long, stiff stems, and are produced in remarkable profusion. The color is new and refined, a very delicate shade of rose, shaded a trifle deeper at the center of flower. The fragrance is deliciously refreshing and charming. The plants vigorous, strong and hardy, and have no weak spot in its constitution. The foliage is unusually large and handsome. In every way it is one of the handsomest Roses, and perfect in its graceful form and finish. Price, 10c; large two-year-old plants, 35c.

VIRGINIA R. COXE,

(gruss an Teplitz.)

The Sweetest and Most Vivid Crimson Rose in the World.

This wonderful new variety is indeed a pearl of the first rank. It originated in Germany, with Peter Lambert. A description is inadequate to portray the beauty of this lovely variety, especially the flowers, which are the glory of the plant. For intense, dazzling color there is no other Rose to compare with it. The flowers are large, full and moderately double, are handsomely made, of splendid substance, and are produced on extraordinarily long stems that shoot out beyond the foliage in free and handsome disorder. The color is fiery crimson, shaded with a dark velvety sheen, producing the most gorgeous effect ever seen in any Rose, and which completely overshadows varieties that have been considered heretofore the most brilliant of their class. The fragrance is distinct and deliciously sweet, more so than any Rose in our collection. It grows to a height of four to five feet, is perfectly hardy in all sections, and blooms all the time. When in full bloom the bush presents a sight that fairly dazzles the eye. This is the most up-to-date and meritorious Rose that has been sent from Europe for a long while. Perfectly distinct. Price, 10 cents each, 3 for 25 cents; large two-year-old plants, 40 cents each, 4 for $1.00.

Grand New Hybrid Tea Rose,

ANTOINE RIVOIRE.

A handsome new Rose of vigorous habit of growth, with large, full camellia-shaped flowers. Color rosy flesh, on a yellow ground, shaded with a border of carmine. Flowers are very large and shaped like the beautiful wax-like Camellia, and have been exhibited five inches in diameter. A remarkable variety of great worth. Price, 15 cents each, 2 for 25 cents; two-year old plants, 40 cents, or 3 for $1.00.

Spring, 1904.

INNISFALLEN GREENHOUSES, URBANA, OHIO.
A beautiful class of ever-blooming Roses from Japan, uniting as they do, hardiness, fragrance and constant bloom, we know of no more satisfactory plant for general use. The flowers are small, perfectly formed, produced continuously in clusters of from 10 to 25 roses.

**Price**—5 cents each; large two-year-old plants, 25 cents each, except where noted.

**ETOILE DE MAI**—(New). Wonderfully free, both in growth and flower. A continuous and persistent bloomer, being literally covered with bloom the whole season. A beautiful soft pink, changing to creamy white, with lemon center in the open flower. *Price, 10 cents each.*

**ELIZA CHATTARD**—One of the most lovely of all Roses; lovely rose colored flowers, elegantly penciled and touched with ruddy saffron. Very free bloomer.

**ETOILE D'OR**—This elegant Rose is certainly a great acquisition; full, round flowers, perfectly double, borne in large clusters, delicately tinged with soft rosy blush. Very free bloomer. *Price, 10 cents each.*

**GEORGIA**—Flowers bright rosy pink, of medium size, with petals beautifully waved and reflexed; soft and pleasing color, fragrant.

**HOTEL DRIVON**—A lovely Rose; perfect, full form, very fragrant; petals pure white, faintly tinged with crimson; a distinct and valuable sort. *Price, 10 cents each; two-year-old plants, 35c. each.*

**MIGNONETTE**—Very small flowers, about one inch in diameter; produced in large clusters; color delicate rose pink, fading to pure white; dwarf, vigorous growth.

**MADMOISELLE CECIL BRUNER**—Plants grow nearly two feet in height; the strongest of the class. Best for flower beds or borders; beautiful clusters of double flowers of a rosy pink, creamy-white edges. Splendid for beds.

**Mlle. ANAIS MOLIN**—(New). A dwarf, compact growth; flowers very large, very fragrant; color crimson; a distinct and valuable sort. *Price, 10 cents each; two-year-old plants, 35c. each.*

**PARQUETTE**—The flowers are pure white, about one inch in diameter, flowering in clusters of from five to fifty blossoms. Very full, perfectly formed, recalling blossoms of the double-flowering cherry; equals double white Primrose in profuse blooming during Winter.

**PRINCE ALBERT**—New. Flowers small, full and imbricated; the outer petals porcelain white center carmine-lake. Extra fine variety. *Price, 10 cents each.*

**PRINCESS ELIZABETH LANCELOT**—A grand new larger flowering variety, like Clotilde Boupert, full and double. Creamy white, canary center. *Price, 10 cents each; large two-year-old plants 25c. each.*

**PETITE LORIE**—(New). Flowers small, full and imbricated; the outer petals porcelain white center carmine-lake. Extra fine variety. *Price, 10 cents each.*

**SPECIAL OFFER**—For $1.25 we will send the Set of 18 FAIRY ROSES, postpaid. The Set of 18 large two-year-old plants for $3.50, postpaid. No further discount or premium.

---

**THE OLD ENGLISH SWEETBRIAR ROSE.**

No Garden Should Be Without One Plant at Least.

**EGGANTINE**—Very desirable for shruberies and general planting. Flowers are bright pink and single but the exquisite fragrance of flowers, leaves and fruit is unequalled. A beautiful shrub, and a favorite for the shrubbery around the home. *Price, 25 cents each; large two-year-old plants, 50 cents each.*
price, 8 cents each, except where noted. Large two-year-old plants cost 25 cents each, except where noted.

New Rose, White Marelch Niel. — New Climbing Rose. Identical with its famous parent, save color. The fame of Marelch Niel, with its large, deep golden yellow flowers, is so world wide that nothing further is needed of this shrub plant in general. It is more popular than that it is an exact counterpart in every respect of Marelch Niel. — This rose has finely formed, very ample, very large, very double; full, form of buds and flowers like the Yellow Niel; color carmine red, shading to pink; very sweet; most floriferous on the last year's branches; growth very strong; climbing; leaves very large. Received a gold medal in the Great Exhibition of 1857 at Frankfurt-on-Main. Price, 15 cents each; for 25 cents; large two-year-old plants, 40 cents each.

New Rose, Red Marelch Niel. — A cross between General Jacqueminot and Marelch Niel. Flowers very large, well shaped, full; form of buds and flowers like the Yellow Niel; color carmine red, shading to pink; very sweet; most floriferous on the last year's branches; growth very strong; climbing; leaves very large. Received a gold medal in the Great Exhibition of 1857 at Frankfurt-on-Main. Price, 15 cents each; for 25 cents; large two-year-old plants, 40 cents each.

Pink Rose.—A decidedly meritorious new Rose of semi-climbing habit. The color is pale pink, deeper in the center of the flower. The open flowers have the tints of Alba or Maiden's Blush Roses. The flowers are large, full and expanded, and exceedingly sweet; most useful in the bud state for button-holes. A most desirable variety for pegging down for pillars, standards, or covering moderately sized spaces on walls or fences; in fact, a shrub with the greatest protection. The growth and bloom is extremely free; worthy of extensive planting. Price, 15 cents each; large two-year-old plants, 35 cents each.

Reine Marie Henrietta, or Red Flowering Gloser de Dijon. — A strong, vigorous grower; flowers large, full and of fine form; color, red; flowers very sweet. Succeeds well in the South. Price, 10 cents each.

Solfaider. — Climbing habit; fine, clear, sulphur yellow; large full and double; very sweet.

The Mary Washington Climbing Pillar Rose. — This Rose, as widely advertised, is claimed by the introducer to have originated in the garden of George Washington, at Mt. Vernon, over one hundred years ago. It is an ever-blooming Climbing Rose of vigorous, rapid growth, and makes a profusion of fine buds, which are borne in large clusters. The flowers resemble the Polyantha Roses and are of medium size, perfectly double, very sweet and borne in endless numbers all summer long. Price, 10 cents each; large two-year-old plants, 35 cents each.

Waltham Queen. — A splendid, new, ever-blooming Climbing Rose; hardy in the North. It is a strong grower and continuous bloomer. The flowers are very showy, bears blooms of bright scarlet crimson, very beautiful and a profuse bloomer. Nothing can compare with this for beauty of bud and foliage, and it literally lavishes in the greatest of profusion its rich, red flowers of magnificent size. Price, 10 cents each; large size, 35 cents each.

William Allen Richardson. — Orange yellow, with outer petals lighter, center coppery yellow with very rich, rapidly becoming popular. All Rose growers, where the Climbing Teas are hardy, should plant this beautiful Rose, as it is a lovely and unique shade of yellow; some one year's growth is deadly in the West. Price, 10 cents each; large size, 30 cents each.

THE VIOLET-SCENTED LADY BANKS, OR BANKSIA ROSES

These are fine Climbing or Trailing Roses, very good for the South or Pacific Coast, where the Winter Winters are not too severe. They require no more than three years' growth to bloom to perfection, and are therefore beautiful. Flowers are produced on the old growth; prune very little, merely cutting away what is absolutely dead, allows the plant to resemble a double cherry blossom, the size of a silver dime; produced in large clusters and have a decided violet perfume.

White Banksia.—A pure untinged white. 10 cents each.

Yellow Banksia.—Rich golden yellow. 10 cents each.
OUR CHOICE BOUQUET LIST OF
Ever-Blooming Tea Roses.

Price, 10 Cents Each; any 3 of your selection for 25 Cents; large two-year-old plants for 25 Cents; Each; Any Three of your Selection for 50 Cents.

SPECIAL OFFER. We will send you 10 one-year-old Roses from the Bouquet List, our selection only, for 50 cents, or you may select any 8 for 60 cents, postage paid. You may select any 8 large two-year-old plants for $1.25, or we will send 10 plants, of our selection only, for $1.25, postpaid. No other premium or discount allowed.

ALIVE SISLEY.
One of the best. This is a splendid, free-flowering, strong growing, dark colored Tea, and beyond a doubt one of the most satisfactory varieties for old ground and cottage gardens. The flowers are large, full and double. The color is a rich, rose color, de bewitching with crimson shading. The fragrance is exceedingly sweet and more pronounced than is found in most Teas. It blooms with wonderful profusion of a hand red variegated green.

AMERICAN PERFECTION.
This is a very fine Rose, and worthy of a place in the list. The color is light pink, shading deeper toward the center of the flower. The flower is very double, full and deep; in the bud it is exceedingly handsome. Fine free bloomer and strong grower, especially adapted to Winter blooming.

ANDRE SCHWARTZ.
(Ever-blooming "Jack")—Since its introduction this Rose has been known as the "true August rose," because of its striking resemblance to that famous variety. The flowers are beautifully made, being large and full, with petals that show the brilliant glowing scarlet, passing to rich crimson, very bright and strikingly beautiful. It is a strong, sturdy grower, and a constant and profuse bloomer. Can not be surpassed in the open ground.

ALESA ROSA.
The prevailing color is rich creamy white, center most elegantly tinged with soft silvery rose giving an exquisite Mother of Pearl effect. The plant is a good, vigorous grower, that will bear plenty of large buds and flowers. This is a great favorite with our old friends, and should be very popular with our new ones.

BEAUTE INCONSTANT.
A very wonderful, new changable colored Rose, deriving its names from its number of producing flowers of different shades on the same plant. The colors vary from light pink, to deep carmine, to full shades of tawny red, orange, chrome and deep rose, all three colors being frequently seen on one bush at the same time.

BOUGÈRE.
Old and famous. Any one who has seen this grand old tea growing in the open ground will agree that it deserves the brightest words of praise we can give it, having been introduced in 1832. Since then it has been tried, and found to be of rare value for general planting. The flowers are unusually large, deep, full and double; they are supported on long stems, and are produced in beautiful abundance throughout the growing season. In color they are bronze rose or violet crimson, very soft and pleasing, shaded with lilac; exceedingly sweet; remarkably hardy.

BON SILENCE.
A grand old Rose. This remarkable Rose was introduced in 1835, and in this time its beauty has superseded it, a fact that bears ample testimony of its valuable qualities. It is superb in every way. Petals are all white, loose and free; shape and beauty of its buds, which can not be surpassed for beauty in the whole rose family. The color is deep rose, sometimes bright red or crimson, occasionally pale light rose. In the open ground it grows to perfection, producing crop after crop of its beautiful flowers in unbroken continuity, from early Spring until late in Autumn. Of all the Teas there are none better known to flower men than this, and it has been planted by cut-flower growers. It is exceedingly fragrant, and like Marechal Niel the odor is peculiarly its own.

BOUQUET OF GOLD.
We place this elegant Rose the first on the list of yellow Roses for several reasons. One color it is a deep golden yellow. There is no denying the fact that yellow and white Roses are admired by every one, but the yellow has the more admirers of the two. The size and shape are all that could be desired. Full, round flowers of the largest size, perfectly double to the center, and the fragrance is elegant. The growth is vigorous, and it is a very beautiful tint of green that goes so well with yellow. If you have heretofore been disappointed in getting a yellow Rose that pleases you in every particular, don't fail to try this one, as it will not only win your favor, but forever retain it.

BARENESS BERGE.
A bewitching Rose, full to the center, and rather short-petaled, but with plump, chubby buds, that are dainty and pretty for wearing. Color scarlet, and almost indescribable, catching the eye at once; outer petals a tender lemon-white, passing to lillac-rose on reflexed edges, which paint each other, and result in a vision to glimpse the yellow shade below. The center curls the prettiest cup-shape, lighted by tints of apricot and soft rose-pink.

COMTESSE DE BRETEUIL.
An exquisite Tea Rose; fine shaped buds and flowers. Color orange, delicately tinged with apricot and russet copper; beautiful in bud or flower; fragrant.

CHARLES LEBRARY.
A fine bedding Rose. This splendid Rose is almost unexcelled for general planting, particularly for bedding purposes; color, fine chamois red, richly shaded dark crimson; very sweet and a constant bloomer; we recommend it as extra fine.

COUNTESS EVA STARBEHEM.
Long, pointed buds on thick stems; color, creamy yellow, shaded and touched with rose.

DR. GRIFF.
Coppery yellow, with fawny rose reflex; a fine garden Rose. Remarkably handsome.

DUCHESS OF EDINBURGH.
Large buds of the most intense dark crimson.

DUCHESS DE BRABANT.
The people's Rose. Every order we get from New Orleans includes this choice. It is one of the few varieties to obtain new varieties of Roses, rosarians and dealers are too often prone to overlook old standard sorts which are unquestionably meritorious. Roses come and go, but these go on forever. Duchess de Brabant unites in the highest degree the most attractive features of a garden Rose. It is vigorous, never fails to produce flowers, healthy, rarely diseased in any way, large, full, bloomed, beautiful in the bud or open flower, a beautiful shade of soft rose flesh, deepening to warm pink and bright rose, delicately edged with silver, Delightfully fragrant.

DOUGLAS.
Dark cherry red, rich and velvety; large, full and fragrant; a neat, compact grower and free bloomer.

DEVONIENSIS.
The charming Magnolia Rose. We doubt if there is scarcely any one who does not know of the beauty of this fine old Rose. But, there is no other variety like it, and more beautiful Rose than this. It is precisely like the old, and the name Devoniensis. It is one of the handsomest when it is in bloom, with large, very full and double, and delicately scented.

DIRECTEUR RENE GERARD.
Remarkable for its size, fullness, and bright color combination of its blossoms. Color light-yellow bordered with China-rose, deepened at base of petals; the full, rich center of flower is bright, peachy pink. Fragrant, free blooming, robust in growth.
EVEER-BLOOMING TEA ROSES—Continued.

DUKE OF YORK.

Flowers variable between rosy pink and white; sometimes white-edged and tipped with deep crimson, sometimes perfectly crimson, but always beautiful and quite distinct from any other Rose; of vigorous habit; one of the best bedding sorts in the lists, and a beautiful plant.

DAVID PRADDE.

One of the most charming Roses we have, and one that is always in flower for Summer bedding or indoor planting when it becomes known. While this is an old-time Rose, with good reason for its continuance in the lists, it has been generally sent out as not true to name, and was very inferior if sent at the wrong season. We believe that this perfect, direct from Europe, the true stock. Its habit is perfection, of strong, upright growth, with the classics of perfection, its flowers are produced in profusion on long, straight shoots, deliciously fragrant, and of the largest size, double to the center, and of the most beautiful form. The coloring is an exquisite blending of lilac and rose, with a delicate rich crimson center. It is very beautiful in the bud state, but particularly so when the bud is unfolding in the flower; we believe the perfection of color and the shading is almost indescribable and must be seen to be appreciated. Do not fail to secure one or more of this variety.

ENCHANTRESS.

Introduced from England. Flowers are beautiful creamy white, slightly tinted with buff in the center; large, round, petals of softest texture at the edges; of vigorous growth, fine foliage, and grows well in either the greenhouse or outdoors. A first-class Rose for general planting, particularly for bedding in the open ground. The flowers are large, finely made and open beautifully. When fully open there appears to be a flower within a flower, so perfect is the form. The color is rich ivory white, shaded and veined with a fine coppery red and highlighted with light pink blush. A truly grand and beautiful Rose, and one that by reason of its great excellence ranks among the best in cultivation.

LETTY COLES.

Very large, 'sweet and handsome. With great, large, double, soft, globular petals, this is a most beautiful Rose like a Hybrid Perpetual than a Tea Rose. This variety is justly regarded as one of the very finest Roses in cultivation. It is very full, long and globular in form, very double, and are produced in wonderful profusion on stiff stems. The color is rose, a soft russet, and blooms excellently for a long season.

LA BLES.

The feeding room, imported from France. Extra large size, splendid full form; very double; delicious tea scent; color rich coppery rose, changing to buff, shaded with crimson; center sometimes brilliant rose crimson.

LOUIS RICHARD.

A superb Rose, imported from France. Extra large size, splendid full form; very double; delicious tea scent; color rich coppery rose, changing to buff, shaded with crimson; center sometimes brilliant rose crimson.

MADAME CAROLINE KUSTER.

Bright lemon yellow; very large and handsomely shaped; one of the finest Roses; very free flowering. When its wood has once been hardened it bears buds as large and handsome as Marethal Niel.

MAD. PIERRE GUILLOT.

A magnificent Rose. This is undoubtedly one of the finest and most beautiful Tea Roses recently introduced; large, long-stemmed, with a delicious, sweet, rich, heady fragrance. Color, delicate orange yellow, distinctly veined and bordered with clear pink. Altogether a most splendid and valuable variety. It makes fine, large, pointed buds, a good healthy grower and a most luxuriant bloomer, excellent for forcing and conservatory, as well as for open ground.

MADAME DE VARY.

One of the brightest Roses. We consider this splendid variety to be not only one of the brightest, but one of the very best and most satisfactory Roses for general planting, especially outdoors. It makes big, clean buds of great beauty, and opens well, showing the large, full, double flowers to great advantage. The color is a rich crimson scarlet, bright and beautiful. Blooms freely, constantly growing strong and healthy; holds the foliage well. In every way a fine Rose.

MADAME SCIPION COCHET.

Color, a soft primrose yellow, with Rose shadings; unique in size and shade of buds.

MADAME DE DUVAL.

Flower of medium size, with long, pointed buds; semi-double; when fully open; a novel and distinct color, orange yellow, changing to pink and orange in the open flower. Prolific bloomer.

MAD. JOS. SCHWARTZ.

One of the old-time favorites and one of the most hardy Tea Roses. This Rose thrives well in general planting. It produces its bloom in great profusion; color, white, beautifully flushed with pink.

MADAME DE LA ROCHE.

One of the most lovely of all pink Roses: strong grower with bright pink flowers. Much admired in the South.

MADAME LOMBARD.

A first-class Rose for bedding. Extra large, full flowers, very double and sweet. Color a beautiful shade of pink and orange, very soft, and beautiful shaded with rich bright crimson.
MARIE LOUISE.
While this is not a new variety it is the first time it has been catalogued under the name of Marie Louise, and as we have a new Tea Rose under the same name in our five-year list we have called it as Marie Louise. It is probably the best pink or flesh colored Rose, being a strong branching grower. Flowers and foliage are very fine, and the bloom long and exquisitely fragrant. Try this in your garden. It will please you.

MADAME BRAY.
One of the most beautiful colours in our collection. The flowers are large and round; the outside of buds is creamy and soft, with a most charming blush to their edges. It is a beautiful light apricot and is seldom equaled for beauty. Delicious tea scent.

MAURICE BOUVIER.
Fine globular and very full, with exceedingly sweet; the color is bright pinkish rose, elegantly tinted with shades of buff, and perfectly veined which appears as deep staining. Flowers have a wide border of silvery white. It is a good, strong grower and most prolific bloomer, well worthy of high commendation.

MAD. CAMILLE.
A magnificent Rose, large, very full, large and full, immense buds; color deep rose, changing to saigon rose, elegantly shaded and suffused with deep carmine; very strong.

NEW ROSE, THE GEM.
(Or the Fair Unknown)—This Rose is identical with Marie Van Houtte, only the name was changed—this name being reserved for a Rose of the same kind and coloring. This variety is never to be seen for sale. It is a very fine variety, and its adoption to house culture, it is grand for bedding out and also as a mass of bloom. You can not help but be pleased with it. The plants for $1.00. Or will be sent by express at $5.00 per hundred.

SUNSET.
This exquisite orange-yellow variety is one of the finest Tea Roses grown. The flowers are large and double. The exquisite shades of coloring in this variety are so charmingly combined that it is a true Summer sunset; hence the name. It is deliciously fragrant. A strong growing and free flowering variety.

MADAME DUFFIELD.
Originated with Luther Burbank, whose skill as a hybridizer has earned him the title, 'The Wizard of the Hedges.' This Rose is a very hardy and old and it will prove quite hardy everywhere with slight protection. This Rose is a wonderful improvement in size, brilliancy of color and perfection of form, and with Hermosa's reckless habit of blooming at all seasons. Every little plant commences to bloom as soon as it starts from a cutting. It grows so rapidly that it makes a fine shapely bush in a short time comparable to the very best stock. It has crimson, very full and double with reflected petals. Foliage is always free from rust, mildew, or any defect, and it will grow any where it can get a chance for life.

MADAME TOBIAS.
This is one of the grandest Roses in this book. It is a very strong free-grower, throwing up strong, erect stems, it blossoms freely and freely. Large, full, deep, double flower of exquisite shape and color, creamy white, shading to yellow. Beyond question this is a superb Rose, and one that excites forth exclamations of admiration from all who see it.

MADAME BEAUME.
A changeable Rose. This is one of the really elegant Roses, distinct and beautiful; very double, full and sweet; buds exceedingly pretty. The color is rich and, like the Beauce Inconstant, is variable. One will produce flowers of many colors that are rich and creamy in the extreme. The colors range from apricot yellow to rosy blush and crimson. The fragrance is delicious and different from any other variety we know; it is rich and suggests the delicious fragrance found in cherry blossoms. This is exceedingly fine Rose and one that everyone will like.

WHITE PEARL DES JARDINS.
A pure ivory white "Pearl" Rose; very large, full, deep, double flower. A superb Rose.

WHITE BON SIENE.
A companion to and exact counterpart of Bon Sienne in everything save color. This elegant variety is of the very finest, and is famed as the "white hybridizer's dream." It is considered as the very best of all white Roses, except in color, which is pure white. It is a sport from Bon Sienne, and has the same vigorous habit of growth, freedom of bloom, and shape of flower. It is, however, different from any other variety we know; it is rich and suggests the delicious fragrance found in cherry blossoms. This is exceedingly fine Rose and one that everyone will like.

SOMBEUL.
A grand variety in every respect, combines vigorous growth with hardness, and is very forrific. Flower, 10 to 12 cents; plant, pure white, 50 cents each. Everybody should plant this beautiful Rose. Price, 10c. each; large two-year-plants, 40c. each.

SANGUINEA.
The great Rose for house culture (or Otahite Rose). This is a splendid Rose to be kept in the window in the past twenty years, except in certain localities where its worth and beauty have been known. It belongs to the tea or rose family, and is the one Rose that is eminently adapted to house culture. It produces from 2 to 3 dozen stems year after year and the flowers bloom profusely. It is the only Rose in our whole list that will grow luxuriantly and bloom freely under conditions of house culture, or in a reddish cast, when growing rapidly. The flowers are semi-double, of the most intense velvety crimson, very large, perfect in every way, and is therefore the most beautiful of all the Sanguinea Rose. A glorious variety for house culture, and very well adapted to the windows of this season. A large two-year plant, 50 cents; small one, 75 cents.
STANDARD

EVER BLOOMING ROSES

Price, Strong Young Plants. 6 Cents Each: Large Two-Year-Old Size, 20 Cents Each.

Abbe Rousan.—Creamy white, shaded rosy blush.
Adam.—Bright, flesh salmon rose. Extra large and double.

THIS IS A GREAT OFFER and we defy competition to equal it. REMEMBER, that the above offers are net; no other discounts or premiums given.

THE BEST SIX NEAREST BLACK HARDY ROSES

SPECIAL OFFER: The Set of Six for 50 Cents; the Set in Large Two-Year-Old Size for only $1.25. No further discounts on these offers.

If you wish the nearest Black Hardy Hybrid Perpetual Roses you should order the varieties named below. They are the darkest of any, and exceedingly beautiful. Try them.

ANTOINE QUIXON.

Extra large flowers, very full, compact and regular form. Color, a rich, violet crimson, elegantly tinged and shaded with mauve red; a free bloomer and very sweet.

Price, 15 cents each; large two-year-old plants, 50 cents each.

BARON DE BONSTETTEN.

Splendid, large flowers, very double and full. Color a rich, dark red, passing to a deep, highly scented and very beautiful.

Price, 15 cents each; large two-year-old plants, 40 cents.

BLACK PRINCE.

A superb Hybrid Perpetual Rose; very dark, blackish red, richly scented with violet crimson; large, full flowers, deeply pointed, very sweetly perfumed; good bushy habit; a hardy and vigorous grower, and free bloomer. One of the very best dark Roses.

Price, 15c. each; large two-year-old plants, 50c.

DUKE OF EDINBURGH.

Dark, velvety maroon; full, regular form; very handsome and fragrant. A perfect beauty, each; large two-year-old plants, 40 cents each.

PRINCE CAMILLE DE ROHAN.

The Black Rose.

This is a magnificent Rose, celebrated the world over for its large, handsome, fragrant flowers and the freedom with which they are produced. The color is a deep, rich, velvety crimson, passing to intense maroon, shaded black; at a short distance they appear really black. This is one of the most handsome Roses we have ever seen. It is the nearest black; although the same claim is made for others, this variety is the darkest, and most fragrant.

Price, 15 cents each; 2 for 25 cents; large two-year-old plants, 50 cents each, 3 for $1.00.

SOUVENIR DE DUCHESNE.

A superb Rose. Extra large, compact flowers; very full, double and sweet. Color, a beautiful, brilliant scarlet, deepening to dark, glowing crimson; very rich and handsome.

Price, 15 cents each; large two-year-old plants, 30 cents each.
HYBRID TEA ROSES

Price, 10 cents each; large, two-year-old plants, 25 cents each; except where noted.

This is a comparatively new class, the result of crosses between the Teas and Hybrid Perpetuals. In this class will be found many varieties famous for their vigor, profusion of bloom, brilliancy and exquisite perfume. They are among the very finest of the various classes of both the Teas and Hybrid Perpetuals, and as much as they bloom freely the first year like an ordinary Tea Rose, they have the desired form and perfect fragrance, together with vigor and hardiness. South of the Ohio they are hardy; in the North, they will be benefited if given slight protection.

AMERICAN BEAUTY—Many of our friends know all about this grand Rose, and value it accordingly. To others we would say that it is well known as one of the best and most valuable Roses, both for garden and florist use, as it has a very handsome, extra large, full flower, with an exceedingly sweet, makes magnificent buds; is a constant bloomer. Price, 25 cents each; large two-year-old plant, 50 cents each.

ANTOINE VERDIER—Large, beautiful flowers: bright glowing pink, beautifully shaded rich crimson, very full and sweet. A constant bloomer; fine for bedding.

AURY STAPFORD—Color: bright pink, shading to bright rosy crimson. A most charming Rose with beautiful buds. Fine for cutting. No better garden Rose in our list.

BELLE ZEUGERCH (New)—Described, as imperial pink of good form, large flowers, borne on good strong stems, and retaining a good shape when fully developed. Good vigorous grower; large, handsome foliage. Price, 15 cents each; two-year-old plants, 25 cents each.

GACE DARLING—A splendid Rose, not new, but always spaced on account of the flowers are large and full, exquisite form and very sweet; a strong, vigorous grower; color, a porcelain rose, elegantly shaded with vinous crimson; a decided color, but the flowers oblige the ground of beautiful yellow upon which it rests. A beautiful Rose; when once seen will never be forgotten; this is one of our pet varieties, and we think this is something sweeter than this.

MADAME CAROLINE TESTOUT—The petals are large, and of the elegant La France form; exquisitely edged and bordered with a rich velvety rose; color, a brilliant, satiny rose, deepening to clear red.

MADAME VEUVE MENIER—A strong, vigorous grower, produces in a great profusion. Pale, light rose; flowers of good size, double and very free flowering.

MAD. JULES TINER (New)—A Rose of great beauty. The large flowers are perfect, rose and salmon-colored center passing to salmon-lavender edge. Price, 15 cents; large two-year-old plants, 25 cents.

MADAME SCHWALLER—Like Puritan, this Rose has the strong, firm growth of the Hybrid Perpetuals, the same form and finish of flowers, being especially beautiful when fully blown. It is very free in bloom and has the fragrance of the old June Roses. The color is a bright rose, brown red, paler at the base of the petals and deepening at the edge. Apt to come in clusters. A Rose from which we hear very flattering reports from all directions. This grand Rose has more perfume and beauty than any we offer. Try it; it is magnificent. A veritable Pink American Beauty.

VISCOUNTESSE POLLESTONE—(Southern Queen) Unusual passed among light colored varieties. It is very graceful and has strong, heavy foliage. The flower is delicately tinted flesh color and pales to rose, and luminous as satin. When fully blown, it is like a white Peony, but with a suggestion of stiffness. Full flowers often measuring six inches in diameter, and are defender of Peony, vigorous and free blooming.

MRS. DEGRAV—One of the best Roses for general cultivation. It is entirely hardy and equals the tender sorts in profusion of bloom. From early summer until frost it may be depended upon to produce flowers in abundance. In color it is a rich, glossy pink, delightfully fragrant, and is such a grower that it is almost imperceptible against the attacks of insects, which usually destroy some of our finest Roses; thus it is certain to be unequalled for the garden.

SOUT. DE WOOTON—A magnificent Crimson Hybrid Tea Rose; carmine crimson, with deeper shadings at the base of petals, which only tends to liven the color more. One of the most beautiful scented Roses in the whole list. It is very hardy and a constant and prolific bloomer, every shoot forming a flower bud. It is one of the most satisfactory of all ever blooming Roses, and is also highly valued as a Winter flowering Rose. We think it equal to the much lauded American Beauty, and prefer it above that noted variety, as its color is so much purer and brighter.

TRIUMPHE DE PERNET PIERRE—Originated and sent out by Jean Pernet, one of the most celebrated Rose Growers of France, and one of the most successful women of his day. The flowers are extra large, having broad, thick petals and long, tapering, delicious tea fragrances. Color, fine clear red, sometimes passing to bright crimson; very striking and beautiful. Exquisitely formed buds and flowers, perfectly double to the center.

PIERRE GUILLOT—One of the most valuable of all Hybrid Teas, and remarkable for its very brilliant color, bright, daz-
Rosa Wichuriana.—This Rose is especially desirable for planting in connection with Native Trees, as the growth of the Wichuriana is entirely of bloom. All who want a beautiful Rose to plant on a grave should plant this one. Six plants will completely cover a grave and be in bloom all the year. It does not grow wide, but spreads on the ground like myrtle. It is of a very rapid, prostrate habit of growth, not over 8 inches in height, quickly covering the ground with a mass of deep, glossy green foliage. In mid-June the flowers appear in bunches. In position and coloring all Summer. Flowers are about 2 inches across, single, creamy white, with chartreuse centers of gold. It is hardy, will grow in any soil or loamy, cover a cover plant on banks, edges, or masses of rock this is unsurpassed, quickly producing the effect desired, and this with the showiest of foliage and at a season when flowers are becoming scarce. Used in quantities for landscape work in parks and cemeteries, and no private place exists on the grounds of which it cannot be an advantage. Price, 10 cents each; 3 for 25 cents; or for $1.00 will send 16 plants; large two-year-old plants, 35 cents each.

NEW HYBRID MEMORIAL ROSES.

Price, 10 cents each; 3 for 25 cents; except where noted.

This new race of pretty, hardy, running Roses need no protection in Winter, and for their trailing habit are very valuable for the flower garden, and nothing in the Rose line better adapted for the cemetery or public parks, or for covering rocky slopes, embankments, etc. They are also very fine for planting in border or along paths and walkways. Very hardy, grand pot plants for the house or conservatory, and can be used as climbers.

Debutante.—(New.) Of the many seedlings of Wichuriana introduced yearly, this one promises to be one of the finest. It blooms freely under all conditions, and makes one of the finest pillar Roses imaginable. Flowers are quite double, pure white, in clusters. Very showy. Perfectly hardy, resembling its parent, Wichuriana. In this respect, but far surpassing it in freedom of bloom and form of flower. Price, 15 cents each; 3 for 25 cents.

Mand's Triumph.—This is a grand hybrid of true growth, with fine foliage and clusters of from twelve to sixteen flowers on even a small size bush, literally covering the plant with its perfectly formed, double, white flowers, giving it a beautiful and imposing effect. It is a valuable variety, either for cut flowers or pot plants. It is also very sweet scented—A

Pink Roemer.—The growth is very rampant, and the luxuriant foliage partakes more of the Wichuriana. The single flowers, which are produced in clusters here, are nearly two inches in diameter; bright rich pink, with almost a white center, which lightens up the orange red stamens, producing an effect which, combined with fragrance, makes it one of the most valuable Roses in cultivation.

Sweetheart.—(New.) Reminisce of its parent, Wichuriana, both in foliage and hardiness of constitution, but flowers are a beautiful shade of rose pink, produced very freely, and has a much longer season of bloom. Both this variety and Debutante may be used as pot Roses, allowed to trail over rockeries or terraces, or trained to climb over trellises and pillars. Price, 15 cents each; 3 for 25 cents.

SPECIAL OFFER. THE SET OF EIGHT NEW MEMORIAL ROSES 50 cts.

The New Evergreen Wichuriana Roses

These are the most remarkable achievements and improvements of a new race and a distinct type of Hardy Roses that have been made for a generation. The growth is remarkable for its freedom, a single plant, four years old, covering a space of 250 feet, with long shoots, twelve to twenty-five feet in length, completely covering the ground with its bright, glossy foliage and showy, fragrant flowers. The foliage of all is leathery in texture, shiny, and not only proof against insects, but evergreen always; that is, keeping the foliage on all Winter, a characteristic in Roses never before obtained. The Wichuriana Roses will be ideal to cover graves, rocks, stumps and stems of trees, walls and trellises, also for forcing, as for pot plants during Spring, especially for Easter.

Gardenia.—(Wichuriana X Perle des Jardins.) Strong grower with large green foliage. Flowers produced singly on stems one-half to one foot long. When in bud hardly distinguishable from Perle, bright yellow, and when open, cream color; three to three and a half inches in diameter; incurring towards evening to perfect imitation of Gardenia, or Cape Jessamine as to shape and color; hence the name. Flowers are delightfully fragrant, and produced freely. A grand Rose for any purpose. Price, young plants, 10 cents each; large two-year-old plants, 40 cents each.

Evergreen Gem.—(Wichuriana X Madame Roote.) Not only evergreen, but grows during mild Winter weather. Stems long, branching, rich bronze color, covering the ground closely. Its leaves are very deep green, young leaves fine, rich bronze color, closely matted; flowers double, produced singly on stems; yellow bight in the opening almost to pure white, two or three inches in diameter; perfectly double, and with a delicate sweet rose fragrance. This will be the most valuable for hardy, rockery, or garden use, or as a valuable substitute to Gardenia. Price, young plants, 10 cents each; large two-year-old plants, 40 cents each.

Jersey Beauty.—(Wichuriana X Perle des Jardins.) Extremely vigorous grower, foliage shiny, thick, of leathery substance, flowers singly or in clusters of two to four; petals numerous; color light pink, tips slightly pink, inner petals paler yellow, outer petals rose pink, stamens white, in clusters of bright yellow stamens, give it a most striking effect; very fragrant; height two to three feet. Price, young plants, 10 cents each; large two-year-old plants, 40 cents each.

SPECIAL OFFER. The set of three varieties, strong young plants, for 25 cents; twelve plants of either variety for $1.00, net. The set of three in large two-year-old plants for 75 cents, net.
For permanent planting the Hybrid Perpetual Roses are the most valuable of all hardy plants. The flowers are very large, of delightful fragrance, and the colors are more rich and varied than those of the ever-blooming Rose. They are not, as a rule, constant bloomers, but, if well cared for, bloom in great abundance, and flower profusely in June, with occasional flowers during the Summer and Autumn months. While very few of the Hybrid Perpetual are known to the public, attention, they will richly repay careful attention in pruning, cultivation, and matching in the fall with stakes and mulch. The following list embraces the best varieties in cultivation.

**Price, 10 cents each, except where noted. Large, two-year-old plants, 25 cents each, except where noted.**

**Alfred Colomb.**—A bright carmine crimson. Very large, full and fine, globular form.

**Lana de Diesbach.**—Long and pointed buds; brilliant crimson, sometimes shaded with bright maroon.

**Ball of Snow.**—(Bonne de Neige.) In this variety we have a hardy ever-blooming Rose of great value. It is a Rose of great size, perfectly double, exquisitely fragrant, of a rich crimson, and extremely hardy, invaluable for cemetery planting or where white flowers are desired, as it blooms freely all Summer. Price, 10 cents each; large two-year-old plants, 35 cents each.

**Captain Christy.**—The color is a lovely shade of pale peach, deepening at center to rosy crimson. **Price, 15 cents each.**

**Caroline de Schœnenberg Cemetery Rose.**—A hardy Rose that is always in bloom. As a bedding Rose this variety has no equal. It is a transparent, partially reflexed, crimson, being constantly covered with flowers the entire Summer. The blossoms are of medium size, full and double; very pretty clusters. Color pure white, slightly tinged with pink, with delightful tea fragrance. The bush is low growing, and especially adapted for border or cemetery planting. It is entirely hardy, having withstood unprotected a temperature of 10 degrees below zero without the least injury.

**Clio.**—Greatest addition to our list of white or blush, hardy garden Rose. This beautiful variety is perfectly in form; fine, broad petals; high full center; magnificent in all its stages of growth. Colors, delicate pink blush, a light shade of rosy pink at center. Plant is strong, vigorous growing, very free flowering, and gives the good qualities, has the habit of being a prolific bloomer; without question the finest white hybrid to date. Large illustration will give you a fair idea of the magnificent blooms. **Price, 15 cents each; large two-year-old plants, 40 cents each.**

**Coquette des Alpes.**—A lovely, pure white Rose. Very full and fine in flowers. **Price, 10 cents each.**

**Coquette des Blanches.**—One of the finest white Hybrid Perpetual. Flowers large; pure snow white; very double, full and fragrant. A constant bloomer.

**Countess of Rosberry.**—We have in this charming variety probably the most beautiful Rose grown. No other Hybrid can approach it in its exquisite coloring and fragrance. One would take it for a Hybrid, as it is delicate and beautiful in its tints as the most gorgeous of the Teas. Color satin-pink in the center, and deepens in the lateral petals to a bright pink. It is very free flowering; gives it the appearance of two distinct colors. Very free flowering; a good color, beautifully scented; **Price, 15 cents each; large two-year-old plants, 35 cents each.**

**Dinsmore.**—Very similar to Madame Charles Wood, but claimed by some as a distinct variety. This Rose is equally as fine in color and more fragrant. It is a vigorous Rose of dwarf, branching habit, and is fairly covered down with flowers all Summer long. The flowers are large, perfectly double, a sort of yellow crimson. A very fine, rich, scented fragrance. **Price, 15 cents each; large two-year-old plants, 35 cents each.**

**Empress of India.**—Dark, rich, velvety crimson, perhaps the darkest variety.

**John Holmes.**—Dark, rich scarlet, elegantly shaded with deep, very rich crimson; beautiful, extra large, full flowers; fragrant.

**Francois Levet.**—A very beautiful Rose. Soft China pink, delicately shaded carmine and blush; large finely formed flowers, deliciously fragrant.

**Fortune’s Double Yellow, Beauty of Glazenwood.**—Bronzed yellow or copper and fawn color. Remains a long time in bloom, a strong and healthy plant. **Price, 15 cents each.**

**General Jacqueminot.**—A rich velvety crimson, changing to scarlet crimson. A magnificent Rose, equally beautiful in the bud state or open. This is the best known of all the Hybrid Perpetuals, and is without a rival in fragrance and richness of color. It is, moreover, as easy of cultivation as any of the best of the common varieties and perfectly hardy.

**Giant of Battles.**—This is still esteemed the very best, rich, red Rose. Very large, full and sweet.

**Glorie de Lyonnaise.**—The flowers are a pale shade of salmon or salmon yellow and shaded red, orange and fawn. **Price, 10 cents each.**

**Gustave Pignan.**—The color is a beautiful shade of bright and brilliant carmine and dark crimson. **Price, 15 cents each.**

**Julienne.**—It is a true Hybrid Remontant Rose, and is very hardy, blooming in the Spring as well as in the early Summer; very vigorous, large, dark green foliage, one of its distinguishing features. Also, a very compact bush, well branched and branches freely; blooms mostly abundantly, three flowers on each stalk in clusters, large, double, bearing a fine flower for a hardy garden Rose. The flowers are very large, reaching six inches across under good culture. The color is a rich crimson, shading from a pleasing flushed red to a bright crimson-red; the outer petals very large, with a strong red and velvety maroon red in the depths of the petals. Fine, rich, velvety finish to the petals is all that can be said of this variety; it is not even approached by any other Rose yet introduced. **Price, 15 cents each; large two-year-old plants, 40 cents each.**

**King of Sweden.**—(The Black Rose.) This wonderful new Hybrid Perpetual Rose was raised in France. It is an extra fine variety and has beautiful flowers large and double and of the darkest velvety crimson black color yet seen in any Rose. Very sweet and full and the richest colored one yet introduced. Blooms when small. **Price, 15 cents each; large two-year-old plants, 40 cents each.**

**Lady Emily Peel.**—Very sweet; color, white, sometimes tinged and shaded with blush.

**Lady Helen Stewart.**—Large, full rounded flowers; highly perfumed; bright crimson, shaded scarlet; very beautiful.

**La Reine.**—Beautiful, bright red Rose, fine, full form; very fragrant. It is well named “The Queen.”

**Magnolia Charta.**—A bright, clear pink, suffused with carmine; very sweetly scented. This magnificent Rose really seems to have been forgotten by the planters of later years. It is not a, rose for every garden, as it has a very free and vigorous habit and the flowers are unusually large, and grow to a full and very fragrant. Color a bright, fiery scarlet, passing to fine rosy crimson, elegantly shaded with maroon. Very showy and handsome, and one of the best Roses ever introduced; fully double and full and a very fragrant. **Price, 15 cents each.**

**Madame Charles Wood.**—A true perpetual bloomer. begins to bloom almost as soon as planted, and continues all through the season. The flowers are extra large, very double and full, not very fragrant. Color a bright, fiery scarlet, passing to fine rosy crimson, elegantly shaded with maroon. Very showy and handsome, and one of the best Roses ever introduced. **Price, 15 cents each.**

**Marshall P. Wilder.**—This fine Rose originated in this country. It is of unusual excellence. Flowers are large, semi-globular, full and of good substance; dark crimson, richly shaded with maroon, very fragrant and a free bloomer.

**Madame Masson.**—It may not be generally known among our flower growers that this is one of the finest and most beautiful in all equality of any variety in this collection. We think it one of the very finest Roses in existence for garden cultivation; it is entirely hardy, blooms nearly all the time, bearing in profusion numbers of large, full, double flowers of unusual beauty and wonderful fragrances; color clear, bright rose, distinctly fragrant. **Price, 15 cents each; large two-year-old plants, 35 cents each.**
Margaret Dickson.—Awarded the gold medal and six first-class certificates in England. This magnificent new white Hybrid Perpetual Rose was raised and sent out by Messrs. Alexander Dickson & Sons, of Belfast, Ireland. It is unquestionably the greatest acquisition made in Roses for the past ten years. Some idea of its worth can be formed from the fact that wherever it has been exhibited in Great Britain it has carried off the first honors, receiving in one year the gold medal of the National Rose Society of New England and six first-class certificates. No other Rose has ever received so many certificates of merit in a single year. It has been thoroughly tested in America, and we have no hesitation in saying it is the best white Hybrid Perpetual for planting in the garden. The color is white, with pale fresh center, petals very large, shell-shaped, and of immense substance. The flowers are of magnificent form, produced singly on long, stiff stems and very double, and have the true Magnolia fragrance. The habit of growth is vigorous, with large, luxuriant foliage. **Price, 30 cents each; large two-year-old plants, 50 cents each.**

Madame Alfred De Rongeumont.—A strong, vigorous grower; begins to bloom at once and continues until stopped by severe freezing. Pure snow white flowers, finely tinted and clouded with pale rosy blush. Large, full and double, and borne in large clusters. Fragrant and fine.

Madame Plantier.—The iron-clad white cemetery Rose. This is the old standby, and is unequalled where a hardy white Rose is needed. It bears thousands of beautiful snowy white, fragrant Roses. It is as hardy as an oak.

Mrs. John Laing.—Clear, bright, shell pink, exquisitely shaded. **Price, 15 cents each; large two-year-old plants, 35 cents each.**

Marchioness of Lorne.—This beautiful Rose produces flowers of an exceedingly rich, lustrous rose color, slightly shaded in the center with vivid carmine; large, very sweet, full, finely cupped shape; petals large, buds long and handsome; is especially remarkable for its truly perpetual habit; a true show plant being covered with blossoms, even when not in bloom. **Price, 15 cents each; large two-year-old plants, 40 cents each.**

President Lincoln.—A magnificent dark crimson, shaded with red, very large and double; a magnificent, hardy Rose.

Perfection des Blanches.—Best and freest blooming of the hardy white Roses; finely formed, pure white. Flowers good size, perfect and of fine form and finish. Very suitable for cemetery planting or for hedges.

Paul Neyron.—Deep shining Rose, very fresh, pretty. Flowers often measure 6 inches in diameter; though large the buds always develop fine, perfect Roses; free blooming. **Price, 15 cents each; large two-year-old plants, 30 cents each.**

Persian Yellow.—Dark golden yellow; best variety of its color; entirely hardy. It is difficult to imagine a finer sight than this when in full bloom, covered with its bright yellow blooms, which are borne along the ripened wood in sprays. Must not be pruned much, if any, unless to cut out dead or diseased branches. **Fine plants, 50 cents each.**

Silver King.—This new Rose is a beauty indeed. In fact, to see a bed of it in bloom is absolutely startling, they are so grand and beautiful. The bud and flower are of the largest size when fully open, cup-shaped, full and double, but the petals so arranged as not to crowd one another. The color is a clear shell pink, so exquisite as to resemble the delicate soft pink seen in deep sea shells. It is very fragrant. A true ever-bloomer and hardy everywhere. This is the grandest of all light pink Roses. Be sure and try this Rose. **Price, 15 cents each; large two-year-old plants, 40 cents each.**

Ulrich Brunner, a Superb Rose.—A seedling from Paul Neyron. Extra large, bold flowers, very full and globular; petals large, cup-shaped. Color, a rich glowing crimson, elegantly lightened with scarlet. Very fragrant.

Vick’s Caprice, the Striped Rose.—Its great beauty is impossible to describe. It is a Hybrid Perpetual, commencing to bloom when very small and producing flowers of enormous size; are perfectly double to the center, and of perfect form. It is very fragrant, and its color is a deep, satiny pink with numerous wide stripes of pure white, making the most odd and unique Rose in cultivation.

Victor Verder.—Rich, cherry Rose, shaded with golden Very attractive color; flowers large and beautifully formed, very full. A beautiful Rose.
BEAUTIFUL MOSS ROSES

Moss Roses stand alone in picturesque beauty, different and distinct from all others. Their opening buds, half covered with delicate clinging moss of fairy-like texture, are the admiration of every beholder. Strong vigorous growers, perfectly hardy and justly esteemed as very desirable for outdoor culture in the open, being difficult and slow of propagation, they are always rare and scarce.

Price of Moss Roses, 10 cents each, except where noted.

We will send six of these Roses, our selection, for 50 cents.

Large, two-year-old plants, 35 cents each, except where noted.

Alice Leroy.—Fine, clear pink; extra fragrant flowers, generally produced in large clusters, delightfully perfumed. Buds thickly covered with lovely deep green moss.

Blanche Morean, Perpetual Moss Rose.—New and highly recommended flowers are large, full and sweet. The color is pure white and both flowers and buds have an abundance of deep green moss.

Crimson Globe, New Centifolia Moss Rose.—This is the richest crimson in color of all the Moss Roses; very large and bright; buds are well covered with moss.

De Luxemburg.—Bright crimson scarlet, large and double, very sweet and mossy.

Elizabeth Rose.—Extra large, massive flowers, very double and well filled out; bright, satiny pink, elegantly shaded; very fragrant; finely mossed.

Glory of Roses.—Most delicious fragrance; color, rich glossy pink, tinged crimson; large, globular; buds almost hidden with beautiful moss.

Henri Martin.—Color, deep orange; buds bright crimson; very mossy and fragrant.

Housseline, New Perpetual Moss Rose.—Extra fine, large, very full and delightfully fragrant; color, a pure white, sometimes shaded with rosy blush; elegantly mossed and very beautiful. Price, 20 cents each; large two-year-old plants, 30 cents each.

ABOR or HARDY CLIMBING PRAIRIE ROSES

The Hardy Climbing Roses are always valuable for training over arbors, verandas and screens for unsightly objects, such as old fences, walls, etc. They bloom the second season, but are then loaded with splendid blossoms, and for a few weeks in June are the most beautiful of all flowers. The varieties described below are the best and succeed well in all sections of the country.

Anna Maria.—Blossoms in large clusters; color, a bright, rosy pink, changing to blush.

Baltimore Belle.—Pale blush, shading to rose color; very desirable; flowers in clusters, the whole plant appearing a perfect mass of bloom. One of the best.

Champney.—A fine, hardy pillar Rose; quite double and fragrant; pure deep rose, changing to pink; desirable.

Greville, or Seven Sisters.—Flowers in large clusters; very large, color from white to crimson. Luxuriant, dark green foliage.

Mrs. Gunnel.—Soft, rosy blush, becoming almost white; large clusters; full and double. Much admired.

Price, 8 CENTS EACH; LARGE TWO-YEAR-OLD PLANTS, 25 CENTS EACH.

The "Memorial" Cemetery Collection of White Hardy Roses

It will be difficult to conceive of anything more appropriate, beautiful and enduring for permanent planting on graves and plots in cemeteries than the superb Roses listed below. We have grouped six of the best kinds for this purpose, and you will find them eminently satisfactory.

Ball of Snow.—Louise de Neige.) In this variety we have a hardy, ever-blooming Rose of great value. It is a rose of great size, perfectly double and exquisitely fragrant, pure white in color and entirely hardy. It is so free flowering that it covers the entire plant in July, and the white flowers are desired, as it blooms freely all Summer. Price, 10 cents each; extra large plants, 35 cents each.

Caroline Marnissae, Grand Cemetery Rose.—A hardy Rose that is always in bloom. As a bedding Rose this variety has no superior. It is a fine, continuous bloomer, being constantly covered with flowers the entire Summer. The blooms are of medium size, full and double, and borne in very pretty clusters. Color, pure white, lightly tinged with pink, with delicious tea fragrance. The bush is low growing, and especially adapted for border or cemetery planting. It is entirely hardy, having withstood unprotected a temperature of eighteen degrees below zero without the least injury. Price, 10 cents each.

Coquette des Alpes.—The best and freest-blooming of the hardy white Roses. It is a fine, double, pure white variety, but occasionally shows light blush when first opening. Beautiful shell-shaped petals, evenly full and large. Color, white, good size, and of fine form and finish. One of the finest, finest and most beautiful of the white Hybrids. Almost as free a bloomer as the Tea. Very suitable for cemetery planting and for hedges, as it makes a beautiful bush. Price, 10 cents each.

Madame Alfred de Rougemont.—A strong, vigorous grower, begins to bloom at once and continues until stopped by severe freezing. Pure snow-white flowers, finely tinged and flushed with rosy blush. Large, full and double and borne in large clusters, fragrant and free. Price, 10 cents each; two-year-old plants, 35 cents each.

Madame Plantier.—The iron-clad white cemetery Rose. This is a hardy, hardy Rose, and is unequalled where a hardy white Rose is needed. It bears thousands of beautiful snowy white, fragrant Roses. It is as hardy as oak. Price, 10 cents each.

Wichurana.—It readily adapts itself to any soil, and will do well under any conditions. The pure white single flowers appear in protest profusion during the month of July, after the June Roses are over. It is hardy in all seasons of the year. Price, 10 cents each.

Price, 10 cents each.

Caroline Marnissae.

SPECIAL OFFER.—We will send you the Memorial Cemetery Collection of Hardy White Roses for 50 cents. The set in large two-year size for $1.50 postpaid.
Adonis. New Scarlet-Crimson.—Another grand new variety so distinct that it stands alone. Awarded the Gold F. Medal, also the Gold Lawton Gold Medal, at the Carnation Convention last year. The flowers measure three and one-half inches when well grown; long, strong stems, two to three feet; a healthy, vigorous grower. But its color is an exquisite scarlet-crimson, buttesse and brilliancy, very, with rich ox-blood shadings far and away beyond all other Carnations. Price, 15 cents.

Avondale.—The color is bright, stem and calyx perfect, the bunch a sheet of color, and while the flowers will not rank with Lawton, it is still an exceptionally valuable commercial. The color is deep salmon-pink, exquisitely bright, the shade that lights up and takes on added size and brilliancy by artificial light. Price, 15 cents.

Dorothy.—A beautiful, pure, deep pink and a grand, prolific bloomer of large sized flowers that average three inches in diameter, deeply fringed or serrated. Has no equal in its keeping qualities after being cut; habit and growth very strong and clear.

Ethel Crocker.—A strong, clean grower, every shoot a flower producer. Blooms continuously, with immense bright pink flowers of clove-like fragrance. This grand new sort bids fair to be one of the most popular Carnations out.

Eveline.—Of exceedingly beautiful form and color. A scarlet and white variegated flower with stems long, stiff and wiry, calyx never burs and is not susceptible to any disease. Very large in size and a most persistent bloomer.

G. H. Crane.—Best scarlet, wonderfully productive, early, continuous, all season bloomer, averaging 8-inch blooms; well formed flower and calyx, long stems, stiff and erect; color, a clear, brilliant scarlet, of strong, robust, clean growth, making well formed bushy plant.

Gold Nugget.—Undoubtedly the best yellow variety ever introduced. Color, deep yellow, very slightly marked with red. Strong grower and continuous bloomer.

Gov. Roosevelt.—Flowers large, very full, deeply fringed; deep, brilliant, scarlet maroon, full, rich and ricking; a great grower, flowers averaging three inches in diameter.

Major Pinkney.—Color, clear lemon yellow, lightly marked with pink and occasionally splashed with white. Very strong, robust grower, continuous bloomer. Blooms very large. Stems stiff and long.

Morning Glory, New.—The best of the light pinks; color, a delicate bright flesh-pink. Strong grower and free flowering; very fine.

Mrs. Thomas W. Lawton.—This famous Carnation was bought for $5,000—the highest price ever paid for a flower of any kind. Indisputably the best in the world. Flowers are the largest, deepest, best formed. Stems are the longest and strongest. Color, purest rose pink, which illuminates splendidly under artificial light.

Norway.—Pure white, large size, good form and substance; extraordinary strong calyx, fragrant, borne on long, stiff stems that always carry bloom erect; extra free, early continuous bloomer; fine habit; strong, free, healthy grower.

Olympia, New.—Largest Carnation yet produced. Well grown flowers, measuring three to four inches across. Very large, bright, glossy white, does not fade. Color is clear, glossy bright, strong pencilling of bright scarlet running through the petals. Stems are large, strong, vigorous, healthy grower, flowering abundantly and sustaining its quality in hot weather. Delicious fragrance.

Prosperity.—One of the most remarkable Carnations yet originated, producing the largest sized blooms. The color is quite distinct from any other variety, the ground color being pure white overlaid with rich, velvety maroon toward the center, reminding one of the beautiful tints and markings often seen in the Azalea and Rhododendrons. Price, 15 cents 10 cents each; two for 25 cents.

Queen Louise, New.—Flowers of large size, on long stiff stems. Blooms early, late and all the time; one of the most profitable white varieties; a clean, healthy grower and persistent bloomer.

White Cloud.—Remarkable new white; blooms very early, on strong stiff stems and continuously; flowers large, of fine shape and very fragrant.

STANDARD SET OF FLOWERING CARNATIONS.

Price, 5 cents Each; Two for 15 cents; Any Four for 25 cents.

SPECIAL OFFER.—The Entire Set of Twelve for 50 cents, Postpaid.

SWEET MAY PINKS.

Brunette.—Color, dark and velvety, almost black.

Esther.—Splendid white, bordered with maroon.

Juliette.—Truly red, variegated pink and white.

Laura Wilmer.—Very marginated, white center. Snow.—Large, pure white, exquisite clove fragrance.

HARDY GARDEN MARGUERITE CARNATIONS.

Unequalled for garden or house culture, blooming continually. Every color known in Carnations is represented. But although all these colors are represented, our plants have been grown from mixed seed, so we cannot supply any special color. Price, 5 cents each.

SPECIAL OFFER.—We will send Fifteen plants for 50 cents, postpaid.
OUR "KANSAS CITY PRIZE SET" OF
CHRYSANTHEMUMS

Is selected from the finest exhibition and large flowering sorts from all over the world. The very cream of the Newest Varieties, and such of the older ones as are meritorious enough to hold their position against the new ones. The Grand New Chrysanthemums described below are recommended as among the best and most valuable varieties up to date, they are good, healthy growers, early and abundant bloomers, and bear flowers of the largest size and most beautiful colors. All of them have taken many first prizes at the great shows, and all are recognized as among the very best of their respective classes.

Price, $8 each, except where noted.

SPECIAL OFFER.—For a remittance of $1.00 we will mail the entire set of TWENTY KANSAS CITY PRIZE "MUMS," or any Eight for 50 cents. No further discount or premium allowed.

NEW BENJAMIN GOURD.—New early variety. This is, without question, the finest pure red to date. Very large flower that does not burn or color dull for several weeks after the flower attains perfection. A strong grower, compact habit. A grand variety for pot culture and exhibition purposes.

BLACK HAWK.—The largest and most beautiful dark crimson scarlet yet introduced. Shows no lighter color. Looks like crimson velvet, the very shade so much desired in Chrysanthemums. Flowers of immense size, on fine, stiff stems, clothed with elegant foliage.

CRYSTALINA.—A snowball type, pure white flower, resembling a ball of cotton, petals being fine. It is a grand keeper, and can be roughly handled, and will not droop or burst. It comes into bloom early. Of dwarf habit, unexcelled for pot culture. Winner of first prize for best white seedling in Chicago Exposition of 1894.

DAYDAWN.—A grand early variety. Center creamy lemon yellow, upon opening, gradually becoming pure white. Petals numerous in length from the center. While the bloom is quite double, it is of informal and graceful arrangement, on a good, stiff stem, with foliage quite up to the flower. Received certificate after traveling to Boston.

GOLDEN TROPHY.—A grand early yellow variety, of elegant dwarf growth and beautiful foliage, quite up to the flower, which is very large, compact and crowned with petals incurving into a complete golden ball of the most beautiful form, a fine dark yellow keeper, either cut or growing on the plant. Price, 10 cents each.

GLORY OF THE PACIFIC.—A grand, new and magnificent pink. We predict that this fine variety will rank first among the pink sorts. Of magnificent size and depth, with broad petals, which firmly reflex, showing the clear pink color to an excellent advantage. This variety will delight every lover of the beautiful and artistic.

KENTUCKY.—A very fine variety for exhibition, with extra large beautiful flowers. Petals long and narrow, much like our old favorite, Captain R. Bird. Stem strong and covered with large handsome leaves, nearly up to the flower. A pure, even shrimp color. A grand sort.

LADY PLAYFAIR.—This is one of the grandest of all the purple and lavender shades of pink, and is the finest of all the incurving varieties of this color. In size one of the largest, elegant in finish, color, exquisite. Early mid-season. One of the best for the market.

LADY HARRIET.—This is by far the handsomest of the early pink, ranking quite up with the mid-season Japanese sorts. Of handsome and precisely rounded form. Extremely large for its early date of flowering. Color a bright, clear pink. A splendid keeper after cutting, and easy to grow. Price, 10 cents each.

MRS. HENRY ROBINSON.—Is of the popular style—flowers of all shades of pink, with great substance and the purest white. Can be used a few days earlier, but it is a sin to cut it until the center petals have begun to develop. From a flat incurved ball it gradually changes into a perfect ball of snow. Sixteen to eighteen inches in circumference, foliage handsome, of the easiest management. Winner of twenty-six first prizes. Price, 10 cents each.

MRS. PERRIN.—Has slender, stiff stems, ornamental foliage. The flower is of a globular form, incurved, full, and with a finish as fine as satin. Color rose pink within, glistening pink without. Recognized as the ideal variety in this color. Received first prize wherever shown as best pink, at Boston, Philadelphia and Chicago, and received the most flattering notices everywhere.

MRS. O. P. BASSET.—The finest of its color ever offered. It is a sort from the grand variety, Mrs. Henry Robinson, and takes after its parent in all the fine qualities. The color is a fine canary yellow, of a soft texture. It is a large, flat, incurved variety, with broad petals, outer petals drooping a little as the flower opens. The dark green foliage, stiff stems, and medium height make it one of the best cut flower varieties we have ever grown. It has received several certificates of merit at the Chrysanthemum shows.

MADEMOISELL CARNOT.—One of the largest and finest white Chrysanthemums. Form is of V. Morel. Pure white, a very vigorous grower. One of the best, and found in most of the winning stands in England.

MRS. S. T. MURDOCK.—Purest and brightest self pink, large size, fine form, foliage abundant, habit perfect, first premium. Grand under artificial light.

MODESTO.—Among all yellow varieties this will have first place. As expressed by several experts: "The finest yellow yet produced for exhibition trade." Intense color, a real dandelion yellow, unsurpassed in size, incurved, slightly whorled, formed, full, high center. Mid-season.

PINK ELKSHORN.—An extra large, incurved flower of soft, pearl color. After incurring towards the center the petals, which are nearly tubular, rise, and from the three gracefully formed bracts arch upward. An exquisite variety, in both color and form.

ROBERT HALLIDAY.—The past season has placed this variety at the top of the list of early yellows. It has taken several years to show its possibilities, but it has now attained wide popularity, and deservedly so, because it is indispensable. Price, 10 cents each.

VIOLENT.—A magnificent variety for exhibition or commercial purposes, especially where green stems are desired. It is of enormous proportions, building up extremely well, finishing with a slightly rounding, incurved center; color, white, with lower petals delicately tinged lavender. Receipted first-class certificate.

WHITE SWAN.—Has have great pleasure in offering this beautiful, soft, pure white, hairy Chrysanthemum, which is undoubtedly the most perfect of the type yet introduced. The color is a pure white, very large, full and double flowers covered with the hairy like filaments, which are very pronounced. Exquisitely beautiful and of enormous size. Price, 10 cents each.

WHITE BONNAFFON.—Variety of great promise which will become as popular as the typical Maj. Bonnaflon. Color, pure white, form identical with Bonnaflon; growth very short-stemmed, not 3 feet in height. Foliage large and very dark green. Its latent greatly enhances its value. Price, 10 cents each.
Our "Indiana Prize" Chrysanthemum Set

SPECIAL OFFER.
For 75 cents we will mail you this grand collection of 15 Prize-Winning Chrysanthemums; it is certainly the best we have ever offered. No further account or Premium.

This collection is made up of such varieties as are generally grown for exhibition purposes. They are of the most attractive colors that constitute our very best commercial varieties.

Bronze Giant—Exhibition bronze. This is an elegant grower; heavy, stocky stems, clothed throughout in fine foliage. Flowers of immense size, crowded with petals, which are stiff and of great substance; form incurving; a most imposing bloom of largest size; a beautiful, rich bronze or old gold color. Received premium of fifty dollars for best bronze. Price, 10 cents.

Emily Ladenberg—Incurved Japanese bloom of large size and high build; solid form; deepest crimson, nearest approach to black. Never burns, as crimson are apt to do. Strong, healthy habit. Winner of first prize at Madison Square Garden; best seedling exhibited.

Eugene Dailloud—This beautiful variety captivated all who saw it at the World's Fair. There is nothing brighter or clearer among yellows. The center of the flower is folded close; the outer petals are broad, incurving; of great substance. Winner of twenty first premiums and gold medals. Price, 100c.

Frank Thompson—A splendid flower, very nearly spherical in form, petals very broad and heavy and finely incurving. It is very nearly white in color, only showing a touch of pearl-pink at the base of the petals; magnificent flower. Received first-class certificate at Philadelphia and Indianapolis. A strong grower, stiff stems.

Golden Wedding. The grandest yellow ever offered. Swept everything before it at shows. Color, deep, bright golden of shining texture. Is very large in size. The petals are both long and broad, and channelled lengthwise; a Japanese, incurved, of most beautiful form; very free in growth. A first-class exhibition variety. Price, 100c. each; 3 for 25c.

Good Gracious—So remarkable for size as to suggest its name. First sight brings forth an exclamation of admiration. The color is also unique, being a delicate shade of peach pink throughout. The form is remarkable; the petals are incurved and twisted; overlapping each other in irregular fashion, and resembling talons. Alone in its unique beauty, being nothing at all approaching it.

George W. Childs—The Jacobinot 'Crimson Chrysanthemum. This variety is the best and most perfectly formed red crimson variety yet introduced. Flowers of massive size; broad, stiff, reflexed petals. Color, a deep, rich velvet crimson—no shade of brown or chestnut; strong, erect stems. Awarded Pitcher Gold Medal at Orange for best seeding; silver medal at Philadelphia, and others.

Helen Bloodgood—A very bold, round flower. When in perfection it blooms measure 5½ inches through and 7 inches deep. It is the finest true clear pink, without shading of purple or magenta. It has received a certificate at New York and Philadelphia. Price, 10 cents.

Indianas. New—Immensely, full, globular flower, neatly incurved. Color, clear, bright pink, outside petals a little lighter. Has been grown measuring twenty-two inches in circumference. A grand show variety, and one of the very best of the new varieties. Price, 10 cents.

Major Bonnafon, New—Soft, clear yellow, full in center, eight inches in diameter and nearly as deep; in perfect form and finish; like Ivory at its best habit dwarf, keeping qualities excellent; foliage well up to the flower; stem stiff. An ideal variety. Betsy to be one of the Chrysanthemums necessary to every collection.

Mrs. D. G. Hill—This beautiful variety is one of the very earliest to bloom; of vigorous growth and of fine form. The blossoms are eight to ten inches in diameter; the color is a delicate lavender pink, petals incurved. At the World's Fair it attracted all and was admired greatly. The winner of twelve first prizes. Price, 10 cents.

Miss Louise D. Black—Color, reddish orange; height 4 feet; terminal buds, flowers compact; very full and conical; lasts indefinitely, either on or off the plant. This color is the richest imaginable shade of orange. Makes a grand pot specimen. Won two prizes. Price, 10 cents.

Philadelphia—This most unique and beautiful variety is the wonder of all who saw it; an immense, large Japanese incurved flower, with grooved, pointed petals of great width, reverse ribbed; opening yellow, but changing to white with yellow at the tips. It is this distinctive feature, and a more charming effect can not be conceived. Awarded silver medal in England, and six certificates, four first premiums, and three silver medals in America. Price, 10 cents.

Minnie Wanamaker—Pure snow-white, incurved and perfectly double, with a breadth of petal and grandeur of build only found in the best varieties; flowers are exceptionally large, produced on long, stiff stems, large and handsome foliage. Has secured numerous medals.

The White Queen—Grandest double white; flowers enormous, of fine form. Best for every purpose, exhibition or house culture; a prize winner everywhere exhibited.
How to Grow Chrysanthemums: The Queen of Autumn

By an Amateur

For masses of flowers, grandeur in color, the ease with which they can be cultivated and the certainty of blooming, either in the open ground or in pots, it is difficult to think of any flowers which can quickly make large bushes and a single plant will produce hundreds of perfect flowers. Their season lasts until cut by severe frosts.

When grown in pots and treated in the manner described by the amateur below, who gives his experience, fine, large specimen flowers can be grown which will equal the best greenhouse variety. This is the fall of the year. The author of the following has grown them very successfully at his own expense, and with the aim of growing my Chrysanthemums.

An amateur and have been splendid results, as the photograph below will show, and this without the aid of a greenhouse. I hope that the information I can give will prove valuable to others in cultivating Chrysanthemums, the lovliest flower that I know of, and one that gives a greater reward for pains taken in its culture than any other.

"Produce good, strong plants from reliable florists about the first of June. Put them in 6 or 9 inch pots at first, in good, rich soil, and plunged in a pot in the ground, or, better still, dig a trench and set the pots in it, filling in around with cool ashes. This keeps the worms out of the pots and keeps the roots nice and cool. Chrysanthemums require lots of water, and should never be allowed to become dry. Evening or early morning is the best time to water. Water and shower thoroughly, as one good watering is worth half a dozen if only half done. Keep them from being in full sun all day, and let them have a good, sunny place at night for the best possible results."

The author states that the flowers are of the finest largest size; the petals very much reflexed and center erect, making a very large flower. A variety that can not be surpassed in its color.

**Golden Beauty.**-A reflecting form of H. W. Bleeem, you might call this variety "Vivian Morel." The flowers are fully double, and of the finest large, beautiful, deep yellow, with petals reflexed, broad bloom of immense size, fourteen to sixteen inches in diameter, stem and foliage perfect. Crown and terminals blue.

**Goldmine.**-Another variety of exceptional note. This variety is a rich golden-yellow, outer petals reflexed and center incurring in beautiful round bloom. A very fine variety, and a prize-winner in many of the late shows.

**Paris.**-A fine yellow of a medium shade; early to bloom, and might be described as a yellow "Gold Bergman."

**Idavan.**-This is a very large Japanese imported of globular form. The petals are delicate pink, while the center is a creamy white. Habit and growth are perfect.

**John K. Shaw.**-As a commercial variety this is unequalled by any other known to me. It is one of the finest, and has grown to a single stem of the finest flowers. The flowers form perfect ball of a beautiful shade of the popular pink; stems and foliage are exceptionally fine, and the balls are of a large size. This is the best variety, and its most remarkable characteristic is the beauty of the petals, the perfect round bloom, and the perfect color. This is one of the most delightful surprises, especially in its form and color combination. The center is creamy white, bordered with distinct and broad band of petals of bright yellow. Center whorled, petals reflexing slightly, a full deep golden.

**Pittsowgum.**-Grand flowers, pure white. One of the earliest and the very best for all purposes.

**Lenoir.**-This is by far the handsomest of the early pink, ranking quite up to the middle Japansese sorts. Of invested and uniquely round form, extremely rare for its early date of flowering. Color a bright clear pink; a splendid keeper after cutting, and early to grow.

**Angleasey.**-A beautiful bronze sort from Vivian Morel, and the counterpart of that variety in all save color. The variety in this respect is extremely beautiful, and it is the popular seller as an exhibition variety.

**Lavender Queen.**-This is a new large Japanese variety, with outer petals reflexed, and beautiful petals erect, making a flower of great depth in color a pleasing shade of lavender pink, decidedly distinct. This variety has given entire satisfaction and is highly recommended by all.

**Le Fakir.**-A Japanaese variety of the largest size; double; crimson, globular incurred with large petals reflexing; a vigorous and healthy grower.

**Le Grand Dragon.**-A very large orange-yellow flower with large reflexing petals; a very large size; full bloom. Price, 15 cents.

**Le Prince.**-A beautiful white flower with violet markings; one of the most charming things we have ever seen. Price, 15 cents.

**Le Carnot.**-The largest white Chrysanthemum extant; form of V. Morel; pure white; very vigorous; one of the best, and found in most of the winning clubs in England. Price, 15 cents.

**Le Prince Chaud.**-A very large white with pretty lavender, reflexing form type, Full and informal, stem and foliage both excellent. A grand variety for cutting.

**Le Prince Chaud.**-A very large white with pretty lavender, reflexing form type, Full and informal, stem and foliage both excellent. A grand variety for cutting.

**Le Prince Chaud.**-A very large white with pretty lavender, reflexing form type, Full and informal, stem and foliage both excellent. A grand variety for cutting.

**Le Prince Chaud.**-A very large white with pretty lavender, reflexing form type, Full and informal, stem and foliage both excellent. A grand variety for cutting.
INNISFALLEN GREENHOUSES, URBANA, OHIO.

Mrs. Elmer D. Smith.—This variety will prove a rival of the three new varieties. It is of the same size, but with much heavier and stronger stem. It is a beautiful bright yellow, of the Japanese incurved type, very full and double, with rich red filaments.

Mrs. F. A. Constable.—An exceptionally fine variety for exhibition purposes. A pure white, with petals tubular, a very full and double flower of excellent quality. A variety that has taken prizes at many of the late shows.

Mrs. H. Weeks.—An immense flower, with broad petals incurved, resembling in type the famous Japanese strawberry variety, to which it has made a sensation wherever exhibited. An excellent grower; long stiff stems.

Mrs. John Moscatel.—A superb variety, strong growth and fine foliage. Yellow flower of enormous size of a delicate creamy pink, shading to ivory white. The flowers are reflexed and very large, long and stiff stems.

Mrs. J. T. Thorneycroft.—The color is a distinct orange-apricot; flowers of the largest size, with very long petals which incurve, and are slightly reflexed and quite striking; dwarf, sturdy grower, with handsome foliage and stiff stems. Price 15 cents.

Mrs. O. P. Basset.—The finest of its color ever offered. It is a sport from the grand variety, Mrs. Henry Robison, and takes after its parent in all the fine qualities. The color is a fine canary yellow of a soft texture. It is a large flat looking variety with broad petals, outer petals drooping a little as the flower opens. The dark green foliage, stiff stems, and medium height, make it one of the best exhibition varieties. It has received several certificates of merit at the Chrysanthemum shows.

Mrs. W. B. Chamberlain.—The most beautiful shade of pink known. A pure white center, which becomes a deeper pink as it grows older, the color not at all incurving, the balance reflex and incurving. The petals are broad and massive. Season, Nov. 10th to 25th.

Miss L. Boner.—A very large yellow sport from Etolie de Lyon. Owing to its immense size this variety will be invaluable for exhibition; requires careful attention while perfecting its blooms, but when the flowers are developed, it is a most distinctive variety. It has received several certificates of merit at the Chrysanthemum shows.

Miss M. M. Johnson.—A very early variety. Flowers broad and well built up in the center; rich deep golden yellow. Prize-taker wherever shown. Won 11 prizes.

Malcolm Lamond.—A red that does not burn, with beautiful foliage. The flower resembles Fisher's Torch in form and color, but the petals are a soft red. The variety is a most distinctive, and is recommended to all serious growers.

Carrie Carmalt.—This is one of the most gorgeous colored varieties ever produced; wonderfully attractive to all. The color is a beautiful purple, something rarely ever seen in Chrysanthemums of any kind.

Mar Viscount Venosta.—A splendid variety of a beautiful hollo-tube color that is very fetching. Price 15 cents.

Mary Hill.—A seedling of the famous Mrs. Perrin, of similar habits. It is a most beautiful variety with broad petals, a delicate shade of pink with a high pearl gloss on the outer petals.

Merry Christmas.—A well-formed flower of purest white, large and double, very full, and a very choice variety of good habit of growth. Sure to give satisfaction. Best about the last of December.

Miss Mary E. Macfarlane.—A grand fancy colored sort that always attracts much attention; color is a creamy yellow with violet centers extremely beautiful. Price 15 cents.

Monrovia.—A very large, long petalled variety, of a pleasing shade of yellow. A great favorite with many of our best commercial growers.

Nagoya.—A very large, late golden yellow; blooms of the Japanese reflexed form; every petal is dimpled, adding much to its beauty; has a splendid stem and elegant foliage. Very easy to grow.

Nesota.—An extremely large and beautiful light yellow, with in full development of petals; extra fine variety for exhibitions and collections.

Nouvelle Vie.—This grand variety is an exhibition bronze of the very largest size. If you are looking for something fine to add to your general collection do not miss this fine sort; very easy to grow, with a remarkably fine bloom.

Pink Elkhorn.—An extra large, incurved flower of soft pearl color. After it has opened it becomes a bright canary yellow, and is nearly tubular, rise, and from the tips three very curiously formed branches arch upward. An exquisite variety, in both color and form.

Pink Ivory.—(Miss A. L. Dalskow.) A sport from the old favor- ite, Ivory. Identical with its parent, except in color, which is a beautiful pink.

Polar Queen.—An exceedingly graceful flower, outer petals reflexing, center ones irregularly incurving, thus making a flower of great depth, with very broad stems and elegant foliage. Matures its flowers about the last of November.

Poly Rose.—A beautiful pure white sport from Glory of the Pacific; a new variety, and produces large, perfectly formed flowers. Superb.

Prize-Sower.—A new variety, with magnificent pure white flowers of enormous size, forming both a large and a long stiff stems. Splendid grower.

Radiance.—New and great improvement over the renowned Golden Wedding. Color deep and shining golden yellow. Heavy texture, broad, incurving petals.

M. Pearson.—A rich golden yellow, probably the highest color to date. A Japanese incurved of medium size. A splendid variety in every respect.

Red Halliday.—The past season has placed this variety at the top of the list of early yellows; it has taken several years to show its possibilities, but it has now attained wide popularity, and deservedly so because it is indispensable.

Rohallon.—While an old variety, it was last year sighted. We have managed to secure a small stock of this beautiful variety, which we offer at a greatly reduced price. It is a splendid variety, and passes it to date. Color a beautiful rich yellow deepening to chrome, the petals are long and broad, with a broad, almost flat, reflexed by a diameter by five inches deep. One of the most distinctive varieties. Midseason. First prize and silver medal.

Silver Queen.—Very dwarf, white, very broad petals, reflexed, forming a bold, almost flat, reflexed bloom. A most beautiful variety. Season, Nov. 5th to 10th. Magnificent both in form and color.

Silver Wedding.—Purest white, very broad petals, reflexed, forming a bold, almost flat, reflexed bloom. A splendid variety. Price 15 cents.

Sonoma.—A large bloom with a colored flower like the Queen. The color is striking, a bright yellow shading to red at base of petals with a light straw color in the center. Very pleasing to the eye and quite delicate. Has a perfect habit.

Superba.—The most probable late pink Chrysanthemum now in commerce. A fine Japanese incurved, very double, with a high rounded center. Color a bright pink.

Thornden.—One of the most intense yellows, and has so many good qualities that it is certain to become a favorite. In form it is reflexed, with center petals somewhat erect; good, stout stems, and clean, healthy foliage.

Thornfield.—The sensational novelty of the year. It is an enormous, globular, Japanese incurved variety of perfect form and growth. Color a pure white, even whiter than its parent, the Japanese Wannamaker. It has captured every cup and prize for which it has been entered.

Vicar of Leatherhead.—A very fine golden yellow, a seedling from Mt. Carmel; the blossoms are large, broad, very fine, with the flowers larger; very fine for exhibition purposes.

Ville de Bordeaux.—A grand variety with an enormous flower, fine stems, and beautiful yellow, broad petalled Japanese sort that makes an extremely showy flower of blush pink. Extra fine and one of our best exhibition sorts, and fine for general cutting.

Price 15 cents.

W. H. Chadwick.—A valuable late white Chrysanthemum, of the largest size. Flowers pure white, sometimes slightly tinged pearly pink.

W. H. Whitehouse.—A magnificent bloom in the style of Vivian More, with the same shaped petals and form of flower, but longer; color rose liliac, striped white. A sure winner for exhibition.

White Bonannoff.—Variety of great promise which we predict will become one of the most popular varieties. A true golden white; form identical with Bonannoff; growth very short-jointed, not 3 feet in height. Foliage large and very dark green. Its lateness greatly ensues its value in the market.

Willow Brook.—The earliest of all whites. Strong, dwarf grower, producing large blossoms of lovely build on strong, erect stems. Is considered the best and most profitable early variety for forcing.

Wilsonen.—A deeply purple, dark blue with a narrow white ring. The petals are very large, beautiful and substantial, very easy to bring to perfection, which is a great point in its favor, as many of the late varieties are poor, delicate flowers in comparison. This variety is rather late in coming into bloom. Price 15 cents.

Willow Good Gracious.—An ideal variety and a sport from Pink Good Gracious. Identical with that variety, except in color, which is a bright, beautiful yellow, with the same remarkable size and form.

Zampa.—A bright, strawberry red with old gold reverse; lower petals tubular, balance flat. A strong grower and fine exhibition variety.
OUR STANDARD LIST OF CHRYSANTHEMUMS

PRICE, 5 CENTS EACH. NO INFERIOR SORT AMONG THEM.

Special Offer.

Any TWELVE of your selection for 50 cents; or you may select THIRTY varieties for $1.00. No further discount or premiums allowed.

Achilles.—Very large flower; one of the best white, flushed with pink.
Ada Spalding.—Waxy white with pink base.
Cullington.—Reflexed flower; color, brilliant crimson.
Chas. Davis.—Light yellow, tinted rich apricot.
Christmas Eve.—Late pure white, petal curved and tinted.
Col. W. B. Smith.—Enormous; deep golden yellow bronze.
Dobson.—Creamy white, large, early, large.
Eda Prass.—Delicate salmon, passing to creamy white.
E. M. Bigelow.—A magnificent red variety of even shading, with extra-long stem and very beautiful foliage.
Gethseman.—The rich, deep crimson variety; fine. C. G. F. Morseman.—Deep crimson, old garden variety.
Golden Gate.—Waxy yellow, distinct and striking.
Heron’s Plum.—Immense flowers of purest snow.
Her Majesty.—A pearl colored sport from Mrs. Taggart.
Harry Dalsley.—A soft, pure, silvery, rose pink.
Hicks Arnold.—A deep old gold with occasional red veins.
H. W. Rieman.—A massive flower of bright golden yellow.
Inter Ocean.—Purely white with suffusion of pink.
Joy.—Exquisite pure white of globular form.
John Shrimpton.—Finest large flower, brilliant scarlet.
Jos. H. White.—Large white variety, with upright petals.
Kate Brown.—Early white, good for cutting.
Kjoto.—An old timer, unsurpassed, deep yellow, waxy lustre.
L. Canning.—Pure white, very large, flat, good.
Madame Balsam.—A graceful, early, Chinese variety of dwarf habit; very full in growth, and with large, dark green foliage. The flowers are reflexed, with reflected petals; color, pure white; very bright, with creamy center; especially valuable; earliest of all.
Marie Louise.—Incurving white with interfacing petals.
Marion Henson.—No exaggeration can show the rich, butter yellow color of the flowers, which is superb. It is full of petals and lasts a very long time; in fact, although very early, it can yet be made late, remains perfect on the plant for a long time.
Mad. Glastilier.—Large, early white flower, full and ruffled.
Marquise de Montmore.—Japanese; flowers very large, pure glossy rose and silvery white. Unique.
Maud Dean.—Innumerable pink, petals broad and shell shaped.
Minerva.—Good clear yellow; flower very large and early.
Miss Alman.—Snowy white, incurved, very double.
Mrs. A. J. Braden.—Large flowering, early variety; color, crimson-lake; form rounded into a half-globe.
Mrs. Governor Filer.—Japanese; flowers flat, with pure white, broad petals, incurving when fully matured. Double at all times. Stout stems, with fine foliage.
Mrs. Brome Jones.—One of the grandest whites, with beautiful foliage; quite dwarf, with magnificent waxy-white flowers; broad, incurving petals.
Mrs. J. M. Parker, Jr.—Dwarf, robust habit; fine foliage; very large flowers, broad, incurving petals. Incurving when fully matured. Double at all times. Stout stems, with fine foliage.
Mrs. J. Peabody.—An enormous flower of pure white; one of the best of the new “Mums.” Mid-season.
Mrs. H. M. Tick.—Very large, perfectly double flowers, of a beautiful white, shaded with pink.
Mrs. W. K. Vanderbilt.—Very large late flower, snow white.
Mrs. J. G. Whilman.—A light yellow variety of splendid size.
Nieves.—A good snow-white variety. Center irregularly incurving, with outer petals reflecting nearly to the stem. Constitution robust, foliage large and abundant.
Pond Lily.—The great two-colored variety; center, canary yellow; outer petals, pure white, very beautiful.
Pres. W. R. Smith, Jr.—A pure self pink, very heavy.
Puritan.—Large, early white, should be in every collection.
Rinaldo.—Flower of rich crimson and old gold; very late; stem and foliage perfect. A magnificent flower.
Shawmill.—Enormous yellow flower, composed of narrow petals; very graceful form, fine for cutting.
Vivian Morel.—Beautiful pink, deepen with scarlet.
Violet Rose.—Large flowers of silky texture; color, rosy violet.
Yellow Queen.—Extra large, bright, clear color.
America’s Most Popular Bedding Plants

LARGE FLOWERED EVER-BLOOMING CANNAS

Where the brightest and most imposing effects are desired in bedding, the Canna is unequaled. A fine bed may be enjoyed by everyone who has a few feet of ground.

“Cream Collection” of 15 Most Valuable Dwarf CANNAS

Price. 10 cents each; 3 for 25 cents.

Alphonse Bouvier.—This grand and luxuriant variety grows five to eight feet. Tips of shoots are mounted by immense clusters of brilliant crimson flowers of largest size. For bedding or as specimen plant it is unequaled.

Burbank.—Grows about five feet tall, and bright green foliage. The flowers are truly gigantic in size, the upper petals spreading out fully seven inches, and the form is really of a semi-double nature. Toward the inner part of flowers the petals show crimson spots; all the rest of the flower is a beautiful rich canary yellow. It even surpasses the Italian varieties.

Crimson Bedder.—Brightest imaginable shade of crimson scarlet. Plant is very compact in growth. Thriving up straight flower spikes with well shaped trusses of bloom. Flowers remain in perfect condition for a longer period than ordinary varieties.

Charles Henderson.—Flowers of largest size. Color a wonderful rich crimson, center penciled with gold. Owing to dwarf habit, this makes a perfect pot plant. Invaluable for outdoor bedding.

Egandale.—Best of all dark-leaved CANNAS for bedding. Flowers borne in compact heads and in great masses; unique in any other sort. Color, a deep currant red, of a pleasing shade; different from any other.

Flamingo.—The color is a solid crimson, without spot or blemish; whether grown indoors or out, it is constantly enameled by a crowning glory. This rose sparkling brilliancy is as bright as the plumage of the flamingo bird. Foliage a luxuriant deep green and tropical like.

Florence Vaughan.—Superb habit, flowers borne in grand spikes: broad, rounded petals, well expanded, showing the richly brilliantly colored, golden yellow, dotted with brightest scarlet.

Mile. Berard.—The nearest approach to a pink in a first-class bedder. Color, a soft shade of rosy carmine. Many of the sorts heretofore offered as pink, while very pretty in the individual flowers, have a “washed-out” appearance, both on the single plant or when planted in masses. Green foliage. Height, four feet.

Madame Croy.—Luxuriant foliage, flowers borne in immense heads at the end of each shoot. Petals wide, broadly rounded; color, deep rose, veined with gold. No blemish.

Paul Marquand.—Flowers large, enormous spikes. The color might be called a bright salmon with carmine tint, with a silvery lustre which glister and glows in different lights. To some it appears the fashionable apricot shade now so popular.

Queen Charlotte.—The finest of the girl-edge type, with heavy bluish green foliage; enormous flower spikes, bearing a beautiful bouquet of large flowers of perfect form; a very bright red, a broadly banded with a bright orange.

Robert Christie.—Bright orange scarlet. A particularly strong growing variety, throwing up tremendous heads of bloom. Placed by the side of other varieties of like description, it displays its superiority, both in freedom of bloom and size of flowers; About 5 feet.

Sunbeam.—It is of immense size, splendid finish and great substance. The flowers are a brilliant golden yellow color, dotted with bright orange scarlet spots. Handsome and very bright green foliage.

SPECIAL OFFER.—For only $1.00 we will mail you, postpaid, this “CREAM COLLECTION” of 15 new CANNAS. The best in the world. Don’t fail to get the entire set. No further discount.

Grand New “ORNICH” Flowering CANNAS

So Marvelously Beautiful. No description, no matter how well written, can begin to do them justice.

Austria.—Is a counterpart of Italia in every way, except in the color of its flowers, which are of a pure canary yellow, with but a few traces of small reddish brown spots in the center of the two inside petals. 15 cents each.

Alsace, New White Canna.—A vigorous grower, with clear green foliage, four feet high; an early and continuous bloomer. The trusses are full, rounded, densely crowded with flowers, which, upon opening, are of a delicate sulphur yellow, changing very soon, however, to a creamy white without spots. Price, 20 cents each.

America, New Red Leaved.—First red-leaved Canna in giant flowered class. Height, four to five feet. Foliage fine glossy bronze, almost as if varnished. Flowers extra large, deep orange flamed and striped with deeper shade, entirely different from any Canna, both in foliage and in flower. Price, 15 cents each.

SPECIAL OFFER.—We will send the set of six New Orchid Flowering CANNAS for 75 cents. No further discount.
NEW SUNSET LARGE LEAVED COLEUS

PRICE: 5 CENTS EACH.

SPECIAL OFFER.—Thirty Choice Plants by mail, postpaid, for $1.00; or by express at your expense, we will send One Hundred Choice Plants in assortment or in solid colors for$5.00. No further discount on these offers.

The Coleus is the garden's pet link, bearing all the colors on its leaves, ready to be disposed of in whatever ornate and parti-colored designs we may choose to display upon our lawns. Want of space forbids listing varieties, which are the best of the commercial varieties.

SEVEN ROYAL NEW COLEUS.

Price, 10 cents each.
The set of 7 for 50c net.

Mrs. F. Sanders.—The most beautiful and distinct Coleus yet raised; dwarf and bushy in habit, it makes a perfect pot plant; differs from all other Coleus in having a wedge of creamy white in the center of the leaf, with a clearly defined margin of oxides green, bronze, crimson and purple. This central wedge shaped creamy white blotch occupies the greater half of the leaf, and is sometimes splashed with magenta and magenta. First-class certificate a scarlet.

Queen of the West.—Large leaf and slightly serrated; outer band of bright oxide green with margin of bright yellow, and center wedge of creamy white, the whole covered with blisters and spots of bright carmine and deep maroon.

Beckwith's Gem.—The leaves are large, of heavy texture and with finely scalloped edges. It is the finest bright colored bedder yet offered; it baffles true description. The center is of the darkest velvety maroon, bordered by a fiery red; the edges are green at the base, changing to cream yellow at the point of the leaf, marked and spotted with fine red and maroon.

Klonidike.—This new Coleus has large leaves; belongs to Sunset strain. Coloring extremely beautiful. Creamy white, center, touched with carmine, surrounded by a broad green border at times exquisitely tinted.

Klondike Carpet.—A bright carmine-maroon, pointed with chocolate. One of the most striking and handsomest of Coleus. A fine bedder and a great individual for p-t culture.

Dewey.—Wide pointed leaves of a deep maroon, with a wedge of bright crimson, making the brightest show bedded out in the hot sun. Very valuable, and a most attractive plant.

SPECIAL OFFER.—We will send Twenty Plants of either of the above 7 New Varieties, or 3 plants of each for $1.00. No Further Discount.

NEW GIANT COLEUS "BRILLIANCE OR DR. ROSS." Leaves immense, 8 to 12 inches large. Looks like a Rex Begonia and just as beautiful. Cannot be excelled as a pot plant. The same aptly describes the appearance of this variety, which belongs to the giant leaved section; of strong, vigorous habit, growing from 2 to 3 feet high, with leaves often 9 to 10 inches long which are of bright crimson, shading off to a deep maroon, the margin being yellow, the whole having a rich velvety luster. Price, 10 cents each; 3 for 25 cents, 15 for $1.00, net.

CHOICE PLANTS FOR BEDDING.

For designs, borders and bedding purposes the following plants, owing to their attractiveness and small cost, should find a place in every garden. But limited descriptions are needed, as these plants are all well known and popular. Plant liberally, results will please you.

Altemanthera "Hermitsford,"—A new and brilliantly colored variety which holds its color from first to last throughout the summer and fall. Price, 10 cents each, $1.00 per dozen; $6.00 per hundred by Express, at purchaser's expense.

Altemanthera, Papyrodes Major,—A clear carmine, the delicate foliage making a dense but soft cushion.

Altemanthera, Aurea Nana,—Bright golden yellow under the sun of Summer; dwarf and compact.

SPECIAL OFFER.—25 plants of either of the above for $1.00, postpaid; $2.50 per 100 by express.

CALLA LILIES

New Dwarf Calla Lily, Little Gem,—Grows about 18 inches high, and freest-blooming of all the Callas. Bloom is pure white. Following facts will convince anyone of its great superiority over the old sort. Dwarf habit. Same plant will grow and bloom for years, and quantity of bloom with a good plant will produce in proportion. All in all, it is one of the most desirable plants we have ever offered. 15 cents each; two for 25 cents.

Wonderful Black Calla, Arum Sanctum,—This wonderful variety resembles the White Calla in growth and foliage; flowers coal-black; very curious and remarkable; always attracts attention, especially when known that it is a native of Palestine and recently brought to this country from the neighborhood of Jerusalem. Price, 25 cents each.

Calla Richardi, Alba Maculata,—(Spotted Calla.)—Plant with beautiful spotted leaves. Flowers abundantly during the Summer when planted out. In the open border. Flowers shaped like those of a Calla; pure white; shaded with violet inside. Keep dry in Winter, and start in the Spring like a Dahlia. Blooming bulbs, 10 cents each, larger size, to produce a dozen blooms, 25 cents each.

Calla Ethipica.—(Egyptian Lily.)—The well-known Egyptian Lily, or Lily of the Nile; large, white flowers, broad foliage; will grow under any adverse circumstances. For large Callas send us. We have three sizes. Small plants, to bloom next Winter, 80 cents; strong blooming bulbs, 25 cents each; mammoth bulbs, to make ten to twelve blooms, 50c each.

Calla Hastata.—The yellow Calla. It is just like others, only color is lemon yellow. It is very distinct. 25 cents each.

SPECIAL OFFER.—The set of 5 distinct Callas, all blooming bulbs, for 75 cents.
BEGONIAS, FLOWERING VARIETIES.

Price, 8 Cents Each, Except Where Noted.

Argentea Gutatta.—Leaves oblong in shape, of a purplish bronze color, white markings; white flowers. One of the handsomest varieties.

Alba Picata Rosa.—This is a seedling of Alba Picata crossed with Rubra. Foliage rich green, opening salmon colored; leaves turned red. Color, delicate rose, very free flowering, very fine. Price, 10 cents each.

Alba Perfecta.—Identical with Rubra, except flowers are white.

Alba Picata.—Long, pointed, slender leaves, thickly spotted with silvery white. Foliage small and elegant.

Bertha Chateau.—Bright, green leaves; flower currant red.

Dewdrop.—It will grow and thrive anywhere, and requires no more care than a Geranium. Color, pure white.

Erfordia, or Pink Dewdrop.—One of the most prolific bloomers. Continuously covered with clusters of delicate rosy salmon flowers. Excellent for outdoor bedding, growing and blooming in our hot sun equal to the best Geraniums. A mass of bloom the whole season. Price, 40 cents each: 3 for 100 cents.

Fuchsia Coccinea.—Flowers a bright scarlet color.

Foliosa.—A handsome basket plant. Foliage small; bloom white.

Flame Ava.—Exceedingly free flowering; commencing to bloom when very small and flowers continually. Color, deep rose pink, changing to delicate white pink. A valuable bedding variety, flowering fully as freely when planted in the open ground as when grown in pots in the house. Price, 10 cents each.

Hybrida Multiflora.—Very free; beautiful pink flowers.

Icarnala Grandiflora.—New.—Distinctly a winter flowering variety. Strong, vigorous habit, blooming throughout the winter. Plant completely covered with immense pink flowers, forming a solid and exceedingly beautiful living bouquet. Very beautiful and useful. Price, 10 cents each.

Metallica.—Elegant. glossy leaves, shaded with green, crimson and white, with a peculiar lustre. Large white flowers. Price, 10 cents each.

M. C. A. Not A. New.—Elegant pink, similar to the last, but later blooming. Price, 40 cents each.

N. C. A. New.—Elegant pink, similar to the last, but later blooming. Price, 40 cents each.

A.send.—A New Ornamental Begonia.—This new Begonia originated with one of our customers and is indeed one of the most beautiful varieties that we have ever had the pleasure to offer to our customers, a West Virginia grower. The leaves are of the Nature, rather irregular, of a charming, lustrous metallic green color, the edges and surfaces shining like silver, changing to carmine. An unusually profuse bloomer, flower of a delicate light pink, borne on long footstalks. Price, 15 cents each; 2 for 25 cents.

Marie Dew.—New.—A strongly flowering, of semi-climbing or trailing habit. Foliate deep glossy green. Flowers a beautiful shade of salmon pink produced in long drooping clusters. Price, 10 cents each; 2 for 25 cents.

M. Des Lesens.—A decided improvement on Argentea Gutatta, the leaf being four times the size seen in that variety, while the silvery texture is the same, and is beautifully spotted with silver. A very strong, free growing variety, of perfect satisfaction. Fine bulbs in the nary care, growing rapidly and sending out quantities of beautiful white and pink flowers. Price, 10 cents each.

N. C. A. New.—Elegant pink, similar to the last, but later blooming. Price, 40 cents each.

Nihila Alba.—Similar in every respect to Nihila Rosea, but with white flowers. Price, 10 cents each.

Alba Rosa.—A strong, profusely flowering, variety immense panicles of rose-colored flowers. Price, 10 cents each.

Otto Hacker, New.—The plant is a strong, vigorous grower, of stiff, upright habit, with large, magenta shaded deep green leaves, eight to ten inches long. The flowers are borne in immense pendent clusters eight to ten inches across, twelve to twenty-five large flowers in a cluster. Color, a beautiful bright coral red. Price, 10 cents each.

N. C. A. New.—Elegant pink, similar to the last, but later blooming. Price, 40 cents each.

Special Offer.—For only 50 cents we will send, postpaid, ten fine Begonias, of our selection only, from the above list, all different and all labeled. No further discount or premium allowed.

President Carnot.—New.—In style of Rubra, but more than twice as large; upper side deep green, under side purplish red; flowers beautiful coral red, in large pendant panicles. Price, 10 cents each.

Rubra.—Strong growing; heavy waxen leaves; coral colored flowers in panicles large as your hand. Price, 10 cents each.

Sanderse.—Coral Begonia. The flowers are of a scarlet shade of crimson, borne in profusion. Leaves slightly edged with scarlet. Price, 10 cents each.

Thurtson.—Bright red foliage, and veining underneath the leaves are bright metallic green, shading to red in the younger growth on top. The flowers are of a beautiful deep pink; a charming variety. Price, 10 cents each.

Vesuve.—Beautiful new ever-blooming Begonia. A very strong growing variety, the plant being completely covered with large clusters of bright coral red blooms; very effective variety for bedding purposes where a tall grower is desired, as it produces the effect of a mass of coral red; a fine flower. One of the best varieties. Price, 10 cents each: three for 25 cents.

Washington.—Strong, robust grower, with large deep green foliage. Fine leaves in rosy white; the flowers are pure white, tinted with pink. Price, 10 cents each.

Zenbia, "Zebra Begonia."—Beautiful thick, leathery green leaves, with lighter markings running across the leaves, making a distinct and lovely plant. Price, 10 cents each.

NEW DOUBLE FLOWEDED BEGONIAS.

An entirely new departure in the Begonias of the semperflorens type. The plants are very hardy, doing well in any situation, suitable to wardian cases. Do not allow the sun to strike the leaves while wet, and do not overwater. We have the leading and distinct kinds. Price, 15 cents each; four for 50 cents. Special Offer, Ten for $1.00. No other premium allowed. See cut at left.

BEGONIA REX, THE KING OF BEGONIAS.

Give them a soil composed of rich loam, woods earth and sand. Require a warm, moist atmosphere and a shady situation, suitable to wardian cases. Do not allow the sun to strike the leaves while wet, and do not overwater. We have the leading and distinct kinds. Price, 15 cents each; four for 50 cents. Special Offer, Ten for $1.00. No other premium allowed. See cut at left.

TUBEROUS ROOTED FLOWERING BEGONIAS.

Bloom continually throughout Spring and Summer; outvival in color the most brilliant and differing Geranium flowers. Never seen before. This prodigious profusion of the rich green foliage is almost hidden under the load of blossoms. For bedding plants outdoors, or for forcing in the flower houses, the flowers are magnificent, bright yellow, contrasting nicey with the colors of the flowers. Nancy.—Deep green foliage, medium sized, very double blooms of a clear light pink, with yellow stamens.

SPECIAL OFFER.—The set of four New Double Flowered Begonias for

50 cents net. No other discounts or premiums allowed.

Boile de Neige.—Strong habit, light green foliage; blooms large and full, pure white, occasionally lightly tinted with pink, light yellow shading.

Glorie de Montet.—Very free bloomer, perfectly double, bright carmine, changing to a clear pink at center of flower.

Triumph de Lorraine.—A profuse bloomer, flower quite double, with nicely impressed petals, color of buds and flowers when opening a bright scarlet, changing to cerise color when fully opened, stamens bright yellow, contrasting nicely with the colors of the flowers.

Nancy.—Deep green foliage, medium sized, very double blooms of a clear light pink, with yellow stamens.

SPECIAL OFFER.—For only 50 cents we will send, postpaid, ten fine Begonias, of our selection only, from the above list, all different and all labeled. No further discount or premium allowed.

GORGEOUS COLORED HIBISCUS.

Large-growing tropical shrubs, with fine glossy foliage. The plants under the hottest sun produce enormous flowers in great numbers, and make noble specimens. They can be grown in pots and kept for years. The blooms average five or six inches in diameter, and are gorgeously colored. When bedded out in the lawn the effect is simply grand and gorgeous, commanding the attention and admiration of all. The plant can be wiitered over in a warm, dry cellar or pit.

Price, 8 cents each for small one-year plants, or 4 for 25c.-except where noted; large plants, 20c. each or 3 for 50c.

Aurantiaca.—Large, double, orange-colored flowers.

Dennisoni—This is a lovely variety that blooms when the plant is quite small. The flowers, when they first open, are a lovely, delicate shell pink, changing to pure white. This is the only Hibiscus that has a white flower. Price, 15c. each.

Decorosa—Foliage very large and lobed; enormous single flowers, of rose, Carmine, stamens and petals very showy.

General De Coubert.—A very grand, large-sized flower; single; light scarlet; very showy.

Grandiflora—Rich, glossy green foliage, blooming continuously, literally covering the plant with crimson scarlet single flowers.

Miniata—Semi-double flowers of bright vermilion scarlet; petals waved and recurved. Are very handsome.

M. Color.—A deep magenta, end of petals touched with brown; foliage finely touched.

Babra.—Fine double variety; with large, red flowers.

Petasus—Petals are deeply incanesced and fringed; its drooping flowers, with reflexed, orange-red, and lacinated petals render this plant not only a curiosity, but highly ornamental. Price, 10c. each.

Sinisus Rosa—Flowers red, very large, nearly 5 inches in diameter; double.

Sub-Violacea—Flowers of enormous size, of a beautiful Carmine, tinted with violet, probably the largest flower of the Hibiscus family.

Versicolor.—A variety combining in its flowers all colors of the whole family, being handsomely striped crimson and white.

Zebrinus—Double, outer petals scarlet, edged with yellow, inner petals very regular and curiously ruffled, and incanesced, blooming continuously, literally covering the plant with creamy yellow scarlet. Price, 10c. each.

SULTANI

New Double Pink Hibiscus, "Peachblow."

One of the finest free-flowering plant novelties offered in recent years. The flowers are double and 4 to 5 inches in diameter, of a charming rich clear pink color, with a small, deep crimson center, an entirely new and most beautiful shade. Blooms abundantly and continuously during the entire Summer and Fall months. It will give great satisfaction to all who grow it, either in pots or planted out in the garden. We offer two sizes. Price, strong young plants, 10c.; 3 for 25c.; large size, 25c., 6 for $1.00.

NEW PINK HIBISCUS, "PEACHBLOW."

Price, 10c. each, 3 for 25c.

IMPATIENS

SULTANI

New White Impatiens, Platypetala, Evening Star or White Lady—This magnificent new Impatiens is one of the most beautiful and valuable new plants ever offered to the flower-loving public. Like its sister varieties it is a splendid bedder, but as a specimen plant it is simply magnificent. Every branch is loaded with lovely flowers, which are pure ivory-white, with a distinct wine-colored eye, making it at once very conspicuous and exceedingly beautiful. The flowers are fully as large as a silver dollar, and are borne in endless profusion the whole year round. Small plants not more than two and three inches high, bloom freely; in fact, it is never out of bloom. Price, 15c.; 2 for 25c.

Price, 10c. each.

THE THREE VARIETIES OF IMPATIENS FOR 25CENTS.

specimen appears to be quite a ball of fire. We recommend this highly. Price, 10c. each, 3 for 25c.

Impatiens—The Queen or Pink Beauty.—We are among the first to offer this beautiful and rare novelty in Impatiens, which is given to the public this year for the first time. In form and foliage it is like Sultani, but color of flower is a handsome shade of salmon, tinged with pink. Price, 10c. each.
We have no plants that can equal in grace these denizens of the four corners of the world’s hemisphere. Grow in a shady place in Summer, in soil composed largely of leaf mold or sandy peat. Grow in a sunny window in Winter and turn frequently to the light to preserve the importance of the plant. Give free ventilation, moderate watering and a temperature of 60 Fahr.

GRAND NEW FLOWERING FUCHSIAS.

Carmen Sylvia, Novelty—An excellent double pure white. Price, 15c.

Glorie Des Marches—A strongly growing variety of fine, upright, branched stems, with very double fleshy deep red, white; sepals bright red. Price, 10 cents each.

Glorie Des Marches, Improved—An extra fine double purple variety, comes into profuse bloom on very small plants; it is one of the quickest and freest of growers, with extra fine flowers. Noted for the great length of the corolla. Price, 15 cents each.

Jussieus, Novelty—Very dark purple; double, of medium size, very finely formed, extremely free both in growth and bloom. Price, 10 cents each.

La Cordaire, Novelty—A remarkable large flowering double purple with brightest red sepals. Very showy and good, compact habit of growth. Price, 15 cents each.

Madame Carnot—Remarkably free flowering variety with flowers of finest color. This is the largest and finest corolla of any double and pure white; sepals bright red. One of the finest of the double whites. Price, 10 cents each.

Queen Elizabeth—An extra fine double purple variety, comes into profuse bloom on very small plants; it is one of the quickest and freest of growers, with extra fine flowers. Noted for the great length of the corolla. Price, 15 cents each.

Minister Boucher, Novelty—Double, of good size and very free. Coral stems, leaves and flowers with bright crimson sepals. Plants, when well grown, are one mass of bloom. Price, 10 cents each.

New Improved—This is the largest double purple Fuchsia extant; it has an enormous widespread corolla, and the stamens are curiously attached to the petals; extremely free; a startling variety. Price, 15c.

New Improved—This double grand variety is without a doubt the most desirable sort for hanging baskets. It is of neat, compact growth, not coarse and very symmetrical. The habit is vigorous, with large, heavy, free growth. Corolla, dark varnished red, single; sepals carmine. Price, 15 cents each. 2 for 25 cents.

Phenomenal—The king of them all. Phenomenal is the largest flowering Fuchsia in cultivation. The plant, leaves, flowers and each plant throughout the season is a stately, noble growth. Leaves are dark, glossy green, with veins of dark crimson, giving the foliage a rich, ornamental appearance. The flowers are of enormous size, measuring three and one-half inches across; sepals bright scarlet, with rich violet blue corollas, very double. Price, 10 cents each.

Princess carmine, giving the foliage a rich, ornamental appearance. The flowers are of enormous size, measuring three and one-half inches across; sepals bright scarlet, with rich violet blue corollas, very double. Price, 10 cents each.

SPECIAL OFFER.

For $1.00 we will send you the set of Twelve Grand New Flowering Fuchsias, postpaid. No other discount or Premium allowed.

DOUBLE CORolla VARIETIES.

Avalanche—Rich golden foliage, large purple flowers. Price, 8 cents each.

Dolly Varden—Flowers globular, dark red tube and sepals with dark blue corolla; one of the finest sorts. Price, 8 cents each.

Elm City—Sepals a rich crimson, corolla a deep purple; flowers very free and profusely. Price, 8 cents each.

Jupiter—Is a sport from Phenomenal and is similar to it in every respect, except in the coloring of the corolla. A beautiful shade of light magenta, dark crimson veins. Price, 10 cents each.

Monstroca Superba—Flowers of the best sort, very double, large, almost as large as the largest Fuchsia. Price, 15 cents each.

Mrs. E. G. Hill—This is undoubtedly the most beautiful white Fuchsia ever raised. The tube and sepals are a bright red, redshaid crimson color. Corolla extra large, full and double. Flowers of the largest size. Price, 15 cents each.

Rosalin’s Patrie—Flowers of the best sort, very free and profusely. Price, 10 cents each.

SPECIAL OFFER. We will send the 12 Fine Sorts of Flowering Fuchsias for 50 cents, either Double or Single, or half of each. No further discount or Premium allowed.
**CHENILLE or COMET PLANT**—Acalypha Sanderi

Sometimes Called the Philippine Medusa. This is the most distinct and striking ornamental plant introduced in many years. It is a native of the South Seas Islands. Of easy and rapid growth, and blooms continuously. Of branching habit, healthy foliage and remarkable flowers. The flower spikes, which appear in pairs from the axis of the leaves, grow from two to three feet in length, and are of bright crimson color, drooping and mixing among the green foliage with charming effect. For bright and curious effect it has no equal. Has attracted universal attention and admiration wherever exhibited. Price, 10 cents each; 3 for 25 cents.

Acalypha Marginata.—Large and pointed oval leaf, center brown, margined with rosy carmine. Price, 10 cents each.

Acalypha Miltoniana. New. Very valuable. The leaf is four to five inches long by one and one-fourth broad, notched and very sharply margined. Bright green, bordered with creamy white; short pointed and a free, rapid grower. Price, 10 cents each.

Acalypha Triumphans. New. Ovate p-ointed leaf, two by four inches; very bright in color; a good red, marbled darker; a fine, free grower. Price, 10 cents each.

Acalypha godseffiana. Novelty. Coloring very marked—bright green leaves, broadly margined creamy white. Very distinct and different from all the others. Price, 25 cents each.

LANTANAS, or SHRUBBY VERBENAS.

Beautiful Weeping Lantana.—Plant is of very rapid growth, graceful drooping habit, lovely dark green foliage, producing a cluster of flowers at each leaf. Flowers are a most delicate, clear, brilliant, rosy lilac color; entirely distinct from any other flower we have ever seen. Indeed, we never grew a plant that attracted so much attention and gave such general satisfaction. Price, 10 cents each; 3 for 25 cents.

Aurora.—Light and dark shades of pink.

A. Clavee.—Flowers alvery rose, center soft yellow.

Amie.—Flowers reddish orange with yellow center.

Corolle d'Argent.—Very dwarf, pure white.

Comtesse de Biencourt.—Bright rose and yellow.

Francis.—Quite dwarf, flowers large, rosy lilac.

Grand Sultan.—Orange crimson with yellow center.

Markett's Perfection.—Golden foliage; color yellow and pink; extra fine for bedding or pots.

Javon.—Purest white, very large flowers.

Jaune d'Or.—Bright golden yellow with bronze edges.

La Plus d'Or.—Pure yellow flowers, dwarf and bushy.

M. Schmidt.—Yellow, passing to a purplish vermillon.

Snow Ball.—Large, pure white flowers; very fine.

Seraphine.—Dwarf; red with yellow center.

Tethys.—Beautiful pure canary yellow.

Price. 8 cents each; four for 25 cents, except where noted.

CAMELLIA JAPONICA.

The Camellia is considered the queen flower of the South. During the month of May immense trees can be seen in full bloom, making the most gorgeous sights to behold. Their dark, shiny leaves contrast beautifully with the wax-like blooms, which come in white, pink, rose, carmine and variegated shades. No garden is without them, as they are also quite hardy in the Southern States and require no protection or care. They are called the Royal Family of greenhouse plants. Leaves glossy and flowers of the most exquisite beauty; most endless variations of colors. We offer splendid plants, bushy, well-grown specimens, all in splendid health. The varieties are the best extant, the pick of a Continental collection. Fine large plants, 75 cents each; 4 for $2.50 net.

BOUGAINVILLEA SANDERIANA. (Chinese Paper Plant).

Elegant Specimen Plant: Can be Trained in Any Desired Shape.

This beautiful free flowering variety was introduced about three years ago and on account of its free blooming qualities has become very popular, especially as a plant for Easter decoration. It is of strong and rapid growth, the brilliant rosy crimson blossoms are produced from early in February until mid-Summer; in fact, a plant will frequently flower the greater part of the year. It is a most desirable subject for the conservatory or window garden. Price, 10 cents each; large size, 25 cents each.

SANSEVIERIA ZEYLANICA.

Beautiful plant, especially adapted for decorating drawing rooms and halls; stands drouth and dust with impunity; leaves very beautifully striped crosswise; broad, with variations on dark green ground. Will do well in any position. Singularly beautiful for decorative purposes; useful both Summer and Winter. It makes a fine center piece for vases and baskets. Grows splendidly out of doors during the Summer. Fine plants, 10 and 25 cents each; extra large specimen plants, 50 cents.

$1.00 and $2.00 each.
ASPARAGUS SPRENGERI, or EMERALD FEATHER.

A most desirable new species, especially useful to grow as a pot plant for decorative purposes or for planting in suspended baskets. The fronds are frequently four feet long, are of a rich shade of green, and most useful for cutting, retaining their freshness after being cut for weeks. It will make an excellent house plant, as it withstands dry atmosphere and will succeed in almost any position. No introduction of recent years has made such a favorable impression upon us as this graceful Asparagus. We have a large stock of it and offer it at a very low rate. Price, 10 cents each, 3 for 25 cents; large plants, 35 cents each, and extra large specimen plants, 50 cents and $1.00 each. These are beautiful plants.

ASPARAGUS PLUMOSUS NANUS, or LACE FERN.

One of the handsomest of foliage plants. The foliage is a bright green gracefully arched, and as finely woven as the finest silk web, lasting and retaining their freshness for weeks. We consider it the most valuable plant we have for this purpose, surpassing Maidenhair Fern in fineness of texture and richness of color. Price, 10 cents each, 3 for 25 cents; extra large plants, 50 cents each.

ASPARAGUS TENNUISSIMUS.

We consider this extremely elegant plant to be the greatest acquisition for decorative purposes or for cutting from that has been offered for many years. It is a climber, and is grown and can be strung like Simias, but the extreme delicacy of the foliage cannot be described. It is as fine and graceful as Asparagus, finer than the fronds of the most delicate Fern. The sprays will be in great demand for bouquet and other floral work, as in addition to its gracefulness, it does not wilt like Simias, but remains bright and green for weeks. Price, 10 cents each, 3 for 25 cents.

DRACAENAS.

Dracaena Indivisa, or Club Palm.—(The Fountain Plant.) This variety is unsurpassed for hardiness in the house, and is used very extensively as a center plant for vases, urns, etc. It stands full exposure to the sun, its long, narrow, graceful foliage contrasts beautifully with other foliage and flowering plants.

Price, 10 cents each; 3 for 25 cents; large plants, 25 cents each.

Dracaena Terminalis, or Dragon Plant.

——A superb species, with rich crimson foliage, so marked with carmine pink and creamy white that words cannot express the exquisite coloring. This is one of the most admired of the species, its elegant habit and extremely beautiful, lively coloring giving it marked value. For room adornment, or as a vase plant for outdoor use it is indispensable. Price, 35 and 50 cents each.

NEW AGERATUM, STELLA GURNERY.

A short, compact grower, well bracted, extremely free blooming, individual tufts are very large, dense; color, intense blue; most beautiful ever seen in Ageratum. Has a velvety texture quite unlike the cotton-like flowers of this class. By its neat, short, dense growth and flowers of brilliant blue, furnishes a bedding plant without equal. Can be used as a border. Price, 10 cents each; 3 for 25 cents.

NEW AGERATUM, PRINCESS PAULINE.

Most distinct, novel variety of dwarf habit; its peculiarity being that both colors, light blue and white, are combined in same flower. Price, 10 cents each; 3 for 25 cents.

NEW AGERATUM, LOUIS BONNET.

Of dwarf, compact growth, covered the entire Summer with pure white flowers. Price, 10 cents each; 3 for 25 cents.

AGERATUMS—BLUE AND WHITE FOR BEDDING.

Useful class of bedding plants, remarkably free flowering; also make excellent pot plants for Winter blooming. Price, 5 cents each; 6 for 25 cents.
Every garden, large and small, has room for an attractive Geranium bed, and no Geranium gives better satisfaction for bedding than the now justly celebrated Bruanti.

A BED OF FORTY MAGNIFICENT GERANIUMS FOR $2.00.
FORTY PLANTS WILL NICELY FILL A BED FIVE OR SIX FEET IN DIAMETER.

BRUANTI. THE GIANT AMONG GERANIUMS. We consider this the best bedding Geranium of all varieties. The plant abounds in vigor, foliage strong, striking and of perfect habit. Color of the flower is a bright vermilion red of most pleasing shade. The flowers are absolutely perfect in shape, color and make-up, trusses exceptionally large, and borne in immense spherical balls, often measuring eight inches in diameter. It makes a compact, dense growth, and has all the qualities that go to make the perfect bedding that it is. Fine also in pots. The flower of this Geranium is a happy consummation of what it should be to bloom freely and to be the most effective in appearance. It is of the semi-double type (the most striking of all), only the double form takes place near the base of the petals, allowing them free development, and at the same time showing the semi-double type. It embodies all the advantages of both types, the perfect development and free blooming qualities of the singlets, the fullness and beauty of the doubles, without their great fault of having florets drop and drop off and become unsightly when planted outside. We have grown an immense stock of this variety; will not have less than twenty-five thousand to sell in the course of the season. Try a dozen or more of this beautiful Geranium in a bed or clump, and it will delight you the Summer through with its handsome foliage and pleasing color. Price, 10 cents each; three for 25 cents.

SPECIAL OFFER.—For $1.00 we will send you 20 fine plants of the Giant Bruanti, postpaid, or 40 for $2.00, postpaid; one hundred (100) by express for $4.00 net.

No other premium or discount allowed on special offers.

THE BEAUTIFUL SILVER LEAF GERANIUM PEARL GEM or MD. SALLERONI
A grand companion plant for bordering the Giant Bruanti beds with. It is a very compact variety of silver Geranium, very fine for massing or bordering, a thrifty, healthful grower, rarely reaching a height of more than eight inches. Leaves rather small, of a peculiar clear green, edged with pure white; makes a beautiful contrast in any Geranium bedding; equally effective in any kind of bedding. Price, 8 cents each; four for 25 cents.

SPECIAL OFFER.—20 fine plants Pearl Gem for $1.00, postpaid; 100 by express for $4.00 net. No other discount or premium.

SENSATIONAL NEW IVY-LEAVED GERANIUMS.

ACHIEVEMENT. Another grand English novelty belonging in the class with P. Crozy, being a true cross between the Ivy and the Zonal class. It has the habit and texture of the Zonal, with the form of Ivy foliage, and also of the Ivy bloom. Color, pure self rose with white, eye, immense in size, on long stems, freely produced. Price, 15 cents each.

COL. BADEN-POWELL. This is the grandest variety since Souv. Chas Turner, and is destined to be as universally popular; one of those really striking good things that sell on sight. The flower is of enormous size, the largest among Ivies. It is semi-double, of elegant showy form. The color varies at times from pearl white to soft blush, exquisitely beautiful; a free bloomer, and, still better, a good, satisfactory grower. It has trusses of good size on long stems, which makes it very effective as a subject for baskets or vases, and useful for cutting. Price, 25 cents each.

BEAUTY OF CASTLE HILL. A most beautiful variety, producing flowers that are exceptionally large. Color, a lovely shade of rose with dark blotch on upper petals. Free in bloom and a fine grower. Price, 15 cents each.

SPECIAL OFFER—We will send you the 6 Sensational New Ivy-Leaved Geraniums for 75 cents postpaid. This is a great bargain. No other discounts or premiums allowed.

“LEOPARD.” This is an absolutely distinct novelty in the Ivy-leaved Geraniums. The flowers are 21/2 inches across, semi-double and borne in medium sized clusters. The color is remarkable, being fully as rich and distinct as an orchid. The ground is a clear rosy pink, the upper petals being heavily blazed with fiery crimson, distinctly marked with white at the base above which is the arch of fiery crimson like an aureole; the base of the lower petals is feathered with rich crimson maroon blotches. The variety is unique and fully as striking as any of the orchids. Price, 15 cents each.

MRS. J. G. DAY. Intense glowing shade of rosy crimson, of free flowering habit, robust and sturdy, foliage thick and glossy, has a fine long stem. A cross between Souv. de Chas. Turner and H. Jacoby. The size of the flower, length of stem, and free growth, all make this variety remarkable, while its color is as high as that of any red Zonal, and the form and fullness as perfect as in Ruspad Improved. Price, 30 cents each.

MRS. HAWLEY (1902). A deep pink colored Ivy leaf Geranium, with vigorous habit. Flower large, in fine trusses on long stems; has all the good qualities of the best varieties with a beautiful new color. Every person will appreciate this delightful novelty. Price, 15 cents each.

THE C. A. REESER CO., SEEDSMEN AND FLORISTS.
Spring, 1904.
NO MATTER what the weather is, even in the hottest and driest, the Brunats are always green and crowded with flowers. New colors, new styles, profuse blooming sorts—all these have combined to make the Brunat family of Geraniums the most popular plant for bedding or pot culture.

PRICE, 10 CENTS EACH; 3 FOR 25 CENTS, EXCEPT WHERE NOTED.

SPECIAL OFFER.—For $1.00 we will send you 15 fine plants of any variety priced at 10 cents each, or assorted varieties, your selection, not priced over 10 cents each. No other discount or premiums allowed on special offers.

Alfred Tennison.—One of our very best bedders. The trusses are extremely large and informal, in immense spherical balls. The color is a bright orange scarlet, shaded vermilion red; semi-double.

Alfred Maze.—A magnificent single variety. Trusses of extraordinary size, the florets by actual measurement being two and one-half inches long by two inches wide. Of almost Danny form; the color is a soft scarlet, the lower petals shading to salmon in the center, which is deeply veined crimson.

Alphonse Ricard.—The color is a very bright vermilion scarlet; habit dwarf and very vigorous. No, truly very poor without it. Large semi-double floret sometimes exceeding 2 inches in diameter. The finest large-flowered Brunat that has ever been introduced and the best bedding scarlet. The trusses are on long foot stalks and so freely produced as to nearly conceal the foliage. It is a constant bloomer from early in the season to late in the fall, and should be no trouble.

Aurora Borealis.—Bright, brilliant red; large, single flowers.

Action.—New. Beautiful new color, a grand scarlet, upper petals tinted with rosy lilac, semi-double, very fine and striking.

Barbican.—A very large color; flesh, bright rose, maculated with white on upper petals; single.

Baronne de Scalbert.—Single. Of dwarf and compact growth, and so fine in bloom that the large trusses cover the plant; florets extremely large, of bright, soft pink color, centered white, petals veined with red; a lovely color, and a grand addition to the Brunat family.

Bellerophon.—Grand single scarlet, with broad, nicely rounded flowers, two inches in diameter. Very free in bloom. Habit of growth large, foliage especially fine. Will surely become one of our most popular varieties.

Blanche Moutis.—A grand bedding and potting variety; large single flowers; color, salmon, bordered with white.

Beaulieu Poltine.—Best salmon Geranium for bedding purposes; most profuse bloomer of all Geraniums. Largest size trusses, borne on long foot stalks; florets very large, of beautiful, brilliant salmon. What Alphonse Ricard is to scarlet Geraniums, Beaulieu Poltine is to salmon. Always in great demand during Spring; brings a higher price than any other variety that we sell.

Chaplin.—Large floret, semi-double, of brilliant red.

Comte de Blicas.—Of beautiful habit, foliage of medium size, single, large florets in good sized truss; center, brilliant orange salmon; well bordered with white eyes.

Comtesse de Harcourt.—A snow-white Brunat, strong, vigorous habit, with large, individual snow-white florets. We consider this the purest white Geranium of the season.

Col. Barre.—Semi-double, dwarf in growth and very free in bloom. Color, rosy crimson, base of upper petals marked orange red.

Comte D’Elbe.—Single; habit rather dwarf; foliage beautifully zoned; trusses immense, on rigid stems; florets immense; color, tender rose, passing to bright rose; very distinct.

Francois Arrago.—A charming variety and free bloomer; color, salmon, well adapted to salmon in the center; single.

General Dodds.—Plant very dwarf in habit, and foliage very heavy. Leaves beautifully denoted, trusses very large indeed; florets more than two inches in diameter. Color, soft vermilion, of grand effect.

Glorie Poltine.—Immense truss of large single flowers; color, bright, rich red, shaded orange, with distinct white eyes.

Gros—Large, spreading and free flowering single variety. The plant is all that could be desired in form, and produces large trusses of deep apricot salmon flowers of great beauty.

J. J. Harrison.—Large, very large. Color, rose; florets of enormous size, habit all that could be desired. A fine bedder and most effective sort.

Johnnie Doyle.—One of the brightest, most free blooming and sat- isfactory varieties in the Brunat collection. It is expected to be our standard of excellence for scarlet bedders. Dense and compact in growth; trusses large, composed of very large trusses of brightest vermilion scarlet; semi-double; fine for cutting.

J. D. Cabos.—Single; of dwarf growth, flowering in the utmost abundance. Trusses of the largest size, composed of very large flowers, showing a distinctly new and delightful color in this class, a beautiful, soft, rosy pink; magnificent bedding or pot plant.

Jean Viard.—This is the finest Geranium for blooming we have ever grown. Flowers semi-double, of largest size, on immense stalks. Color, a fresh, bright, rose pink, the two upper petals marked with white blotches, adding greatly to the freshness of coloring. Its habit of growth, uninterrupted blooming and hardness will attract attention at once, and it will be grown in large quantities when better known.

Le Colosse.—Extra large flowered, bright scarlet. Remarkable for abundance of bloom and brightness of color. Destined to be a grand variety for pot culture.

M. Landry.—The finest new salmon color we have ever seen. Flowers very large, in immense trusses on long, rigid stems; semi-double. Plant remarkably free in bloom, being a mass of flowers until the end of the season. A particularly desirable color, very hardy, and a fine variety of petaled a brighter shade than the rest of the flower. A beautiful and distinct variety.

Marquise de Castelaine.—A giant among Geraniums. Produces a wealth of bloom the whole season. Flowers 2 inches and over in diameter. Produces enormous quantities of flowers in the season. The color is a very fine salmon, of large size, arranged to form a round flower of perfect shape. Semi-double. Color, deep rosy scarlet, shading into pure scarlet at the edge of upper petals. We consider it one of the best red Geraniums ever introduced.

M. Jaulin.—Without question the finest new semi-double Geranium offered in many years. This is an entirely distinct color in the Brunat or bedding family. This is a very large variety, producing a truss of great size; center of flower very delicate pink, bordered with pure white; for freshness and beauty this variety is unrivalled by any bedding sort, and is equally as valuable for pot culture and market purposes.

Madame de La Roque.—Enormous single flowers, in large trusses; color, a beautiful salmon, with orange-shaded center.

Mrs. A. Blanc.—Apricot red, veined darker; rose center; single.

Madame de Luc.—This fine variety is without question the best single pink in the market. Flowers 2 or 3 inches in diameter, but having a full size of petals blushed with white. A grand plant and an excellent bedder.

Mrs. E. G. Hill, Giant Single.—A magnificent bedding variety. The trusses are of extraordinary size, the florets by actual measurement being two and one-half inches long by two inches wide, of almost piano form. Color, the center of each petal is a soft, light salmon, the edges marked with rich red. This is one of the finest varieties that has ever been universally admired by all who have seen it in flower.

President Victor Dubois.—A very distinct variety. Color, intense magenta rose.

Panama.—This grand new variety is one of the best breeders of the class. The constitution and growth are excellent; the trusses are exceedingly large on long-foot-stalks, the single florets are very large and of a magnificent velvety crimson scarlet; never out of bloom; one of the most desirable of the family. Price, 15 cents each; 2 for 25 cents.

Prote.—An exquisite variety. Flowers very large; color, silvery lilac white, changing to silvery pink; single.

Theodore Thullier.—This is a very distinct color in the type, a brilliant vermilion scarlet; flowers of immense size; plant of great size, but compact habit; single. A magnificent bedder and a grand, showy pot plant.

Theulier.—An extraordinary variety, the florets by actual measurement being two and one-half inches long by two inches wide, of almost piano form. Color, the center of each petal is a soft, light salmon, the edges marked with rich red. This variety has been universally admired by all who have seen it in flower.

Ville de Poitiers.—There is nothing finer than this in the Brunat family. Semi-double, enormous flowers, leaves of immense size, the trusses very large, composed of enormous florets, nearly 3 inches across and of the peculiarly beautiful form of Beaulieu Poltine. Very resembling in color, and having the elegant effect when massed.

Van Dael.—Enormous trusses of large florets. Center, fresh salmon rose, bordered white; single.

W. P. Simmons.—Single. Remarkably dwarf stature, brilliant and abundant bloom; color, extremely bright orange scarlet; flowers well up above the foliage and of grand size.
A PAGE OF THE BEST DOUBLE BEDDING GERANIUMS

Equally Fine For Pot Culture.

The grand revival of elaborate and extensive bedding of Geraniums in the public parks and along the great railroad tracks of the country has led us to grow a large number of the best bedding kinds of Geraniums, and to classify them together for the convenience of those who are in a quandary what to buy. Permit us to say that there is rarely a garden to be found but what has room for a few Geraniums, and no other plant is more eminently satisfactory to the planter than the Geranium.

REMEMBER.—All Special Offers and Collections are net cash. No premiums or discounts can be allowed; they must not be included in your clubbing rates.

Emile de Girardin,
Double Pink Bedding Geranium.

No one who has seen this lovely pink Geranium, as it is grown in the beds and borders of the Northern parks, can imagine the beauty that lies in a flower of that color. Of a deep, soft rose, rather than pink, but fresh and bright, the blossoms are perfect in form and borne well and clear above the foliage. The long beds of it seen in the Chicago parks, with their edging of "Golden Bells" Coleus, formed the most beautiful Geranium planting we have ever seen, and the combination is delightful. It stands the sun perfectly, and, is, in our opinion, the finest double variety of any color for massing, when a delicate and artistic effect is desired. Price, 10 cents each; 3 for 25 cents.

SPECIAL OFFER.—For $1.00 we will send 20 fine plants of Emile de Girardin, or 8 for 50 cents; one hundred (100) by express for $4.00. No other discount or premiums.

The Great Crimson Bedding Geranium, S. A. Nutt.

S. A. NUTT.—The Great Double Crimson Bedding Geranium.

This, the finest of dark crimson Geraniums, has now taken the lead as a bedding Geranium, being used in the largest parks and public grounds of the country in preference to all others. Its dense, compact growth, profuse blooming qualities and sunproof constitution combined, give it the prominence as a bedding plant it has attained. We sold upwards of twenty-five thousand plants of S. A. Nutt in the past season. As a pot plant it cannot be excelled, as it does not make the long, straggly growth so many other Geraniums do in the winter. Price, 10 cents each; 3 for 25 cents.

SPECIAL OFFER.—For $1.00 we will send you 20 fine plants of S. A. Nutt or 8 for 50 cents. Postage paid. One hundred (100) by express $4.00 net. No further discount or premiums allowed.

New Double Parti-Colored Geranium—QUEEN OF THE FAIRIES.

In Queen of the Fairies, we have the finest double parti-colored Geranium ever introduced, and it is suitable for bedding, and flowers as profusely as the best single varieties. The perfectly double flowers are unsurpassed for cut flowers. They are borne in large trusses and retain their beautiful coloring even in the heat of Summer. In the Fall the plants can be taken in the house, where they will again bloom profusely. Large, round flowers, of waxy appearance; colors, carmine and white, with carmine centers, each petal delicately edged with carmine. An excellent pot variety, to which its habit is finely suited. It is one of the prettiest Geraniums we know. This is the most beautiful of the parti-colored Geraniums, which appear so bewitching to the eye. The very brightest color imaginable. Price, 10 cents each; 3 for 25 cents.

SPECIAL OFFER.—For $1.00 we will send you 20 fine plants, postpaid; or 8 for 50 cents. No other discount or premiums allowed.

Double Pure White Bedding Geranium, LA FAVORITE.

In this new Geranium we believe we have the finest double white Geranium in cultivation. The single Geraniums are valuable for bedding and present a beautiful effect in massing, but cannot be used for cut flowers on account of the petals falling. On the other hand, most of the double varieties of Geraniums are useful for cut flowers. In La Favorite we have a pure, double, white Geranium, as free flowering as the single varieties, and which can be used for planting in beds, for furnishing a supply of beautiful white flowers for vases, etc., or for pot culture for winter forcing. It is a dwarf, compact growing variety; the foliage is a bright, healthy green, with a band of darker green encircling each leaf. The flowers are borne in large trusses, of the purest white; retains this pure whiteness even in the height of Summer and for winter blooming it is all that can be desired. While "White Swan" is a beautiful variety, yet La Favorite is quite in advance of it. Do not fail to add this charming variety to your collection. Price, 10 cents each; 3 for 25 cents.

Special Offer.—We will send, postpaid, 20 fine plants of La Favorite for $1.00, or 8 for 50 cents; one hundred (100) by express $4.00. No other premium or discount allowed.
DOUBLE VARIETIES.

Alpine Beauty.—What S. A. Nutt is among dark reds, Alpine Beauty is among double whites. We consider this the finest double white up to date.

Bonna.—Large, spherical trusses, flowers full and of the finest form, brilliancy of color most marked, and one of the finest in the market.

Centaure.—Color, the richest deep pink, shading near base of petal to light pink, the base of upper petals creamy white.

Contraste.—Very large. Lower petals orange and carmine, upper petals white, giving contrasting effect of colors that is unsurpassed and extremely beautiful.

Countess de Castries.—Extra large, bright rose, base of upper petals pure white. Blooms in immense trusses on long, stout stems. The plant is of vigorous, robust growth.

Colossus.—Floret quite circular, semi-double, 2½ inches in diameter; petals fine. The color is very beautiful, a rich shade of rosy crimson. Very free in bloom. One of the finest.

Ernest Kelway.—A vivid scarlet, with grand truss. Every thing produced is more flower, both in other bloom.

Dr. Jacoby.—Enormous trusses of clear salmon.

Double Guinea.—It is a splendid grower, stands the sun well, and is of a very bright orange-yellow color, of fine form.

Eulanse.—Double, Bright salmon; a beautiful, well-formed flower, and a distinct advance upon many previous introductions.

Fire Brand.—Color, a dazzling flame scarlet; fine truss, flowers large and of great substance. An excellent bedder.

Gertrude de Bonnat.—Rich, clear, bright salmon, with center and outer edges touched with white, and soft shading of carmine, velvety in texture, and of the most beautiful form.

Gen. Millot.—Intense and dazzling crimson scarlet.

Gloria carmine.—Large, round flowers of waxy appearance; color, carmine and white, with carmine center, each petal delicately edged with carmine. An excellent pot variety.

Gloria De Bondean.—New. Large, round flowers of waxy appearance; colors carmine and white, with carmine center, each petal delicately edged with carmine.

Gloria Variana.—Large, round flowers of immense size. In color a distinct cherry, shading to rosy lilac, flower marked white.

Lady Candelabra.—Intense deep salmon, large, full flower and truss, habit dwarf and branching, very full, Double.

Le Contabile.—Large, full, double flowers of a beautiful bright rose color. An extra fine variety.

Le Pilote.—One of the most brilliant and beautiful. Very brilliant crimson scarlet; large and beautiful flowers.

M. F. Carlson.—Whitish, large; flowers very full. A color a beautiful shade of soft-sub-scarlet.

Marvel.—Rich, bright crimson. One of the best colored bedders. A fine variety.

Mme. Bacot.—An abundant bloomer of a most remarkable shade of orange, approaching yellow. Dwarf and of free growth.

Mrs. Gladstone.—Grand color, pure white and shaded flesh pink; flowers exceptionally large; both in other bloom.

Mme. Chas. Dabonche.—Double, extremely free flowering, with enormous trusses, composed of large, round flowers. Color, bright rose, shading to light pink.

Monteagut.—Very large flowers and truss; color, an exquisite pale mauve, with white eye.

Monstre Press.—Enormous trusses of large flowers; rich, rose-carmine. A most excellent bedder.

Madame Ayme Chevrelle.—The best double white Geranium in cultivation. All through the Summer, this superb new variety produces more flower, both in other bloom, than any other.

Marquis De Galard.—Trusses of immense size, semi-double; color, rosy cassis; shading to orange; stems very stiff and long; color very fine, and bloom immense.

Mons. De La Rue.—Rich carmine lake color of the most intense shade with white mark at base of petals; also lined and dotted carmine. Very large flowers, color magnificent.

Professor Polkan.—One of the most beautiful of the fancy doubles; flowers large, and of brilliant violet color, the upper petals very distinctly marked with orange.

Rosapha.—A perfect growth, bushy plant, constantly covered with well-proportioned trusses of exquisite little rosette florets; intense and beautiful.

Raspall Improved.—One of the very largest of all double scarlets, and one of the finest of Geraniums. The color is very bright, flower immense.

Sir Trevor Lawrence.—Enormous trusses of bright rosy pink flowers; beautiful foliage. This is one of the best.

William Platin.—Beautiful, bright apricot color, quite distinct and by far the best of the collection.

SINGLE VARIETIES.

Athletics.—The brightest imaginable scarlet, with distinct white eye, large, nice, double flowers, two inches in diameter.

Benjamin Schroder.—Large, single flowers, of soft, rosy pink, with distinct white blotch on upper petals.

Brilliant.—A very sweet scarlet; very fine, circular florets and beautiful trusses, and the grandest of the singles.

Bill Nye.—Color, peach, shading to pale salmon; flowers of fine size and form; beautiful and odd.

Cleaveland.—Large, single flowers; color, an azure-blue of deep blue carmine at the center.

Gallatina.—Individually formed, rosy pink, with single, circular, rose blotch on the upper petal. Large truss and very free and beautiful.

Gertrude Pearson.—Pure rose-pink, with conspicuous white blotch on two upper petals; flower beautifully formed and the largest of its color; habit good, foliage toned.

Granville.—Floret perfectly round; a lovely bright pink. The flowers are of the largest size and excellent form; trusses very large and branching. Blooms all season of the year.

Gettysburg.—Bright crimson maroon, of a beautiful shade; flowers very large and of fine form. Extra fine.

Jacqueline.—One of the largest; the florets are longer than the blossoming leaf, upon which occurs a very velvety in texture, and a magnificently shaded dark crimson scarlet.

James Kelway.—A beautiful crimson scarlet of fine size and nice texture; unusual pink, with slightly recurving petals.

John P. Cleary.—One of the most brilliant and one of the best single scarlets. Flowers large and fairly leathery in substance, standing sun and storm without injury.

J. Salter.—Single, large, round flower in large trusses; color a clear rosy scarlet with distinct white eye. Plant of free branching habit, a very pleasing shade of color.

Lowell.—Single, medium, flat; flower pink, of beautiful shade, large trusses. Fine indoors or out. The best of its color.

L. Swarting.—The center of the floret is scarlet flame, shading out to salmon color. A most dainty, sweet scarlet.

Marguerite de Layres.—A grand single white; florets extra large and purest white.

M. J. Garr.—Dwarf, compact habit, and in freedom of bloom, is a superb bedder, very perfect for best Scarlet bedders.

Madonna.—Very soft, pale pink; a delicately beautiful color and striking variety. Floret perfectly round; flowers the largest size.

Pierre Mael.—Color, violet lake or pure violet, upper petals particularly and delicately spotted and striped with white.

Princesse Marguerite.—A very large truss of pure white. A grand grower and b-loomer.

Rev. W. Atkinson.—Rich crimson scarlet; fine large flowers and truss. Very free flowering; one of the best.

Republic.—One of the finest novelties. White flowers, with a large, rose-colored center. A dainty and beautiful flower.

Sam Sloan.—Fine velvety, and giving quantities of immense trusses. Unequaled as a dark hedder.

Scarlet Cloth.—Splendid rich shade of scarlet. Extra largeflower and truss.

Signor Crispin.—Immensely flowers on large trusses of the most delicately beautiful pink; large white eye.

Theo. Lavalle.—Large, round flowers, very freely produced; coloring, changeable, varying from deep lavender to rose-pink.

Van Beneden.—Fine large flowers, lower petals rich violet bordered with scarlet, upper petals orange scarlet; very bright.

Violet Queen.—Large, beautiful shading of rose and bellotrope color. Extremely handsome, but very rare.

W. A. Chalifant.—Dazzling scarlet; flowers slightly circular and slightly cupped,—a perfect scarlet bedder.

Wedding Ring.—The dazzling orange-scarlet florets, circular and cupped, give it the appearance of a beautiful ring. It forms magnificent trusses and produces copiously.

Wonder.—Flowers are of the most intense, dazzling scarlet, and borne in trusses of enormous size, eighteen inches in circumference. A fine bedding or pot plant.

SPECIAL OFFER.—For $1.00 we will send eighteen varieties of either Single or Double, or half of each, of your selection. No further discount.
NEW BEDDING GERANIUM, COLUMBIAN.

The Columbian is a perfect marvel among Geraniums, and is the best of the new dwarf growing sorts. It is a very dwarf and compact, rarely growing over fifteen inches high, and of a very branching habit. The flowers are produced in the greatest profusion upon medium-sized trusses; the flowers are a brilliant scarlet, with large, strong trusses. A bed of this Geranium will cause a sensation wherever grown. The habit of plant is good, and may be classed as one of the finest bloomers in cultivation; without an equal for either bedding or pot culture. Price, 10 cents each; three for 25 cents.

SPECIAL OFFER.—For $1.00 we will send twenty plants of this fine Geranium; this number will be sufficient to make a gorgeous bed. No further discount on this offer.

PEACH BLOSSOM GERANIUM, SOUVENIR DE MIRANDA.

The greatest novelty in Single Geraniums that has appeared for a number of years is undoubtedly Souvenir de Miranda. It is entirely different from any variety known, and is quite different from the usual market varieties that have from time to time made their appearance. It has round florets, lower petals salmon rose, streaked with pure white; a most novel color. It is extremely fine flowering, and produces fine trusses of beautiful bloom. Price, 5 cents each.

SPECIAL OFFER.—For $1.00 we will send you twenty fine plants of Souv. de Miranda.

SAM SLOAN, SINGLE CRIMSON BEDDER.

This grand variety is the single Geraniums what S. A. Natt is to the doubles—one of the best bedders of the class. The constitution and growth are excellent; the trusses are exceedingly large on long foot stalks, the single florets are very large and round and of a magnificent varvety crimson, new from the number of different colors and sizes. This variety is the most popular one in the kingdom. Price, 10 cents each; three for 25 cents.

SPECIAL OFFER.—For 50 cents we will send 20 fine plants postpaid. No other discount or premium allowed.

BEAUTIFUL NEW AUREOLE SINGLE GERANIUM, MADAME BRUANT.

No other Geranium has ever attracted so much attention or been so much admired as this beautiful new aureole flowered variety. It is entirely distinct from any Geranium in cultivation, so much so that visitors on passing through the greenhouses where hundreds of other varieties are in bloom, single it out at once as the most beautiful and attractive in the whole collection. It might with propriety be called the Pansy-Flowered Geranium, so distinct is it from the ordinary style. The plant is a vigorous grower, making nice, compact plants, and very free flowering, producing fine large trusses of bloom in great profusion; individual flowers large, of fine shape; center of flower white, veined with carmine lake, the five petals regularly and distinctly bordered with bright salmon. The arrangement of color is exquisite and entirely new in Geraniums. An excellent variety for pot culture, being a continuous bloomer Winter and Summer. Price, 10 cents each; three for 25 cents.

A bed of this beautiful Geranium will excite the envy and admiration of your friends and neighbors for miles around.

SPECIAL OFFER.—For $1.00 we send 20 beautiful Aureole Geraniums, Md. Bruant. No other discount.

STANDARD SINGLE SCARLET BEDDER, GEN. GRANT.

The best bedding single Geranium in cultivation. Grows freely and blooms with the greatest profusion. Bright, showy, scarlet flowers in large trusses. Stands the hottest sun and is always in bloom, Summer and Winter. Cannot be too highly recommended. A mass of this dazzling and bright Geranium, with an exiging of Geranium "Crystal Palace Gem," is a pleasing sight. The bright scarlet flowers of the one, and the golden yellow foliage below are beautiful beyond the belief of one who has not seen them together. Price, 10 cents each; three for 25 cents.

SPECIAL OFFER.—We will send 20 fine plants for $1.00. No further discount.

BEAUTIFUL NEW SINGLE WHITE GERANIUM, L'AUBE.

New white bedding variety. Enormous flowers of good substance that do not burn in our hottest suns. Color, pure white, definitely surpassed by any of the best bedders of any color. Price, 10 cents each; three for 25 cents.

SPECIAL OFFER.—For $1.00 we will send 20 plants of L'Aube. No further discount.
THE BEST STANDARD VARIETIES OF GERANIUMS

PRICE, 8 CENTS EACH; 3 FOR 20 CENTS.

SPECIAL OFFER.—For 60 cents we will send either set, 12 best Double or Single Geraniums, or half of each, your own selections. No other discount or premium allowed.

The 12 Best Double Geraniums.

Asa Gray.—Flowers are a salmon pink, mixed with white. Price, 15 cents each.

Emerson.—Flower-colored flowers, shaded pink and salmon. Price, 15 cents each.

Grand Chancellor.—Flowers very dark, soft red. Price, 15 cents each.

Gilded Gold.—Deep golden orange, of medium size. Price, 15 cents each.

Hoff Beach.—A rich amaranth purple. Price, 15 cents each.

James Y. Murkland.—Bright peach rose, margined white. Price, 15 cents each.

Mrs. Hayes.—A beautiful shade of pink or flesh color. Price, 10 cents each.

Mrs. Chas. Pease.—Rich, deep pink, marked with white. Price, 10 cents each.

Peach Blossom.—White, shaded with a deep pink peach. Price, 10 cents each.

Richard Brett.—Fine orange scarlet, very double. Price, 10 cents each.

Robert George.—Deep crimson scarlet, and of great size. Price, 10 cents each.

White Swan.—Fine double white. Price, 10 cents each.

SWEET-SCENTED GERANIUMS. PRICE, 8 CENTS EACH. EXCEPT WHERE NOTED.

Apple-Scented.—Apple fragrance. Price, 15 cents each.

Balm-Scented.—Delicious balm fragrance. Price, 15 cents each.

Fernolia Odorata.—The most delicate of all the cut-leaved Geraniums, of delightful fragrance, very fine growing; leaves valuable for mixing with cut flowers. Price, 15 cents each.

Lemon-Scented.—Price, 10 cents each.

Mrs. Taylor.—Foliage not very fragrant, but beautiful; flowers scarlets, in good clusters, shaped like a small Pelargonium; blooms freely and constantly. Price, 10 cents each.

GOLDEN BRONZE, SILVER LEAVED AND TRI-COLORED GERANIUMS.

Arbutus, New.—Fine, large salmon-pink flowers, profuse bloomer; foliage like Crystal Palace Green. Price, 10 cents each.

Bronze Bedder.—The brightest, and best of all; foliage yellow, with a narrow zone of deep chocolate; simply grand. Price, 10 cents each.

Corinne.—Clear golden yellow foliage, with elegant bronze, double, very orange-colored flowers. Price, 15 cents each.

Crystal Palace Gem.—Broad golden yellow margin, with a central disk of green; dwarf and free. One of the best. Price, 5 cents each; 5 for 25 cents, net.

Distinction.—Bright green leaves, with a distinct ring of jet black bordering each leaf; red flowers. Price, 10 cents each.

Exquisite.—Large chocolate zone, large golden yellow center, edges variegated, flowers salmon, tipped white. A perfect beauty. Price, 10 cents each.

Fanny.—Like golden foliage, chocolate zone; the flowers are large and of a delightful peach color; very free blooming. Price, 10 cents each.

Happy Thought.—A tri-colored Geranium, with very dark green foliage, having a light creamy almost white center, with a dark band about the light zone; flowers bright scarlet. Price, 10 cents each.

Marshall McMahon.—One of the best. Ground color of leaves golden yellow, marked with a deep chocolate zone. A splendid bedding variety. Price, 10 cents each.

Magician.—Foliage dark green, with greenish-yellow disc. Flowers orange-scarlet, and foliage as fine as some of the golden tri-color. Price, 10 cents each.

Mountain of Snow.—For ribbon lines or massing is one of the best; the center of the leaf is bright green, the outer margin broadly marked with silvery white; one of the whitest leaved sorts, flowers bright scarlet. Price, 10 cents each; 3 for 25 cents.

Mrs. Pollock.—Tri-color.—This is the finest of the group, as it holds its color during the heat of Summer. It is very distinct in its markings, having a broad golden belt overlaid with a bright carmine-red zone, blending beautifully with the gold and bronze. Price, 15 cents each.

Prince Bismarck.—Foliage yellowish green, with narrow zone of deep chocolate; flowers salmon, tipped white. A splendid variety. Price, 10 cents each.

PELLARGONIUMS, LADY WASHINGTON, OR PANSY GERANIUMS.

The flowers have deep blotches on the upper petals and bright spots on the lower ones. When in bloom during the months of May and June, they are very beautiful and ornamental, either as pot plants or in the garden. Although their time of blooming is short, their great beauty, while in flower makes them very desirable. We offer the newest and best varieties. We have six of the best varieties. Price, 25 cents each.

SPECIAL OFFER.—For $1.00 we will mail you the set of SIX Lady Washington Geraniums. No further Discount.

TRAILING OR IVY-LEAVED GERANIUMS.

A splendid class of climbing or trailing Geraniums; unsurpassed for hanging baskets, vases (especially those in cemeteries) and rock-work

PRICE, 10 CENTS EACH; 3 FOR 35 CENTS.

Camille Flammariou.—A beautiful variety, and a general favorite with all lovers of the ivy-leaved varieties; flowers large, full, cup-shaped, and a deep rosy carmine.

Contesse Horace de Choiseul.—The plant is vigorous, leaves with zones, double and imbricated, in good trusses; color a bright golden salmon. Price, 15 cents each.

Etincelant.—The flowers are of enormous size, composed of large semi-double flowers with large petals. A glowing shade of velvety red. It is extremely vigorous in growth and a very free bloomer. Price, 2 for 25 cents.

Girofle.—Flowers beautiful wine color, shaded amaranth; very full of large petals of rosette form.

Galilee.—Rich, deep pink; large flowers of good substance, and not only flowers in Summer, but makes a beautiful plant for the window in Winter.

Incomparable.—Trusses very large; florets immense and very regular in form and color; the color is an exquisite shade of rosy carmine. Nothing finer.

Joan of Arc.—The flowers are perfectly double, white as snow, and literally cover the plant when in full bloom. The foliage is extremely handsome, the dense, glossy green leaves making it a most effective background for the great clusters of snow white flowers.

La Monseigneur.—Large and perfectly double, making a lovely rosette in shape. Color of the most delicate pink shade, and exceedingly attractive.

P. Crozy.—The flowers are brilliant scarlet, borne in the greatest profusion, the trusses measuring six inches across, and the individual florets two inches; the habit is dwarf and compact; the flowers are semi-double and last a long time. As a pot plant or in beds it is fine.

Sous de Charles Turner.—Color, light scarlet with soft rose tint, two upper petals veined with crimson.
BEAUTIFUL GERANIUM NOVELTIES

PRICE, 15 CENTS EACH, TWO FOR 25 CENTS, EXCEPT WHERE NOTED.

DOUBLE VARIETIES.

Silver-Leafed Geranium, S. A. Nutt—This is unquestionably one of the most striking silver-leafed Geraniums, the foliage resembling the well-known double crimson variety, S. A. Nutt. The originator of this variety gives the parentage as S. A. Nutt and S. O. Sailer. It is a vigorous grower and free bloomer. The leaves are of size, held well; large flowers, rich and true pink. The plant grows well outside and has proved a first-class bedder. (See cut.) Price, 25 cents each.

Double New Life—The sensation which the Single New Life Geranium created when introduced into England is well remembered. The Double New Life is a much greater sensation in the United States, and proves itself to be of immense value. The flowers are of a size, with large, semi-double, pure white flowers, pure in color, being produced in great profusion in large, double flowers. Price, 25 cents each.

Dr. Desprez—Large trusses, very large, round, well opened flowers of variable color, sometimes bright violet, sometimes red; petals large, upper petals bright red, brightened with violet spots, making them rare and showy. Price, 3 for 25 cents.

Jean Labor—Plant free blooming, large trusses; very large flowers of beautiful effect with their blended and brilliant shades; color is variable according to flowers; ordinarily the border of the petals is red, or more or less vermilion; center clear violet mixed with lilac mauve; base of upper petals orange. Price, 3 for 25 cents.

Peter Burnet—One of the prettiest varieties on our list; what the French pronounce a “ravishing color,” bright yellow with pink salmon very high and clear. The flowers are double and of beautiful form; a good grower.

Mad. Turquin Noiset—A beautiful and peculiar shade of rose, deeper at center with shading of orange. This is an entirely distinct from all other varieties and is, in our estimation, one of the best in the list of new varieties.

Vera Vend, New Double Corona—One of the most difficult to satisfactorily describe. Large flowered, double, entirely different from any other Geranium and is one of the oddest and most interesting. Border of petals deep rosy orange with large center striped white; deep rosy red and orange; a large grower, continuous bloomer.

Louis Francois—Semi-double, pure rose color, tinted salmon. This is an improved Beauette Poltevne, if such a thing is possible, with a color that is quite irresistible. The flowers are enormous, on good stems, and with all the best points of a perfect Brabant Geranium, in addition to the fine new color. We can not recommend it too highly.

Stehekin Leyer—Plant abundantly free blooming, large trusses; very large semi-double flowers of a beautiful rose shade, the upper petals largely spotted with white and lilac. Plant of fine bedding habit.

SINGLE VARIETIES.

Rosa Bonheur—This variety is unequalled in size of truss, the flower is extra large, the stem long and stiff, it flowers continuously, and the color is magnificent pure rose, very large eye; this variety is a much improved B. Schroeder and is unequalled as a single bedder.

Southey—Bright vermilion, with white blotch in center of flower, running up into the two upper petals, which are encased with crimson. Its gorgeous coloring and fine blooming qualities render it one of the most valuable for all purposes.

Fleury.Lavignan—Comparable for novelty and size of flower. One of the finest in our list. Each flower is extremely large, pure white, with each petal edged with deep rose, two lower petals heavily bordered.

Julia Marlowe—Broad, overlapping petals of dazzling, even shade of scarlet; form and color extra good, combined with fine growth. A first class single scarlet.

M. Foiier, Single—Perfect marvel among Geraniums: the best of the new dwarf-grown sorts. Very dwarf, compact and of very branching habit. Flowers are produced in greatest profusion in large sized trusses; color is like the beautiful Auroras, unique and changeable, some flowers being of a deep rosy salmon, streaked and veined crimson, with deep magenta color; others with petals almost a pearly white, carmine color. Price, 10 cents each.

Mrs. Gordon—First class single scarlet. We are calling this the queen of all the English round flowering varieties. The flower is of enormous size, perfectly round, the coloring fine, the growth vigorous; a distinct novelty and fine in every way, superb variety.

Herrick—Rich glowing scarlet, with slight crimson shadings on the upper petals and distinct veining of maroon; individual flowers exceptionally large size and good substance; this is one of the most telling colors, as the large flowers show almost a flower in each flower, the flowers being fine and foamy: flowers which has appeared in its class; habit is very good, being dwarf, compact and exceptionally floriferous.

Crabbe—Very charming shade of cherry red. Over 24 inches high, flowers large and very effective in a massive truss 14 inches in circumference.

Remoune Lyonnaise—Single. Glowing rosy salmon with white eye and large white blotches on upper petals; nothing handsomer exists among single Geraniums; the flower is quite circular, and is dazzling beyond description.

Deuil de Mirabeau—Single. The grandest single scarlet that we have yet seen. Foot-stalks 15 inches long and very rigid, bearing enormous trusses composed of immense circular flowers of velvety crimson scarlet. This variety has the largest flowered true blood dwarf, in fact on the stem and the best color among the single reds; it is a fine and very free grower.

Snowdrop—Single. White as snow, being very perfect: largest of its color, the single flowers measure 2 inches in diameter; habit dwarf and free.

Mlle. Marie Herbert—Plant of robust habit although dwarf and free flowering, large trusses rigidly elevated above the foliage by strong stalks: flowers of a beautiful distinct shade, milky white, resembling the color of the apple blossom, center white surrounded with a large aureole of carmine rose bordered with white.
The Wonderful New Lemon, PONDEROSA

Nothing that has ever been brought to our notice in the planting line has caused half the commotion that this wonderful Lemon has. It is a true ever-bearing variety. On a plant six feet high no less than eighty-nine of these pondeorous Lemons were growing at one time! It was a beautiful sight to see. The tree was blooming, and at the same time had fruit in all stages of development, from the size of a pea up to the ripe fruit, showing it to be a true ever-bearer. Fruit has been taken from this tree weighing over four pounds. Added to its fruiting qualities, this Wonderful New Lemon makes a grand specimen plant for house culture and a prize winner at every fair and flower exhibition. The dark green foliage is very large, aromatic and handsome. The flowers are pure white, with yellow stamens and pistils, nearly as large as a tuberose and as highly fragrant as orange blossoms. The fruit is of the most delicious flavor, very thin rind, and large. It is the juiciest of all Lemons, makes delicious lemonade, and for culinary purposes cannot be excelled. It is not uncommon to make twelve pies from one lemon. We have the entire stock of this ponderous Lemon, and guarantee the trees to produce the largest fruit. No budding or grafting necessary. Ponderosa Lemon is sure to become popular when it is known. It fruits when quite small and makes a lovely house plant. Everybody can grow their own Lemons: it will bear freely the second year.

Price, for good young plants, 10c each, 6 for 50c; large plants to bloom and fruit at once, 60c each; extra large plants, by express, $1.00 each.

GOLDEN STAR OXALIS—ORTGIESI.

Upright Oxalis, or Star of Bethlehem—Few new plants will give better satisfaction than this, as it is a perpetual bloomer in every sense of the word. It is full of bloom every day in the year, when grown in a pot of good soil and with ordinary care. It grows as freely as a Geranium in a conservatory for instance. It is a hardy plant, like a Geranium or Fuchsia with outside buds, in which respect it differs from other Oxalis. It grows twelve to eighteen inches in height, branching freely, and loaded at all times with clusters of bright golden, star-shaped flowers, which do not close at night like other Oxalis. Beautiful as the flowers are, it is still a splendiferous plant without them, on account of its highly ornamental foliage. The leaves are three-lobed, dark, olive green above, and a beautiful, shining metallic crimson purple underneath, and wine-colored stems. This makes a truly beautiful one, and it is surprising to see what attention it will attract. Price, 10 cents each; 3 for 25 cents.

The New Kin Kan—Kumquat or CHRISTMAS ORANGE

This is likely to create a greater sensation than the now well-known Otaheite Orange. The plants imported from Japan several years ago have been much admired by connoisseurs. They are always eagerly snapped up at fancy prices when in fruit. What could be more fascinating than one of these little plants, a couple of feet high, decorated with fancy fruit about one-half the size of the ordinary Orange, to be placed in the center piece for a dinner table? And when it is known that the fruit is delicious to eat, one's delight is still greater. Easy to bloom, and fruit about the size of a large plum, rind sweet, juice acid and very refreshing; delicious preserves are made from the fruit. It is exceedingly productive. Price, 50 cents and $1.00 each.

OTAHEITE ORANGE

This valuable and distinct variety of the Orange family is a dwarf, compact grower, with glossy deep green foliage, which has a decided odor of the orange tree of Florida, and is exceedingly floriferous, producing a wonderful profusion of pure white flowers of the most delicious fragrance, identical with the much-sought-for blossoms of Southern Orange groves. Otaheite fruits immediately after flowering, bearing fruit about one-half the size of the ordinary Orange, retaining in a marked degree their sweetness. This unique Orange can not be equaled as a Winter-blooming flowering house plant, which requires but little care, sunlight, and flowers with fruit when but 12 to 15 inches high. As a pot plant this lovely dwarf Orange would be one of the most novel and beautiful that can be grown. With a couple of plants of it you can have on your table at any time a delicate and fragrant Orange blossoms. We have grown a large stock of these stock of clean, vigorous plants that will bloom and fruit at once. We recommend it to our friends as a novelty of sterling worth and merit. Price, 10c each; large, strong plants, ready to bloom and bear fruit at once, 25c. to 50c. each.
INDISPENSABLE for all decoration, whether in or outdoors, and for tropical bedding. They are easily grown and increase their value two to four-fold every year. Please notice that all Palms have, when young, leaves of a long, narrow shape, developing as they grow older. Therefore do not think that a wrong sort has been sent you.

SPECIAL OFFER.—Five choice Palms, of our selection of kinds, only 50 cents net

**Areca Lutescens.**—This majestic Palm is without a peer for strength and elegance combined. Dark, glossy, green leaves, gracefully curved on slender stems, the entire foliage gracefully disposed. Trunks and stems are a golden yellow, irregularly spotted with bronzy green, giving it a peculiar charm. Small plants, 15 cents each; large plants, 30 cents each; extra large Cocos Weddelliana. 50c each, stocky plants, $1.00 each.

**Chamaerops Excelsa.**—Handsome fan leaf Palm of rapid, easy culture. Very valuable and useful for outdoors during the Summer. Price, 15 cents.

**Cocos Weddelliana.**—Is undoubtedly the most graceful Palm yet introduced to our collection. Stems are slender; leaves long and beautifully arching. Leaflets or pinnas are very fine; deep green above, white below. Good young plants, 25 cents, 50 cents and $1.00 each.

**Corypha Australis.**—One of the most valuable greenhouse Palms; leaves very circular, margin divided into small segments, dark green, easy culture. Small plants, 15 cents each.

**Kentia Belmoreana.**—Kenties are among the best of Palm species for general cultivation, being most impregnable against diseases. This variety is one of the best in its class; gracefully disposed as a decorative plant for the window, dinner table or conservatory, it surely has an equal. Nice young plants, 25 cents each; extra good plants, $1.00; extra strong, stocky plants, $2.00 and $3.00 each.

**Kentia Fosteriana.**—This is one of the finest pot plants imaginable. Being almost hardy, it is not injured by slight changes in temperature. The leaves are a deep green, fan-shaped, split deeply into segments. It is very graceful for table decoration. Price, small plants, 35 cents each; large plants, 50 cents each; extra large plants, $1.00, $2.00 and $3.00 each.

**Latania Borbonica.**—Well known favorite Fan Palm, beautiful in all stages of growth. No plant is more easily grown, more tenacious of life, enduring all weather; the open windows and gas-heated air of our dwellings. Leaves large, fan-shaped, cheerful and green color. Hardy constitution, adapted to all decorative purposes, within or without doors; appreciated by all the plants lovers. When the plant attains noble proportions and becomes very valuable. When too large for the house it can easily be sold. Small plants, 15 cents each; extra large stocky plants, 50 cents; extra large extra large stocky plants, $1.00, $2.00 and $3.00 each.

**Phoenix Canariensis.**—Canary Island Date Palm. Belongs to the pinnate class, which means that its branches are feather-shaped. Small plants, 15 cents each; large specimen plants, $1.00 and $2.00 each.

**Phoenix Reclinata.**—Beautiful, reclinata foliage. Graceful and exceedingly ornamental Palm. Nice plants, 25 cents, $1.00 and $2.00 each.

**Seaforthia Elegans.**—A most useful conservatory or lawn plant. Leaves two feet long. Largely grown on account of its hardy constitution, useful and graceful character. They soon develop into noble specimens. Nice young plants, 15 cents each.

**Washingtonia Filifera.**—A beautiful Palm. It has elegant dark green fan-shaped leaves, from which hang thread-like filaments. 15 cents each.

**Dwarf Fan Palm, Livistona Rotundifolia.**—Resembles Latania Borbonica, more dwarf and compact in habit, having smaller and handier leaves, perfectly round, circular in form, deeply toothed. Small plants throw up an unusual number of these beautiful leaves, making perfect specimens when only a foot high. Nice young plants, 25 cents each; showing full character, $1.00 and $2.00 each.

**Araucaria Excelsa, Norfolk Island Pine.**—Various names have been given to this fine, most graceful Palm. It is very easily grown, and is one of the finest of all the Palm species. Small plants, 15 cents each; large specimens, $1.00 and $2.00 each.

**Araucaria Excelsa, Norfolk Island Pine.**—Various names have been applied to this fine, most graceful Palm. It is very easily grown, and is one of the finest of all the Palm species. Small plants, 15 cents each; large specimens, $1.00 and $2.00 each.

NOTICE.—All large sized Palms of over $1.00 in price must go by express, as they are too large to go by mail.
Neprolepis Pioneni. The Gold Medal Ostrich Plume Fern—The character of the fronds is well shown in the photograph on this page, although the picture conveys but a slight idea of the grace and beauty of the foliage, plume-like fronds, which more nearly resemble the graceful ostrich plume than the Boston Fern. The divided pinnae, or the miniature fronds, keep growing constantly, shading the leaf with two distinct shades of green, the ends being a light green, while the center and main part of the fronds show a dark, rich shade, the contrast producing a very beautiful effect, greatly enhancing the beauty of the plant. It is wonderfully valuable, not only on account of its beauty, but also on account of its ease of culture and general adaptability. It has all the free-growing, hardy characteristics of the Boston Fern; it is as fine as any fine plant, is equally suitable for house culture and a much more beautiful plant for greenhouse and conservatory decoration. It has taken gold medals wherever shown. Fine plants, 50c. each; large strong plants from six and seven inch pots, fine specimens for immediate effect, $1.50 to $2.00 each. These are fine plants and will not disappoint you.

BEAUTIFUL FERNS
Price, 10 Cents Each; Except Where Noted.
Asplenium Trichomanes—The most valuable for Fern-dishes; of strong but dwarf and graceful habit; of good color and of the best keeping qualities. A clean, good grower and very ornamental. Price, 10c.
Asplenium Reticulata—One of the finest decorative Ferns for the room or planting out. The fronds are of a strong texture and of a beautiful shade of green.
Asplenium Lady Fern—A new Fern, very ornamental and rather slow-growing than the Boston Fern. Price, 10c.
Blechnum Plantagineum—This variety has a broad band of yellowish green running through the pinacles along the course of the radius. Price, 10c.
Blechnum Hirta Cristata—We consider this one of the finest Ferns in cultivation to grow into specimen plants. It is of such a delicate, graceful appearance, the beautiful, drooping, broad fronds look like ostrich feathers. Price, 25 cents each.
Blechnum Filicinum or Dwarf Sword Fern—A very pretty, narrow-leaved variety, with dark green foliage.
Blechnum Cordata Compacta—Strong growing, compact habit; two feet high when fully matured. Fronds dark green. One of the finest and most valuable Ferns. Price, 10c each; large size, 50c each.
Nephrolepis Davalliodae Fucans—This is a lovely crinkled variety of Japanese origin, called the Fish Tail Fern. Has beautiful crested fronds, and makes handsome specimens. Price, 25c.; large size, $1.00.
Nephrolepis Polypodium or Lady Fern—A new Fern, which we have added because of its beautiful, large, graceful and almost free-growing fronds. Price, 10c.
Pteris Argyroa—(Silver Fern)—Variegated foliage; fronds large, light green with a band of silvery white down the center and margins. Price, 10c.
Pteris Crestia Alba Lineata—A very pretty and useful variegated variety. Price, 10c each.
Pteris Fernei—Shabby Fern.—One of the finest Ferns for house decoration, growing very rapidly and attaining a large, handsome fronds. Price, 10c each. Pteris Serrulata—One of our prettiest Ferns; fine for Fern-dishes. Price, 10c each.

Photograph of a Specimen Plant of Ostrich Plume Fern.
Pteris Wimsett—A beautiful low-growing Fern, suitable for table dishes.
Sword Fern—(Nephrolepis Exaltata)—Excellent for outside planting in shady borders. Pine plant for hanging pots or baskets on the piazza in Summer, and conservatory or window in Winter. Price, 10c. each.

THE BOSTON SWORD OR FOUNTAIN FERN.
Of all decorative plants for house culture this is perhaps the most imposing and satisfactory. It is so hardy that it will stand and thrive in most any situation in a room, even if out of reach of the sun's rays. No Fern is so good in this respect. Plants form an immense number of graceful drooping fronds, varying in length from two to five feet, and always of a fresh, healthy and beautiful green color. These fronds keep in perfect condition for years, can not too highly recommend it. Price, young plants, 10c each; strong plants, 25 and 50 cents each; extra large, beautiful specimen plants, $1.00 and $2.00 each; specimen plants by express only.
FRAGRANT HELIOTROPES

Price, 6 Cents Each, Except Where Noted.

Albert Delaux (Purple and Gold)—Foliage bright golden yellow, very pronounced, marked slightly with delicate green. Bloom extremely beautiful, deep lavender color of flower contrasting admirably with the ever varying foliage; very free flowering; trusses large. 

Chiefain—Rich shade of violet, highly fragrant. 

Chameleon—Bright blue, passing to pale lavender. 

Dark Bouquet—An unusually rich, dark purple. 

Juette—Very dark purple. A grand bedding variety. 

Snow Wreath—Superb; large clusters of deliciously fragrant flowers of pure white. 

Flûte D’Été—Splendid new sort, having panicles of bloom of largest size, individual florets being wide trumpet shape; beautiful shade of blue, shading to white at center; very fragrant. 

Mme. René Andre (New)—Dark violet, very large truss; very sweet. 

Mme. Ad. Dubouché—Trusses enormous; mossy-looking color, velvety violet. One of the most beautiful ever introduced. Odor exquisite. 

Queen of the Violets—For neat, dwarf habit, profusion of bloom, richness of color, this Heliotrope has no equal; its vivid rich color of rich violet blue, with a distinct white center, gives us something entirely new in color: for Summer decoration or Winter blooming.

Price, 10 cents each.

La Clé—Semi-dwarf, very robust; panicles very large, drooping, lavender-silvery beautiful, dabbed Mauve, passing to lilac and tender rose, with clear white eye; very beautiful and attractive variety.

Price, 10 cents each.

La Duse (New)—Plants grow about 2 to 15 inches high, with the prettiest soft, glossy foliage, unique and uniform habit. Trusses of bloom enormous, semi-lobular form, covering entire plant. Color, beautiful blue, shading to lavender; odor is exquisite. This variety will be exceedingly useful for bordering beds and walks. 

Price, 15 cents each.

Gloire de France—Violet with white center; "Giant" variety; very free and of beautiful habit. 

BROWALLIA

New Giant Flowering—Violet Blue

This has proved a most charming plant, both for the window, garden and the flower bed: makes nice bushy plants, 8 to 10 inches high, and blooms all the time. The flowers are large, fully two inches across, and lovely deep violet-blue. This is a very favorite color, and it will bloom with the nicest foliage until the last winter stir. We recommend it as sure to please, both for Summer and Winter bloom. Very sweet and handsome. 

Price, 20 cents each; 5 for 25 cents.

HELIOTROPES

Herbaceous Hydrangeas

Hardy Japanese Hydrangea, Paniculata Grandiflora—New, very striking, elegant hardy flowering shrub suitable for lawns. Flowers are pure white, afterwards changing to pink; borne in immense pyramidal trusses more than a foot long and nearly as much in diameter; blooms in mid-Summer, remains in bloom two or three months. Creates a great sensation wherever seen. Plant is of bushy and compact growth, attains a height of 3  to 4 feet; perfectly hardy in all parts of the country. Needs no protection of any kind. 

Price, young plants, 15 cents each; 4 for 40 cents; extra strong plants, for immediate effect, 35 cents each.

Hanan Picthis (Red Branched)—Grand variety, producing immense sized flowers and trusses. Color, very deep rose or light cherry. New growth of wood is deep reddish-purple, making it distinct from any other variety. 

Price, 15 cents each.

Eortesia—Splendid variety that will always be a favorite. Growth is strong and upright, producing exquisite specimen plants; flowers pink, in immense trusses. 

Price, 10 cents each.

Thomas Hogg—The immense trusses of flowers are first slightly tinged with green, becoming of the purest white and remaining so a long time. 

Price, 15 cents each.

Monstrosa Grandiflora (New)—One of the most valuable plants we have ever grown, and we take great pleasure in endorsing it as the grandest and most beautiful of Hydrangeas. Great clusters of bloom are simply enormous; beautiful, most intense rose color, shaded with white. Growth robust, compact, with marvelous freedom in production of bloom. Clusters of bloom 12 to 15 inches in diameter. 

Price, 15 cents each; 2 for 25 cents.

Okawa—Splendid variety from Japan. Flowers large, light pink, flushed with blue; produced very freely. 

Price, 10 cents each.

THE ORANGE VIOLET

Browallia Jarresoni

Inasmuch as Browallia Spectosa Major is now popularly known as the Giant Violet, we think the Orange Violet a good name for this plant. It is a well-known but neglected beauty, which would create even greater sensation than its violet colored sister, even with less care. Well grown specimen, a foot or two across, are really grand, the innumerable bright orange flowers giving it the appearance of a golden bush. If propagated from slip cuttings it blooms as soon as rooted and almost perpetually afterwards. Fine for hanging baskets and window boxes. 

Price, 10 cents each; 5 for 25 cents.
SWEET-SCENTED JASMINES

Cape Jasmine—Well known for its delicious fragrance and beauty of flower, white and double. Price, 15 cents each; large plants, 50 cents each.

Confederate Jasmine, Ebynocoeranum Jasminoides—Elegant hard-wooded climber or can be trained in bush form. It bears large bunches of pure white flowers; deliciously scented. Known in the South, where it is hardy, as the Confederate Jasmine. Price, 15 cents each.

Grand Duke of Tuscany—Very easily grown, even small plants bearing a profusion of double, creamy white flowers. A valuable and popular pot plant. Can be stored in a dry cellar in Winter. Price, strong plants, 15 cents, and large size, 50 cents each.

Gracilissimum—Exceedingly floriferous, flowering from every joint, which terminates in a dense cluster of pure white, fragrant flowers. Price, 10 cents each.

Maid of Orleans—This beautiful plant we place as peer over existing sorts. Easy culture, fine grower, good bloomer, elegant fragrance, waxy-white appearance. Price, 10 cents each; large size, 40 cents each.

Poetica—Similar to Jasmine Grandiflorum. Flower smaller, but on longer spikes. Price, 10 cents each.

Revolutum—A yellow-flowered Jasmine, nearly hardy and exquisitely fragrant. Price, 10 cents each.

LINUM TRIGONUM

A Winter-blooming plant of great beauty, producing in the greatest profusion very large, showy blooms of a bright yellow color. A complete mass of bloom for a long time during Winter. One of the most beautiful Winter bloomers it is possible to have. Flowers about the size of a Morning-glory. Small plants bloom profusely, and make a beautiful plant each year. Price, 10 cents each; for 25 cents.

GENISTA CANARIENSIS

Fountain of Gold. This beautiful plant well deserves the great popularity it has gained in the past two years. The drooping branches are covered with delicate sage-green foliage, and every twig is tipped with a long raceme of exquisitely perfumed blossoms of a pure canary color, almost hiding the foliage, and suggesting the name, "Fountain of Gold." Charming. Price, 10 cents each; for 25 cents.

NEW ABUTILON, Aureole.

ABUTILONS

FLOWERING MAPLES OR CHINESE BELL FLOWERS

Price, 8 Cents Each, Except Where Noted.

Aureole—Tender rose, with pure white throat; a large, handsomely flower, freely produced. Price, 15c.

Cockey D'Argent—A novelty from France. It covers itself with its well-opened pure white flowers. Price, 10 cents each.

Daydawn—The bell is very large—3 inches across the mouth. Color, satin pink, shading to pure white at the base of the petals. Price, 10 cents each.

Drum Showe—Very large, wide open, pure white flower. The most effective white variety to date. Plant covered with bloom. Price, 10 cents each.

Eclipse—An excellent plant for basket or vases; of trailing habit, with large foliage, beautifully marked with deep green and yellow; flowers bright yellow with crimson throat.

Golden Bells—A bright golden yellow Abutilon of strong, bushy habit, and very free flowering.

Infanta Eulalia—This is perfection itself. Plants dwarf, and short jointed, producing exquisite large cupped blossoms by the score from the time the plant is four inches high. Blooms all the time. Summer and Winter. Color, a most beautiful soft salmon-pink. No finer pot plant for windows than this. Price, 10c.

Mrs. Lein—Flowers pure rose color, charmingly veined.

Paul Marguerite—Very vigorous and free both in growth and bloom. Flower, safron-yellow. Price, 15c.

Rose Queen—A beautiful deep rose-colored flower; perpetual bloomer. The plant is dwarf and compact in growth; a fine specimen pot plant.

Royal Scarlet—Needs no other description than its name, which is aptly given. Very free and of excellent habit.

Robert George—Flowers broad, large, overlapping, incurved petals. Color, orange, veined with crimson.

Splendens—Dwarf, compact habit; flowers fine, deep red.

Snow Storm—Beautiful pure white flowers; growth dwarf.

SOUVENIR de Bonn—The most attractive of all the Abutilons, having deep green maple-shaped leaves, distinctly bordered creamy white. Very free flowering, with bright orange flowers, veined crimson. A very distinct variety; makes a fine decorative plant.

Saviti—This is one of the most beautiful variegated foliage plants both for the house and outdoors. The leaves are white and green and in some cases are entirely white. It is of dwarf, compact growth and thrives well outdoors. Price, 10 cents each.

Thompsoni Plena—A variety with perfectly double flowers. Color, rich deep orange, shaded with crimson.

PITTOSPORUM TOBIRA

An elegant hard-wooded shrub. Hardy in the South. Makes handsome specimens, growing into a small tree in a few years. It bears small, white flowers in large bracts, or heads, which are so delicious in fragrance as to remind one of Orange blossoms. Fine plants, 15 cents each; strong large plants, 25 cents each.

Jasmine, Maid of Orleans.
AZALEA INDICA, CHINESE AZALEA.—These beautiful plants are deservedly becoming more popular every year for window and conservatory decorations. The ease with which they can be grown, their diversity in color and form, and the profusion of blossoms they afford, will always keep them in public favor. Our collection comprises the cream of the best Continental establishments. All the sizes offered will flower freely in proper season. They should be kept outdoors in a cool, shady and moist place during the Summer. Price, large plants, 75 cents each.

CROTONS.—The Crotons are among the finest decorative foliage plants known. The leaves are all small or less veined and margined, sometimes entirely variegated with shades of yellow, orange and crimson. Some have long, narrow leaves, arranged gracefully and a very beautiful shade of green. The best and most attractive plants are those with variegated leaves, or variegated flowers. They are excellent subjects for window boxes, or for growing in pots. Price, 10 cents each; three for 25 cents.

THE TRUE GIANT EVER-BLOOMING MOON-FLOWER, IPOMOEA GRANDIFLORA.—Grown out in rich ground, in a situation where it has full exposure to the sun, it will attain a height of from ten to twenty feet. Blooming abundantly from the middle of May until September, it does not do well in the North. Price, 10 cents each; three for 25 cents.

NEW MOON FLOWER, HEAVENLY BLUE.—A splendid companion to the White Moon Flower. It is equally rapid in growth and as free blooming as the white variety, although blooming in the morning and dull days. The flowers are the most heavenly blue, with reddish purple rays, and are six inches across. Price, 10 cents each; three for 25 cents.

NEW RUSSELLIA, LEMOINEI Multiflora.—The primary stems are strong and glossy. The flower panicles are extremely long, and covered with blossoms one over the other. Color a bright coral red. It is well named "The Many Flowered." Price, 15 cents each; two for 25 cents.

NEW RUSSELLIA ELEGANTISSIMA—SCARLET FOUNTAIN.—Here is certainly a fine new plant that you should not be without. A vast improvement of the old Russellia. The habit is drooping, the slender branches and leaves completely hidden by hundreds of the vivid scarlet tubular flowers. It is so floriferous that tiny cuttings show more flowers than leaves. It is one of the finest and best new plants ever introduced and one that will give satisfaction to everyone. Price, 15 cents each; two for 25 cents.

RUSSELIA—JUNCEA.—A most useful basket or vase plant, producing numerous long, wiry stems, which are virtually leafless. Upon these stems and branches the flowers are borne, which are about one inch long, tubular and of brilliant scarlet color, and are produced in the greatest abundance. Price, 10 cents each; three for 25 cents.

ASPIDISTRA LURIDA.—A very useful and durable decorative plant of strong growth; will survive in any position, an excellent plant for either the border, the shade, or in shade, 2 for 3 for 25 cents.

NEW DWARF JUSTICIA (VELUTINA.)—An elegant new plant for pot culture and bedding, which we are sure our friends will like to have; begins to bloom when only a few inches high, and continues bearing its beautiful, feathery plumes of lovely pink flowers the whole season. When taken indoors will. Price, 15 cents each; 50 cents a dozen.

NEW DWARF BLUE JUSTICIA—NERVOSA.—A first-class novelty, very rare and scarce, entirely new, low, bushy, compact plants surmounted with lovely sky-blue flowers, borne well up on strong stems, covered with flowers nearly all the time. An elegant plant for bedding out in Summer and blooming in pots in Winter. Price, 10 cents each; three for 25 cents.

NEW DWARF YELLOW JUSTICIA—FLAVA.—A grand novelty, similar in growth and habit to Justicia Velutina, but covered for months in succession with splendid large feathery clusters of pure yellow flowers, surmounting dark, velvety green foliage. Very rare and handsome and a continuous bloomer. Price, 15 cents each.

PRIMULA CHINESE FRINGED PRIMROSE.—Few house plants afford better satisfaction than this. It requires to be kept cool, a north window suitting it best. Care should be taken in watering that no water gets on the leaf, as it causes them to rot.

PRIMULA ALBA.—Single, white. Price, 8 cents each.

PRIMULA ROSEA.—Single, pink or rose. Price, 8 cents each.

THE "BABY" PRIMROSE.—A very attractive variety, blooming most profusely during the winter and spring. It is perhaps the finest primrose for indoor culture. Price, 10 cents each.

PRIMULA OCIDENTALIS.—A favorite pot plant for house and conservatory culture, on account of its wonderful blooming qualities. Bears delicate sprays of pink and white flowers. Price, 10 cents each.

MEXICAN PRIMROSE.—Flower about two inches in diameter, of a clear pink color, veined scarlet, with a white center. Plant inclined to trailing habit of growth, spreading its branches out over the ground or trailing over the sides of pot. It is a good basket plant on account of this trailing habit and is never without some display of bloom. Price, 10 cents each.

ACAPANTHUS UMBELLATUS—BLUE LILY OF THE NILE.—This is a splendid ornamental plant, bearing large clusters of bright blue flowers on long flower stalks, and lasting a long time in bloom. There is no finer plant than this for outdoor decoration, planted in large pots or tubs on the lawn, terrace or patio. It does well in the house or greenhouse in Winter, requiring slight protection. It is a rapid grower and increases in size and beauty every year; the chief point in its cultivation is to divide the plant before the pots or tubs become overcrowded with roots. With the ordinary kind of care, it is a plant that will last forever. Price, 15 cents each.
Meyenia Erecta.—A neat and pretty plant with lovely Gloxinia-shaped flowers of rich, royal blue, shading to porcelain with a deep golden yellow throat. As a plant for the conservatory or house it has few equals, as it blooms nine months in the year. Price, 10 cents each.

Meyenia Erecta Alba.—Flowers same form as the above, but pure white with golden yellow throat. Still new. Price, 15 cents each.

Gleanders.—These old-fashioned shrubs are becoming immensely popular again. We are growing and selling them by the thousands. No plant more handsome specimens in tubs for the veranda or yard. Can be wintered in the cellar. We have two colors to offer. Price, 10 cents each.

Hoya Carnosa—Wax Plant.—This is a strong climber which requires a light rich soil. The round star-shaped wax-like flowers, borne in clusters, from which drop a sweet honey-like juice. It makes an excellent plant for a warm sitting room, as it grows freely without direct light. Price, 20 cents each.

Swainsonia Alba.—A most desirable ever-blooming plant, with pure white flowers, produced in sprays of from twelve to twenty flowers each, the individual blooms resembling a sweet pea. As a decorative plant for the window or conservatory we know of nothing that will give so much satisfaction and culture growing in almost any light position. Its freedom of bloom, grace and beauty will undoubtedly make this one of the most popular plants now in cultivation. Price, 40 cents each.

Swainsonia Rosea.—A pretty companion for the above. The plant is an excellent grower and prolific bloomer; color, rich, rosy red. One of the best introductions of recent years. Price, 10 cents each.

Cestrum Parqui—Night Blooming Jasmine.—This well known and highly prized plant, blooming nearly all the year round, is a native of Chili; an excellent garden plant, growing rapidly; foliage long and deep green color, producing its richly fragrant flowers at any hour; sweet only at night. It is also adapted to house culture. Price, 10 cents each; 3 for 25 cents.

Carex Japonica Variegata.—A new ornamental Japanese grass, which is extremely useful as a house plant. The blades with a green center and white edge make it a very effective plant for vases and hanging baskets. It is propagated by division and a few plants bought this fall will make a good show for spring. Price, 10 cents each.

Silver Striped Peperomia.—So thick and wax-like are the leaves of this parlor gem that nearly every spring takes it as an artificial plant. Leaves distinct, variegated white and green, and have the appearance of being powdered with frosted silver. Price, 10 cents each; 3 for 26 cents.

Purple Velvet Plant, Gynura Aurantiaca.—A rare and beautiful plant. The leaves and stems are entirely covered with purple hairs, giving them the appearance of velvet. One would pronounce the plants artificial, so unlike nature they appear; flowers in brilliant orange, flowers in flower pots, vases or bedding out. Price, 10 cents each; 3 for 26 cents.

Cereus Grandiflora, Queen of Night Cactus.—Imagine a dozen flowers unfolding with the setting sun their hundreds of wax-like petals, encircled by a wreath of gold. In evening time, performing the surrounding air with the most delicious fragrance known. Does it not deserve its royal title? Grows and blooms with the greatest ease; requires absolutely no care, living for months without any water. Price, 10 cents each.

Euphorium, or Lobster Cactus.—A wonderfully free bloomer, frequently blooming three or four times during the year. Of dropping, weeping habit. The flowers are a bright and beautiful pink color. Price, 10 cents each.

Stephanotis Floribunda, the Old-Time Favorite—Always Rare and Scarcely.—Rare of all hard-wood vines. It makes a rapid growth, and bears large clusters of delicately fragrant white flowers. Never sold for less than 75c or $1.00. Our Price, 20 cents each; 3 for 50 cents.

Cyperus, or Umbrella Plant.—This plant grows finely in shallow water with rich soil or mud, soon throwing up long stalks, which are surmounted with narrow dark green leaves, arranged in such a manner as to suggest the name of Umbrella Plant. It will also flourish and make handsome plants in the garden. Price, 10 cents each.

Cyperus Gracilis.—A pretty new dwarf form, with very narrow, delicate foliage, entirely distinct; makes a very desirable green for putting in bouquets. As handsome as a Fern. Price, 10 cents each.

Pandanus Veitchi.—One of the most attractive and beautiful of decorative plants. Leaves are light green, beautifully marked with broad stripes of pure white, gracefully curved. Price for strong young plants, 50c; larger plants, $2.

Pandanus Utilis, The Screw Pine.—Vigorous constitution enables it to stand more neglect without serious injury than any other plant we know of. As an ornamental for the window its glossy, dark green, serrated foliage renders it unusually attractive, while as a vase plant or specimen in greenhouse or conservatory it is unsurpassed. Nice young plants, 25 cents each; extra large plants, $1.00.

Aloysia Citriodora.—Lemon Verbena.—This plant has the most fragrant foliage of all the Lemoons. One plant will scent up a whole yard. Grows rapidly. Exquisite. 10 cents each; 3 for 25 cents.
Strobilanthes Dyerianus.

**Royal Purple.**—A new and very beautiful foliage plant from Singapore, which will become universally popular on account of the brilliant and exquisite coloring of the leaves, the beauty of its flowers and its extraordinarily easy growth and usefulness as a decorative plant. It surpasses the finest Coleus in exquisite coloring of the leaves, besides which the long racemes of lovely violet blossoms, with which the plant is covered in mid-Winter greatly enhance its value and beauty. **Price, 10 cents each.**

**Alism.**

**Large Double Sweet.** A very great advance of the single Alism. It is indispensable as a cut flower, being a beautiful white and variety. A very useful edging plant. Continues to bloom all November, as light frosts do not injure it. Also fine for Winter blooming in the house. **Elegant for baskets, vases or window boxes. Price, 5 cents each; six for 25 cents.**

**New Double Fringed Petunias.**

The Double Petunia is one of the finest bedding plants for hanging, mixed borders or for vases. They are of the finest culture, growing in a showy way and very much in main plant life, and blooming in wonderful profusion. The brilliance and variety of colors, combined with the duration of its blooming period, renders it invaluable for garden decoration. Our collection is unsurpassed for brilliance of color and size of bloom. They are all of the finest shades of pink, purple, rose, white, etc. We have twelve of the best varieties. **Price, 10 cents each; three for 25 cents.**

**Vinc. Major Variegata.**

This is a beautiful variegated trailing vine admirably adapted for hanging baskets and vases. The leaves are large, green and yellow margined or double. **Price, 6 cents each; five for 25 cents.**

**Strobilanthes Dyerianus.**

**Cycas Revoluta. Sago Palm.**

**These are magnificent plants of noble, majestic habit, and most impressive.** They are probably the most valuable decorative plants grown, both for lawn and house decorations. Their heavy, glossy, deep green fronds resist like the gas, dust, dry heat and cold to which decorative plants are frequently exposed. Our plants are an exceptionally fine lot of popular size for home decoration. **Price, for extra fine plants, $1.50, $2.50, $3.50 and $5.00.**

**Beautiful Flowering Plumbagos.**

**Capeensis. Alba.**—This is a splendid cut flower. The exact counterpart of Plumbago Capeensis, except in color, which in this beautiful novelty is a clear white. One of the most satisfactory bedding plants out. We recommend this highly. **Price, 10 cents each.**

**Capeensis, Blue.**—This produces large heads of light blue flowers. It has the most peculiar shade of blue of any flower in cultivation. Always in bloom and an elegant bedding variety. **Price, 15 cents each.**

**Lady Larpent.**—This beautiful variety is unquestionably the most distinct and valuable hardy herbaceous plant now in cultivation. The plants are strong, upright in habit, growing to a height of twelve to fifteen inches, with compact clumps, and from the middle of July until severe frost are covered with lovely violet-blue colored flowers borne in close terminal heads. **Price, 10 cents each.**

**Cuphea Llave Tricolor.**

Flowers tubular in shape, one and a half to two inches long, and have two bright scarlet wings at the end of each flower. The tip of the flower is bright purple and the stamens are pure white. The plants are always in bloom when grown properly. It grows into a bushy plant about eighteen inches high, and makes an elegant appearance for baskets or bedding. **Price, 10 cents each; three for 25 cents.**

**Cuphea Platycarya.**

This is a beautiful variegated trailing vine admirably adapted for hanging baskets and vases. The leaves are large, green and yellow margined or double. **Price, 6 cents each; five for 25 cents.**

**Cuphea Platycarya.**

**Cuphea Platycarya.**

**Cuphea Platycarya.**

**Abridged List of Plants and Vines.**

**PRICE, 6 CENTS EACH. EXCEPT WHERE NOTED.** Suitable for House Culture. Bedding, Yards, Hanging Baskets and Window Boxes.

**Grevillea Robusta.**—Magnificent plant for decorative purposes. Of rapid, easy growth, finely cut foliage, rivalling a Fern. Young growing leaves a light brown color, tips covered with a soft down, resembling raw silk. **Price, nic plants, 10 cents each; a large size at 25 cents.**

**Ivy, German or Parlor.**—A rapid growing vine. **Price, 10 cents each.**

**Ivy, English.**—Splendid evergreen climber. **Price, 10 cents each.**

**Passiflora, or Passion Vines.**—Blue and white. **Price, 10 cents each.**

**Smilax.**—Exquisitely beautiful. Fine for cutting. **Price, 10 cents each.**

**Abronia, or Explora, or Wandering Jew.** Three sorts. **Price, 10 cents each.**

**White Solomon, Jasminum or Granadilorum.**—Vine.
SALVIAS. Price, 5 Cents Each, except where noted.

New Salvia, "Silverspot."—The distinctive feature of this splendid novelty is its strikingly handsome spotted foliage. The leaves are rich, soft, dark green, with light sulphur or cream-colored spots of various sizes liberally sprinkled over them. The intense, bright scarlet flowers are very large; the plants are of neat, compact habit. This will make a desirable bedding plant, rivaling the most gorgeous Coleus, its bright spotted leaves and brilliant scarlet flowers making it a most effective bedding. Price, 10 cents each; 3 for 25 cents.

New Dwarf Salvia, Fireball.—The dwarfest and most compact greeting of the scarlet Salvias, with dark foliage completely covered with erect spikes of dazzling scarlet. It is early in bloom, and continues in bright, clean condition throughout the season. Price, 10 cents each; 3 for 25 cents.

New Dwarf Salvia, Chrestien.—This variety has a grand panicle of bloom 15 inches long. It is the earliest variety yet produced, beginning to bloom early in July. Its size, bright scarlet color, and earliness, attest its value for use in the garden, where the only drawback to the older Scarlet Sages was their lateness of bloom. Price, 10 cents each; 3 for 25 cents.

New Dwarf Salvia, Alfred Ragueneau.—A variety remarkable for its deep crimson-purple foliage and for abundance of flowers which are "magnificent, effulgent red." A vigorous grower. Price, 10 cents each; 3 for 25 cents.

New Dwarf Salvia, Jean Ravenal.—Early flowering; does not grow over 18 inches tall; blooms as soon as well rooted; blooms from early Summer until late September. An entirely new variety, different from what we have heretofore offered as dwarf early flowering Salvia Flowers "magnificent effulgent red." Produced in grand spikes. Price, 10 cents each; 3 for 25 cents.

New Salvia, St. Louis.—Great improvement over the old Salvia Splendens. Grows 3½ to 4½ feet high; large, bushy plants, covered with delicate, rose-colored spikes, 1½ to 2 inches in diameter, of a vivid scarlet. Comes into flower early and continues until frost. Price, 10 cents each; 3 for 25 cents.

New Salvia, "Bonfire."—Finest of all Scarlet Sages; about 2½ feet high and 2 feet through, producing brilliant spikes of flowers three little by three, borne well above the foliage. Price, 10 cents each; 3 for 25 cents; $6.00 per 100, by express, net.

SALVIAS. Price, 10 cents each; 3 for 25 cents, except where noted.

New Salvia, St. Louis.—Great improvement over the old Salvia Splendens. Grows 3½ to 4½ feet high; large, bushy plants, covered with delicate, rose-colored spikes, 1½ to 2 inches in diameter, of a vivid scarlet. Comes into flower early and continues until frost. Price, 10 cents each; 3 for 25 cents.

New Salvia, "Bonfire."—Finest of all Scarlet Sages; about 2½ feet high and 2 feet through, producing brilliant spikes of flowers three little by three, borne well above the foliage. Price, 10 cents each; 3 for 25 cents; $6.00 per 100, by express, net.

BEAUTIFUL SWEET VIOLETS. Price, 10 cents each; 3 for 25 cents, except where noted.

Rich in modest beauty, famous for its enchanting fragrance, and truly "the sweetest flower that grows," the Violet always keeps in the front rank of popularity. It blooms until covered by the first snows of Winter, and with the last cold blast still about it, this gentle flower shyly appears from out its icy bed, heralding the coming of Spring. Sturdily it grows and sweetly it blooms, and all the world loves it. Violets are perfect hardy, and when planted outdoors a shady situation should be selected; a light covering of leaves or litter will prove very beneficial. For Winter-blooming indoors keep in a cool situation and water freely. By observing these simple instructions you can have a bountiful profusion of bloom and delight for many weeks. Price, 10 cents each; 3 for 25 cents.

Admiral Avellin, a New Crimson Violet.—A splendid new Violet of a distinct color, entirely different from all others. In color the flowers are rich, dark purplish-red, exceedingly rare and handsome. The spikes are extra large, on strong, stiff stems, well above the foliage, which is clean and healthy. Price, 10 cents each; 3 for 25 cents.

Parpharal.—A beautiful new double violet; strong and healthy grower; perfectly hardy and free flowering, producing in great abundance lovely deep and double flowers of delicious fragrances, borne on long stems, the flowers of splendid size, nearly as large as California.

Lady Home Campbell, in the Fall Ever-Blooming Violet.—This grand new Violet is a perpetual bloomer and extremely productive; the flowers are very large, often the size of a half-dollar, perfectly double, like little Roses; very fragrant and of the most lovely azure blue color. Price per hundred by express, $5.00 net.

Luxonné.—New, of the same size as the California, but appears nearly double in size, as the petals all open out; it appears like a big blue Pansey bloom, and has the advantage of blooming continuously from early in September until April. It is a beautiful, rich, but soft violet; perfect color, with strong, stout stems, and very fragrant.

Marie Louise.—To contrast with white, we offer this double, deep bluish purpure, sweet-scented variety, recently introduced. Desirable for pots or garden. Plants hardy and bloom freely. Price per hundred by express, $5.00 net.

Swanley White, or Queen of Fragrance.—This beautiful new double white Violet is unquestionably the finest double Violet in existence, and is a decided acquisition to even the smallest collection of plants. Price per 100 by express, $6.00 net.

The California.—Grand new variety. It is sturdily grown with dense, heavy foliage, entirely free from disease. Flowers single, intensely fragrant. Color, a clear violet purple that does not fade. The flowers are as large as a silver dollar and are borne on stems ten to twelve inches long.

Hardy Double English Violet.—This Violet is entirely hardy, perfectly double, a deep violet purple color, deliciously fragrant. Surpasses the well-known Marie Louise in size of color.

New French Violet, Princess of Wales.—It is recommended by the producers as the best Violet in existence. It is of hardy, vigorous growth and wonderfully free blooming; stems ten to twelve inches long. Large, healthy and heavy foliage; grand single flowers; true blue color; a most desirable large size as a Pansy or for beds and borders; blooms late and delicately fragrant. Price per 100 by express, $6.00 net.

SPECIAL OFFER
For 75 cents we will send you the Set of 9 Fine Violets. This is a Big Bargain. No other discount allowed.
BEST Summer Flowering and Ornamental BULBS

Fancy Flowering Dahlias.—Always great favorites, and now have attained a height of perfection that seems impossible to improve. The roots should be set about 4 feet apart in a rich, loamy soil, mulched with well rotted manure. Price, 15 cents each; eight bulbs for $1.00.

Hyacinthus Candidus.—Stately bulbous plant; large leaves, strong growing. Flowers pure white, pendent on long, whip-like stalks. Price, 5 cents each, six for 25 cents.

Madeira Vine Bulbs.—Beautiful, rapid growing climber bearing graceful racemes of fragrant white flowers. Price, 5 cents each; six for 25 cents.

Cinnamon Vine.—Tuberous rooted vine, grows rapidly. Its foliage makes a dense screen. Flowers of a delicious cinnamon odor. Price, 5 cents each; six for 45 cents.

Caladium Esculentum (Elephant’s Ear). The “Tarra” or “Pol” Plant.—Very effective plant, suitable either as a single plant on the lawn, masses in beds or for borders of ponds. Distinct aroid-like leaves attain the length of 8 feet long by 50 inches wide. Roots should be preserved in dry sand in cellar during Winter, out of danger from frost. Price, 10 cents each; large bulbs 25 and 40 cents.

Fancy Leaved Caladiums.—Plants are especially valuable for decorating conservatories, window boxes and as specimen plants. Are magnificently planted in beds outdoors, nothing being more showy. Brilliant cardinal red, cream, pink, white and various shades of green are displayed in veining and blotches of leaves, which cannot be obtained in any other class of plants. Price, 20 cents each; three for 50 cents.

New Exotic Pearl Tuberoses.—Universal favorite; easily grown; most popular of all flowers for buttonhole bouquets. This strain has been selected with great care and is superior to the ordinary Pearl Tuberoses. Twice the size of the common kind. Price, 6 cents each; five for 25 cents. SPECIAL OFFER.—Fifteen for 50 cents, net.

Amaryllis Belladona.—Beautiful silvery white, turning to soft rose as the flower ages. Price, large bulbs, 25 and 50 cents each.

Amaryllis Formosissima (Jacobean Lily or Scarlet Mexican Lily).—This grand bulb will flower either Summer of Winter. Keep dry during Summer for Winter blooming and reverse the order for Summer bedding. The flowers are of the darkest scarlet, very rich and pure, and produced freely. Grows in water with pebbles like a Hyacinth or Chinese Lily, but blooms quicker than either. Strong blooming bulbs, 15 cents each; two for 25 cents.

Amaryllis Johnsonii.—One of the most gorgeous bulbous plants grown. We have seen specimens of a few years’ growth that completely filled a window. Nothing is more showy than this grand plant during late Winter or early Spring, bearing large flowers of intense crimson, with a delicate white feather in each petal. It is most superb. Strong bulbs to bloom at once, 25 and 50 cents each.

Zephyranthes, or Fairy Lilies.—White and pink. Price, 5 cents each; six for 25 cents.

GORGEOUS FLOWERED GLOXINIAS.

This gorgeous exotic is easily grown and cared for; will bloom in six weeks from time dry bulb is planted. Keep bulbs in pots in the house, or on the veranda, in boxes or little frames outside, and you can cut flowers all Summer. Bulbs should be started in a warm place—greenhouse, bothed or sunny window. Will bloom till late in Summer, when they should be dried off, letting the leaves die; pots can be kept over Winter in cellar free from frost. Price, 10 cents each; six for 50 cents.

Fancy Leaved Caladiums.

12 Showy Named Gladioli—5 Cts. each.

SPECIAL OFFER.—The set of 12 named Gladioli 50 cts.

Brenchycenta.—The flowers are of dazzling scarlet color, good size, and well filled with the entire flower; delightful for the greenhouse. Price, 50 cents.

Cereus.—Ground color is pure white, while each flower has a conspicuous blotch of violet rose.

Reine Blanche.—Large flowers, pure white, strikingly marked with carmine; forms an attractive contrast.

Cootique.—Large and fine flower, bright cherry-red, with large pure white blotches and white bands in petals.

General Phil. Sheridan.—Fliry red, white line running through each petal, and a large, pure white blotch on the lower half of flower.

John Bull.—White, slightly tinged yellow and marked violet-rose. A grand old favorite.

Lamark.—Cherry-scarlet, tinged orange, pure white stamens. A fine variety for bunching.

Eugene Scrib.—A superb sort. Flower large and wide, tender rose, hazed strawberry, carmine and scarlet.

Golden Scepter (Isaac Buchanan).—Most beautiful, fine, clear yellow. Splakes large, perfect. Great favorite.

May.—Lovely white flower, finely flaged rose crimson.

GLADIOLI

New Superb Seedlings.

Our new Superb Seedlings can be relied upon to bloom freely, and embrace all shades of color; beautifully variegated and oddly marked varieties; all easy in demand as cut flowers. Fine bulbs, sure to flower, 5 cents each; three for 10 cents.

SPECIAL OFFER.—For 50 cents we will send free by mail 20 good, large bulbs; by express, 52 per 100, net.

HARDY LILIES

Auratum (Gold-banded Japan Lily).—Considered by many the finest of all hardy Lilies. Flowers very large, made up of broad white petals, thickly studded crimson maroon, and bright golden band through the center of each petal. Price, 30 cents each; three for 50 cents.

Candidum (Madonna Lily).—This Lily is the emblem of purity. The deep lemon underparts contrast beautifully with the pure white, waxy-like petals. Delicious fragrance. Price, 15 cents each; two for 25 cents.

Leguminum.—Describes Easter Lily; flowers large and pure white. Price, 15 cents each; two for 25 cents.

Spectabilis Rubrum.—Most popular and satisfactory variety. The splendid large flowers are bright crimson and white spotted. Price, 20 cents each; three for 50 cents.

Tigrinum fl. pl. Double Tiger Lily.—Immeasurable clusters, flowers large, often 6 inches across, very double; deep, fiery red, spotted with black. Price, 15 cents each; two for 25 cents.
New Large Flowering Clematis

**Crispa**—A very beautiful species, bearing an abundance of pretty bell-shaped, fragrant lavender flowers with white centers. Blooms from June to frost. Price 15 cents each.

**Coccinea**—A very handsome, hardy climber, bearing thick, bell-shaped flowers of a bright coral red; blooms with wonderful profusion from June until frost. Price 15 cents each.

**Paniculata**—A vine of very rapid growth, quickly covering trellises and arbors with handsome, clean, glossy green foliage. Flowers of medium size, pure white, borne in immense sheets, appearing in August. Several other vines are in bloom, adding greatly to its merit. Price 15 and 50 cents each.

**Flamula, Virgin's Bower**—A general favorite, hardy, rapidly growing, graceful, small, bright green foliage, almost hidden by clusters of fine fragrant white flowers. Price 15 cents each.

**HARDY CLIMBING PLANTS.**

**Amelopuis Veltchti**—(Boston Ivy.) The most popular of all climbing plants, entirely hardy in the most exposed places. Strong growing, clinging to stones, brick or woodwork, with the greatest tenacity. During the Summer the leaves are a rich green in the fall the leaves change to the brightest tints of scarlet, crimson and orange. Price, 10 cents each; extra large plants 25 cents.

**Chinese Hard Matroni Vine**—A strong and vigorous hardy climbing plant, covered with bright purple flowers, which are succeeded by brilliant scarlet berries nearly an inch long, every branch being covered with them. Price, 15 cents each.

**Chinese Blue Wistaria**—A popular hardy vine; grows very rapidly; desirable for porches, trellises, etc., and when in full bloom is truly magnificent. Price, 10 cents.

**Honeysuckle Chinese Evergreen**—Blooms nearly all the season. Selectively fragrant; flowers red, yellow and white. Price, 10 cents each.

**Honeysuckle**—(Reticulata.—Grows-leaved.) A variety with beautifully variegated foliage. Price, 10 cents.

**Honeysuckle Chinese**—Color white changing to yellow; very fragrant; blooms all Summer. Price, 10 cents.

**Honeysuckle Monthly Fragrant**—Flowers large and very fragrant; colors, red and yellow; a constant bloomer. Price, 10 cents.

**Honeysuckle Scarlet Trumpet or Red Coral**—A rapid grower, with bright red, trumpet-shaped flowers. This is the old, well-known variety. Price, 15 cents each.

**HARDY PERENNIAL PLANTS.**

**Anemone Alba and Rosen.—Single.** Price, 10 cents each.

**Anemone, Queen Charlotte.—New.—Lavender colored flowers, 10 cents each.**

**Anemone Whirlwind, New Double White.—Beautiful semi-double form of the Autumn-blooming Anemone. The flowers are two and one half to three inches across, with several rows of large white petals. Very desirable. One of the finest fall bordering plants and for cutting flowers. Price, 10 cents each.**

**Achillea Pearl**—One of the best pure white flowered plants for the borders. The flowers are borne in the greatest profusion throughout the Summer. Price, 10 cents.

**Daisy New Giant Double White, Snow Crest.—Gigantic pure white flowers, borne on large stems. Fine for cut flowers and perfectly hardy. Price, 10 cents each.**

**Blue Spirea, Caryopteris Mastacanthus**—Of vigorous growth, producing flowers in great profusion the whole length of its branches. Color a rich lavender or sky blue. A valuable plant either for bedding or pot culture, blooming continuously. Price, 10 cents, 3 for 25 cents.

**Jackmanii**—Intense violet purple, with a rich, velvety appearance, distinctly veined. It flowers continually. Price 50 cents each. Price 15 cents each.

**Jackmanii Alba**—The same free flowering qualities and hardy constitution, but is a lovely white. 50 cents each.

**Kermisimus Rubra**—Very scarce, the color is a bright rose red, entirely distinct from any other sort. 50 cents each.

**Duchess of Edinburg**—This is without doubt the best of double whites. Very free flowering and very fragrant. Price 60 cents each.

**Hollybush**—Fine large white flowers. A strong grower and very hardy. One of the best of the white varieties; a perpetual bloomer. Price 50 cents each.

**New Pink Clematis, Mme. Baron Veillard**—An unique shade in Clematis, a pretty lavender pink, a fine contrast to the strong colored sorts. Rapid in growth and slender, graceful habit. 50 cents each.

**Double Funkia Alba**—White Day Lily. Flowers large pure white, large trusses Very fragrant. Price, 10 cents.

**Hardy Plumbago, Lady Larpent.—Dwarf growing, covered all Summer. With violet flowers. Price, 15 cents each.

**Hollyhocks**—For planting in rows or groups on the lawn or interspersing among shrubbery they are invaluable. Lovely shades of crimson, yellow, pink, white, etc. They require a deep, rich soil. Price, 10 cents each; 12 for $1.00.

**Hardy Phloxes**—There is no class of hardy plants more desirable. They will thrive in any position and can be used to advantage in the hardy border in large groups on lawn or planted in front of beds of shrubbery, where they will be a mass of color. Price, 10 cents each; 15 cents each.

**Iris Kempteri (Fleur de Lis)**—The rainbow hues of these grand flowers rival the finest Ormaids. Deemed worthy by the judges of Paris, and placed first in the entire group of improved varieties. Price, 10 cents each; 3 for 25 cents.

**Germanica**—These are neat, robust, hardy, herbaceous, early blooming plants, with large purple and flowers of richly and elegantly blended colors, and are admirably adapted for garden uses. Price, 10 cents each; 3 for 25 cents.

**Iris Tuberosa**—Exquisitely beautiful; thrives in any soil. Price, 10 cents each; 50 cents each.

**Iris Plants**—Favored everywhere. The plants we offer are grown from the highest class prize strains. Flowers enormous, when well grown will often measure three inches in diameter, and of the most brilliant and beautiful hues imaginable. Price, 5 cents each; 20 plants for 50 cents, net.

**New Radish, "Golden Glow"**—A glorious new hardy plant, tall growing, branching freely and bearing by the hundreds, on long graceful stems, exquisitely beautiful double blossoms of the brightest golden color. Excellent for cutting. A vase of these is a beautiful sight. Price, 10 cents each; 3 for 25 cents.

**Peonies Hardy Herbaceous**—Are among the showiest, and most useful of hardy plants. We offer 10 distinct varieties. Price, 3 for 25 cents.

**Tritoma Pfifiteri**—(Ever-blooming Tritoma)—A stately, hardy plant, very effective for garden and lawn decorations, throwing up tall spikes of bright crimson flowers all Summer and late in the Fall after other flowers are gone. May well be called an ever-blooming Tritoma. A vast improvement over the well-known "Red Hot Poker" Tritoma Lyrata; blooms more freely and is a solid crimson, showing no tracing of yellow or orange. For cutting it is unsurpassed, keeping well when cut. Price, 20 cents each; 3 for 50 cents.

**Rhododendron**—(Rose Bay.) One of the most valuable of our hardy decorative plants. The leaves are broad, glossy and evergreen. In June, when the masses of rich, glossy green leaves are surmounted by scarlet, purple and white bloom, each cluster large enough for a bouquet, the display is worthy of admiration. The plants we offer are from 15 to 24 inches high, well established, firmly set with buds. Price, fine, large plants, two feet high, with large branching head, with from 8 to 10 buds, sure to bloom this spring; $1.00. By Express, net.
FLOWER SEED NOVELTIES

The Best and Cheapest Seeds That Grow

PLANT THE RIGHT SEEDS THE RIGHT WAY. EVERY EXPERIENCED PLANTER KNOWS THAT FROM GOOD SEEDS ONLY CAN GOOD CROPS BE GROWN.

A New Departure—Flower and Vegetable Seeds at Less Than Half Price.

Our Liberal Seed Premiums and Discounts. On all orders for Seeds, in packets only, purchaser may select 50 cents worth, extra, for each $1.00 sent in thus any order over $5.00 Seeds in packets amounting to $5.00, and upwards. This premium applies to Seed orders alone. We cannot allow you to select any premium on a Seed Order for less than 50 cents.

Please Remember to Keep Your Plant and Seed Orders Separate. It will greatly facilitate the filling and packing of your orders promptly. USE OUR ORDER SHEET. If you need more, write us, and we will gladly invoice you to at once.

Our Guarantee. That our interests are mutual; your success is ours. That our Seeds are fresh and genuine; that they are the best money can produce; of highest fermenting power and fully tested. However, Seeds of the best quality are apt to fail through improper sowing, too deep or too shallow, in too wet or too dry soil. Young plants are liable to various accidents; cold or dry air may check growth or destroy them; insects may attack them above or below ground, and a great many other contingencies may arise to prevent the best Seeds from giving satisfaction, and for all these reasons it is impractical to guarantee Seeds.

CAPTIVATING NEW LARGE FLOWERING ASTERS

SO BEAUTIFUL, SO VARIED IN COLORINGS. UNSURPASSED FOR CUTTING DURING THE SUMMER MONTHS.

PRICE, PER PACKET, 5 CENTS, EXCEPT WHERE NOTED.

Aster New Rose.—Flowers large, double incurved, recurved like a rose. Mixed colors.

Comet.—A handsome, new, very distinct Aster, resembling Japan Chrysanthemum. Petals long, beautifully curved; a delicate pink, bordered white; bright pink, light blue borders; other mixed colors.

Dwarf White Queen.—Grows only 10 to 12 inches high, with spotty white flowers. Fine for pot culture as well as bedding out.

Dwarf Bouquet.—Only 6 to 8 inches high. Each plant is covered with handsome flowers and looks like a bouquet set in the ground. Mixed colors.

Giant Comet.—Improved strain of the popular Comet Asters, stronger in growth and bearing larger flowers. Mixture of all the colors. Pkt. 10 cents; three for 25 cents.

New Ostrich Feather Aster.

New Giant Ostrich Plume, or Hohenzollern Asters.—Immense double flowers, 8 inches across, borne profusely, 25 to 40 to a plant. The petals are long, narrow and loosely curled, resembling an ostrich plume. Beautiful in coloring. In separate colors, white, rose, crimson, azure blue, also mixture of all colors. Pkt. each 10 cents; three pkts. for 25 cents.

New Yellow Aster, "Sunlight."—This is the first really true yellow Aster introduced. Color, clear; abundant flowers 3 to 4 inches across; type of Pomony Perfection.

New White Branching Aster.—A new variety of American origin. Of branching character; the magnificent, large, double white flowers, quite four inches in diameter, are borne upon long stems making them excel other white Asters. Pkt. 10 cents; three for 25 cents.

New Aster, Daybreak.—A great new variety of American origin. Of symmetrical growth and habit, it attains a height of 18 to 24 inches, and produces a perfect globe-shaped flower, a beautiful shell-pink color, similar to that of the Daybreak Carnation. A magnificent variety, either for bedding or for cut flowers. Pkt. 10 cents; three for 25 cents.

New Diamond Asters.—Flowers from 2 to 2 1/2 inches across, perfectly double, each petal distinctly incurved. Particularly valuable for bouquets; 18 to 20 inches in height; perfect mass of bloom; colors, rich, varied. Pkt. 10 cents; three for 25 cents.

New Jewel, or Ball.—Novel and pretty; ball-like flowers. Color, mixed light rose, dark rose and white.

New Japanese, or Tassel Asters.—The beautiful flowers form a striking contrast with those of any other variety. Immense size, 5 to 6 inches across; long, curiously waved and curled petals; resembles the most diseased Japanese Chrysanthemum. Vigorous growing, 30 to 35 inches high, producing a number of flowers. Colors, beautifully rich and soft.

New American Branching Aster, Semple's Late Flowering.—This is an American novelty, unusual merit—sure to be popular, even in Germany. Flowers during August and September. Grows 2 feet high and each plant should be allowed sufficient space for its full development. Ruinous, large, double flowers in great profusion are borne on stems 12 inches long and are most desirable for cutting; beautiful soft shades and colors.

New Aster, Fire King.—Plants 8 inches high covered with large, handsome, perfectly formed flowers of the most intensely brilliant, pure scarlet. Pkt. 10 cents; three for 25 cents.

Prince of Wales.—New, very fine. Plants about 15 inches in height, branching freely in all directions. Flowers are of a deep crimson red color and very large.

Pomony-Flowered Perfection.—Very double, large and beautiful flowers. Mixed colors.

Queen of the Market.—The earliest blooming of all Asters, fully two weeks earlier than any other sort. Large flowers, free blooming, and graceful spreading habit. We have them in separate colors, white, flesh, crimson, dark blue; also mixed. Pkt. each 5 cents.

Victoria.—Flowers large, quite double, beautifully reflexed and dwarf. Over twenty colors mixed.

Washington.—Very fine, large flowers, frequently measuring 6 to 8 inches in diameter. Mixed.

Excelsior Mixture of Tall Asters.—A mixture of all the most beautiful, striking and delicate colors of all tall growing Asters, selected from the cream of the Trifally, Victoria, Comet, Crown and other most desirable sorts. It has been especially prepared by us.

Superfine Mixture.—Of all varieties. 1-2 oz. 50 cents.
NEW MASTERPIECE. OR

“RUFFLED GIANT” PANSIES.

A remarkable strain that comes nearer to Double Pansies than anything ever introduced, the flowers of which are so large and full that the broad petals seem to be "gathered" to the stem, causing them to be undulated and flat from center to circumference, but unlike any velvet. The unusual substance of the flowers, aided by these corrugations, thus enables them to present bold, open buds, with pure white, inferring windy or dry summer weather, when other large-flowered Pansy flowers drop or wilt. The flowers are extraordinarily large, and are borne on strong stalks; though well above the foliage they are nearly all five-blotched on the "Odiere" pattern, and contain some rich combinations of coloring, including some new tints and blends not met with in other Pansies. The plants are vigoroously-stemmed and bushy, foliage unusually large and healthy. They root deeply, thrive under extremes of temperature, flower continuously and abundantly, and will give our customers great satisfaction.

Price per packet, 15 cents; two for 25 cents.

THE INNISFALLEN NEW SUPERPRIZE PANSIES.

Mixture of the finest French and German Prize Exhibition Varieties. The labor of many years of careful cultivation and constant selection has resulted in an almost endless variety of constantly changing colors and extra large-sizes. Flowers. Embrace all solid and self-colors, darkly shaded, five-spotted on backgrounds of every color, large spotted, edged or bordered, flowers of various colors, each with distinct ring of white, yellow or blue; striped dark and light marble varieties; striped flowers of striking beauty, blotched, velveted, mottled and margined in combinations that would be thought impossible.

Price per packet, 10 cents; three for 25 cents.

NEW GIANT EMPEROR PANSIES.

The most beautiful and largest ever offered.

Price, 10 cents per packet; three for 25 cents.

Cardinal Queen.—The flowers are a brilliant brownish scarlet, the lower petals each being marked with a dark brown blotch.

Coquette de Potsy.—Of a reddish lavender, three maroon blotches on lower petals. Novel and distinctly beautiful.

Emperor Frederic.—Velvety brown, shaded into a narrow band of deep gold, yellow, which borders each petal.

Empress William.—Dark yellow with dark reddish brown, with a very dark blotch on each of the five petals. Grand and imposing.

Meteor.—Color bright canary yellow, the three lower petals are spotted with mahogany brown, while the two upper petals vary from reddish brown to dark purple, margined with gold or silver.

Pigeon Blood.—Rich, velvety, blood red. decidedly superior to all other so-called reds.

President Carnot.—Has large violet blue blotch surrounded by a sharply defined silvery white margin on each of the five petals.

Giant Freya, European Novelty.—Flowers large, deep velvety purple, shaded blue and scarlet, with beautiful white rim. A characteristic is that the back is like the front. A beauty.

Giant Beaconsfield.—A great favorite on account of its extra large flowers and rich combination of deep violet, which shades off to a pale lavender towards the top.

Giant Golden Yellow Five-Spot.—Grand and magnificent; each has a dark blotch on each petal, with rigid stalks of great substance.

Special Offer.—For 75 cents we will send one packet of each of the Giant Emperor Pansies, including one packet of the Giant Emperor Mixture.

Giant Emperor Pansy Mixture.—This includes all the above new sorts of the EMPEROR STRAIN, and is, without doubt, the finest mixture in the world. Contains all the petals, shades, the richest colors that can be found, and unsurpassed by any other firm.

Price per packet, 10 cents; three for 25 cents.

STANDARD PANSIES.

ALL OF THE FOLLOWING AT 3 CENTS PER PACKET.

Extra Fine Mixed.—Above thirteen varieties, mixed, per packet, 5 cents; six for 35 cents.

Special Offer.—We will send one package of each of the above thirteen varieties, priced at 3 cents each, for 30 cents.

NEW IMPROVED IMPERIAL PANSIES.

Price, 10 cents per packet; three for 25 cents.

Black Prince.—The flowers are enormous, of great substance, and quite distinct in color. The rich, glossy black has a peculiar soft, velvety appearance whilst very heavy and glossy. The flowers are of fine circular form, carried upright above the foliage.

Giant Trimmarean Pansies.—Remarkable for large size of flower and robust growth. Flowers of a magnificent shape, and stand well above the foliage, each flower distinctly marked with three large blotches. Odier.—Superb five-blotched flowers.

Red Riding Hood.—Flowers are of fine circular form, and of the most brilliant solid red. Novelty.

Improved Striped.—Very large, perfectly formed flowers of the most brilliant and exquisite tints of coloring, each flower being handsomely striped.

Rainbow.—Upper petals sky blue, edged with violet. Lower petals mostly purple, sometimes on white, or on yellow ground, marked, spotted.

Fire King.—Three lower petals have each a large blotch of deep brown red or maroon, margined with yellow, while the upper petals are of a bright reddish brown, of a fancy shade.

Peace —A grand fancy flower. Petals edged with a thin white line, within which is a space of purplish crimson, passing into a rich central blotch of deep blue, shading to black.

Yellow Trimmarean.—Immense flowers with black eye. One of the handsomest Pansies.

Yellow Primrose.—Of perfect form and color, pure golden yellow, with the three lower petals distinctly marked with a large, double, purplish blotch on the compact, but large, flowers.

Giant Mormon Beauty.—A most beautiful strain of Pansies, with matchless form of beauty.

Snow Queen.—Pure, glistening, satin white, without blotches. Wonderfully glorious bloomer.

Special Offer.—We will send one packet each of the above new improved Imperial Pansies, including one packet of the Innisfallen "New Super" Prize Mixture, for 75 cents.
THE BEST AND NEWEST SWEET PEASE

This list has been selected from varieties of the true Grandiflora Strain, bearing three or four of the largest flowers to stem, and includes the best of the late novelties. No better list is offered in any catalogue. Price, 5 cents per packet, any 7 packets for 35 cents; each 10 cents per ounce, any 4 ounces for 35 cents per pound; postpaid.

Admiration.—Delicate shade of rose lavender.
Brilliant.—New bright scarlet; does not burn.
Chancellor.—Bright, rich crimson, blended with pale pink.
Daybreak.—Standard white, clouded with crimson; wings white, flaked rose.
Easter.—Standard bright rose-pink; wings creamy white, suffused with rose. Fully ten days earlier than any other sweet pea.
Fashion.—Standard, beautiful shade of cerise-pink.
Lottie Hutchins.—Cream flaked with pink. Sold only in packets, 10 cents.
Nancy.—Standard bright rose, suffused with bluish tinge. 5 cents.
Phlox.—Standard orange-salmon; wings a bright pink.

Best Standard Varieties of Sweet Peas

At the uniform price of 3 cents per packet; ounce, 8 cents; quarter pound, 15 cents.

America.—The brightest blood-red striped.
Alphonse.—White, scarlet, red, cream tinted, white wings. 5 cents.
Aurora.—Large flowers, white ground flaked and striped bright salmon.
Blanche Burpee.—Finest giant flowered white; very free bloomer.
Blanche Ferry.—Large pink and white flowers. Captivatingly beautiful. Bright magenta or white. 5 cents.
Crown Jewel.—Primrose veiled with violet-rose. 5 cents.
Duke of Clarence.—Standard, giant size of rose color.
Emily Henderson.—The earliest pure white; finest. 5 cents.
Golden Gem.—Beautiful deep primrose yellow. 5 cents.
Goschen.—Deeply shaded crimson.
Her Majesty.—Bold flowers of the most beautiful rose color.
Lottie Eckford.—White edged lavender blue.
Lovely.—Rich pink, flushed pink.
Mara.—The largest and finest bright scarlet.
Mrs. Eckford.—Beautifully shaded primrose yellow.
Mrs. Sankey.—Remarkably large white flowers.
Oregonia.—Silvery-white ground, watered rose carmine.
Royal Standard.—Standard double pink, wings blooming pink.
Beautiful.
Stanley.—Rich dark maroon of largest size.

Flowering Phlox

Phlox Dwarf Fireball.—Plants 6 to 8 inches high, liberally covered with large masses of bright flowers. Pkt., 5 cents.
Phlox Dwarf Snowball.—Same growth as Fireball, but bearing snow white blooms. Pkt., 5 cents.

Phlox Drummondii.—Fine mixed. All colors of the original type of Phlox Drummondii. Oz., 60 cents; pkt., 5 cents.

Phlox Drummondii, New Dwarf.—A lovely strain, the plants growing only six to eight inches high and covered with large trusses of bright flowers. Pkt., 5 cents.

Phlox Grandiflora, Grandiflora Strain.—(Fordhook strain.) This strain of massed large flowering Phlox is most remarkable in variety and brilliancy of colors. Our strain is notable for the perfection and size of the flowers—many of the single flowers are so large that we will nearly cover a fifty-cent piece. Pkt., 5 cents.

New Large Yellow Phlox.—Rich straw yellow, of warm and glowing tone. White flowers are of extra large size and fine form. Pkt., 5 cents.

Phlox Starred and Fringed.—Nothing in the Phlox line created such a sensation as the Variegated, Cupidata and Suntana of Queenburg. Three large size and curiously fringed and toothed blooms took the floral world by storm. We offer the largest and finest fringed strain of wondrous beauty. Pkt., 5 cents.

Hardy Phlox.—See Perennials.

Begonia Vernon

Plants grow rapidly and thrive amazingly under our hot Summer sun. The flowers are borne in constant profusion from early Summer until late Autumn. The color is deep red, magenta, pink, white, crimson and violet. The large blooms are abundant and vigorous foliage which is waxy and glossy, stained, spotted and margined bronze purple. Begonias are among the handsomest of all flowers and can be so easily raised from seed and come to full perfection in so short a time. Per pkt., 10 cents; 3 pkts., for 35 cents.

New Giant Imperial Japanese Ipomoeas, or Morning Glories.

We introduced these grand climbers, and they have proved a revelation to many. The robust vines attain a height of from thirty to fifty feet. The foliage is luxuriant, distinct and varied—green, silvery and yellow leaves being no exception. The flowers are of every color, both large and dark green, white and light gray. But the sunniest character of these "Imperial Japanese Morning Glories" is the entrancing beauty and gigantic size of the flower. They measure up to four to five inches across. The colors of the flowers, all shades and marginal tints are limitless. Some flowers are deep, rich colors; others daintily tinted and shaded. There are reds from soft rose to crimsons. The finest plant for bedding and garnishing the borders and the garden daintiest blue to purple to showy gray. Some are striped, blotched and spotted; others have magnificent edges and throats. (See cut) Mixed colors, per packet, 5 cents.

Burpee’s Bush Sweet Peas.

This is a new race of entirely distinct growth and proven entirely satisfactory in every way. The plants are erect, 15 to 18 inches high and frequently so in diameter. The stout stalks are covered with richly feathered leaves. They are so productive that they are excellent for masses, borders, the rock garden, or in any position where the most brilliant display of blooms is needed. They are far superior to all the strains offered in the market. The flowers are so large and heavy that they cannot be forced in vases but are most suitable for bedding and covering walks and borders. They are bound to be the sensation of the garden this year. They also make a magnificent cut flower. They are sure to be the sensation of the market this year. Pkt., 1 cent; oz., 10 cents; 1 lb., $1.00; 10 lbs., $9.00.

Cupid Sweet Peas.

Packet, 5 cents; ounce, 15 cents; 1/2 pound, 40 cents.

Pink Cupid.—In habit and manner of growth it is strictly a Cupid, spreading from the root to a foot to eighteen inches, growing from six to eight inches high and shooting up from the ground. In full bloom at once from three to four hundred large flowers and all borne close to the end of the stem.

White Cupid, New.—Dwarf does not grow over six inches high. Flowers pure white and borne three to a stem; growing from five to six inches high. The flowers are pure white and borne in large clusters at the ends of the branches. A marvelous show plant for the rock garden or in the borders. Bloom until frost.

Cupid, Mixed Varieties.—This mixture contains seed in suitable proportions of all the various Cupid varieties, eight in number, which are becoming so popular for beds, borders and pot plants.

New Double Sweet Peas.

From most carefully selected stock seed, saved only from plants bearing the best double flowers and including the finest varieties offered. Pkt., 5 cents; oz., 10 cents; 1/2 pound, 30 cents.

Giant Browallia.

Plants only a foot high covered with an abundance of large sky-blue flowers. For beds, borders or pots there is hardly another plant with blue flowers that compares with it. Pkt., 10 cents; 3 pkts for 35 cents.

New Giant Imperial Japanese Ipomoeas, or Morning Glories.
Alphabetical List Of

CHOICE and RELIABLE FLOWER SEEDS

At a uniform price of 3 cents per packet, except where noted. "The Best and the Cheapest." Any purchaser may select 50 cents extra, on every $1.00 sent us for seeds, in packets only.

Abutilon, Royal Prince.—Well known, showy greenhouse shrubs, with bell-shaped orange, red or white flowers. Packet, 10 cts.

Agapanthus Umbellatus (African Lily).—Large umbels of bright blue flowers. Packet, 5 cts.

Ageratum Imperial Dwarf.—Dwarf; growing to a height of about 9 inches. Blue or white.

Ageratum Blue Perfection (New).—This new variety is the darkest colored of all large flowering kinds. Color is deep amethyst blue; dwarf, compact growth; very valuable plant for border of walks, flower beds, etc. Packet, 10 cts.

Allium, Little Gem.—Plants are very dwarf; each plant so as to completely cover a circular space 12 to 20 inches in diameter; they soon become one mass of white, remaining in full bloom from Spring to Fall. Packet, 5 cts.

Alyssum Maratimum.—Flowers white; produced in greatest profusion. Height 6 inches. Packet, 5 cts.

Amaranthus, Caudatus (Painted碏eed).—Blood red, drooping panicles of flowers, pretty for decorations.

Amaranthus Salicifolius (Fountain Plant).—Foliage red, orange and green, elegantly contrasted. Height 3 feet. Makes a good cut plant.

Amaranthus Tricolor (Joseph's Coat).—Grand plant for Summer bedding; growing to a height of 2 feet, with crimson, yellow and green foliage. Packet, 5 cts.

Antirrhinum Majus (Snapdragon).—Useful border plants, with large flowers of various bright colors in spikes. Height 15 feet. They do best in a light soil well enriched. Packet, 5 cts.

Antirrhinum Tom Thumb.—Dwarf growing variety; 6 or 7 inches. Fine for bedding. If sown early they will bloom the first of Summer. Packet, 5 cts.

Balsam Defiance.—A fine mixture, composed in nearly equal mixtures of violet, white spotted, shining scarlet, white tinted lilac, scarlet white spotted, rose white spotted, royal purple, pure pink, chamois rose; all the above eight colors, each having been grown separately. Finest mixed. Packet, 5 cts.

Balsam, New Superb Mixture.—The finest large flower, perfectly double Balsam in cultivation. Frequently over 2 inches in diameter. Bright, effective, brilliant self-colored; also superbly motiled and striped varieties. All colors mixed. Packet, 5 cts.

Balsam, Finest Double Mixed.—A first-class mixture; very choice colors.

Brachycome Iberidiflora (Swan River Daisy).—Very effective, dwarf growing plants; blue and mixed; 6 inches.

Calla ±Ethiopica (Popular Calla Lily).—Easily grown from seed; flowering the second year. Packet, 5 cts.

Callitrich, Mixed.—Showy, early flowering garden annuals.

Calendula Meteor.—Bright yellow, striped orange. Fine and distinct.

Calendula Oriental.—Large flowering, bright yellow.

Calliopsis, Fine Mixed.—Shades of yellow, orange and reddish brown.

Calliopsis, Drummondii (Golden Wave).—Compact plants covered with bright golden flowers, 4 inches across, dark brown center.

Crosy's New Dwarf Cannas.—Bloom freely the first year from seed. An easily managed and incomparably more beautiful for bedding than the best Geraniums. Root can be kept in cellar over Winter, and each clump will give 6 or 8 roots for planting the following year. Dressed in regular outline. Packet, 5 cts.

Castor Oil Bean.—See Ricinus.

Candytuft, New Empress.—Magnificent variety, with enormous heads of pure white flowers. Packet, 5 cts.

Candytuft, New Dwarf Hybrids.—A dwarf habit, perfect shape, abundant flowers, from pure white to purple. Packet, 5 cts.

Candytuft, Snow Queen.—Bears but little foliage; the mass of white growth is so useful for borders. Seeds should be started in the house. Packet, 5 cts.

Castor Oil Bean.—See Ricinus.

Candytuft, New Empress.—Magnificent variety, with enormous heads of pure white flowers. Packet, 5 cts.

Candytuft, New Dwarf Hybrids.—A dwarf habit, perfect shape, abundant flowers, from pure white to purple. Packet, 5 cts.

Candytuft, Snow Queen.—Bears but little foliage; the mass of white growth is so useful for borders. Seeds should be started in the house. Packet, 5 cts.

Candytuft, New Carline.—Rich color.

Candytuft, White.—Ounce, 25 cts.

Candytuft, Mixed.—Including above varieties. Ounce, 25 cts.

Centauraea Gymnocarpa.—Finely cut, arching, silvery gray leaves.

Centaurea Cyanus (Cornflower or Bluebottle).—Popular, old-fashioned flower. Mixed colors.

Centaurae Moschatus (Sweet Sultan).—Showy border plant. Mixed colors.

Centaurae Margaret.—Very handsome plant; grows about 18 inches high; produces large, pure white flowers of sweetest fragrance; very effective in the greenhouse. Packet, 5 cts.

Chrysanthemum.—Most showy and brilliant of annuals. Combs of best varieties often grow a foot or more across the top. The best sorts mixed.

Closia, Ortich Feather (New).—This new feathered Closia has very large, bright, crimson and orange plumes, which are expertly curated and cured in exact resemblance of an ostrich plume. Grows about 3 feet high; of handsome pyramidal form. Makes one of the most effective ornamental plants for either pot or outdoor culture. Packet, 5 cts.

Crasana Decora (Lady Miller).—Ornamental bedding and decorative plant; dwarf, compact habit; handsome, silvery white foliage.

Cuculus (Tassel Flower).—Small, tassel like bloom, often called Flora's Paint Brush. Useful for cutting. Bright scarlet and yellow mixed.

Chrysanthemum, Perennial Varieties.—These are the flowers which win so many prizes at Autumn shows. Our seed is saved from a superb collection, the finest in the world. Packet, 10 cts.

Chrysanthemum, Inodorus Plenissimum.—Although a perennial, it flowers abundantly the first year from seed, producing hundreds of beautiful, perfectly double, snow white flowers.

Chrysanthemum, Tricolor ("French Marguerite" or "Painted Daisies").—The plants grow to 15 inches high and produce circular flowers, brown, pale crimson, violet, white, many mixed colors, having the appearance of being laid on with a paint brush. Packet, 5 cts.

Chrysanthemum, Coronarium.—Fine double flowers for cutting. White, rose and mixed. Packet, 5 cts.

Chrysanthemum, Golden Feather.—The dark velvety dye of the chrysanthemum is surrounded by a circle of bright golden yellow, followed by another clear cut circle of crimson; beautiful golden foliage. Packet, 5 cts.

Convolvulus Major (Morning Glory).—See page 72.

Convolvulus Minor (Dawn Glory).—Grows to a height of one foot only. Mixed colors.

Cimenella Coleiata (Blue Day Flower).—Lovely sky blue flowers; blooms from seed sown in the open ground, while the tuberous roots can be taken up and kept all Winter like Dahlia roots.

Gleome Pungens (Giant Spider Plant).—Curious heads of bright, rose colored flowers.

Cosmos (New Giant Fancy).—Notable both for purity of color and gigantic size of flowers. Broad petals overlap each other, producing perfectly circular flowers of splendid substance, which measure 4 inches across, sometimes even reaching 5 inches in diameter. Packet, 5 cts.

Cosmos (The Klondike New).—This variety from Mexico, now introduced, produced during the past Summer magnificent bright yellow flowers, 25 to 3 inches in diameter, and was greatly admired. Packet, 5 cts.

Cosmos (Dawn).—This new variety comes into bloom in July and continues to flower until cut down by severe frost. Of good size; the handsome flowers are white, with a delicate tinge of rose at the base of the petals. The plants are of a compact, bushy growth, and 4 feet. Packet, 5 cts.

Dianthus Chinensis (Double Chinese Pink).—Very double, large flowers; magnificent color.

Dianthus Snowflake.—Pure white flowers, immense size; very double.

Dianthus Crimson Belle.—Very large, single, dark red flowers.

Dianthus Dwarf Fireball.—Brilliant blood-red, perfectly double, lacinated flowers.

Dianthus Mourning Cloak.—Large, double flowers; very dark mahogany, almost black; edged pure white.

Dianthus Eastern Queen.—Magnificent single flowers, 2 to 3 inches across; striped and stained.

Dianthus Hodewigelli (Japan Pink).—Splendid double flowers for growing, either as borders or for cutting lengths.

Dianthus Laciniatus.—Large, single, fringed flowers mixed.
Dianthus Latulossenfl., fl. pl.—Large, perfectly double and deeply fringed flowers; finest mixed. Packet, 5 cts.

Dianthus Hardy.—See Perennials.

Dahlias, Double Flowering.—Grown easily from seed and flowers so beautifully the first season. We offer the choicest seed, whether for new or old varieties. Doubled flower, double magenta is the brightest color in August. Large flowering double mixed or show. Packet, 5 cts.

Dahila, Single Flowering Varieties.—In great variety of bright colors Packet, 5 cts.

Double Daisy.—Daisies are easily raised from Spring sown seed and come into flower in a very short time. With protection they will withstand the cold direct from the nursery. Packet, 5 cts.

Daisy Longfellow.—Remarkable for the unusual size and doubleness of its dark rose flowers. Packet, 15 cts.

Daisy Snowball.—Large flowers, perfectly double, of pure white. Packet, 15 cts.

Double Daisy (Giant Flowered White) New.—A distinct variety in the large size and beauty of its flowers, which have flat petals of very showy white color and are perfectly double. Produced in great abundance above the foliage, which is much larger than in the older varieties. Valuable plant for Spring decoration, grown either in the open ground or in pots. Packet, 10 cts.; three for 25 cts.

Delphinium (Larkspur) Double Dwarf Rocket.—Finest mixed.

Delphinium (Larkspur) Tall Rocket.—Double mixed.

Delphinium (Larkspur) Emperor.—Really splendid, a single plant having fifty or more erect spikes of flowers. Delicate mixed colors. Packet, 5 cts.

Delphinium Hardy.—See Perennials.

Datura.—(Angel's Trumpet, or Sweet Nightingale.) Very showy, large, branching plants, growing three to five feet high, bearing large trumpet-shaped flowers six inches in length and very fragrant. They bloom freely from seed soon after the open ground the first season. Mixed varieties. Packet, 5 cts.

Datura Double.—Mixed colors. Packet, 5 cts.

Datura Wrightii.—Large single white. Packet, 5 cts.

Echium caucasicum.—(California Poppy.) Mixed. Flowers yellow, orange and white; leaves finely cut; height 10 to 12 inches. Very showy.

Echscholtzia Mandarina.—The inside of petals a rich orange, outer a purple and yellow. Packet, 5 cts.

Euphorbia Marginalia.—(Snow on the Mountain.) Beautiful foliage, elegantly veined and margined with white. Very showy.

Euphorbia Helophora.—(Annual Poinsettia,) or Mexican Fire Plant. Grows two or three feet high, with smooth, glossy leaves. The leaves are at first entirely green, and about mid-Summer at the end of each branch appear greenish-white flowers, enveloped in beautiful orange scarlet bracts, and the surrounding leaves are either blotched with vivid carmine or are carmine with green tips. Packet, 5 cts.

Forget-Me-Not.—See Myosotis.

Four O’Clock.—See Marvel of Peru.

Freesia Gigantea Grandiflora.—The flowers are double the size of any other freesia, the flowers pure white with yellow throat, cream yellow with orange throat, cream shaded lavender and white with lavender. Packet, 10 cts.

Feverfew.—The well-known double white variety. Splendid for cutting. Packet, 5 cts.

Gladiolus.—See Perennials.

Glicinda.—New Hybrids.—The ease with which new varieties of this magnificent flower can be raised from seed should entitle this grand mixture to a trial. It has been saved from one of the finest collections, comprising over 1,000 select named varieties. Carefully hand-hybridized, with the utmost care in carrying the size, shape, and variety of color, substance of flower, as well as the strength of plant, up to the highest point, and the product may be expected to produce nothing but sorts of the highest merit. Packet, 10 cts. for 25 cts.

Geranium Zonal.—(Extra Fine Mixed.) This seed has been saved from a collection of the rarest named sorts, and is sure to produce new and striking sorts. Packet, 10 cts.

Geranium Apple-Scented.—Leaves are very fragrant. Packet, 5 cts.

Galardia Picta Lorenziana.—Large, gay-colored, double flowers; produced abundantly from July until frost; valuable for cutting. The colors embrace sulphur-yellow, orange, amaranth and scarlet. Galardia.—(Fine Mixed.) Including all the above and other varieties. Packet, 5 cts.

Godelia.—(Thum's Perfumed.) Many varieties. Packet 5 cts.

Grevillea Robusta.—(Silk Onk.)—A beautiful ornamental plant, with fern-like foliage; easily grown from seed. Packet, 5 cts.

Helianthus.—(Sunflower.) The Dahlia. Produces numerous bright golden-yellow or soft green single petaled flowers. Packet, 5 cts.

Helianthus.—Mammoth double flowering.

Chrysanthemum Ysheroff.—A new, magnificent variety, bearing flowers seven to ten inches across, and four or more in depth; perfectly double and of a deep golden tint. Packet 5 cts.; ounce 25 cts.

Heliotrope.—(Choiseet Mixed.) Packet, 5 cts.

Heliotrope.—(Black Bouquet.)—The large flower heads are intensely dark blue in color and most deliciously fragrant. It comes true from the seed. Packet, 5 cts.

Heliotrope.—(Lady in White.)—A fitting companion to the Black King. They are the vigorous, healthy growth, while the superb large clusters of deliciously fragrant flowers are of pure, spotless white. Packet, 5 cts.

Heliotrope.—(New.)—(Lemoline’s Giant Hybrids.) One of the most magnificent species. They are richly colored, pure white through all shades of velvet and blue to indigo. Even before it comes into bloom the foliage is most noticeable; its large, glossy leaves frequently measure 5 feet across and are borne on strong, erect stems, growing about 2 feet in height. Packet, 10 cts.; 3 for 25 cts.

Hardy Pinks.—See Perennials.

Hollyhocks.—See Perennials.

Ice Plant.—(Mesembryanthemum Crystallinum.)—Fine for vases; alligator icy foliage. Packet, 5 cts.

Lobelia.—Elegant and useful, and well adapted to bedding, edging pots or rockeries. Fine mixed.

Lobelia.—(White Gem.)—This lovely, new, compact annual Lobelia grows only 4 to 5 inches high, and is densely covered with pure white flowers. Packet, 5 cts.

Lobelia.—Star of Ischl.)—A very dwarf, erect growth, only 4 to 6 inches high, and forming dense balls of charming dark blue flowers. Packet, 5 cts.

Malope Grandiflora.—The plants grow 12 to 20 inches high, and bear beautiful, large, single flowers. Mixed, Crimson, rose and white. Packet, 5 cts.

Marvel of Peru.—(Mirabilis, or Four O’Clock.)—Is one of the best beet seed and will produce annually. Planted in beds or masses they present a gorgeous sight during the afternoon. Mixed. All colors. Ounce, 5 cts.

Margold.—(African.)—The African varieties are stronger in habit and produce larger flowers than the French. Double mixed. All varieties.

Margold.—(Eldorado, or Dahlia-Flowered.)—The flowers are globose, and perfectly double as a show Dahlia, and of enormous size. Shades of the lightest primrose, lemon, rich golden yellow and deep glowing orange.

Margold.—(French Compact, Gold Striped.)—Plant is thickly studded with handsome flowers, generally striped regularly with brown on yellow ground.

Mignonette.—(Large Flowering.)—The common sweet Mignonette. Mixed colors, Packet, 5 cts.

Mignonette.—(New Giant Flowered Red.)—Of beautiful pyramidal form, compact and vigorous grower. 12 to 15 inches high, double abundant flowers. Flower spikes of the largest size; a striking red color. Packet, 5 cts.

Mignonette.—(Machet.)—A dwarf French variety, with broader spikes of flowers. Packet, 5 cts.

Mignonette.—(Golden Machet.)—Golden-yellow flowers; dense dwarf growth.

Mignonette.—(White Giant Spiral.)—Quite showy in growth with very large spikes of bloom. Packet, 5 cts.

Mignonette.—(Mixed.)—All varieties mixed.

Myosotis.—(Forget-Me-Not.)—These charming little favorites succeed best in damp, sandy situations, but thrive well in almost any soil. Blue flowers. Packet, 5 cts.

Myosotis.—(Victoria.)—Very large blue flowers; fine for pot culture. Packet, 10 cts.

Mimulus Moschatus.—(Musk or Monkey Flower.)—Singularly shaped and brilliant-colored flowers, blotched and spotted in every conceivable manner. Packet, 5 cts.

Mimulus Baltimore.—Large, fragrant, double scarlet Monkey Flowers. The favorite of all who know it. Handsome scarlet blooms, spotted with darker shades. Packet, 5 cts.

Nolana (Mixed.)—Very pretty trailing plants for rockwork, hanging baskets, floral borders. No flowers resemble the Dwarf Flower violetus.

Tom Thumb Nasturtiums.—Are unrivalled in beauty and effect. When planted in pots their flower most profusely, and remain in bloom a long time. Varieties mixed. Ounce, 15 cts.; one-fourth pound, 40 cts.

Nasturtium (Flameelon.)—Bears profusely most wonderfully variegated blooms. No two alike. Packet, 5 cts.

Nasturtium.—(Golden King.)—Deep golden-yellow flowers, the most abundant and lasting of all varieties, Packet, 5 cts.

Nasturtium.—(Ruby King.)—Pink, shaded with carmine; beautiful dark foliage.

Nasturtium.—(King of the Tom Blunts.)—Blush-green foliage and almost black flowers.

Nasturtium.—(King Theodore.)—Blush-green foliage and almost black flowers.
Nasturtium, Lady Bird.—Rich golden yellow, each petal barred with bright, ruby crimson.

Nasturtium, Emperor of India.—Brilliant crimson scarlet flowers. Very rich.

Nasturtium—Tall varieties. See Tropaeolum Lobbianum in Climbers.

Nasturtium, Mexican Primrose.—Most desirable for Summer and Autumn blooming. Large pink flowers with white center. Packet, 10 cts.

Nasturtium, Hybrid, Finest Mixed.—Embracing all the colors. Very pretty flowering, and excellent for bedding or massing.

Nasturtium, Blotched and Striped.—A magnificent strain, producing the most beautiful crimson and white flowers, beautifully blotched, striped and marked. Flowers very large, and plants completely covered with bloom the whole season. Packet, 5 cts.

Nasturtium, Hybrid Grandiflora.—The flowers are of very large size and deeply fringed. They are of various rich, deep colors, beautifully blotched, marbled, fringed and variegated. Packet, 10c.

Nasturtium, Beauty, Fairy Blue.—Immense globular flowers, perfectly round, and very free blooming. Packet, 5 cts.

Nasturtium, Improved Double Carnation, Mixed.—For dazzling richness and variety of colors the flowers are unequalled. Packet, 5 cts.

Nasturtium, Poppy Snowdrift.—A grand variety. Large, pure white flowers, perfectly round and double. Packet, 5 cts.

Nasturtium, Improved Double Mixed.—For dazzling richness and great variety of colors are unequalled. Packet, 5 cts.

Ricinus, Giant Castror Bean.—Leaves measure nearly four feet across. From seed sown in the open ground in May, the plants are in full foliage early in July, and attain a height of twelve to fourteen feet. The enormous leaves, beautifully lobed, measure two and a half to four feet across. Planted as a solitary plant on the lawn, it makes a perfect pillory of foliage, thickly set from top to bottom. A dozen plants in a large bed make a most picturesque sight. Mixed varieties. Packet, 5 cts.; ounce, 10 cts.

Salvia, Splendens.—Large flowering Scarlet Sage. This "flame colored beauty" is the most gorgeous of all plants. For massing, this "flame" of flame scarlet completely conceals the foliage. Packet, 5 cts.

Salvia, Splendens, Silver Spot.—The most distinctive feature of this variety is the magnificent dark handsome spotted foliage. Leaves are rich, soft, dark green, with light sulphur or cream colored spots of various size, liberally sprinkled over them. The intense bright scarlet flowers of this selection flower the plants of neat, compact habit and very floriferous. Packet, 10 cts.

New Salvia, Splendens, Drooping Spikes.—This new, large flowering variety has increased the flowering capacity on each spike of the ordinary Salvia. Splendens. The flowers are of a rich, deep crimson color, and, with their weight, the flowers are of the most brilliant, dazzling scarlet, and produced in endless profusion until late in the Fall. Packet, 10 cts.; ounce, 25 cts.

Salvia, Coecnina Grandiflora Rosea.—Very beautiful orangered rose color. Height three feet. Packet, 5 cts.

Scabiosa, New Large-Flowering Double.—Large, round flowers, perfectly double, borne up profusely until checked by frost. Color white, pink, blue, purple, crimson, to deep red; an immense boreal; some almost black. Valuable for cutting. Packet, 5 cts.

Scabiosa, Tall German.—(Mourning Bride.) The perfectly double flowers are so beautiful that the plant is worthly born only on slender stems above the foliage. Packet 5 cts.

Scabiosa, Snow Ball.—Elegant double white flowers, very chaste and charming for bouquets. Packet, 5 cts.

Scabiosa, New Double Black.—Superb new variety, with elegant pretty black flowers. Packet, 5 cts.

Sweet Sultan.—See Centaurea, page 71.

Smilax.—Grown principally for its elegant green foliage, so indispensable for floral work. Requires a nice sunny window and freedom from dust. Packet, 5 cts.

Schizanthus, Butterfly, or Christmas Orchid.—Widely distributed in single and double flowers, in a variety of colors. Large flowers, spotted with crimson lilac, purple and yellow, and the petals are cut in picturesque manner. In pots in the conservatory or house plants are more attractive. Choice mixed. Packet, 5 cts.

Stock, Giant Perfection.—A splendid race, growing two and a half feet high, and bearing perfectly double flowers of great beauty. Mixed. Packet, 5 cts.

Stock, Ten Weeks.—Desirable pot plants, as well as in the open garden. They are greatly prized for cut flowers on account of the fragrant perfume and diversity of color. They have a continuous bloom and may be sown at intervals from the beginning of March to the end of May. Finest mixed. Packet, 5 cts.

Stock, New Large-Flowering Globe Pyramidal.—A magnificent race, with immense spikes of perfectly double flowers, the individuals blooms of immense size, in great variety of color. Packet, 5 cts.

Stock, New White Perpetual.—Princess Alice, or "Cut and Come Again." Of strong growth and fine branching habit, it grows to the height of one and a half feet, and will soon early produce an uninterrupted great abundance of bloom from June until November. The individual flowers are large, of the purest white. Packet, 5 cts.

Sensitive Plant, Mimosa Pudica.—Very chaste and elegant in foliage, the leaves being delicately pinched. It affords much amusement from its sensitive character. Even when slightly touched the leaves instantly close and droop. Easily grown.

Tecoma Smithii.—Not new, but a rare and beautiful shrubby variety, easily grown. As a pot plant it averages in height from eighteen to twenty feet, and flowers profusely for nine months in the year. The tubular flowers, about two inches long, are borne in massive clusters on the tip of each new growth, and are tinged yellow inside, and of brilliant orange, flushed with scarlet on the outside. Packet, 10 cts.; three for 25 cts.

Verbena, Fine Mixed.—The seed, although so cheap, is really good, and has many of the best colors.

Verbena, Hybrida, Fine Mixed.—From a superb collection of named varieties. Very large in flower, and of the richest and most colorful colors.

Verbena, New Mammoth, Famous Mixture.—This grand new strain produces uniformly magnificent large trusses, with flowers of an unusual size and of a wide range of colors. The individual blossoms are frequently larger than a silver quarter and the many are scarcely covered by a silver half dollar. The colors are varied, and embrace all desirable markings. Packet, 10 cts.; three for 25 cts.

Verbena, Mayflower.—A new creation of Luther Burbank, of trailing habit, with exquisitely fringed pink and white flowers, produced in great profusion. Packet, 10 cts. for three for 25 cts.

Verbena, Scarlet Defiance.—True brightest scarlet, intensely rich. Packet, 5 cts.

Verbena, Pure White.—See Fosum or Candidissima. Fine strain of all white color. Packet, 5 cts.

Verbena, Italian Striped.—Very showy, striped flowers of many bright colors. Packet, 5 cts.

Vincas.—(Madagascar Periwinkle). Splendid house and bedding plants, growing two feet high, with glossy green leaves and beautiful circular flowers. From seed sown early in the garden they will flower beautifully during Summer and Autumn, and may be potter throughout the winter without frost. Packet, 10 cts.

Zinnia, Giant Mammoth.—Of unusually robust habit of growth and immense size. The perfectly formed, very double flower are of great beauty. Packet, 5 cts.

Zinnia, Dwarf Snowball.—Handsome, bushy plants, large, Dahlia-like flowers, perfectly double, and of the purest snow white. Packet, 5 cts.

Zinnia, Dwarf Fireball.—Exactly like the Snowball, except that the very double flowers are of a dazzling, fiery scarlet. Packet, 5 cts.
SEEDS OF ANNUAL CLIMBERS.

Adinum Chirrhus.—(Mountain Fringe or Allegheny Vine.)—Beautiful plant flowering the first season. Of green and purple; bears large clusters of small rose- or lilac flowers. Fifteen feet. Packet, 5 cts.

Ambylopsis Veitchii.—(Boston or Japan Ivy.)—One of the most valuable of climbing plants, clinging with great tenacity to wood as well as brick or stone. Beautiful foliage; grows rapidly from seed. Packet, 5 cts.

Aristolochia Elegans.—An elegant Summer Climber of rapid and dense growth. It bears, even on small plants, handsome flowers of a rich purple color, ornamented throughout with irregular markings of creamy white; center of flower deep yellow. Packet, 10 cts.

Aristolochia Spho.—(Dutchman’s Pipe.)—Fine hardy climber with curiously shaped flowers resembling a pipe. Packet, 5 cts.

Balloon Vine.—(Cardiospermum.)—Rapid growth, with pretty foliage and inflated capsules. Packet, 5 cts.

Brazilian Morning Glory.—The most magnificent Summer Climber in flower, growing up to the height of 30 to 40 feet in the course of Summer. The flowers, which open in the morning, are three inches or more across, of a beautiful rose color, and are borne in large, showy, terminal clusters freely from July to frost. Packet, 5 cts.

Canary Bird Flower.—This is one of the most beautiful of climbers, with handsomely fringed rich yellow and delicate flowers. Cobaea Scandans.—Of rapid growth and large size, with fine foliage. One of the most graceful climbers. Cypress Vine.—One of the most elegant vines, with delicate, fern-like foliage and beautiful star-shaped flowers. Mixed colors.

Cypress Vine.—(Scarlet.)—Intense rich scarlet. Cypress Vine.—(White.)—Purest paper-white.

Centrosema Grandiflorum.—(The Butterfly Pea.)—A hardy vine of beautiful color; blooms early in June from seed sown in April; bears the greatest confusion of inbred peas-shaped flowers; very fragrant. Packet, 5 cts.

Convolutus Striped.—Morning Glory.—Large, handsome flowers of great beauty; are variously striped and blotched with red, blue, and rose on a white ground.

Convolutus Fine Mixed.—Embracing a great variety of colors. Oz. 10 cts.

Clematis Paniculata.—One of the finest hardy perennials in cultivation, 12 feet, and covered from ground to summit with white, delicately fragrant flowers. Packet, 10 cts.

Clematis Hybrida Mix.—Rapid growing climbers, fine for arbors and spreading varieties in clusters, and very fragrant; 15 feet. Packet, 10 cts.

Clematis Flammula.—(Virgin’s Bower.)—Beautiful clusters of white flowers; blooms in May to August. Packet, 5 cts.

Dolchos, Flowering Bean.—Rapid growth; makes a dense, attractive screen, thickly interspersed with bright flowers. Mixed colors, 5 cts.

Gourds.—(Ornamental.)—Summer climbers of exceedingly rapid growth and luxuriant foliage. Fine mixture.

Dipper Gourd.—Valuable for dippers of various sizes, which will grow dense and make a wonderful show of vines. Packet, 5 cts.

Dischloth Gourd.—The tough, spongy lining makes an admirable lasting dishcloth.

Super Trough Gourd.—Useful for various purposes; grow to hold 4 to 10 gallons; thin, hard shell.

Bottle Gourd.—Curious bottle shaped.

Japanese Nest Egg Gourd.—Resembling in color, shape and size the American melon, ripened by cold or wet, therefore make the best eggs. Packet, 5 cts.

Humulus Japonicus Variegate.—(Japanese Hop.)—Flowers very large and showy, reeded by cold or wet, therefore make the best eggs. Packet, 5 cts.

Ipomoea Polanlata.—One of the best varieties of flowering tobacco. The most valuable feature is that it attains enormous dimensions very quickly. Packet, 5 cts.

Ipomoea Coccinea.—(Star Ipomoea.)—Wonderful rapid growth; dense foliage, covered with hundreds of brilliant scarlet flowers; very showy.

Ipomoea Hederacea Grandiflora Superba Alba.—Large, white flowered variety.

Ipomoea Grandiflora.—(Striped Leaved, Mixed.)—Leaves green, marbled with silver white, flowers fragrant, mostly of the blue and purple kind. Packet, 5 cts.

Ipomoea.—(Heavenly Blue.)—Vines are completely covered by sky blue flowers, measuring four inches across; lovely climber. Packet, 5 cts.

Moon Flower.—(White.)—Immensely good growth of vine and dense foliage; must be started early to flower in the north. Packet, 5 cts.

Mormordica Balsamina.—(Balsam Apple.)—Very beautiful climbing plant; handsome apple shaped fruits, which have great medicinal properties. Packet, 5 cts.

Mina Lobata.—Beautiful climber, profuse bloomer; flowers scarlet, changing to orange and creamy white. Seeds should be sown in pots early and become pot bound; will bloom early. Packet, 5 cts.

Thunbergia.—(Fine Mixed.)—Elegant, slender growing climbers, rapidly covering wire trellises, hanging baskets, etc., in the garden. Packet, 5 cts.

Tropseolcm Caprice.—Extra large flowers; produces profusely and in a wonderful variety of colors and markings on the plant. Packet, 5 cts.

Tropseolum (Lobbianum) Lucifer.—Richest velvety deep crimson and blue color. Packet, 5 cts.

Tropseolum (Lobbianum) Spitfire (New.)—Entirely true from seed; brightest and most glowing in tone of all. Packet, 5 cts.

Tropseolum (Lobbianum) Finest Mixed.—From dark velvety to the brightest gay color in mixture. Ounce, 20 cts.

Tropseolum Majus.—Mixed colors. Ounce, 15 cts.; ½ pound, 40 cts.

SEEDS OF PERENNIAL FLOWERS.

Alyssum Saxatile (Gold Dust).—Small golden yellow flowers.

Aquileja (Columbine) Single Mixed.—Great variety of colors.

Aquileja (Columbine) Fine Double Mixed.—Very choice assortment of the best.

Aquileja Chrysantha.—Beautiful, long golden yellow spurred flowers. Packet, 5 cts.

Adonis.—Ornamental garden plants of easy culture, flowering freely; graceful, feathery foliage.

Aconitum.—(Monkshood.)—Free growing plants for borders or windows. Mixed colors.

Anemone Coronaria, Mixed.—Large, saucer shaped flowers of many colors. Slowy, hardy plants.

Anchusa.—(Darwin’s anchusa.)—Formal flowers, large panicles.

Arabis Alpina.—One of the earliest of all spring flowers; spreading tufts with pure white flowers. Packet, 5 cts.

Campanula, Choice Double Mixed.—All double varieties; mixed.

Carnation.—Not being difficult of cultivation, the plant should be found in every garden, where its scarlet, crimson, rose and pink make a wonderful show of tints. Fine mixed. Packet 10 cts.

Carnation, Marguerite.—(Plants of California.)—This is a greatly improved variety. Bears double flowers in only 4 months from seed. Plants are dwarf, compact, though a vigorous growth. Come into bloom early. Produces large, double flowers and is an excellent bloom profusely until the flower bud is destroyed by heavy frosts. Finest colors, mixed. Packet, 15 cts.; ½ pound, 25 cts.

Carnation, Margaret.—New Dwarf.—Like its parent, the Margaret, this carnation blooms in 4 months from sowing, but is less in advance of the Hybrid. The flowers of this variety are larger, more double, the variety of colors infinitely greater. Plants grow about 15 inches high, flowers always erect. If taken up in the fall the plants bloom all winter. Packet, 10 cts.; ½ pound, 35 cts.

Coreopsis Lanceolata.—Large, golden yellow flowers; profuse bloomer; keeps in flower throughout the Summer; one of the best hardy plants.

Dianthus Plumarius, Single Mixed.—(Hardy Feathered Pheasant’s Eye Pink.)—Large, single, fragrant flowers of beautiful colors and fringed.

Dianthus, Plumarius, (Hardy Pink,) Double Mixed.—Fringed flowers, fragrant and of white, crimson or purple shades, spotted and variegated. Packet, 5 cts.

Dianthus, Multi-Flowered Beauty.—(New Large.)—The splendid flowers measure from 3 to 4 inches in diameter. Exquisitely formed, the petals being full, overlapping, crinkled and lacinated. They range in color from pure white through shades of pink and crimson, the coloring and markings being rich beyond description. They are perfectly hardy, perpetual bloomers, needing only to be cut back once in May to bring on a new crop of flowers. Packet, 10 cts., 3 for 25 cts.

Digitalis.—(Fox Glove.)—Fine Mixed.—Long racemes of beautiful spotted flowers.

Delphinium.—(Larkspur).—Formosum.—Flowers very deep blue, in tall, much crowded spikes.

Delphinium.—(Larkspur) Hybrid.—(Bee Larkspur.)—The greatest color of the species. Tall spikes, 3 to 4 feet of light or dark blue flowers, each with a black, bee-like spot in the center.

Delphinium.—(Larkspur).—Chinese.—(Dwarf Chinese).—These grow to a height of ½ feet and are very free blooming; Mixed colors.
Golden Rod (America's National Flower).--The favor- ite yellow flower of wild places and meadows. It is distin- guished by its many fine white flowers, of a golden hue, which grow in long, dense, tufted clusters. Packet, 5 cts.

Gypsophila Elegans.—White perennial for bouquets; grows in any soil. Packet, 5 cts.

Gypsophila Paniculata.—Gracil grass plant, fine for cutting; flowers in feather-like panicles. Packet, 5 cts.

Hollyhock, Superb Double Mixed.—Brightest and best colors; perfect and magnificent large flowers; will please the most critical. Packet, 5 cts.

Hollyhock, New Double Superb.—Great beauty, magnifi- cent colors, and perfect heads; perfectly showy. Packet, 5 cts.

Hollyhock, Fringed Althea.—Many rich colors; the grand double flowers of this new strain are remarkable for their extra large size, novel forms and graceful arrangement to the stems. Greatly recommended for the kitchen garden. Packet, 10 cts.; 3 for 25 cts.

Hollyhock, Standard.—Large, vigorous growth, and large spikes of fragrant flowers. Packet, 5 cts.

Hollyhock, Mixed.—Grand hardy plants, well known ornamentals of our gardens, with large, double flowers of various shades. Packet, 10 cts.

Penstemon, Mixed (All Varieties).—Flowers resemble Gladiolus in size and shape; long, lasting. Packet, 5 cts.

Phlox, Perennial.—Magnificent flowering plants, strong growing, 2 to 3 feet high; bearing immense heads of large waxy flowers of lovely shades of color. Packet, 10 cts.

Poppy Oriental.—Immensely beautiful of a scarlet color. Packet, 10 cts.

Poppy, Mixed (Red and Pink Poppy).—Dwarf; flowers varying from white to deepest orangey scarlet. Very free blooming, amiable for pots. Packet, 5 cts.

Primula, Yellow and White Hybrids.—Beautiful flowering varieties. Valuable for permanent beds, bearing large, bright colored flowers of rose, flesh pink, white, crimson etc., which remain to bloom a long time. Packet, 5 cts.

Platyodon Grandiflorum.—Grows upright, producing very handsome, bright, deep blue and white flowers of extra large size. Flowers freely the first year; perfectly hardy, one of the finest border plants known. Packet, 5 cts.

Swertia, Two-feet, Finest Double Mixed.—Splendid strain of the finest varieties; flowers of many bright colors, large size and varied markings. Packet, 5 cts.

Sweet William, Perfection Mixed Single.—Splendid strain of the finest varieties; flowers of many bright colors, large size and varied markings. Packet, 5 cts.

Trollita, "Red Hot Poker Plant" or "Torch Flower."—Splendid, hardy perennial plants, admirably adapted for borders, in the flower border or as cut flowers. Each spike of orange red flowers make an effective display in the Summer; 4 to 5 feet high. Packet, 5 cts.

Violet.—Popular Sweet Violet flowers, being early in Spring, deliciously fragrant; a long time germinating. Mixed colors. Packet, 5 cts.

Wallflower (Fine German Mixed).—Spikes of deliciously fragrant double flowers, combining many shades of color. Double mixed, packet, 5 cts.; single mixed packet, 3 cts.

Wallflower, Variegated (Mixed Colors).—Lovely国土 Wallflower, bearing in Spring immense panicles of purple or white flowers, produced profusely. Packet, 10 cts.

Calceolaria, Prize Strain.—The blooms are remarkable for the loveliness of size, color, and graceful arrangement to the stems. Packet, 5 cts.

Cineraria Hybrida.—One of the brightest and best plants, blooming longest and most profusely during the late Winter and Spring. Of rich colors, with dozens of different varieties, and in every conceivable manner, and nearly every plant is entirely different from the other. Very easily raised from seed, and one packet will produce an almost endless variety. Packet, 10 cts.

Cactus, Mixed Varieties.—Beautiful plants for pot culture in the window or greenhouse. Packet, 5 cts.

SEEDS FOR GREENHOUSE OR HOUSE.

Acacia Mixed.—Decorative greenhouse shrubs, with elegant foliage; flowers yellow, white or red. Packet, 5 cts.

Asparagus Plumosus Nanus.—A greenhouse perennial climber, with exquisitely graceful and feathery lace-like foliage; extensively grown by florists for decorating purposes. Per packet of seeds, 10 cts.

Aster, Superb.—One of the best plants to grow in suspended baskets for greenhouse or for outdoor in the Summer. The flower heads are large; the flowers growing 4 to 5 feet long. Packet, 5 cts.

Antigonon Leptopus.—Boozy carmine flowers, in long spikes; magnificent hardy perennial, bearing a marvelous display of bloom to 4 or 5 feet. Packet, 5 cts.

Columnea, Sunset Strain, or Large-Leaved.—The foliage is borne in large, showy, brilliant orange and crimson colors, variegated in ex- tremely convivial manner, and nearly every plant is entirely different from the other. Very easily raised from seed, and one packet will produce an almost endless variety. Packet, 10 cts.

Cactaceae, Mixed Varieties.—Beautiful plants for pot culture in the window or greenhouse. Packet, 5 cts.

Calceolaria, Prize Strain.—The blooms are remarkable for the loveliness of size, color, and graceful arrangement to the stems. Packet, 5 cts.

Cineraria Hybrida.—One of the brightest and best plants, blooming longest and most profusely during the late Winter and Spring. Of rich colors, with dozens of different varieties, and in every conceivable manner, and nearly every plant is entirely different from the other. Very easily raised from seed, and one packet will produce an almost endless variety. Packet, 10 cts.

Cyclamen, Giganteum Mixed.—Beautifully mottled leaves and large flowers of rich colors. Packet, 10 cts.

Dianthus Carthusianus.—Plant Summer-Flowering Hy- cinth, of robust growth, producing spikes three feet long, of white, bell-shaped flowers, five feet, bulbous keeping dry over Winter like a Gladiolus. Packet, 5 cts.

Linaria Cymbalaria.—(Kent(wher's) y.) A hardy and per- manent flowering plant, suitable for baskets, vases, pots and rock- work. Packet, 5 cts.

Lemon Verbena.—The delightfully fragrant foliage of this favorite plant makes an excellent pot plant, and is easily raised from seed. Packet, 5 cts.

Lantana, Mixed.—Most Popular.—Well-known shrubby plants, with clusters of Verbena-like flowers, making a grand display the first season. Packet, 5 cts.

Lychnis, Persicifolia.—The Abyssinian Banana Tree. Strikingly effective as single specimens upon the lawn, as well as in clumps or masses. The rapidity of its growth is astonishing. If the seed is sown early in the Spring and repeat planted, it will maintain the height of eight feet the first Summer. The leaves are magnificently long, broad, and massive, of a beautiful bright green. Packet of three seeds, 10 cts.

Passiflora, Passion Flower.—Handsome, rapid-growing perennial climber, in bright crimson, shocking pink, and red colors, or in the open ground in Summer. Several sorts mixed. Packet, 10 cts.

Primula Alba Magnifica.—(Cyclamen Plant.)—Flowers borne in large masses well born, the flowers are pure white, with large bright yellow eyes. Packet, 10 cts.

Primula Bolinica.—Brightest red. Packet, 10 cts.

Primula, Finest Fringed.—Large flowering. A grand mix- ture, embracing the finest fringed, large-flowering varieties. Packet, 10 cts.

Primula Obovata.—A lovely and ever-blooming Primrose, bearing beautiful single flowers—white, shaded with a tinge of pink. Packet, 5 cts.

Primula Forsythia.—(Baby Primrose.) This is the freest-blowing Primrose we know of. The seed comes up very readily, and the little plants are covered with many flower stalks when only a few weeks old. These, however, should be pinched off, and the plants kept growing until October or November. The flowers may be used in the greenhouse, and then on until late in Spring they produce their sprays of beautiful rose lilac flowers in surprisingly never-ending profusion. Packet, 10 cts.

Swanovonia Alba.—Very popular plant for house culture or open ground during the Summer. Beautiful and graceful foliage. Packet of three seeds, produced sprays of 30 to 40 flowers each. Resembling Sweet Pea. Of easy culture and ever-blooming. Packet, 10 cts.

Torenia, Fourquarel.—Lovely velutine-blue flowers, with three large spots of the darkest blue and a bright yellow throat; cov- ered with bloom until frost. Packet, 5 cts.

Torenia, White Wings.—Dainty and distinct flowers, ivory white, delicately tinted rose at throat. Packet, 5 cts.

EVERLASTINGS.

Mixed Everlastings.—A single packet will give in abundance a great variety of the most attractive Everlasting Flowers. Packet, 5 cts.

ORNAMENTAL GRASSES.

3 cts per packet.

Gynetum Argentum.—Pampas Grass. Flowers the second season; requires protection.

Mixed Annual Varieties, Ornamental Grasses.—All have a beautiful spike of mixture, which contains seeds of all the annual varieties in fine mixture.

WILD-FLOWER GARDEN SEEDS.

Wild-Flower Garden Mixture.—These mixed flower seeds embrace hundreds of various such easy growing and pretty flowers as are suitable for forming a wild-flower garden. They are very useful for woodlands, rocky situations, flower borders, along sides of fences and on any other untidy bare spots of ground which are so frequently unsightly, and which, if properly cared for and kept free from weeds, can be made to pro- duce a continual display of bloom through the entire Summer. Large size packet, 10 cts.
New Introductions in Vegetables of Tested Merit

IMPORTANT NOTICE. Seeds in bulk, ounces, pounds, pints or quarts, are always net and not subject to any discount; if ordered by express at purchaser's expense, deduct at the rate of 5 cents per pound and 5 cents per quart. The prices quoted on peck, half bushel or bushel are always at the purchaser's expense, by express or freight.

POSTAGE PAID BY US.—Please bear in mind that our offers include prepayment of postage on all Packages, Ounces, Fractional Pounds or Pounds, Pints or Quarts. Thus you only have to send us the catalogue price and we guarantee safe arrival of Seeds.

OUR LIBERAL DISCOUNT.—On all orders for Seeds in Pacquets Only, either Vegetable or Flower, the purchaser may select the quantity of the lot which is the lowest price, but in no case may the lots be less than $1.00. This offer is subject to the value of the seed, or $1.50. For $2.00 you may select $2.00 worth and upwards. This offer, together with our already low-priced packages of Seeds, is the biggest reduction ever offered to seed buyers. In addition to the above premiums we endeavor to add to all orders some "extra" of our own selection—often of rare, new varieties. Nothing for which money is expended makes so large a return as Seeds, if they be good. Nothing causes greater vexation than worthless Seeds.

FRESH STOCK.—If you wish to avoid disappointment, do not rely on Seeds peddled over the country and sold on commission—the chances are against good Vegetables. The thoughtful cultivators will provide themselves with a surplus amount of the seed which they design to plant, to hold a reserve for replanting, as dry weather, beating rains and insect depredation often destroy the first sowings. Home Grown Vegetables are always better tasted and more wholesome than those peddled around from door to door. In these times everybody should have a garden spot of their own, be it large or small.

Burpee's Stringless Green Pod Bean
Is most happily named, as it is quite unique—the only stringless green pod bush Bean in cultivation. Consequently it is extra stringless and very productive. Because the beans are absolutely stringless and of beautiful fleshly quality when cooked. The pods are ready to market two weeks earlier than Early Red Valentine. Per pkt., 10 cts., 3 pts., 25 cts.; per qt., 40 cts.; by mail postpaid. Peck, $1.50, by express.

New Beet, "Columbia."
The roots are of a neat turnip form, with smooth skin and deep blood-red flesh, of rich, tender quality. It is ready to use extra early of the season, and is well adapted for the market. It has proved earlier than Edith and Eclipse, and fully equal in quality. Pkt., 5 cts.; oz., 10 cts.; ½ pd., 30 cts.; 1 pd., 50 cts.; ½ lb., 75 cts.; lb., $1.00.

Early Spring" Flat Head Cabbage
As early as the "Red Seeded" and one-third more productive, and it has given entire satisfaction. Its shape is like that of "Allhead," resembling it in habit of growth, and nearly as early and productive. The heads are large, very tender, and the outer leaves are small and grow so close to the heads that they can be planted very close together. It is round in shape, slightly flattened, very solid, even in the bottom of the head. Works well as a small and as a large size. On account of its productiveness and solidity, and following the Wakefield so closely, it becomes one of the most profitable early sorts. Pkt., 10 cts.; oz., 30 cts.; ¼ pd., 50 cts.; ½ pd., $1.00.

New Lettuce, "Wonderful."
The Largest Heading Lettuce we have ever seen, having been grown for several years at the average size, however, with ordinary culture, is from two to three pounds. The heart in color is pale green, and tender when fully grown. New variety stands unrivalled. Pkt., 10 cts.; oz., 35 cts.; ¼ pd., 50 cts.; ½ pd., $1.00.

Earliest Sheffield Sugar Corn
This new extra early is the result of a cross between Cory and Early Adams. It combines the robust growth and extreme hardness of the Early Adams, with the fine sugar quality of the Cory. The ears average 6 inches long, well filled with 10 to 12 rows of grains. Entirely free from smut, which so often destroys early corn. Pkt., 10 cts.; pt., 35 cts.; qt., 40 cts.; peck, $1.50.

New Sweet Corn, "Earliest of All."
This corn is ready for the table three days to a week earlier than the Old Creston. It is not one of the family of "Dahlgrens," but for market, where the earliest corn brings the highest prices. The ears are medium size, well filled to the tip with large kernels. Superior in quality, tender and sweet. Pkt., 10 cts.; pt., 25 cts.; qt., 40 cts.; postpaid. Pkt, $1.50.

New Pea, "Gregory’s Surprise."
This new Pea is as quick growing as the earliest of the smooth, and of stringless character, and is also productive, so that by filling the want and is the first extra early wrinkled pea. It is very hardy, and can be planted fully as early as the smooth pods, and in fact it is better. It is never stringless, and is very prolific, bearing pods fully as large as Telegraph, usually containing from 8 to 10 large peas. The quality and flavor is delicious, and the new variety promises for the season to come. Per pkt., 10 cts.; pt., 35 cts.; qt., 40 cts.; peck, $3.00.

New Squash, Golden Hubbard.
This is a well established improvement on the old Hubbard, which it resembles very closely in shape and size. It is much more attractive, however, in appearance, on account of the color, which is a bright golden yellow, and is very productive, of a fine flavor and colored dry. An excellent keeper. Pkt., 5 cts.; oz., 15 cts.; ½ pd., 35 cts.; ¼ pd., $1.00.

New Radish, kicle.
Grows to a length of about 4 inches, slightly stump-rooted. Flesh finely flavored and of a transparent whiteness, from which comes the characteristic it derives its name. It is designed for the home garden, and market gardeners will find it a money maker, as it is ready for use within twenty-two days from time of sowing. Pkt., 10 cts.; oz., 35 cts.; peck, $1.50.

New Tomato, "Burpee’s Noble."
The fruit is of uniformly large size, three to four inches in diameter, and borne profusely in clusters of three to five. The skin is bright red, the flesh red, round, solid flesh is particularly sweet. Pkt., 10 cts.; oz., 35 cts.; peck, $1.50.

New Dwarf Tomato, "Quarter Century."
While similar in dwarf erect growth to the Dwarf Champion, it greatly surpasses the latter in fruit character, as well as in size, solidity and quality of fruit. Well grown fruits measure 3 inches across and 3 inches in depth; all smooth and free from cracks; interior very solid and mellow. Color deep red, and flavor sweet as fruit of vining sorts. Plants can be set 2 feet apart. Pkt., 10 cts.; oz., 35 cts.; peck, $1.50.

Burpee’s Earliest White Radish.
The earliest White Radish, ready for the table in only eighteen to twenty days from sowing the seed. The handsome olive shape, both skin and flesh are white, of mild flavor, crisp and tender. Pkt., 5 cts.; oz., 10 cts.; ½ pd., $1.00.

NEW POTATO, VERMONT GOLD COIN.
Prounced by Edw. L. Coy, of N. Y. state, the greatest potato expert in the U.S., to be the best main crop potato to date. When planted with other main crop potatoes the shoots of Gold Coin start more vigorously and grow larger; they are thus comparatively safe from attacks of early potato bugs in the Spring, as they soon grow too large to be cut off by these pests. The vines are also less subject to prematurely luxuriant deep green foliage, making a healthy growth when other crops are checked by the heat waves of July and August. The vigorous growth and great produce of the best, and the handsome appearance and unequalled superior table quality will commend Gold Coin to all potato planters. In form the tubers are slightly oblong, rather broad and quite thick through; they grow about 4 inches in length by 2½ inches wide, with slightly rounded ends. The eyes are small, and the skin buttery in texture. The tubers are quite firm in the skin, thin, smooth and glossy, of a light golden tint. Just sufficient coloring to distinguish it from the white skinned varieties. The flesh is fine grained, of a pure creamy white, andcooks to a soupy whiteness, superbly delicious in flavor, and of unequalled taste. The good makes it the best of all varieties for the planter, and its great solidity and the handsome, smooth, regular form of the tubers (which lie close together in the hill) will make it the most favorite and quickest selling on the market. It cooks dry and mealy when freshly dug, unlike other main crop varieties, which have to be dried out before they will cook properly. Price per peck of 15 lbs., boxed, by express, $1.00 net; ½ bushel of 30 lbs., boxed, by express or freight, $1.75 net; bushel of 60 lbs., boxed, by express or freight, $3.00 net.

Spring, 1904.
SELECTED LIST OF CHOICE AND RELIABLE
VEGETABLE SEEDS

Their Standard of Excellence too Well Known to Need Extended Description or Illustration

ARTICHOKE.
The undevolved flower-heads are used. They are boiled and served with Mayonnaise dressing. 
Large Green Globe.—The best for general culture. Pkt. 5 cts., Oz. 25 cts., 1/4 lb. 75 cts.,

ASPARAGUS.—Pkt. 3 cts.

Colossal.—The shoots are of the largest size, very productive, of the best quality. Oz. 10 cts., 1/2 lb. 30 cts., pd. 50c.

Golden Wax.—Large, long, bright, stringless, of a rich, golden yellow color. Pkt. 3 cts., Oz. 15 cts., 1/4 lb. pd. 75 cts., a box 5.25 cts.,

Keeney's Rustless Golden Wax.—Violent growth; entirely free from rust. Well filled pods of fine quality and perfectly straight. Pkt. 5 cts., 1/2 lb. 50 cts., pd. 1.50.

New Proliile Black Wax or Butter.—Pods transparent, waxy yellow and snap like pipe-stems. The finest of all. Pkt. 35 cts., q.t. 40 cts., pk. $1.75.

Saddle-Black Wax.—Nearly as the Black Wax and nearly twice as large. Productive and most prolific. Pkt. 35 cts., q.t. 50 cts., pd. $2.00.

Yosemite Mammoth Yellow.—The largest pods of all the wax sorts, productive and of good quality. Pkt. 30 cts., q.t. 50 cts., pd. $2.50.

Wardwell's Wax.—The pods are handsome, long and flat, stringless, and of exquisite flavor. Does not rust. A heavy yielder. Pkt. 30 cts., q.t. 40 cts.,

Bush Varieties with Green Pods.

Extra Early Valentine.—The earliest variety, the pods being in eating condition five weeks from planting. Pkt. 25 cts., q.t. 50 cts., pd. $1.75.

Early Yellow Long Six-Weeks.—The pods are often 13 inches long. Early and productive. Pkt. 25 cts., pd. $1.50.

Burpee's Bush Lima.—The basis of all the new Bush Lima Beans. It is a sure cropper, and an immense yielder. Large pods and beans. Pkt. 30 cts., q.t. 50 cts., pd. $2.00.

New Willow Leaf Bush Lima.—A new, very early and very prolific Bush Butter Bean; ready for use ten days to two weeks in advance of the Lima Bush. Tender, delicious flavor. Pkt. 35 cts., q.t. 40 cts., pd. $3.00.

Challenger Lima.—Tall and productive, the best of all. Pkt. 30 cts., q.t. 50 cts., pd. $1.25.

Dutch Casnife.—Pod long, green and flat. Can be eaten either green or well matured. Pkt. 30 cts., q.t. 50 cts., pd. $1.75.

Golden Wax Flaggeotte.—Rich golden yellow color. The vines bear the entire season. Productive. Pkt. 35 cts., q.t. 45 cts., pd. $1.75.

King of the Garden Lima.—Large in pod and bean. Produces a heavy yield. Pkt. 30 cts., q.t. 50 cts., pd. $2.00.

Lazy Wife's Pole Bean.—Immensely productive. Broad, thick, fleshy and entirely stringless pods. Unsurpassed. Pkt. 30 cts., q.t. 50 cts., pd. $2.50.

White Creasback.—Long, round stringless pods. Fleshy and tender. Pkt. 30 cts., q.t. 50 cts., pd. $2.00.

BEETS.—Pkt. 3 cts.

Early Extra TURNIP.—Dark red; and of fine flavor; productive. Oz. 8 cts., 1/4 lb. 25 cts., pd. 30 cts.

Early Egyptian.—Very early, and of dark red color. Oz. 8 cts., 1/4 lb. 30 cts., pd. 50 cts.

Early Evergreen.—Round, round-rooted and very dark flesh of best quality. Oz. 8 cts., 1/4 lb. 30 cts., pd. 50 cts.

Early Arlington.—Very early, fine turnip shape, smooth, with flesh deep red. Pkt. 30 cts., q.t. 50 cts., pd. 75 cts.

Long Smooth Blood Red.—A good late variety. Oz. 8 cts., 1/4 lb. 25 cts., pd. 60 cts.

Market Red.—Red color, flesh fine grained; small foliage, fine for forcing. Oz. 10 cts., 1/4 lb. 30 cts., pd. 50 cts. [Also see Novelties.]

Mangle Wurzels and Sugar Beets.—Pkt. 3 cts.

Grown for feeding Stock—6 to 8 Pounds Will Sow One Acre. Grand Tankard.—Bright yellow, one of the finest. Oz. 8 cts., 1/4 lb. 25 cts., pd. 50 cts.

Lane's Imperial Sugar.—For sugar making or stock feeding. Oz. 8 cts., 1/4 lb. 30 cts., pd. 60 cts.

New Red Top Sugar. Productive, handsome, hardy and well shaped, 20 tons to the acre, containing about 8 per cent sugar. Oz. 8 cts., 1/4 lb. 15 cts., pd. 40 cts.

Improved Wanzleben.—The best under cultivation for making sugar; contains about 10 per cent of sugar. Oz. 8 cts., 1/4 lb. 15 cts., pd. 40 cts.

BRUSSELS SPROUTS.

CABBAGE.—Pkt. 3 cts., except where noted.

All Seasons.—One of the finest for second early or late, bearing large heads quickly and freely. Oz. 15 cts., 1/4 lb. 50 cts., pd. $2.00.

Autumn King.—Said to be the finest of all Winter Cabbage. Has all the 30 cts., q.t. 50 cts., pd. $2.00.

Extra Early Extra.—Exceeds all in earliness; a week earlier than any other cabbage. Oz. 15 cts., 1/4 pd. 50 cts., pd. $1.75.

Butter Leaf Cabbage.—Hard, heavy, and solid heads. Oz. 15 cts., 1/4 pd. 50 cts., pd. $1.50.

Early Winningsttad.—A standard early sort. Oz. 15 cts., 1/4 pd. 50 cts., pd. $1.25.

Early Summer.—A second early sort; large solid heads of superior quality. Oz. 15 cts., 1/4 pd. 50 cts., pd. $1.75.

Early Jersey Wakesfield.—Well known and most valuable for early crop. Oz. 30 cts., 1/4 lb. 60 cts., pd. $3.50.

Large Red Dutch Cabbage.—The best Dutch cabbage sort for market. Oz. 15 cts., 1/4 pd. 50 cts., pd. $1.50.

Marblehead Mammoth.—Of enormous size, single heads frequently weighing 50 pounds. Oz. 20 cts., pd. $1.50.

Surehead.—Always sure to head when other varieties fail. Fine flavor; keeps well. Pkt. 3 cts., oz. 15 cts., 1/4 lb. 60 cts., pd. $3.00.

Large Red Cob Cabb.—Great size, hard heart, excellent flavor. Oz. 15 cts., 1/4 lb. 60 cts., pd. $3.00.

Large Red Cabbage (New).—Superior to all intermediate and late cabbages. Enormous solid heads; creamy white interior; solid and crisp; unsurpassed for slicing or cooking and especially fine for making braised winter cabbage. Oz. 15 cts., 1/4 lb. 60 cts., pd. $3.00.

Early Minnesota.—The standard early sweet cabbage; good size; sweet and well flavored. Oz. 15 cts., 1/4 lb. 60 cts., pd. $3.00.

SWEET CORN.—Pkt. 5 cts.

Pt. 30 cts., Qt. 35 cts., Pk. $1.00, Except where noted.

Amber Cream.—Very rich, sugary and tender. Extra large ears.

Early Champion.—The earliest large Sweet Corn. Ears 12 inches long; very sweet and tender. Pkt. 10 cts., 3 for 55 cts., oz. 35 cts., q.t. 40 cts.

Early Fordhook (New).—The largest eared early extra corn; grains and cob pure white; eight rowed, with small cob; deep green: two ears to the stalk; fine, sweet flavor. Pt. 30 cts., oz. 15 cts., q.t. 45 cts., pd. $1.25, by express.

Early Minnesota.—The standard early sweet corn; good size; sweet and well flavored. Oz. 12 cts., oz. 15 cts., q.t. 40 cts., pd. $2.00.

Marblehead.—One of the earliest; good quality, early. Oz. 15 cts., 1/4 lb. 60 cts., pd. $3.00.

Stowell's Evergreen.—This has all the valuable characteristics of Stowell's Evergreen, but produces ears fit for use ten days to two weeks earlier. Ears about 12 inches long, rather thick. Pkt. 5 cts., oz. 35 cts., q.t. 45 cts., pd. $1.25.

Stowell's Evergreen.—Remains green a long time; highly prized by contractors. Oz. 15 cts., 1/4 lb. 60 cts., pd. $1.00.

Stahler Pedigree.—Noted for earliness and great sweetness. Fine market variety.

Early or Early Intermediate

Columbus Market.—Comes in second earliest; the ear is twice as large and sweet flavored; prolific and long in bearing. Shaker Early.—Quite early, large, delicious, sweet flavor.

Late Sorts

Country Gentleman (Shoe Peg).—One of the sweetest grown; large ears, delicious quality. Peck $1.35.

Egyptian or Washington Market.—Large and superior quality. The largest of all. Peck $1.35.
POPCORN.
Queen's Golden—It pops perfectly white, and a single kernel will expand to a diameter of nearly one inch: exceedingly tender when popped. Pkt. 5 cts., Pt. 50 cts., qt. 40 cts.

A single kernel will produce three to four stalks, handsome ears, 6 inches long with 16 rows of smooth metallic white grains. Pkt. 5 cts., Pt. 55 cts., qt. 40 cts.

COLLARDS.
Georgia Collards—Also known as "Cole" and "Colewort." Extremely vigorous both for "popping" as they are an easy-care crop, and afford an abundance of food for man and beast. It forms mass of leaves on a tall stem, and in the South continues to grow all winter. As leaves are pulled off the stem, increases in height, bearing new leaves. Pkt. 3 cts., oz. 15 cts., ½ pd. 30 cts., pd. $1.50.

Golden Self-Blanching—Resembles White Flume, except color which is bright yellow. Oz. 35 cts., ½ pd. 75 cts.

Giant Pascal—Easily blanched and fine-keeping sort of superior flavor and quality. Oz. 30 cts., ½ pd. 50 cts.

Improved Early Paris—Very early; good forcing. Pkt. 5 cts., oz. 15 cts.

Early Extra Erfurt—Very dwarf, solid, pure white heads of superior quality. Pkt. 5 cts., ¼ oz. 25 cts., 1 oz. $1.25.

 Early Snowball—The best Cauliflower known for the market gardener or for private use. A week earlier than any other variety, is more dwarf in habit: the head is large and a sure crop. Pkt. 10 cts., ¼ oz. 75 cts., ½ oz. $1.25, 1 oz. $4.25.

CUCUMBERS—Pkt. 3 cts., except where noted.

Cool and Crisp—Very early and prolific; one of the best for pickling and table time a table variety. Oz. 15 cts., ½ pd. 60 cts., pd. $2.25.

Early Frame—Handsome, tender and crisp flesh, good for pickling. Oz. 15 cts., ½ pd. 50 cts., pd. $3.00.

Early Green (Improved)—For pickling, very productive and uniform, small size. Oz. 15 cts., ½ pd. 60 cts., pd. $2.25.

Early White Spine—Early and good for pickling or table use. Oz. 10 cts., ½ pd. 50 cts., pd. $1.00.

Fordhook Pickling—Best and most prolific, about eight inches long, very strong, vigorous skin thin, free from toughness when pickled. Excellent for table use. Pkt. 5 cts., oz. 15 cts., ½ pd. 60 cts., pd. $2.00 postpaid.

Improved Chicago Pickle—One of the most valuable for pickling, has filled 35 million jars of 200,000 per acre. Oz. 15 cts., ½ pd. 50 cts., pd. $1.80.

Long Green—Long and crisp, a popular variety. Oz. 15 cts., ½ pd. 50 cts., pd. $1.00.

Long White Spine—Very fine shape for the market, splendid for table use. Pkt. 3 cts., ½ pd. 50 cts., pd. $1.00.

New Everbearing—Very early and enormous head, when pickled, as valued as green pickler. Oz. 10 cts., ½ pd. 50 cts., pd. $1.75.

New Japanese Climbing—Early and productive; excellent for table or pickling; vigorous climber in habit. Pkt. 5 cts., oz. 15 cts., ½ pd. 50 cts., pd. $1.75.

CORN SALAD or VEGETKOSS.
Large Round-Leaved, Large Seeded—A small hardy salad, extensively used during winter and summer months as a substitute for lettuce; also cooked and served like spinach. In warm weather it will mature in 4 to 6 weeks. Pkt. 5 cts., oz. 10 cts., ½ pd. 20 cts., pd. 60 cts.

CRESS, or PEPPER GRASS.
Curled Garden—Pkt. 3 cts., oz. 10 cts., ½ pd. 30 cts.
Water Cress—Used as a salad or raw. Pkt. 10 cts., oz. 35 cts.

CARROT—Pkt. 3 cts.

Early Forcing—Best for early and late crops and frames. Oz. 10 cts., ½ pd. 20 cts., pd. 75 cts.

Improved Long Orange—Good keeper, fine quality; productive. Oz. 8 cts., ½ pd. 20 cts., pd. 60 cts.

Other Carrots of fine quality for table use. Oz. 8 cts., ½ pd. 20 cts., pd. 65 cts.

Egg PLANT—Pkt. 5 cts., oz. 35 cts.

Improved New York Purple—The most graceful sort, and grown ten to one everywhere. Fruit large and good. Early Long Purple—Distinct; of fine quality.

ENDIVE—Pkt. 3 cts., oz. 15 cts., ¼ pd. 40 cts.

Green Curled Winter—A standard sort. White Curled—Fine and crisp, for Fall and Winter.

GHERKIN.
Gherkin, West India—(True)—Also known as Jerusalem pickle. Very marketable, oval shaped. Used exclusively for pickling. Pkt. 5 cts., oz. 10 cts., ½ pd. 35 cts.

KOHL RABI.
Early White Vienna—Flesh white and tender. Should be used when the root is three or four inches in diameter. Pkt. 5 cts., oz. 15 cts., ¼ pd. 50 cts.

KALE or BORECOLE.
Dwarf Green Curled—Though not less than 18 inches high a single plant is often three feet in diameter. The best variety. Pkt. 4 cts., oz. 10 cts., ¼ pd. 25 cts.

GREENS.
American Plug—The variety most grown. Oz. 15 cts., ¼ pd. 45 cts.

LETTUCE—Pkt. 3 cts.

American Gathering—Twisted and curled leaves. An excellent sort for early or late. Oz. 10 cts., ½ pd. 30 cts.

Boston Curled—Highly ornamental, and of great beauty. Oz. 10 cts., ½ pd. 40 cts.

California Cream—Round heads, rich, creamy yellow colored leaves; rich and buttery. Oz. 15 cts., ½ pd. 40 cts.

Denver Market—An early variety for forcing or outdoor culture; very crisp and tender, beautiful leaves. Oz. 10 cts., ½ pd. 30 cts., pd. $1.00.

Early Prize Head—A popular and good variety: large heads of good flavor. Oz. 10 cts., ¼ pd. 25 cts., oz. 50 cts.

Grand Rapid—For forcing or early forcing, one of the best for early forcing. Oz. 10 cts., ½ pd. 30 cts., pd. $1.00.

Green Fringed—Very ornamental; the leaves are beautifully cut and fringed. Oz. 10 cts., ½ pd. 30 cts., pd. $1.00.

Iceberg—Very firm, solid, compact heads of a beautiful light white. Oz. 10 cts., ½ pd. 30 cts., pd. $1.00.

Tallowhock—Early and remains good for cutting for weeks. Does not head. Oz. 10 cts., ½ pd. 30 cts.

MARTYNIA, or UNICORN PLANT.
Martynia Proboscidalis—The best variety for pickles. It is well worth growing, as the large plants, with their handsome flowers and unique pods, attract great attention. Per pkt. 5 cts., oz. 15 cts., ¼ pd. $1.00.

MUSTARD—Pkt. 3 cts.

Black or Brown—Oz. 10 cts., ¼ pd. 20 cts., pd. 40 cts.

White—Best for salad or culinary purposes. Oz. 10 cts., ¼ pd. 20 cts., pd. 40 cts.

MELON, WATER—Pkt. 3 cts.

Black Spanish—Early; dark red flesh; large roundish, nearly black. Oz. 8 cts., ¼ pd. 20 cts., pd. 60 cts.

Black Diamond—(New)—The most prolific, color is rich dark green, almost black; of uniform round to oval form, very vigorous. Per pkt. 10 cts., oz. 15 cts., ¼ pd. 30 cts., pd. $1.00.

Cuban Queen—Productive, large and solid, excellent quality. Oz. 8 cts., ¼ pd. 20 cts., pd. 60 cts.

Dixie—A new melon of excellent quality. Early; red flesh; large and solid. Oz. 8 cts., ¼ pd. 20 cts., pd. 60 cts.

Redhook Early—Earliest. Big, round, pink flesh; very sweet. Oz. 15 cts., ¼ pd. 40 cts., pd. $1.25.

Florida Favorite—Early; red flesh, of fine flavor. Oz. 8 cts., ¼ pd. 20 cts., pd. 40 cts.

Hardy, or German in Rattleback—Oblong; bright red flesh, dark and striped. Oz. 8 cts., ¼ pd. 20 cts., pd. 50 cts.

Ice Cream—Red flesh; an old reliable sort. Oz. 10 cts., ¼ pd. 30 cts., pd. 70 cts.

**Kleckley Sweets**—(New)—Without exception the sweetest. Melon raised by the late Mr. Kleckley of Urbana. Ripe, extremely solid. Pkt. $0.40, oz. 25 cts., 1 lb. 35 cts., 5 lb. $1.35.

**Kolb's Gem**—Bright red flesh, of fine flavor; large. A good show melon. Pkt. $0.40, oz. 25 cts., 1 lb. 35 cts., 5 lb. $1.35.

**Mammoth Ironclad**—Red flesh; late, very large. Oz. 3 cts., 1/2 lb. 25 cts., 1 lb. 75 cts.

**The Boss**—Deep scarlet flesh; very sweet and sugary. Superb quality. Pkt. $0.40, oz. 25 cts., 1 lb. 35 cts., 5 lb. $1.35.

**Vick's Early**—Very early. Bright pink flesh, solid and sweet. Oz. 3 cts., 1/2 lb. 25 cts., 1 lb. 75 cts.

**Sweetheart**—New, highly oval, mottled green, stands shipping well, excellent keeper: flesh, light, vivid red; very solid, crisp and delicious. Pkt. 5 cts., 1 oz. 25 cts., 10 oz. 90 cts.

**Mammotli**—A true mammoth, for the best edible pod sorts. Pkt. 3 cts., oz. 50 cts., 1 lb. 25 cts.

**Profusion**—Continuos bearer: pods produced in great numbers and are well filled with large, luscious and very sweet peas. Pkt. 10 cts., oz. 30 cts., 1 lb. 50 cts., 5 lb. $2.00.

**Bourbon**—Very prolific; very productive. Pkt. 10 cts., oz. 30 cts., 1 lb. 50 cts., 5 lb. $2.00.

**Rennet**—Very good in every respect. Oz. 1 cts., 1/2 lb. 30 cts., 1 lb. 10 cts.

**Ruby King**—Beautiful bright red; large; oz. 1 cts., 1/2 lb. 20 cts., 1 lb. 75 cts.

**Sweet Mountain**— Mild flavor; very large. Oz. 35 cts.

**Okra, or Gumbo**—Pkt. 3 cts., oz. 10 cts.

**White Velvet**—Pods white, long, smooth; very tender.

**Dwarf Green**—Early and productive.

**Yellow Pineapple**—An extraordinary melon that can be had, kept in splendid condition for months after picking. Oz. 1 oz. 25 cts., 1 lb. 75 cts.

**Early Extra Market**—Stands at the head of first earliest; maturing in 45 days; sticks not needed. Pkt. 25 cts., oz. 45 cts., pk. $1.60.

**McLean's Little Gem**—Wrinkled; unsurpassed in quality; productive; delicious early; no sticks needed. Pkt. 25 cts., oz. 45 cts., pk. $2.00, ba. $7.50.

**Nott's Excelior**—Surpasses all in earliness, yield and quality. Unusually sweet flavored. It is extra early, usually ready for market in 40 to 45 days from date of planting. Grows about 14 inches high; vigorous constitution and wonderfully productive. Pkt. 10 cts., oz. 25 cts., 1 lb. 35 cts., pk. $2.25.

**MEDIUM EARLY VARIETIES.**

**Champion of England**— Wrinkled; a well known variety, sow thick. Pkt. 25 cts., oz. 45 cts., pk. $1.25.

**Improved Guernsey**—Long pods of good peas; wrinkled; sow thin. Pkt. 35 cts., oz. 40 cts., pk. $1.50.

**LATE VARIETIES.**

**Melting Sugar**—The best edible pod sorts. Pkt. 30 cts., oz. 50 cts., pk. $2.50.

**Profusion**—Continuos bearer: pods produced in great numbers and are well filled with large, luscious and very sweet peas. Pkt. 10 cts., oz. 30 cts., 1 lb. 50 cts., 5 lb. $2.00.

**Stratagem**—A fine, wrinkled variety of very superior flavor. Pkt. 25 cts., oz. 35 cts., pk. $1.75.

**Pepper.**—Pkt. 3 cts.

**Cayenne Long Red**—Bright red; productive. Oz. 35 cts.

**Coral Gem**—Each plant looks like a bouquet. Oz. 40 cts.

**Golden Dawn**—Handsome and distinct; mild. Oz. 25 cts.

**Large Bell**—Large and very mild. Oz. 35 cts., 1/2 lb. 75 cts.

**Ruby King**—Beautiful bright red; large; oz. 35 cts.

**Spanish Mist**—Very large French sort. Oz. 35 cts.

**Sweet Mountain**—Mild flavor; very large. Oz. 35 cts.

**Parsnips**—Pkt. 3 cts.

**Oz. 1 cts., 1/2 lb. 20 cts., 1 lb. 75 cts.

**Improved Guernsey**—Long Smooh or Hollow Crown. Early Round.

**Parsnip**—Pkt. 3 cts.

**Oz. 1 cts., 1/2 lb. 20 cts., 1 lb. 75 cts.

**Improved Guernsey**—Long Smooh or Hollow Crown. Early Round.

**parsnip**—Pkt. 3 cts.

**Oz. 1 cts., 1/2 lb. 20 cts., 1 lb. 75 cts.

**Improved Guernsey**—Long Smooh or Hollow Crown. Early Round.

**parsnip**—Pkt. 3 cts.

**Oz. 1 cts., 1/2 lb. 20 cts., 1 lb. 75 cts.

**Improved Guernsey**—Long Smooh or Hollow Crown. Early Round.

**parsnip**—Pkt. 3 cts.

**Oz. 1 cts., 1/2 lb. 20 cts., 1 lb. 75 cts.

**Improved Guernsey**—Long Smooh or Hollow Crown. Early Round.

**parsnip**—Pkt. 3 cts.

**Oz. 1 cts., 1/2 lb. 20 cts., 1 lb. 75 cts.

**Improved Guernsey**—Long Smooh or Hollow Crown. Early Round.

**parsnip**—Pkt. 3 cts.

**Oz. 1 cts., 1/2 lb. 20 cts., 1 lb. 75 cts.

**Improved Guernsey**—Long Smooh or Hollow Crown. Early Round.

**parsnip**—Pkt. 3 cts.

**Oz. 1 cts., 1/2 lb. 20 cts., 1 lb. 75 cts.

**Improved Guernsey**—Long Smooh or Hollow Crown. Early Round.

**parsnip**—Pkt. 3 cts.

**Oz. 1 cts., 1/2 lb. 20 cts., 1 lb. 75 cts.

**Improved Guernsey**—Long Smooh or Hollow Crown. Early Round.

**parsnip**—Pkt. 3 cts.

**Oz. 1 cts., 1/2 lb. 20 cts., 1 lb. 75 cts.

**Improved Guernsey**—Long Smooh or Hollow Crown. Early Round.

**parsnip**—Pkt. 3 cts.

**Oz. 1 cts., 1/2 lb. 20 cts., 1 lb. 75 cts.

**Improved Guernsey**—Long Smooh or Hollow Crown. Early Round.

**parsnip**—Pkt. 3 cts.

**Oz. 1 cts., 1/2 lb. 20 cts., 1 lb. 75 cts.

**Improved Guernsey**—Long Smooh or Hollow Crown. Early Round.
Long Cardinal.—(New.) The earliest of all. Shape very regular, smooth and conical; color, most fiery scarlet; flesh crisp, tender and of the most delicious quality. Pkt. 5 cts., oz. 10 cts., lb. 25 cts., 10 lbs. 75 cts.

Long White Vienna.—(Or Lady Finger.) Crisp and delicious. Oz. 15 cts., ½ pd. 25 cts., pd. 75 cts.

Ruby Pearl.—(New.) Uniform in size, smooth, round form and in striking contrast to the snowy whiteness of the tip. Flesh is pure white, crisp and pleasantly pungent to the taste. Pkt. 5 cts., oz. 15 cts., ½ pd. 30 cts., pd. 60 cts.

Shepherd's Charter.—One of the best. Quick growth; keeps tender and crisp two months. Long shape, scarlet, scaling to white. Oz. 10 cts., ½ pd. 20 cts., pd. 60 cts.

White Strasburg.—Handsome, tapering shape. Flesh and skin pure white; very firm and tender. Excellent for Summer use. Oz. 10 cts., ½ pd. 20 cts., pd. 60 cts. WINTER VARIETIES.

Chinese Rose Winter.—Bright rose color. Oz. 10 cts., ½ pd. 20 cts., pd. 60 cts.

California Mammoth.—The largest of all Radishes; white flesh. Oz. 10 cts., ½ pd. 20 cts., pd. 65 cts. (Also see Novelties.)

Squash.—Pkt. 3 cts., oz. 10 cts. EARLY SORTS.

Delicata.— Said to be the earliest. ½ pd. 25 cts., pd. 75 cts.

Early Yellow Bush.—Fine for Summer use; deep orange flesh. ½ pd. 30 cts., pd. 75 cts.

Early White Bush.—Similar to above, light colored flesh. ½ pd. 30 cts., pd. 80 cts.

Early Crookneck.—Very productive. ½ pd. 30 cts., pd. 85 cts.

FALL AND WINTER VARIETIES.

Boston Marrow.—Bright orange-yellow flesh; fine. ½ pd. 30 cts., pd. 80 cts.

Fordhook.—The flesh is dry and mealy, of fine flavor; long keeper. Oz. 15 cts., ½ pd. 40 cts., pd. $1.10.

Hubbard.—Of superior quality; well known and liked for late use. ½ pd. 30 cts., pd. $1.00.

Mammoth Chill.—Grows to enormous sizes; rich orange flesh. Pkt. 5 cts., oz. 30 cts., ½ pd. 50 cts., pd. $1.00.

Winter Crookneck.—A good keeper, with yellow flesh. ½ pd. 20 cts., pd. 75 cts.

Spinach.

New Zealand.—Very desirable and distinct variety; grows well in the field and can be transplanted 3 feet apart each way. Pkt. 5 cts., oz. 10 cts., ½ pd. 35 cts., pd. $1.00.

The following varieties at uniform price: Pkt. 3 cts., oz. 8 cts., ½ pd. 15 cts., pd. 35 cts.

Round Thick Leaved, Long Standing Prickly.

New Long Standing Thick Leaved. Hardy and stands through Winter.

Salsify, or Vegetable Oyster.

Long White French.—The common variety. Pkt. 3 cts., oz. 10 cts., ½ pd. 30 cts., pd. $1.00.

Mammoth Chew Island.—Larger and equal flavor. Pkt. 3 cts., oz. 15 cts., ½ pd. 30 cts., pd. $1.00.

Tomatoes.

Packet, 3 cts.; Ounce, 20 cts.; One-Quarter Pound, 60 cts., except where noted.

Atlantic Prize.—Red, smooth, good; earliest of all. Acme.—Smooth, bright red, medium early.

Early Advance.—Bright red, smooth, solid, very early.

Early Ruby.—Very early, rich crimson, large, smooth.

Favorite.—Long, smooth, productive; good shipper.

Fordhook First.—An extremely early; perfectly smooth, solid fruit. Deep purple. Oz. 15 cts., ½ pd. 35 cts., pd. $1.00.

Golden Queen.—The only first-class, large yellow Tomato.

Honor Bright.—A smooth, solid fruit, good size, profuse bearer and excellent for shipping. Bright scarlet. Pkt. 3 cts., oz. 20 cts.

Ignotum.—Very prolific, early, large, deep red.

Ponderosa.—The largest Tomato grown; rich red, solid, smooth. Pkt. 5 cts., oz. 30 cts., lb. 60 cts.

Stone.—Large, smooth, bright red, solid, good shipper.

Trophy.—Standard late sort; fruit large and smooth.

Tree.—Tree-like growth, with large, plump, red fruit.

Trucker’s Favorite.—(New.)—The best main crop of this color; very uniform in shape; rich red, firm flesh; splendid keeper and shipper, not subject to rot or crack; enormous cropper. Pkt 10 cts., oz. 40 cts., ½ pd. $1.00.

Redman’s Show Class.—Large, solid, red; one inch in size.

Yellow Plum.—Bright yellow; used for pickles. (Also see Novelties.)

Turnips.—Price Per Pkt. 3 cts.

Extra Early Milan.—The earliest of all. Flat, three to four inches in diameter and about an inch deep; white, with reddish purple top. Oz. 10 cts., ½ pd. 25 cts., pd. 75 cts.

Early Snowball.—Round, pure white of medium size and matures in six weeks. Oz. 10 cts., ¼ pd. 20 cts., pd. 60 cts.

New Early White Milan.—The entire bulb, inside and out, is clear ivory white in color. It grows so quickly that even the outer surface is quite tender. Table quality unexcelled. Pkt. 5 cts., oz. 15 cts., ¼ pd. 35 cts., pd. $1.00.

Red Top Strap Leaf.—The most extensively grown for early use. The lower portion of the root is white, that around the top purple. Oz. 10 cts., ¼ pd. 30 cts., pd. 50 cts.

The following well known varieties are offered at the uniform price: Oz. 10 cts., ¼ pd. 30 cts., pd. 50 cts.

Red Top Globe Shape.—Early White Flat Dutch, White Eggs, Golden Ball.

Ruta Baga, or Swede Turnip.

Extensively grown for feeding stock, also shown well milled for table use. They keep sound and good until Spring, and are enormously productive. Any of the following well-known varieties. Price per pkt. 3 cts., oz. 8 cts., ¼ pd. 15 cts., pd. 60 cts.

Champion Purple Top, Monarch, Large White.

Pot, Sweet and Medicinal herbs. Pkt. 3 cts.

A bed of these is always useful in the kitchen garden,—Anise, Basil, Balsam, Barley, Caraway, Coriander, Fennel, Sweet, Horehound, Lavender, Marigold, Sweet Pennyroyal, Rosemary, Rue, Saffron, Sage, Summer Savory, Thyme, Tarragon, Tansy, Wormwood.

Lawn Grass Seed—Evergreen Velvet.

A guide for the proper quantity to order, we may state that one quart of Lawn Grass is sufficient to thoroughly sow an area twenty by fifty feet—three hundred square feet; three or five bushels will be required for one acre. It should be borne in mind that in order to produce the best results, grass seed should be sown twice as thickly as if sown for hay—one quart of seed to about one and one-half square rods. At the price per bushel and per peck we deliver to Express Company here, or on board of cars. No charge for bags or packing.

Velvet Lawn Mixture.—It is a compound of Grasses that ripen successively, thereby always presenting a cheerful appearance. Lawns sown with only one or two grasses turn brown under our hot sun and remain in that condition until the cool months of Autumn revive them. The mixture that we offer is one of the best on the market, and can be relied upon to produce the very best results. Sow four bushels to the acre. Weights, per bushel, four hundred pounds. Price, per quarter, 35 cts., postpaid. By express peck, $1.00; bushel, $3.00, net. No discount allowed.

Crimson Clover.

Grows at all times except when the ground is frozen, and may be planted in Spring, Summer and Autumn. The best crop for green manure. It is extensively cultivated in orchards and berry patches, for sowing among cabbage, corn, tomatoes, tobacco, potatoes, etc., or in the open ground. Price, per pound, 10 cts.; one pound to 60 cts., postpaid. Special prices on large quantities.

Mushrooms.

The comparative ease with which a crop of Mushrooms can be grown in an ordinary house cellar, wooded or wooded, and the astonishing success of two or more different kinds of the new industry, both for profit and their own use, gives them well-deserved attention. For further information see the insertion in the bed, eight to ten inches apart each way.

English Mushroom Spawn.—It comes in bricks of about one and a quarter pounds each. These, before planting, are usually divided into a dozen parts and the pieces inserted in the bed, eight to ten inches apart each way.

Prices on Spawn are net and not subject to discount. Per half brick, 25 cts., postpaid. Per brick, 50 cts., 75 cts., $1.00, $1.50, $2.50, $5.00, $10.00. No discount.

Pamphlet on "Mushroom Culture," giving full cultural directions, 10 cts.
These collections are all fine, strong plants of the best varieties. The choice of the varieties must invariably be left to us, the purchaser simply naming the number of the set or sets desired. Every plant is plainly labeled, and there are no two varieties alike. When ordering use both Family Name and Numbers. We cannot make exchanges in these collections. Remember that these collections are ALL CASH and must not be included for premiums or discounts. We grow only THE BEST, so you can be assured of getting THE BEST.

</tr>
</tbody>
</table>

This ball consists of Fern Roots about the size of a pencil, woven outside and around a ball of moss. These roots produce beautiful tufts of Ferns from eyes or buds at nearly every inch of their length. Thus the whole surface of the ball soon becomes covered with a fine network of small, graceful, and beautiful Ferns. This Fern ball may be allowed to dry up at any time and set away, and started again by watering as before.

**Price for dormant large size, 60 cents each, postpaid, or 50 cents by express.** Small size, 50 cents each, postpaid by express 40 cents each; 5 for $2.00.
OUR "THOROUGHBRED SET" OF NEW GIANT FLOWERING

CHYSANTHEMUMS

The flowers of the following varieties are enormous and are the sensations of the exhibitions. Every one is a blue-blooded, pedigreed variety, all from carefully recorded crosses, and not from chance seedlings.

NEW OSTRICH PLUME F. J. TAGGART.

PRICE, 10 CENTS EACH, EXCEPT WHERE NOTED.

F. J. TAGGART.—The most striking novelty of recent years. The best of all the large or plumed section. A great advance over all the yellows of this class, being perfectly double and the hair-thin filaments more pronounced. No other variety at Kansas City or Chicago attracted so much attention and brought out each exclamation of surprise and wonder. Color, light yellow. Flowers eight inches in diameter. An exhibition variety of exceptional merit. Winner of the prize at Kansas City; also, bronze medal at Chicago. Price, 25 cents each.

INTENSITY.—This beautiful velvety, crimson Chrysanthemum is totally unlike any other. Absolutely distinct: a grand, deep solid color, showing no reverse, as many of the reds do. The flowers are beautifully made, large and full, broad petal, forms a striking contrast with the other “Mums” and, as it is the best of its color, it must prove one of the most valuable and indispensable of recent introduction. Like the other kinds in this set it should be in every collection. It is easy to grow, blooming early in the season; producing grand flowers on stiff stems that are elegantly clothed with foliage in the greatest perfection.

COL. APPLETON. King of the Yellows.—With flowers of immense size, almost as large as Timothy Eaton, with depth as great as the breadth, large, heavy, reflexing petals and grand substance, perfect form and magnificent color—bright yellow, we have the greatest of all yellow Chrysanthemums. Another point in its favor is the faultless foliage and stem. The stem is strong, carrying the flower erect, while the foliage is of the best texture, not too large, and growing fully up to the flower. Blooms at mid-season, and in the open ground is especially fine. We know of no variety to compare with it, and it is indeed the champion of champions, and the greatest of all yellows.

LAVENDER QUEEN.—One of the most beautiful and delicate of the lavender kinds. Very refined in form, foliage and habit. It is beautifully reflexed in form, showing the color perfectly, and of extraordinary large size. A very popular and much sought after variety in the flower market. We recommend it as thoroughly reliable to every grower.

TIMOTHY EATON.—This grand new white came to our fall shows and captured every prize and cup for which it was entered. It is the largest, globular, Japanese incurved variety yet raised; the form is perfect, the stem stiff, a healthy grower and brings a full crop of perfect flowers. Crown buds must not be taken earlier than August 15th; terminals also bring magnificent blooms.

THE YELLOW EATON (Dr. Orontyotkeka).—A bright yellow sport from Timothy Eaton, only a shade lighter than Col. Appleton, and

SPECIAL OFFER.—For $1.00 we will send this set of Twelve Great Thoroughbred “Mums,” No other discount.
